Eaves Detail:- Vented Fascia
Penrhyn Heather Blue 500x300 County 7mm

Fit grills and trays to ensure clear airflow over fascia and insulation and continuous support to form a drip into gutter.

Fix additional batten immediately below first course batten.

Trim to size undereave slate to provide 45-55 mm overhang and maintain headlap.

Fix undereave slate with two nails (approx 25 mm from the top and side) face downwards.
