

SUPPLYING THE PUBLIC SECTOR

WEDNESDAY 4 JULY 2018

Partners in Procurement are hosting their annual SME “Supplying the Public Sector” conference. This year’s event will take place:

On: Wednesday 4 July 2018
When: 9:00 to 14:30 (9:00-9:30 for registration; event starts at 9:30)
Where: University of the West of England Exhibition and Conference Centre, BS34 8QZ

The theme of this year’s event is **“There’s a change coming...”** and to that end PIP are bringing the big themes together and how they relate to public sector procurement.

Alongside these topics, we are offering three breakout sessions, with the option to take part in two of them. These are a more hands-on look at the issues and the options include:

Contracts Finder	Triumphant Tender Documents	Social Value and Sustainable Procurement
A closer look at the Government’s e-procurement portal	Making sense of the sometimes confusing documentation	How to be part of the sustainability solution in public sector procurement

Lunch will be provided with the opportunity to network with fellow delegates and the public sector body representatives.

Booking is via Eventbrite - <https://stps2018.eventbrite.co.uk>. Please note there is a small booking fee of £10 this year. We have been compelled to charge this year to contribute towards the rising costs of the event but also to compensate for the high number of ‘no-shows’ on the day which we have experienced in previous years.

We look forward to seeing you there!
