

Not-for-profit/ VCS Organisations' Engagement and Funding Opportunities Event.

Hackney Council's Learning Disability and Autism Commissioning Team would like to invite not-for-profit organisations to an information session on a number of funding opportunities. These include opportunities for the development of a Changing Places Toilet, Autism Hub, Advocacy and Accessible Information initiatives.

The session will also be an opportunity for the team to find out from organisations how it can work better in partnership; the key aim of ensuring that Hackney residents can enjoy increased accessibility to services and the wider community.

The session will be on **Wednesday 9 November**, at **The Adiaha Antigha Centre, 24-30 Dalston Lane, London E8 3AZ (2:00pm - 4:00pm)**.

For Organisations unable to attend on this date there will be a further opportunity to attend a virtual event on: 17th November 2.30 - 4pm. Click [here](#) to join this event.

Aims of the Event:

- To alert and gather information and feedback from the VCS around some proposed funded projects.
- To test some of the assumptions the Learning Disability and Autism Commissioning Team has made in its initial project proposals and to identify if there are other gaps/issues to meeting the project's aims.
- Ultimately, to build voluntary and community sector capacity and develop accessible, friendly communities.
