

Pre-Qualification Questionnaire

Port of Felixstowe

TC01346 - North Rail Gate Pavement Upgrade

Project Description

The works comprise the phased replacement of approximately 1,700m² of block paved roadways with fibre reinforced concrete pavement at the Port of Felixstowe in 2024 and 2025.

The works include, but may not be limited to;

- Service chamber, manhole and gulley repairs
- Bulk removal of block paving
- Removal of CBM3 and replacement with C8/10 concrete
- Block paving tie-ins to new pavement
- Reinforced paving quality concrete
- Road markings
- Traffic management

The works are to take place on the North Rail Gates, 850m² during 2024 and 850m² during 2025.

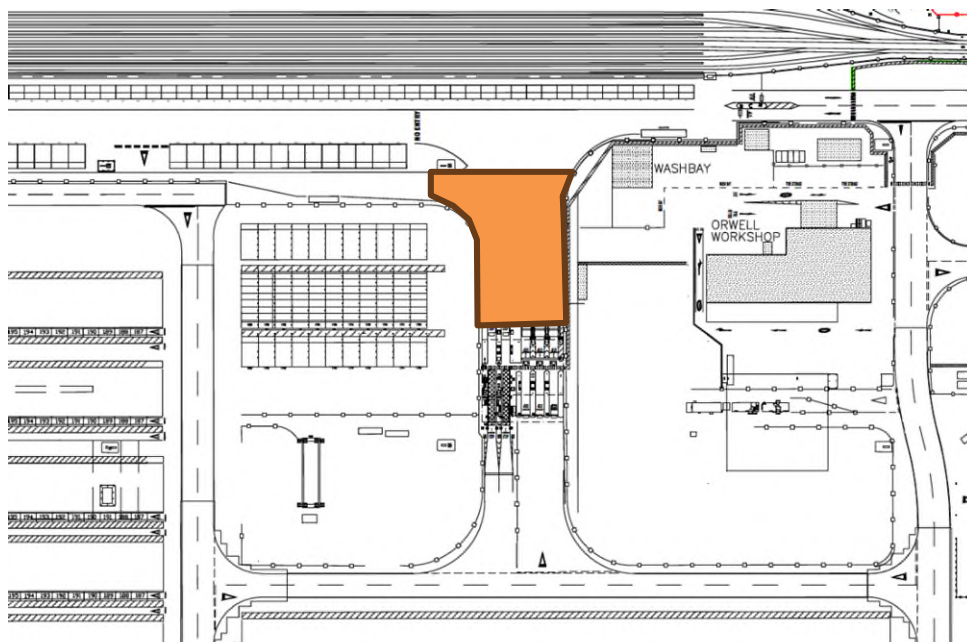

Concrete pavement installed in 2022 to replace block paving at Southern extent of Zone 7 Quayside Roadway

North Rail Gates

Site Location

Port of Felixstowe is located approximately 80 miles north east of London.

The site, as shown above highlighted, is located at the Ipswich end of the port.

Key Dates & Budget

Completed pre-qualification questionnaires are to be returned by 23:30 on Thursday 28th March 2024 via the Pro-Contract Due-North e-tender website.

It is anticipated tenders for the works will be issued Q2 2024 with works commencing Q3 2024.

The second phase of works will be undertaken in 2025.

The total estimated value of the works is circa £500k.
