

## **Sub Specification for Asphalt Preservation**

The Council requires two types of asphalt preservation service under this Contract;

- A. Penetrative
- B. Non-penetrative

The Contractor's attention is drawn to Clause 950 of the Specification for Highway Works.

The product being offered should be HAPAS approved.

Where available and applicable, the Contractor shall provide CE marking details and Type Installation Trial certificates relevant to the performance of services and provision of materials under this Contract.

The Contractor shall be a member of the RSTA and shall be registered to or working towards an accredited Quality Management System ISO 9001 and National Highway Sector Scheme 13 (The Supply and Application of Surface Treatments to Road Surfaces).
