- f) If you are unsure of your login details, please contact Due North at ProContractSuppliers@proactis.com

The screenshot displays the ProContract web application interface. The header includes the 'due north' logo, 'ProContract' branding, and a 'Notifications' icon. The navigation bar contains links for Home, Find opportunities, My activities, My contracts, Help, Strategic Procurement Team, Your account, and Logout. The main content area is titled 'Home page' and features several sections: 'Activities' with a search filter and 'Go' buttons; 'Opportunities' with a search instruction; 'Company details summary' for 'Bournemouth Borough Council' with an 'Edit' button highlighted in a red box; and 'Workgroups' with a list of activities and an 'Add new workgroup' button. The footer contains 'Terms and Conditions | Privacy | Accessibility' and a 'Secure Site' icon.

- g) To update your company preferences for notifications, click 'Edit' within the Company Details Summary section

- h) Companies can have multiple workgroups for managing tenders. This may be where it is a particularly large company that is split over several sites where each site manages different elements of the company business. Therefore, you may want to split notifications for certain contract opportunities to go to one part of a business, and other notifications to go to another part of the business. If this is the case, add more workgroups as appropriate.
- i) However, if you are happy for all notifications to go to one place, you only need to update the one workgroup that is shown on the screen.
- j) To update the notification preferences for that workgroup, click on the workgroup name

SETTING PREFERENCES TO RECEIVE NOTIFICATIONS OF CONTRACT OPPORTUNITIES

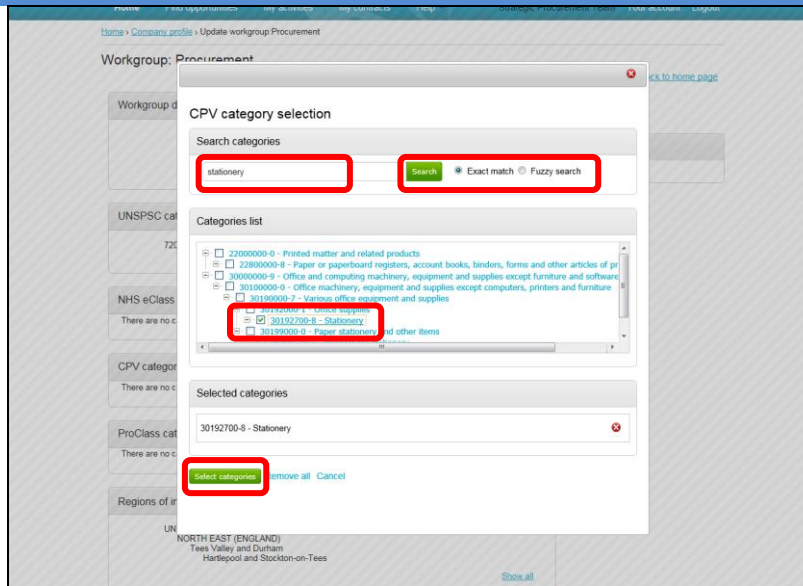

The screenshot shows a web application interface for setting preferences. The main heading is 'Workgroup: Procurement'. Below this, there are several sections, each with an 'Edit' link:

- Workgroup details:** Shows 'Workgroup name: Procurement', 'Date created: 17/01/2013 14:01:46', and 'Date updated: 14/03/2016 09:02:15'. There is also an 'Audit history' button and a 'View audit history' link.
- UNSPSC categories:** Shows '7200000 - Building and Facility Construction and Maintenance Services'.
- NHS eClass categories:** Shows 'There are no categories selected in this category set, click "Edit" to add some'.
- CPV categories:** Shows 'There are no categories selected in this category set, click "Edit" to add some'. The 'Edit' link is highlighted with a red square.
- ProClass categories:** Shows 'There are no categories selected in this category set, click "Edit" to add some'.
- Regions of interest:** Shows 'UNITED KINGDOM', 'NORTH EAST (ENGLAND)', 'Tees Valley and Durham', and 'Hull/Goole and Stockton-on-Tees'.

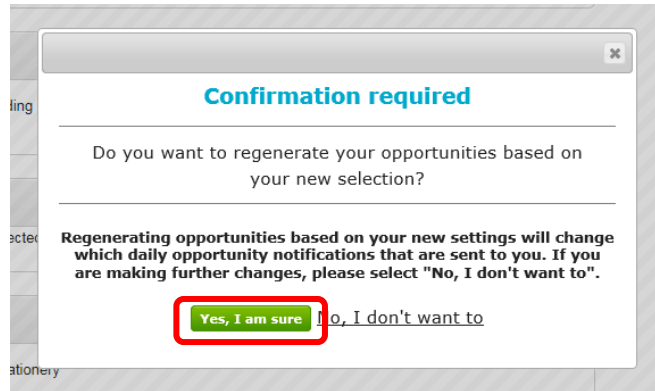

CPV categories and UNSPSC categories are classification systems for goods, services and works. Companies should add categories of goods, services or works that they supply using these classification systems.

When buying organisations are issuing contract opportunity adverts, they will select categories that relate to the goods, services and works that they are buying. Suppliers who have selected those classifications will receive an email notification as soon as the advert is published to ensure they do not miss opportunities

- k) This section is used to set the classification of goods, services or works that you supply as well as the area that you want to supply these goods, services and works. This is important as this will determine the notifications that you will receive through the system to only contracts you will be interested in supplying.
- l) You will need to set your classifications for goods, services or works in both the CPV categories and UNSPSC categories. Bournemouth Council issues notifications on CPV categories and so it is very important that you spend time ensuring that you select the correct and applicable CPV categories for your company so that you do not miss out on contract opportunities
- m) To select the classification of goods, services or works that your company supplies click 'Edit' next to CPV categories

- n) Within the search box, add the goods, services or works you supply
- o) Choose whether to search 'Exact Match' or 'Fuzzy'. Exact match will only return searches that meet exactly what you have added within the search box. Fuzzy searches will try a combination and return more options
- p) Click 'Search'
- q) Once you have clicked 'Search' it will return a list of categories that may be applicable. Select the categories that are applicable
- r) After selecting each category using the tick box, click on 'Select Categories'

- s) You will receive a notification asking you to confirm to update your opportunities
- t) Click 'Yes, I am sure'

- w) You will then need to update the region of the UK that you are interested in supplying.

You can refine or update your categories and regions at any time and suppliers are encouraged to continually monitor their preferences to ensure that they do not miss any notifications from the system for contract opportunities.
