

NOTICE TO BIDDERS

The Council has reviewed the values on two of the lots to make them more attractive to the market. Consequently, the Council had to make amendment to the OJEU and the Portal Advert. In order to be fair and transparent with all suppliers, those that have already considered the requirements and those that may now consider them as consequence of the revised values, the Council has extended the deadline for submission of tenders.

New deadline for submission **4th January 2021**
