S 000 Introduction

1. The Standard Specification referred to in the Tender shall be the Specification for Highway Works, published as Volume 1 of the Manual of Contract Documents for Highway Works, including future amendments and as modified and extended by the following.
 - Appendix 0/1: Contract-specific Additional, Substitute and Cancelled Clauses, Tables and Figures, Included in this Contract
 - Appendix 0/2: Contract-specific minor alterations to existing Clauses, Tables and Figures, Included in this Contract in Appendices to the Specification
 - Appendix 0/3: List of Numbered Appendices referred to in the Specification and Included in this Contract in Appendices to the Specification
 - Appendix 0/4: List of Drawings Included in this Contract
2. The relevant publication date of each page of the Specification for Highway Works is given in the Schedule of Pages and Relevant Publication Dates.
3. An Additional Clause as indicated by a suffix 'AR' in Appendix 0/1 is a Contract-specific alteration.
4. A Substitute Clause as indicated by a suffix 'SR' in Appendix 0/1 is a Contract-specific alteration.
5. A Cancelled Clause as indicated by a suffix 'CR' in Appendix 0/1 is a Contract-specific alteration.
6. Insofar as any of the Numbered Appendices or any order issued by the *Service Manager* may conflict or be inconsistent with any provision of the Specification for Highway Works the Numbered Appendices or order issued by the Service Manager shall always prevail.
7. Any reference in this contract to a Clause number or Appendix shall be deemed to refer to the corresponding Substitute Clause number or Appendix listed in Appendix 0/1 or 0/2.
8. Where a Clause is altered any original Table/Figure referred to in the Clause shall apply unless the Table/Figure is also altered. Where a Table/Figure is altered any reference in a Clause to the original Table/Figure shall apply to the altered Table/Figure.
9. Where a Clause in the Works Specification relates to work goods or materials which are not required for the works it shall be deemed not to apply.
10. Any Appendix referred to in the Works Specification which is not used shall be deemed not to apply, subject to the provisions of paragraph 11.

11. The “call-off” nature of this Contract precludes the inclusion of “scheme specific” information in the Works Specification. The Numbered Appendices are therefore not used in this context. Where a Works Specification Clause refers to a Numbered Appendix, the requirements of which relate to a specific Works Order, the relevant information will be included in the Task Order.
12. Other than where references to the Overseeing Organisation are made in the context of the Overseeing Organisation granting statutory or type approvals, the roles and functions of the Overseeing Organisation shall be undertaken by the *Service Manager*. Where the Works Specification requires the provision of documentation to the Overseeing Organisation for statutory or type approval, such documentation shall be provided to the *Service Manager*.
13. Where the *Contractor* is responsible for the design of the works, the delegation of the roles and functions of the Overseeing Organisation, as stated in Paragraph 12 above, shall be further amended as follows:-
 - if any agreement, consent or approval required to be obtained from the Overseeing Organisation, impacts on the health and safety of the general public, the environment or any other property or equipment not owned by the *Contractor*, such agreement, consent, approval shall be obtained from the *Service Manager* and
 - where the Specification provides for the Overseeing Organisation to require a test, waive the requirement for a test or alter testing frequency, the roles and functions of the Overseeing Organisation shall be undertaken by the *Service Manager*.
