

Care Home – Market Engagement

Islington Council is ambitious about excellent care home provision to meet the needs of residents who cannot remain in their own homes or in other accommodation-based services. Commissioners are keen to work with providers that offer high quality, personalised, strengths-based care, and support. Our aim is that care homes are well-connected, at the heart of communities, active contributors to Social Value, and offer exciting employment opportunities.

The 65+ age group in Islington is expected to grow by 32% between 2020 and 2030. To support residents to stay close to home, commissioners are particularly keen to work with in-borough providers. However, due to the current pressures on the inner London market and the predicted growth in need, commissioners in Islington are exploring potential for opportunities outside of the borough. We invite responses from care providers from Islington and further afield.

1. Please tell us the name of the provider
2. For each care home, please provide the following information.

Address of care home

CQC rating

Potential block offer

- Number of Residential beds
- Number of Residential with dementia beds
- Number of Nursing beds
- Number of Nursing beds with dementia
- Number of mental health beds

If you wish to send the information via email or discuss further, please do not hesitate to contact Sophia.stevens@islington.gov.uk
