

Appendix 3 – Fleet Street

| | |
|--------------|---|
| Scheme name: | Fleet Street Regeneration Scheme (Phase 3) |
| Cost: | £600,000 (contract value) |
| Date: | January – June 2018 |

Scheme details:

Split into three phases of construction and spread over five years, the regeneration of Fleet Street, Torquay is currently ongoing, with Phase 3 due to complete this summer. Continuing the theme of replacing the life expired concrete block pavers with high quality granite kerbing and paving, combined with stainless steel street furniture, the scheme has also included: full carriageway reconstruction, installation of surface water drainage systems, utilities diversions, the creation of loading bays and bus bays, plus the inclusion of ducting for future services.
