1. INTRODUCTION AND PERIOD OF CONTRACT

1.1. INTRODUCTION

This Invitation to Tender is issued by Borough of Poole.

Provision of High Support and Training Accommodation for Young People aged 16-25 years.

This tender opportunity is for to provide housing related accommodation schemes that offer a pathway for young adults to access high support and training accommodation schemes with a specific focus on 18 to 21 year old care leavers and although the Services are not primarily for the 16 to 17 age group as there are other suitable provisions for this age range, there may be occasions where a 16 or 17 year old has needs which would be well met within the accommodation offers.

The High Support accommodation scheme will be for young adults with a range of medium to high support needs and/or behaviours that challenge, who are assessed as being vulnerable and in housing need under children and homelessness legislation; they are vulnerable because they have a significant difficulty accessing existing accommodation based services because of the level of support they require to meet their complex needs and/or behaviours that challenge.

The Training Supported accommodation scheme will be for young adults with low intensity support needs, who are transitioning from High Support Accommodation or require time limited and low intensity support to assist the Service User in managing settled accommodation.

Transfer of Undertakings (Protection of Employment) Regulations 2006 - TUPE

The Borough of Poole has requested TUPE information from current providers of this service. It is for you to decide whether or not TUPE will apply.

We are providing the TUPE information received to date but the Borough will not and cannot be liable for the accuracy of this information and it is supplied as guidance only. 2. SUMMARY OF REQUIREMENTS

A full Service Specification of the requirement is set out in client Appendix 1 – Service Specification.

Please read the Contract and Service Specification thoroughly as they are documents against which your responses will be evaluated.

3.4. TUPE

3.4.1. It is the responsibility of Tenderers to consider the effect and applicability of the Transfer of Undertakings – Protection of Employment (TUPE) to the facts and circumstances of this procurement and to act accordingly. Unless this procurement affects employees of the Authority the Authority will not give any opinion on the applicability or effect of TUPE and you should take your own legal and any other professional advice to satisfy yourselves regarding the likelihood of TUPE applying to any employee as defined by TUPE and in no circumstances shall the Authority incur any liability in relation to any TUPE issues except as required by law.

3.4.2. TUPE CONDITIONS FOR CONTRACTOR EMPLOYED STAFF. If TUPE applies unless the current provider advises Tenderers that its employees will not be transferring you are advised that the commencement of the provision of the Service is likely to be a “relevant transfer” to which TUPE will apply.

3.4.3. If TUPE applies the Tenderer shall perform and discharge all its obligations in respect of all the transferring employees before and after the service commencement date. The tenderer shall indemnify the Transferor and the Authority against all administrative and professional adviser costs incurred and any employee liabilities arising from the Tenderers failure to perform and discharge any such obligation by act or omission at any time.

3.4.4. Apart from this clause 3.4.4 and clauses 3.4.1 to 3.4.6 hereof the terms and conditions of contract relating to TUPE will apply from the date of award. You should be aware that as a result of the operation of TUPE, if TUPE applies the contracts of employment of the employees who are engaged in the Service will have effect from the service commencement date as if originally made between the Tenderer who is awarded the Contract and the transferring employee. The Authority does not warrant or accept any liability for the completeness or accuracy of any employee liability information or any information supplied by current providers or forwarded to Tenderers by the Authority and Tenderers must make their own enquiries and carry out all due diligence in this regard.

3.4.5. If TUPE applies the Tenderer will procure that it and any approved sub-contractor will ensure that any transferring employees are permitted to remain in their current pension scheme if this is possible and will comply with any

legal requirements regarding the provision of pensions for employees prevailing at the service commencement date and for the contract period.

3.4.6. Further terms and conditions relating to TUPE may be found in the conditions of contract.

Tenderers should state in their Supplier Response Documents if any of the information supplied by them is confidential or commercially sensitive or should not be disclosed in response to a request for information under the act. Tenderers should state why they consider the information to be confidential or commercially sensitive. This will not guarantee that the information will not be disclosed but it will be examined in the light of the exemptions provided in the act.

It is important to note that information may be commercially sensitive for a time, for example, during a tender process, but afterwards it may not be. The timing of any request for information may be extremely important in determining whether or not information is exempt. However Tenderers should note that no information is likely to be regarded as exempt forever.

For the purposes of this exercise, the Authority's records include contracts that the Authority has with its suppliers. Tenderers should note that any contract awarded at the conclusion of this procurement may be disclosed to a member of the public during the audit period. The Authority will take reasonable steps to ensure that data falling within the ambit of the Data Protection Act 1998 and any commercially confidential material that would, in the Authority's judgement, fall within an exemption provided under the Freedom of Information Act 2000 is not disclosed.

3.8. GOVERNMENT TRANSPARENCY INITIATIVE – PUBLICATION OF TENDER DOCUMENTS AND CONTRACTS

The Government has set out the need for greater transparency across public sector organisations to enable the public to hold public bodies and politicians to account. As

part of this initiative Government requires local authorities to publish on line all tender documents for new contracts valued over £500 and the resulting contracts. Tenderers applying for this Contract should be aware that if their tender is successful information about the resulting contract will be published and the documents made available to those requesting them. In some cases, limited redactions will be made.

4.7. NUMBER NOT USED

4.8. AWARD OF CONTRACT

Upon conclusion of the evaluation, the scores for 'price' and 'quality' will be combined, and the Tenderer with the highest score will be awarded the Contract.

The Tenderer to be offered the Contract will be advised accordingly via www.supplyingthesouthwest.org.uk. Such award, offered pursuant to this Invitation to Tender, will be on the basis of the most economically advantageous tender, based on the evaluation methodology described herein.

Tenderers whom it is proposed will not be offered the Contract will be advised of this via www.supplyingthesouthwest.org.uk and will be entitled to receive feedback on the relative merits and characteristics of their tender submission compared with that of the accepted tender.

In accordance with the Regulations, the award of the Contract will be subject to a mandatory standstill period of at least 10 days between the notification of award decision and contract conclusion. If representations are received during the standstill period, the Authority may have to suspend the award of the Contract and extend the standstill period until any issues have been resolved.

4.9. ACCEPTANCE OF TENDER

5. CONDITIONS OF CONTRACT

These are attached as a separate document within www.supplyingthesouthwest.org.uk.

In the absence of a formal document signed by the Authority and the successful Tenderer to any agreement and setting out the terms of the agreement between them, and for as long as such absence persists, then the acceptance of the Tenderer's written tender shall itself constitute a binding agreement between the Authority and the successful Tenderer, the terms of which unless amended by agreement between the Authority and the successful Tenderer shall be the Terms and Conditions as referenced above and the prices and operational proposals set out by the Tenderer in their tender.

6. EVALUATION

In order to be transparent, and in order that Tenderers fully understand how their Supplier Response Documents will be evaluated, full details of the evaluation process are described below. Should any Tenderer not understand any element, they should in first instance make contact with the Authority as described in TENDER ENQUIRIES / QUESTIONS.

The UK standard Selection Questionnaire (SQ) is used in both Open and Restricted procedures. SQ Parts 1 and 2 are mandatory in both Open and Restricted procedures.

SQ Parts 1 and 2 are incorporated into the Supplier Response Document - Part B (SQ Part 1 and 2).

The SQ part(s) of the Supplier Response Documents will be evaluated before any other parts:

- If all elements are completed to the satisfaction of the Authority then the Authority will continue with the evaluation as described below.
- If all elements are not completed to the satisfaction of the Authority then the Authority will not evaluate other parts of your Supplier Response Documents and your Tender will be discounted from further evaluation.

For information:

- *In an Open procedure the SQ Parts 1 and 2 are used to test that a potential supplier meets minimum levels of suitability.*
- *In a Restricted procedure the SQ Parts 1, 2 and 3 are used to pre-qualify suppliers to be invited to tender.*

6.1. EVALUATION OF SQ PARTS 1 AND 2

Evaluation of SQ Parts 1 and 2 follows a pass / fail model based on tenderer self-declaration.

Note that if the relevant documentary evidence referred to in the SQ is not provided upon request and without delay we reserve the right to cease further consideration of the SQ submission and to deem it ineligible for selection.

6.2. EVALUATION OF INVITATION TO TENDER

The following quality and price weightings will be used to determine the most economically advantageous tender (MEAT):

- Quality 100%: (Technical merit, aesthetic and functional characteristics of the solution offered)
- Price 0%: (Total overall costs, taking into account tendered prices and any on-going support and maintenance costs for the contract period)

Please note that throughout the evaluation process, the right is reserved to seek from Tenderers clarification at any stage as an aid to fully understand their offers.

6.3. QUALITY 100 %

Quality is the subject matter of Supplier Response Document - Part F. Quality will be evaluated in successive stages as follows:

- Quality Evaluation Stage 1 - Mandatory Requirements
- Quality Evaluation Stage 2 - Quality Statements – Scored
- Quality Evaluation Stage 3 – Presentations/Interview

Quality Evaluation Stage 1 - Mandatory Requirements

Quality Evaluation Stage 1 will be completed before Quality Evaluation Stage 2 is commenced.

Mandatory Requirements: These requirements are MANDATORY and MUST be met by Tenderers.

If the Tenderer has failed to meet any of the Mandatory Requirements then the Tender will be rejected and discounted from further evaluation.

If the Tenderer meets all of the Mandatory Requirements then evaluation will continue as described below.

Tenderers are required to respond to Mandatory Requirements by answering yes or no to the mandatory questions in Supplier Response Part F.

Quality Evaluation Stage 2 - Quality Statements – Scored

Tenderers are required to provide an answer to all Quality Statements set out in Supplier Response Document – Part F - Quality Statements. Your answers will explain how you will meet the Authority's requirements. The individual weightings associated with each of the Quality Statements are set out in Supplier Response Document – Part F - Quality Statements.

Quality will be evaluated by the Authority based on Tenderers responses to the Quality Statements set out in Supplier Response Document – Part F - Quality Statements. In evaluating the responses to the Quality Statements the evaluation panel will use their reasoned professional judgement to award scores that reflect the merits of each response.

Each response will be scored a point 0 to 10, whole numbers only, 0 being the lowest and 10 being the highest. Scores shall be awarded as follows.

Score 0	No Response	No response	Weak
Score 1	Extremely Weak	Very poor proposal/response, does not cover all of the associated requirements, major deficiencies, unrealistic or impossible to implement and manage. No relevant detail proposed	
Score 2	Very Weak	Poor proposal/response, only partially covers the requirements, deficiencies in detail apparent, difficult to implement and manage. Little relevant detail proposed	
Score 3	Weak	Mediocre proposal/response, with minor deficiencies either in thinking or detail, problematic to implement and manage. Significant detail missing	
Score 4	Fair - Below Average	Proposal/response partially satisfies the requirements, with small deficiencies apparent, needs some work to fully understand it. Some useful detail provided	Fair - Good
Score 5	Fair - Average	Satisfactory proposal/response, would work to deliver all of the Authority's requirements to the minimum level	
Score 6	Fair - Above Average	Satisfactory proposal/response, would work to deliver the majority of the Authority's requirements to the minimum level with some evidence of where the Participant could exceed the minimum requirements	
Score 7	Good	Good proposal/response that convinces the Authority of its suitability Response slightly exceeds minimum the requirements	
Score 8	Strong	Robust proposal/response, exceeds minimum requirements, including a level of detail or evidence of original thinking which adds value to the bid	Strong - Excellent
Score 9	Very Strong	Proposal/response well in excess of expectations, with a comprehensive level of detail given including a full description of techniques and measurements employed	
Score 10	Outstanding/ Excellent	Fully thought through proposal/response, which is innovative and provides the reader with confidence of the suitability of the approach to be adopted	

The Evaluation Manager is responsible for ensuring that each evaluator is able to justify their scores. Scores for each question are assessed for variance from the most often occurring score for that question. If the variance is significant then the evaluator will be challenged and required to justify their score. If a score cannot be justified to the satisfaction of the Evaluation Manager then the score will be moderated up or down. This process is called moderation. The mean average of all evaluators' moderated scores for a given question is taken as the final score for the given question.

If Pass Scores are used to ensure minimum levels of quality across one or more criteria and if a Tenderer fails to achieve a requisite Pass Score on one or more Quality

Statements then the Tender will be rejected and discounted from further evaluation. Pass Scores are applied after moderation.

Weightings will be applied to scores with reference to the following table:

No.	Quality Criteria	Evaluation Type	Pass Score	Weighting (%)
	Mandatory Requirement			
MR1	Economic and Financial Standing	Pass / Fail	N/A	N/A
MR2	If you are part of a wider group, please provide further details.	Pass / Fail	N/A	N/A

QS7	Implementation and Budget Plan	Scored	N/A	5%
QS8	Added Value	Scored	N/A	5%
		Total		100%

The highest total score for Quality will be awarded the maximum 100%. All the other tenderers' Quality scores will be given a % score relative to the highest. This will be done for each tenderer by dividing their Quality score by the highest Quality score, multiplying by 100 and the resulting score is multiplied by the Quality weighting of 100%. This will give a score for each tenderer relative to the highest scoring tenderer.

Following this evaluation, organisations will be shortlisted for invitation to stage three which will consist of a presentation and question and answer session.

The quality submission will be allocated 100% of the marks. The weighting of each criterion is also shown to allow the tenderer to understand the priorities within this project. A maximum of 4 tenderers with the highest quality submission scores at the end

of this stage will progress to the presentation and question and answer phase of the tender assessment process (Stage 3).

At this point the score allocated for the quality submission of the proposal will be adjusted and allocated 60% of the total assessment. The remaining 40% available for quality will be allocated during the presentation and question and answer stage of the assessment process.

Quality Evaluation Scoring - The evaluation scores will be calculated by combining the scores from Stage 1, 2 and Stage 3 of the tender assessment process:

Quality submission (written proposal) – 60%
Quality submission (presentation and Q&A) – 40%

Quality Evaluation Stage 3 – Presentations/Interview

The Authority has provisionally set aside 12th June 2017 for these interviews. Tenderers are therefore asked to keep these dates free as we will only be giving one week's notice that you have been successful in reaching this stage. The Authority reserves the right to change this date if it is proves necessary to do so, and Tenderers will be notified as soon as possible of any such decision

Presentation and Q&A Score (40%). The presentation and Q&A will be allocated the weightings as set below.

Presentation and Q&A	Weighting (%)
Presentation	65%
Question and Answer	35%
Total	100%

These elements will be evaluated using a scoring sheet supplied to all staff attending. These scores will be totalled for each element and averaged by dividing the total by number of attendees. The highest score will be awarded a maximum 100%. All the other scores will be given a % score relative to that. This will be done for each tender by dividing the evaluation scores by the highest evaluation score, multiplying by 100 and the resulting quality score is multiplied by the weighting of 40%. This will give a score for their elements relative to the highest and provide a rank order.

A local 17 year old white British Male requires accommodation with 10 hours of support. He absconds from his placement frequently; the Young Person is involved with mental health services, a youth offending team and drug and alcohol services. There are risks identified around substance misuse, mental health concerns and the young person is not engaged in education employment or training. The Young Person experiences unstable moods which involves in him being aggressive and volatile, verbally and physically abusive if challenged. The Young Person has had several placement moves and we need to ensure stability is achieved in the new placement.
