KEY ISSUES FOR CONSIDERATION

3. Reasons for variation

Detail of the events that led to the	In January 2021, the Department for
need for a variation	Education (DfE) announced funding
	for all English local authorities to
	deliver a local HAF programme
	during 2021. There was initially no
	confirmation that the programme
	would run past this year. In order to
	develop and scale up Southwark's
	holiday programme at pace in time
	for Easter 2021 deliver, Southwark
	Public Health contracted Impact
	Union to provide a freelance HAF
	programme coordinator to provide
	project management support until
	the end of January 2022.

The Government has now confirmed that continued funding will be provided to all English local authorities through the Department for Education (DfE) to ensure the HAF programme continues to run for at least the next three years (2022 -2024). Southwark Public Health are in the process of creating two new fixed term posts to manage the holiday programme over the next three years. However, due to internal human resources capacity, these posts will not go out to recruitment until January 2022 at the earliest. We therefore do not

	anticipate that the post holders will
	start until end of March 2022 at the
	earliest. The contract variation with
	Impact Union is necessary to ensure
	the team has capacity to continue to
	manage and develop the holiday
	programme in preparation for Easter
	2022.
Reasons why a variation is	Through conversations with Public
needed now	Health SMT and colleagues in HR, it
	has become clear that recruitment
	for the two new holiday programme
	posts will not begin until January
	2022 at the earliest. This is due to
	capacity within HR and recruitment
	and is out of the control of
	Southwark Public Health. A contract
	variation is needed now to ensure
	that Southwark Public Health have
	capacity in the interim to develop
	and deliver a safe holiday
	programme in Easter 2022 that
	continues to meet the high
	standards achieved this year.
Performance of the contractor to	Impact Union have provided
date	excellent support this year and there
	have been no performance issues to
	date.
Future proposals for the service,	There will be no re-procurement
including details and timetable	once the contract ends. Instead,
for any re-procurement	there will be recruitment to two new
i on any re presumentement	fixed term posts (Holiday Provision
	Programme Officer and Holiday
	Provision Programme Coordinator)
	that will be employed by Southwark
	Council for three years.
Alternative options considered	Do nothing – This is not an option as
The second secon	the holiday programme is priority
	programme supporting children
	eligible for Free School Meals (FSM)
	during the school holidays and a
	commitment in the Council Plan.
	Southwark Public Health do not
	have capacity to run the programme
	within existing permanent staff.
	Within Chlothing pointiations stain.
	Recruit Southwark employed staff to
	new posts – This option is in
	progress but will not be complete
	progress but will flot be complete

	before	the	end	of	the	current
	contract with Impact Union.					
Any risks linked to the variation	No risks identified					

Non Key decisions

4. This report deals with a non key decision

 \times

Contract management and monitoring

5. The contract will continue to be monitored and managed by: Head of Programme - Place

The council's contract register publishes the details of all contracts over £5,000 in value to meet the obligations of the Local Government Transparency Code. The Report Author must ensure that all appropriate details of this procurement are added to the contract register via the eProcurement System.

Community, equalities (including socio-economic) and health impacts

Community impact statement

- 6. Southwark's Food and Fun holiday programme (funded through DfE's HAF fund) has a clear positive impact on the local eligible children and families served via our holiday clubs.
- 7. Without the contract variation, there is a risk that the Easter 2022 holiday programme will not be as high quality or have the same reach as Easter 2021 due to reduced capacity to manage and delivery the programme.
- 8. Extending the contract with Impact Union will ensure full capacity to deliver an outstanding Easter programme whilst Southwark Public Health recruits to two new posts to take this programme forward over the next three years.

Equalities (including socio-economic) impact statement

9. The Public Sector Equality Duty has been considered and no additional consultation is required

Health impact statement

10. There are no health impacts associated with this contract variation.

Climate change implications

11. No implications for climate change have been identified.

Sustainability considerations

12. The Public Services (Social Value) Act 2012 requires the council to consider a number of issues including how what is proposed to be procured may improve the economic, social and environmental well-being of the local area for higher value contracts. The council is committed to these principles for all contracts and relevant issues were identified in the attached Gateway 2 report.

Financial implications

12. The total value of the contract, including any previous variations is £31.5K. The value of this variation can be resourced from the HAF budget provided by a grant from DfE.

Consultation

13. No consultation undertaken.

SUPPLEMENTARY ADVICE FROM OTHER OFFICERS

The original contract value is under the relevant EU threshold \times for supplies and services or under £2million for works contracts and no supplementary advice is required.
