The Prevention of Corruption Acts apply to all contracts that any government or public organisation enters into. The Acts make it a criminal offence to give or offer bribes or rewards to any employee of a government department or public organisation with the intention of influencing them in their duties. These offences could lead to the loss of the contracts, loss of future opportunities and prosecution under the Acts.

It is a criminal offence to knowingly supply false or fraudulent information.

I confirm that, as far as I know, the information I have given is accurate. I am not aware of any financial changes to the business or any other circumstances that could harm business stability.

Hints and Tips: References

Why are references important?

We collect and verify each and every reference you provide us when registering for our work categories. This gives our buyers confidence when searching for suppliers on Constructionline, knowing that you are competent in the work categories that you're listed for.

Also, Constructionline will use the value of work from a reference when carrying out the financial assessment of your profile (category value). Therefore it is recommended that the references you provide are for high value contracts completed in the last three years.

When selecting a supplier, references give buyers:

- Re-assurance that your previous customers would use you again.
- Peace of mind that you are competent in the areas that you wish to work.
- Confidence that you are able to cope with the value of contract.

For new applications, we suggest:

We say start small. Select just one category to begin with, and then you'll just need to provide two references to get up and running. Go to www.constructionline.co.uk/static/suppliers and visit the 'Resources' page where you can download more reference forms and view our full list of contractor, consultant and material supplier work categories. Please remember: You can add further work categories to your profile at a later date.

- Don't forget to review your work categories on a regular basis.
- There may be other categories you can register for at no additional cost.
- You need to send two reference forms for each work category you select.

We recommend that you collect references on a regular basis

It's worth getting into the habit of requesting a reference every time you complete a contract. When registering for our work categories, we require you to provide references dated within the past three years, so it's important to ensure that you keep a record of your most recent contracts.

- References are easier to obtain shortly after a contract has been completed, rather than months or years down the line.
- References can help you add more work categories to your Constructionline record - helping to increase your chances of winning more work, as you'll appear in more buyers' searches.
- You may be able to increase your category level with higher value references and strong accounts.

Appendix 1

The financial appraisal of your accounts will be calculated using the formula below:

Our notation formula has been developed over a period of years by key buyers, industry leaders and government bodies. The formula looks at a supplier's financial ability and established track record for successfully delivering contracts in each category to a certain value.

The notation is based on the original criteria agreed with buyer and supplier working groups; and is calculated as the lowest of three calculations that bring together:

- the last reported annual turnover,
- net assets and
- the average value of references used for all work categories. For each work category, the highest value of the references we have obtained for that category is used.

Finance Factor

Turnover divided by 3	1,000,000	
		3 333,333
Net assets multiplied by 5	150,000	
	<u>750,000</u>	
Average sum of above	1,083,333	= 541,667

Reference Factor

Sustained proof of service or product multiplied by reference factor	200,000	
	2	= 400,000

Provisional notation finance and reference factors averaged

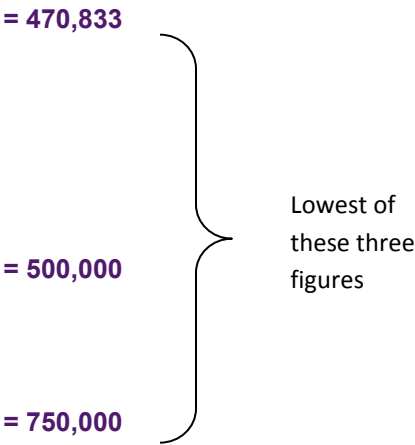

The finance and reference factor average is then compared to:

Reference factor cap

Highest average reference increased by 25%	400,000	= 500,000
	100,000	

Turnover cap

Turnover per accounts reduced by 25%	1,000,000	= 750,000
	250,000	

*In recognition of the variation in the frequency of work and likely contract values, a reference factor will be allocated to each work category which enables different specialisms to be compared on a like for like basis. The highest multiple is 3 and will change according to product and service.
