- Time taken to process and validate completed LGSRs
- Time taken from LGSR completion to site audit
- % of Domestic audits completed against target volume
- % of Commercial Audits & PPM visits completed on programme
- Timely delivery and accuracy of all reports

KPI 1: Time taken to process and validate completed LGSRs	
Purpose	To determine the average time to process and validate LGSR's.
Definition	The average period in days between the date LGSR certificates are received and the consultant validation date, measured to one decimal.
Method	For the month and cumulative year to date calculate the Date of Validation minus Date LGSR received as an average for all certificates received. Consultants will be required to evidence the results
Example	500 LGSR certificates received in a month, the average time to process was 1.5 days
Target	TBA

KPI 2: Time taken from LGSR completion to site audit

Purpose	To determine the responsiveness of the Consultant to complete and process a site audit.
Definition	The number of audits completed within the target time expressed as a percentage of the total number of audits. Consultants will be required to evidence the results
Method	For the month and cumulative year to date ascertain the number of audits completed within target time and the total number of audits completed. $\frac{\text{no. of audits completed in target time}}{\text{no. of audits completed}} \times 100 = \text{Performance (\%)}$
Example	During the month 50 audits are completed and 45 are completed within the target. Performance: $45 / 50 * 100 = 90\%$
