5.	Breakout rooms x4 Break	45 minutes 10	
6.	Summary of the discussions	5 minutes	Abid Mumtaz
7.	Question panel	10 minutes	Abid Mumtaz, Jon Townsend, Matthew Moore & Victoria Clarke

Purpose of this Event

- From Spring 2024 Derbyshire County Council is considering moving away from the current grant-funded 'Recovery Project' system towards a commissioned Recovery service.
- We have and are continuing to undertake an extensive co-production exercise with stakeholders, including those with lived-experience and wider system partners, to consider what a needs to be included as part of this service, and how this can be delivered.
- This event is part of this process – to gather information to inform the design and development of a new service to build recovery communities and activities in Derbyshire for substance misuse, and ensure that it is available to all Derbyshire residents

Our Desired Outcomes of the Event

- > Provide people with lived experience, service providers, and interested individuals with the opportunity to influence the development of a local recovery initiative
- > Gain a better understanding of what solutions, services and resources are available within the local and national market
- > Explore how the options could be delivered that are in line with Derbyshire's unique geography
- > Gauge the level of interest in the project prior to going to the market
- > Consider the costs; and
- > Determine the most effective way of delivering the service

Derbyshire Recovery Procurement

Procurement Officer
Jayne Smith

PROCUREMENT INDICATIVE TIMESCALES – Ref: CPH061

- 07 April 2023 Tender Advertised On ProContract
 - 22 May 2023 Tender Return Deadline

What is Recovery? And what is Derbyshire's current Recovery Offer?

Matthew Moore
Commissioning Officer
Matthew.Moore@derbyshire.gov.uk

What is Recovery?

- There is no one definition of recovery.
- Various definitions do share common elements.
- The CHIME (Connectedness; Hope and optimism about the future; Identity; Meaning in life; and Empowerment) model of recovery proposed by Leamy et al. (2017) includes processes that involve rebuilding a sense of identity, rebuilding one's life, and receiving peer support

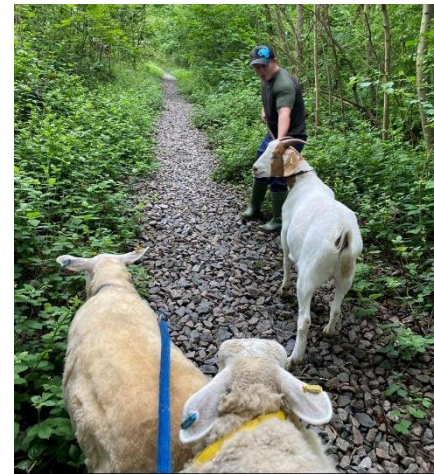

Recovery Capital

- The processes involved in recovery can be identified through what's known as recovery capital (RC). These are the resources that individuals in recovery need, and gain throughout their recovery journey, including:
 - social (e.g., positive social networks)
 - community (e.g., support groups)
 - personal (e.g., resilience)

The purpose of any Recovery-focussed project or service is to support individuals in Recovery to develop the resources identified as part of Recovery Capital

Recovery in Derbyshire: The Story So Far...

- Recovery Grants
- Recovery Month Grants
- GRID Website and Social Media Channels

Background: Recovery Grants

- At present, Derbyshire County Council provides small grants to local organisations to deliver a number of ‘Recovery Projects’ on our behalf.
- Since 2020, the Council has grant funded the 1st year of a number two year projects, with the second year funded through match funding sought by the delivering organisation.
- Eligibility caps of £1million annual turnover were also introduced in 2020 as a condition of grant funding to encourage and enable smaller, grassroots organisations to become involved.

Current Recovery Grant-Funded Organisations

- 2021-2023 Grant
 - Chesterfield FC Community Trust - The A-Spire Right Project – opportunities to try different sports and activities to improve physical and mental wellbeing.
 - Derwentio Housing – Growing Lives – learning and wellbeing activities including horticulture, furniture up-cycling, arts and crafts, creative writing, relaxation and wellbeing, and cooking and healthy eating
 - Zink Employability - The RISE project - provide employment coaching and offer opportunities to access work experience and employment.

Current Recovery Grant-Funded Organisations

- 2022-2024 Grant
 - Helping Hooves CIC - Carrot Club Wild Project - focus on meaningful activity and connecting to nature.
 - Derbyshire Alcohol Advice Service (DAAS) – STAND TO Project (Veterans) – deliver a range of physical activities and support groups
 - Padley Group – County Kitchen - combine skills towards budgeting, self awareness and independent living
 - Go Wild in Wirksworth – The Countryside Kitchen – focus on connecting to the environment, cooking and undertaking meaningful activities
 - The Brook Community Church and Centre - Recovery Plus Specialist Worker – Group and 1to1 group work around the themes of addiction / recovery / mental health

Recovery Grants: Future

- The application window for the next lot of Recovery Grants closed on 17th November 2022 and we are in the process of reviewing and scoring these at present.
- These Grants will only run for one year from March 2023, and are due to end in Spring 2024.

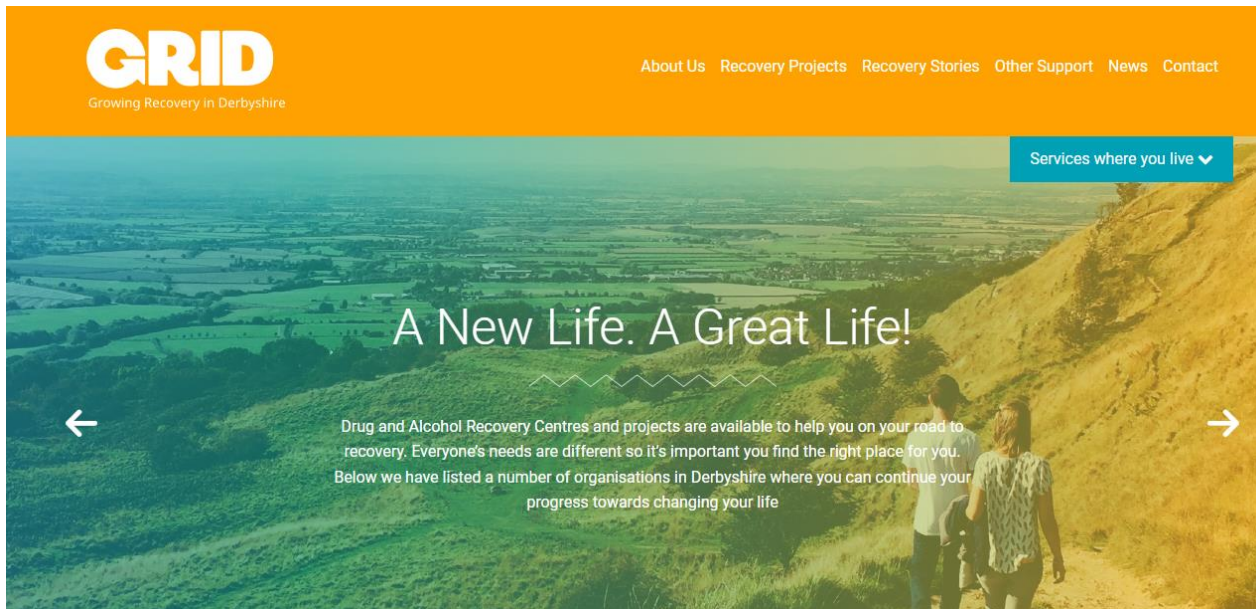

‘Recovery Month’ Grants

- Since 2014 Derbyshire County Council has provided very small grants to local organisations to host events to celebrate ‘Recovery Month’ in September.
- In September 2022 over 100 people attended a variety of events to celebrate Recovery Month in Derbyshire, including attending a Recovery Football Festival at St George’s Park and a Recovery Walk amongst others.

Growing Recovery In Derbyshire (GRID) Website

- The Growing Recovery in Derbyshire (GRID) website is designed to be a Drug and Alcohol Recovery Services gateway allowing anyone to find up to date information on drug and alcohol treatment services, recovery opportunities, mental health support and other useful services throughout Derbyshire.
- The Website has information on how to contact the Recovery Projects, and a news section that is regularly updated.

<https://www.growingrecoveryinderbyshire.co.uk/>

Growing Recovery In Derbyshire (GRID) Social Media

GRID Social Media Pages are regularly updated with information on the Recovery Projects and on the Council's Substance Misuse Agenda:

- Twitter - [@GRIDerbyshire](https://twitter.com/GRIDerbyshire)
- Facebook – 'Growing Recovery in Derbyshire' Page
- LinkedIn – 'GRID-Growing Recovery in Derbyshire' Page

#GRIDerbyshire is the hashtag used across all of these platforms

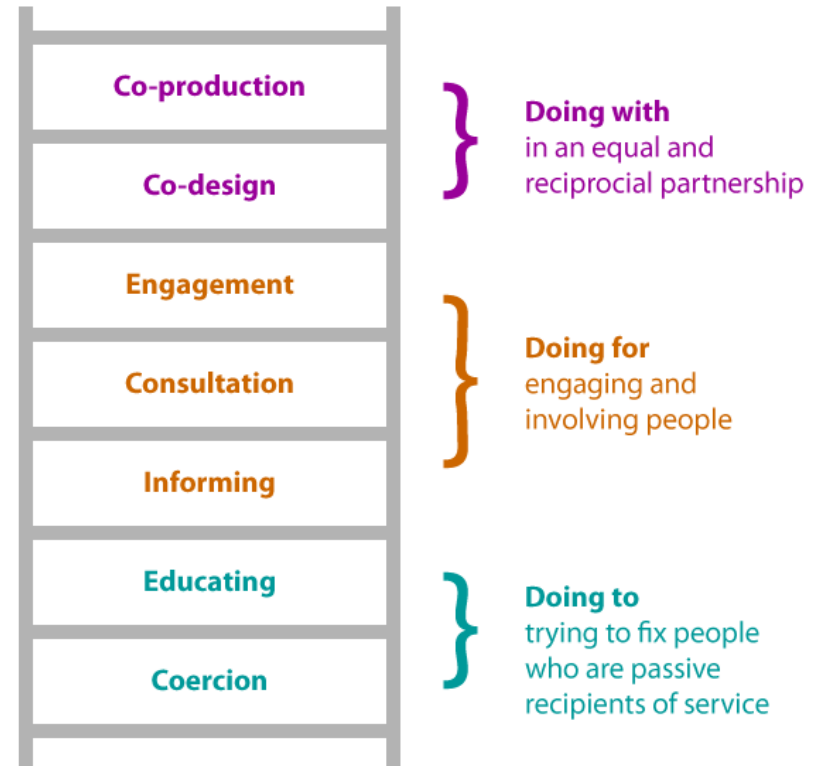

What is Commissioning?

- the process of assessing needs, planning and prioritising, purchasing and monitoring health services, to get the best health outcomes

What is Co-Production?

- a way of working, where everybody works together on an equal basis to create a service or come to a decision which works for them all

Source:

Think Local Act Personal <https://www.thinklocalactpersonal.org.uk/co-production-in-commissioning-tool/co-production/In-more-detail/what-makes-co-production-different/>

Some things to think about...

- Co-produced at every stage in its life
 - Could include coaching, advocacy, socially-based services and drop-in type help
 - Informed and responsive to the needs of minority groups (e.g. BAME)
 - ‘Stitched in’ to treatment services to help people to access recovery and treatment support at the same time
 - Could be co-located with treatment services
 - Provides training and development opportunities for people in recovery
 - Has an open door approach with no limits on access to support
 - Embraces and enables multiple ways to recovery (e.g. not just 12 step)
 - Accessible across the county area
- 

Break out 1- Possible solutions of how the service can be shaped and delivered?

- Best service format?
 - Grant Administration Organisation
 - Consortium/partnership of providers
 - Other?
- How will the service be shaped by those with lived experience?
 - Consult with GRIDerbyshire group
 - Staff with lived experience employed in organisation
 - Activities led by those with lived experience
- Physical Vs Virtual
 - Will the service run out of a centralised/travelling hub?
 - What sort of online/virtual presence will the service have
 - What are the resources required (financial, human)
- How will the service ensure it receives sufficient numbers of referrals?
 - How will the service develop positive relationships with other substance misuse services
 - How will the service be promoted and publicised to those in recovery in Derbyshire

2. What outcomes are important? How can they be captured/recorded?

- WEMWEBS Measurements?
- Specific recovery-orientated outcomes?

3. Equity of access

- Countywide cover
 - Physical and Virtual
 - Targeting harder to reach groups
- 

4. Potential barriers and risks- What can be done to mitigate against them?

- Lack of referrals into the service
 - Limited scope of service during start-up period
 - Difficulty recruiting to posts
 - Issues building relationships with existing providers
- 
- Decorative wavy lines in shades of purple and blue at the bottom of the slide.

Summary of discussions

- Feedback from the group

Q&A

- Will the documents be shared?
- The slides will be published.
- Could we have a list of attendees please plus email addresses, so we know who to speak to for a consortium approach?
