

Beacon Hill (Upper car park) Beacon Hill is the most popular of the country parks run by Leicestershire County Council. In 2019- 2020, there were around 230,000 visitors to the park and in 2020-2021 this figure could surpass 300,000. Walkers, cyclists and horse riders alike can take advantage of our multiuse track which loops around the edge of the park. There is also a network of paths throughout the park solely for pedestrians. Visitors can enjoy rock climbing, orienteering, jogging and general exercise or enjoy bird watching and gentle strolls in the peace and quiet. Visitors come to the park from across the county and region, with most visitors staying between 1 and 2 hours. The park is open every day of the year from 6am until 8pm or dusk, whichever is the soonest. The licensee would have the right to bring one vehicle selling hot drinks such as barista style coffee, quality teas and hot chocolate, cakes and biscuits from a pitch in the Upper Car Park. The location will be agreed with the Senior Ranger for the site. There are currently no other vendors of hot drinks such as barista style coffee, quality teas and hot chocolate, cakes and biscuits on site, although the Beacon Hill Café sells hot and cold drinks, light meals and refreshments and ice cream. This can be found in the lower car park at the opposite end of the site, just over a mile away. More information on Beacon Hill can be found at [www.leicscountryparks.org.uk/beacon-hill](http://www.leicscountryparks.org.uk/beacon-hill).
