Notes

1. No change in land use following completion of proposed bridge - floodplain continues to function without detriment (subject to Environment Agency Land Drainage Consent). Pasture, horse grazing and fishing amenity unaffected.

2. All land remediation / fencing reinstatement following temporary works to full satisfaction of landowners.

3. Fence to be temporarily removed and replaced with Heras Fencing panels, and reinstated at the end of the works.

4. No fixings are allowed on the bridge without permission from the Conservation Officer.
