

## Market Engagement - Provider Event

**Date: Thursday 25<sup>th</sup> July 2024: 11am – 12.30pm**

**Location: Microsoft Team Invite**

**Aimed at: All potential service providers.**

Liverpool City Council intends to appoint a provider who will ensure the delivery of its future 0 to 19 (25) Public Health Nursing Service to deliver the Healthy Child Programme (HCP) in Liverpool. Transitional support will be available for young people, up to 25 years, with special educational needs and disabilities (SEND) and for those with experience of the care system. The service will be provided by a skill mixed team led by Specialist Public Health Nurses (Health Visitors and School Nurses).

The aim of the service is to support a reduction in health inequalities and ensure that all children and young people in Liverpool receive the full Healthy Child Programme offer which includes universal access and early identification of additional and/or complex needs, with timely access to targeted and specialist services and support.

The new service will provide an innovative, integrated model of delivery that focuses upon the Council's new neighbourhood structure. The service will build upon the ethos of the Family Hub programme and support a platform for system change across all partners in the city. The service will be based on a whole family, life course model to facilitate a greater degree of integration of services to maximise efficiency and coordination. The service will be underpinned by the principles of accessibility, connectivity, and relational practice.

The service will create a new model that reflects and responds to the increasing demands of mental health and wellbeing and provides universal proportionate support for vulnerable families in the city. It will be based on evidence-based practice and embrace research and evaluation to ensure the delivery of the best possible services that are effective, accessible and are value for money.

**The agenda will consist of:**

- Rationale for service and plans
- Specification overview
- Key timelines
- Q&A

*The event will be recorded and shared via ProContract for anyone unable to join.*

**TO BOOK: Please SEND A MESSAGE via the chest portal with your email address(es) and contact details. The meeting invitation will then be sent to your email address.**
