INTRODUCTION

Accommodation

The school is in the domestic suburb of Newbridge, near the western boundary of Bath, surrounded by houses on three sides and a main road on the fourth. Until 2006 the site was split into two, with the junior school occupying the western half, the infant school the south-eastern quarter and a sloping field the remaining, north-eastern quarter.

Block 001 which is the subject of this Feasibility Study Report comprises the original steel-framed Hills school building which was opened circa 1953. The teaching accommodation is two-storey and the remaining areas single-storey with a basement boiler room beneath the library (former kitchen) area. The original building is clad partially with precast concrete panels with some areas of cavity walling rendered finished externally. Windows are generally single glazed 'Crittall' type steel casements with fixed panes; pivot opening lights and some glass block panels, although in some areas windows have been replaced in a mixture of double glazed PVCu and aluminium. Doors are generally a mixture of steel and timber unless incorporated with the more recent replacements.

Access Considerations and Assumptions

Construction access is considered would be possible from Charmouth Road at the front (south) of the site.

WINDOW REPLACEMENT SCHEME PROPOSALS

Contract

The successful supplier will be appointed by B&NES Council under an NEC3 ECC Option A: Priced contract with activity schedule:-

Scope of works

The proposed general specification for window replacement to Block 001 is to be as follows:-

Supply and fixing of replacement windows to Block 001 shall be as shown in the attached photographs and enumerated on the attached floor plans.

Windows system to be Visoline system as manufactured by Smart Systems Ltd or similar approved.

System to incorporate polyester powder coated commercial aluminium polyamide thermally broken Visoline window system and suitable complimentary door system.

Any insulated infill panels incorporated into the final design shall be colour matched to the existing panels elsewhere within the building. Allow for suitable rigid insulation adhered to steel columns and PVCu cover strip over exposed steel frame columns as

detail to be provided.

The replacement window frames shall be **White** with 28mm double glazing with 70mm insulated panels where appropriate. Window opening configuration shall be manufactured as shown on drawings to be provided.

Allow for face drainage to aluminium sill sections and internal beads. Glazing shall be sealed double glazed units with 6mm toughened 'E' glass. Solar control glass Pilkington 'antisun' or similar approved shall be provided, colour to be approved.

Trickle ventilation to be incorporated minimum 1 No. per opening vent.

Doors shall be anti-finger trap doors with Equalities Act compliant threshold and shall be operated by overhead concealed closers.

Windows and doors shall incorporate all necessary hardware, handles, locks, etc. Windows to incorporate folding cam key locking handles. Heavy duty Teleflex maxi box winding gear shall be incorporated to operate high level opening lights, which are to be generally connected to operate as blocks of windows rather than individual windows.

Comments – refer to annotated floor plans and photographs as follows

The design approach used for the scheme proposal has been to replace the remaining existing single glazed steel windows only, with a new thermally efficient double glazed aluminium replacement. Replacement doors are required to 2 No. classrooms and 1 no. Office, as window types **C** and **Q**. These would be a complimentary system to the proposed window system.

Adding a thin layer of insulation and PVCu cover strip to the exposed steel frame columns has been included for both improvement of thermal efficiency and visual appearance.

The new fenestration detail and window opening configuration will follow the original where possible and where considered practical but eliminating the glass block detailing within the classroom areas.

PROGRAMME

Works Programme

With regard to classroom areas it is strongly considered from a health and safety and school operational aspect to carry out these stages of any scheme during a summer holiday period.

Noisy work would need to be planned out of hours and by agreement with the school and this would also apply to any service disruption. External works and contractor's compound / access would need to be carefully planned, agreed with the school and safety would be a priority consideration

Current Draft Programme considerations:-

Works to be tendered - **April 2019**

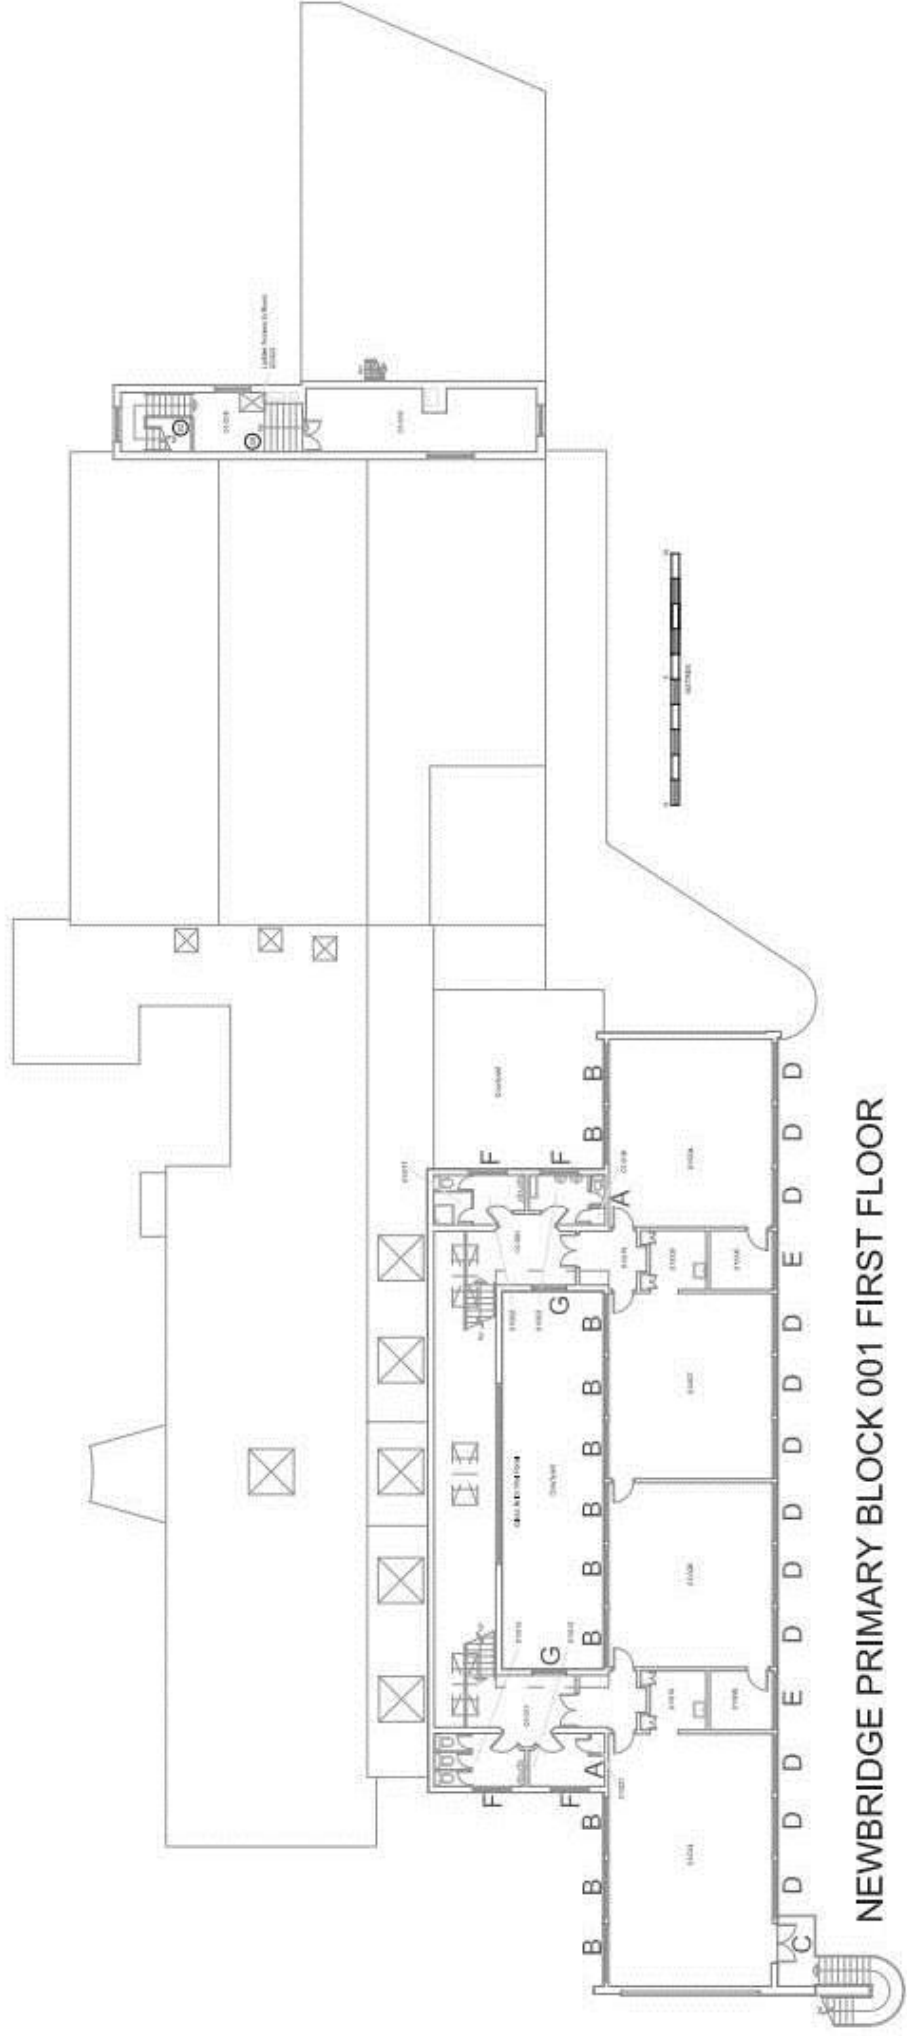

Formal instructions to proceed - **Mid May 2019 (allows approx. 9 week lead in time)**

Installation works to classrooms to commence over Summer Term Break -

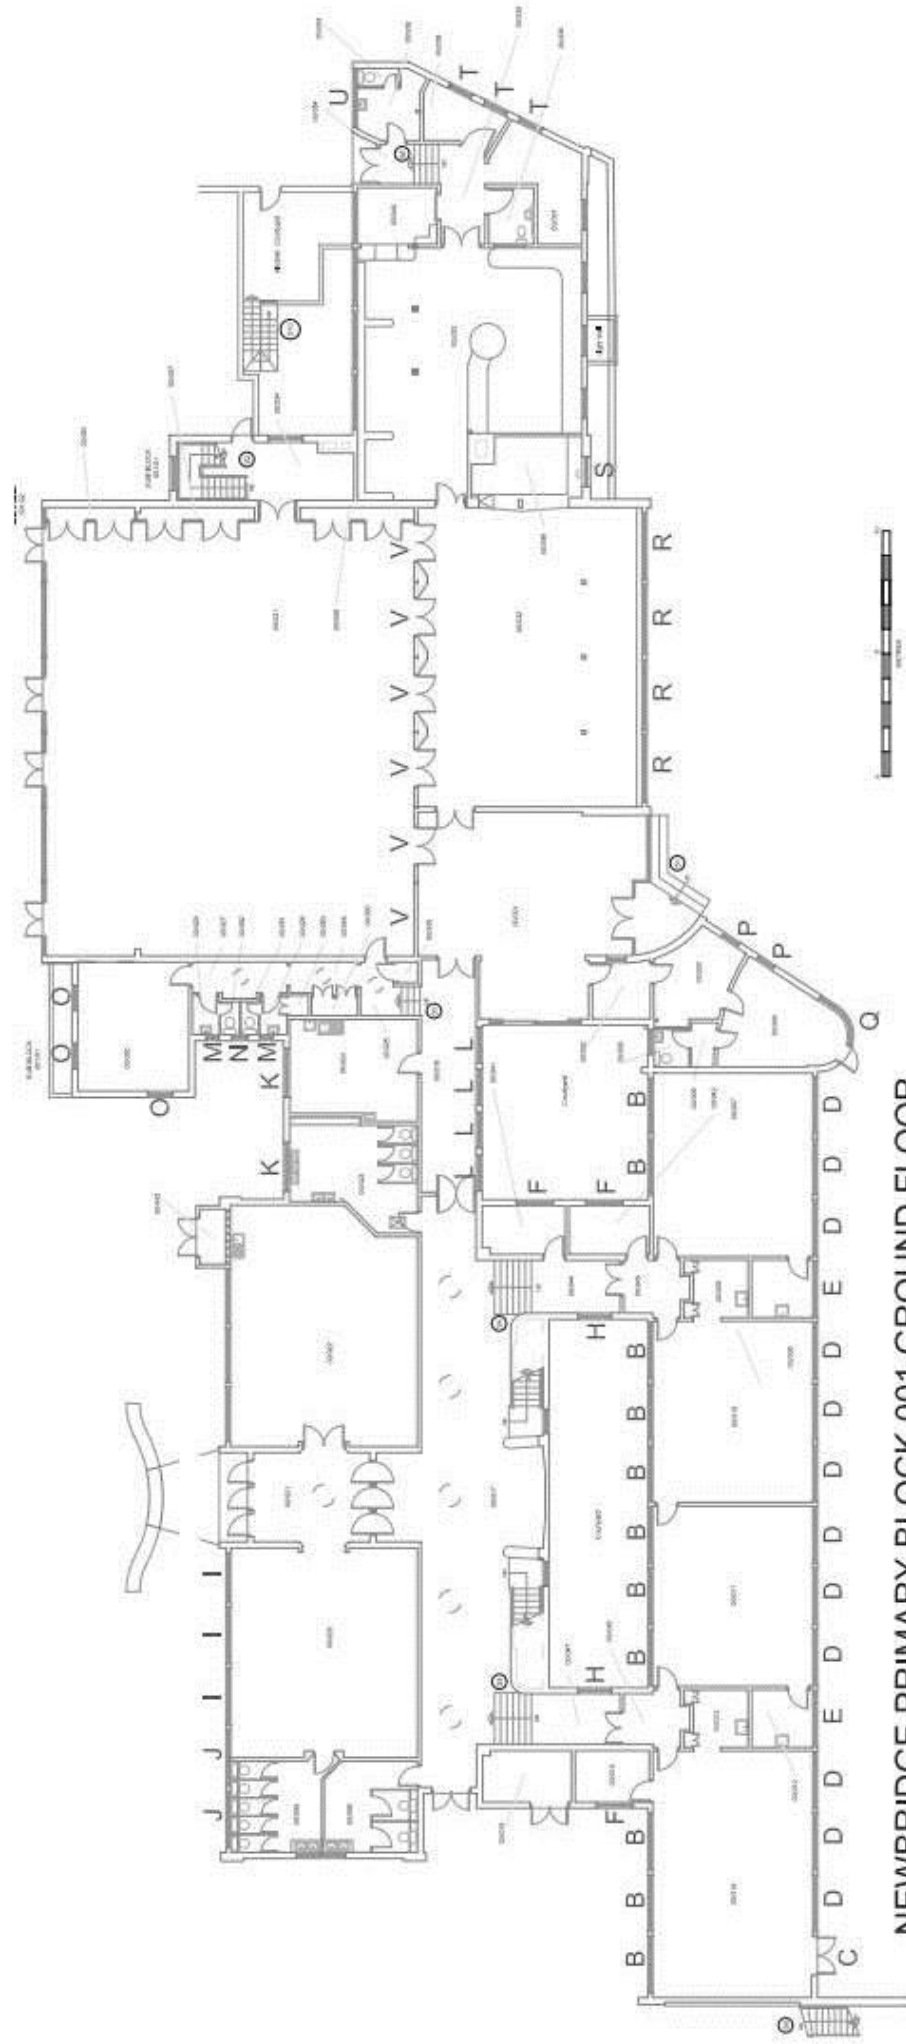

Wednesday 24th July 2019 – 30th August 2019

The length of construction period assumed necessary for replacement of all the windows indicated in the above is considered would necessitate some replacement during following term time – full extent of installation programme to be agreed.

Supplier Selection Questionnaire for Works contracts above £181k

NOTES TO TENDERING COMPANIES

The main purpose of the SUPPLIER SELECTION QUESTIONNAIRE is to ensure that all companies who are invited to tender can meet the minimum financial and technical requirements to undertake the advertised work. When public sector organisations place advertisements for tenders and request expressions of interest, they may receive hundreds of responses. A SUPPLIER SELECTION QUESTIONNAIRE is almost always used as a way to shortlist these responses.

Completing a SUPPLIER SELECTION QUESTIONNAIRE is therefore often the first step in the tender process and buyers need to know that their suppliers follow good practices. The buyer will evaluate the supplier's response and decide whether or not they will then be invited to tender.

The way in which Supplier Selection Questionnaires are evaluated may vary depending on the contract (e.g. value, technical complexity, risk). The criteria against which responses will be assessed and their weightings (their relative importance) will always be made clear at the outset so that bidders can submit clear and relevant responses.

Many organisations may meet the basic criteria but only the top scoring ones will be invited to tender, therefore it is important to use the SUPPLIER SELECTION QUESTIONNAIRE to demonstrate that you can fully meet the criteria. This means not only 'ticking the boxes' but providing information that shows the value that you bring.

Definitions

"Council" means Bath and North East Somerset Council, or anyone acting on behalf of Bath and North East Somerset Council that is seeking to invite suitable suppliers to participate in this procurement process.

"You"/ "Your" or "Supplier" means the body completing these questions **i.e. the legal entity seeking to be invited to the next stage of the procurement process and responsible for the information provided.** The 'Supplier' is intended to cover any economic operator as defined by the Public Contract Regulations 2015 and could be a registered company; charitable organisation; Voluntary Community and Social Enterprise (VCSE); Special Purpose Vehicle; or other form of entity.

Notes for completion

1. This Questionnaire has been designed to assess the suitability of a Supplier to deliver the Council's contract requirement(s). If you are successful at this stage of the procurement process, you will be selected for the subsequent award stage of the process.
2. Please ensure that all questions are completed in full, and in the format requested. Failure to do so may result in your submission being disqualified. If the question does not apply, please state clearly, 'N/A'.
3. Should you need to provide additional Appendices in response to the questions, these should be numbered clearly and listed as part of your declaration. A template for providing additional information is provided at the end of this document.
4. Please return a completed version of this document and any supporting information to:

Instructions for responding to the SUPPLIER SELECTION QUESTIONNAIRE in the e-tendering system	Suppliers must return their completed Questionnaire in the e-tendering system, Pro-Contract. Instructions on how to return the document and advice on where to get help can be found at the rear of this Questionnaire.
Deadline for receipt of SUPPLIER SELECTION QUESTIONNAIRE (UK date and time)	Noon Monday 1st April 2019

Verification of Information Provided

6. Whilst reserving the right to request information at any time throughout the procurement process, the Council will enable the Supplier to self-certify that there are no mandatory/ discretionary grounds for excluding their organisation. When requesting evidence that the supplier can meet the specified requirements, the Council may only obtain such evidence after the final tender evaluation decision. i.e. From the winning Supplier only.

Sub-contracting arrangements

7. Where the Supplier proposes to use one or more sub-contractors to deliver some or all of the contract requirements, a separate Appendix should be used to provide details of the proposed bidding model that includes members of the supply chain, the percentage of work being delivered by each sub-contractor and the key contract deliverables each sub-contractor will be responsible for.

8. The Council recognises that arrangements in relation to sub-contracting may be subject to future change, and may not be finalised until a later date. However, Suppliers should be aware that where information provided to the Council indicates that sub-contractors are to play a significant role in delivering key contract requirements, any changes to those sub-contracting arrangements may affect the ability of the Supplier to proceed with the procurement process or to provide the works required. Suppliers should therefore notify the Council immediately of any change in the proposed sub-contractor arrangements. The Council reserves the right to deselect the Supplier prior to any award of contract, based on an assessment of the updated information.

Consortia arrangements

9. If the Supplier completing this Questionnaire is doing so as part of a proposed consortium, the following information must be provided;
- names of all consortium members;
 - the lead member of the consortium who will be contractually responsible for delivery of the contract (if a separate legal entity is not being created); and
 - if the consortium is not proposing to form a legal entity, full details of proposed arrangements within a separate Appendix.
10. Please note that the Council may require the consortium to assume a specific legal form if awarded the contract, to the extent that a specific legal form is deemed by the Council as being necessary for the satisfactory performance of the contract.
11. All members of the consortium will be required to provide the information required in all sections of the Questionnaire as part of a single composite response to the Council i.e. each member of the consortium is required to complete the form.
12. Where you are proposing to create a separate legal entity, such as a Special Purpose Vehicle (SPV), you should provide details of the actual or proposed percentage shareholding of the constituent members within the new legal entity in a separate Appendix.
13. The Council recognises that arrangements in relation to a consortium bid may be subject to future change. Suppliers should therefore respond on the basis of the arrangements as currently envisaged. Suppliers are reminded that the Council must be immediately notified of any changes, or proposed changes, in relation to the bidding model so that a further assessment can be carried out by applying the selection criteria to the new information provided. The Council reserves the right to deselect the Supplier prior to any award of contract, based on an assessment of the updated information.

Confidentiality

14. When providing details of contracts in answering Table 9 of this Questionnaire (Technical and Professional Ability), the Supplier agrees to waive any contractual or other confidentiality rights and obligations associated with these contracts.
15. The Council reserves the right to contact the named customer contact in Table 9 regarding the contracts included. The named customer contact does not owe the Council any duty of care or have any legal liability, except for any deceitful or maliciously false statements of fact.
16. The Council confirms that it will keep confidential and will not disclose to any third parties any information obtained from a named customer contact, other than to the Cabinet Office and/or contracting authorities defined by the Public Contract Regulations.

Scoring Methodology

17. The Scoring Methodology for assessing the responses to this questionnaire is attached as a separate document.

Questionnaire Layout

This questionnaire is in the following format.

Companies MUST answer all questions except where the question indicates otherwise.

Note: The diagram above shows the standard B&NES template for a Works Supplier Selection Questionnaire. The Core Questions will be included for all Procurements and are mandatory. The optional questions should only be included where the buyer believes it is relevant and proportionate to do so. Supplementary questions are project related and the buyer will include any they believe to be relevant and proportionate.

- 6) Where the supplier is participating in the procurement with others as referred to in question 1.13.2, the organizational roles should be understood, as follows:
Sole supplier/ Lead entity: Sole entity or, in case of consortium, joint venture or other types of groups, the leader of the group.
Group member: Member (not leader) of the consortium, joint venture or other type of group.
Other entity (relied upon): Entity on which the main supplier, the group or other subcontractor, relies in order to meet the selection criteria.
Other entity (not relied upon): Entity on which the main supplier, the group or other subcontractor, does not rely in order to meet the selection criteria.

7) This includes subcontractors that the supplier relies on in the application and other organizations that the group relies on in the application (see Regulation 63 of the Public Contracts Regulations 2015).

8) For subcontractors that are not relied on by a candidate in its application, the buyer may ask whether the candidate intends to subcontract, the details of the proposed subcontractors (in so far as this is possible) and also for those subcontractors to complete a self-declaration against the exclusion grounds (Regulation 71 (1) and (8) Public Contracts Regulations 2015)

Question	<i>Example of the type of information in support of responses, which will be taken into account in assessment</i>	YES/NO	<i>Supplier's unique reference to relevant supporting information</i>	
5.2 Are you able to show that you have a general policy and an organization which is responsible for ensuring effective health and safety (H&S) management?	Evidence of periodically reviewed general H&S policy, signed and dated by a senior person within the organization. The H&S policy should also contain the organization and arrangements. These should be relevant to the anticipated nature and scale of activity to be undertaken, and set out responsibilities for H&S management at all levels in the organization. <i>(Organizations with fewer than 5 employees, see Note 4 to this Table)</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No		
5.3 Are you able to show your arrangements for ensuring that your H&S measures are effective in reducing/ preventing work-related incidents, occupational ill-health and accidents?	Details of the arrangements for H&S management that are relevant to the anticipated nature and scale of activity to be undertaken, and how these arrangements are communicated to workers. <i>(Organizations with fewer than 5 employees, see Note 4 to</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No		

	<i>this Table)</i>		
5.4 Do you have ready access to competent H&S advice/assistance?	<p>Evidence of how your organization has ready access to competent H&S advice, for both general health and safety and, for CDM duty holders, construction-related health and safety.</p> <p>(Access to competent in-house advice, in whole or part, is usually preferred. It is essential that H&S advisor(s) are able to provide general H&S advice and that, for CDM duty holders (from the same source or elsewhere) advice on relevant construction H&S issues is accessible as required.)</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No	
5.5 Do you have a process for providing your employees/other workforce with training and other information appropriate to the activities that your organization is likely to undertake?	<p>Evidence that your organization implements relevant training arrangements to ensure that employees/other workforce have sufficient skills and understanding to discharge their various duties. This should include refresher training on relevant good H&S practice and, for CDM contractors and principal contractors, Construction Phase Plans (CPP) may be used to show how information is disseminated or communicated on-site (see note 5 to this Table).</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No	
5.6 Do your employees/other workforce have H&S and other relevant knowledge, experience and skills to carry out activities that your organization is likely to undertake?	<p>Evidence that your employees/other workforce have suitable knowledge, experience and skills for the activities assigned to them, unless there are specific situations where they need to work under competent control and/or supervision (e.g. apprentices and other</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No	

	trainees).		
5.7 Do you check, review and, where necessary, improve your H&S performance?	Evidence that your organization has an effective, ongoing system for monitoring H&S procedures, and for periodically reviewing and updating that system as necessary.	<input type="checkbox"/> Yes <input type="checkbox"/> No	
5.8 Do you have procedures for involving your employees/other workforce in the planning and implementation of H&S measures?	Evidence that your organization implements a means of consulting with its employees/other workforce on H&S matters and how comments, concerns or complaints submitted by employees/other workforce are taken into account.	<input type="checkbox"/> Yes <input type="checkbox"/> No	
5.9 Do you routinely record and review accidents/incidents and undertake follow-up action?	Evidence that your organization maintains records of all RIDDOR-reportable (see note 6 to this Table) and other incidents for at least the last three years. Evidence that your organization has an effective system for reviewing significant incidents, and recording any resulting action taken (including your response to any H&S enforcement activity).	<input type="checkbox"/> Yes <input type="checkbox"/> No	
5.10 Do you have arrangements for ensuring that your suppliers also apply H&S measures that are appropriate to the activities that your organization is likely to undertake?	Evidence that your organization implements arrangements for ensuring and monitoring H&S skills, knowledge and experience, and performance, throughout your entire supply chain, appropriate to the work likely to be undertaken.	<input type="checkbox"/> Yes <input type="checkbox"/> No	
5.11 Do you operate a process of risk assessment, capable of supporting safe systems of work?	Evidence that your organization implements procedures for carrying out relevant risk assessments and for developing and	<input type="checkbox"/> Yes <input type="checkbox"/> No	

	<p>implementing safe systems of work (“method statements”). Please provide indicative examples, which must include: the identification and control of any significant occupational health (not just safety) issues, appropriate to the work likely to be undertaken. (Organizations with fewer than 5 employees, see Note 4 to this Table)</p> <p>NOTE Risk assessments should focus on, and be proportionate to, the risks arising from the type of work to be undertaken. The need to reduce documentation requirements on micro-businesses in particular should be taken into account by buyers and assessment providers. Excessive bureaucracy associated with prequalification assessment can obscure the real H&S issues to be considered, and even divert effort away from them.</p>

5.12 CDM duty holder related question selection:

The questions asked in 5.13 to 5.22 (in conjunction with questions 5.2 to 5.11) are appropriate for particular construction duties and have been colour coded accordingly to assist identification. Please indicate below which duty (or duties) best describes your organization’s activity and then only provide responses to the questions colour coded to the duty (or duties) you have selected.

NOTE The questions refer to duty holders under the Construction (Design and Management) Regulations 2015, which defines the scope of “construction” activity. If your organization potentially fills more than one role (e.g. “Design and Build”), please provide responses to the questions applying to all relevant duty holder roles (e.g. Designer and Principal Contractor)

CDM DUTY HOLDER ROLE(S) IDENTIFIED

Please respond “yes” or “no” to each role identified below

<p>NOTE 1 If none of the duty holder roles identified below are relevant, you do not need to respond to any of questions 5.13 to 5.22</p> <p>NOTE 2 Principal contractors will also need to respond to questions applicable to contractors, and principal designers will also need to</p>	YES/NO	Supplier’s unique reference to relevant supporting information

NOTES TO TABLE 5

NOTE 1 Assessors should not request unnecessary paperwork and may not necessarily require evidence of all the examples in column 3 of Table 5. Suppliers (including contractors, consultants and others) should only be required to produce enough evidence to show that they meet the relevant criteria, taking account of the nature of activities/projects likely to be involved, and the hazards and risks. This requires assessors to make a judgement as to whether the evidence provided meets the standard to be achieved. If that judgement is reasonable, and clearly based on the evidence requested, assessors cannot be criticised if the supplier they appoint subsequently proves not to have the necessary capability (essential knowledge, skills and experience) when carrying out the activity.

NOTE 2 For suppliers that will be CDM duty holders – The core questions in Table 5 align with legal requirements on the relevant duty holder under the Construction (Design and Management) Regulations (CDM 2015).

NOTE 3 For suppliers that will be CDM duty holders – Asking the questions in Table 5 does not remove the buyer's requirement to make further enquiries about the supplier's H&S capability, as required for specific projects, services or other activities.

Stage 1: An assessment of the supplier's organization and arrangements for H&S, to determine whether these are sufficient to enable the supplier to carry out the activity safely and without risk to health. Stage 1 assessments assess the general (basic) capability of the supplier and are within the scope of PAS 91.

Stage 2: Stage 2 assessments are outside the scope of PAS 91*. They involve an additional assessment of the supplier's experience, technical capability and track record, to establish that: it is capable of carrying out the actual construction activity/project required (i.e. project, activity or service-specific enquiries), and notably in relation to higher hazard activity; that the supplier recognizes any limitations and how these should be overcome; and appreciates the hazards associated with the activity and how the risk should be effectively controlled.

*Stage 2 assessments follow Stage 1 enquiries and they should not therefore be asked in relation to PAS 91 (although in the public sector only, stage 2 questions relating to previous experience will be asked in the prequalification questionnaire – if required by law).

NOTE 4 If a supplier has fewer than five employees it is not legally required to write down its general policy, organization or arrangements. However, it does need to be able to show that its arrangements are adequate in relation to the type of activity likely to be undertaken.

NOTE 5 Relevant and proportionate CPPs are required for 'construction work' covered by CDM 2015. CPPs need only be proportionate to the nature of the activity likely to be undertaken.

NOTE 6 RIDDOR: The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013.

Social Value

The Council will procure its works, where appropriate, in line with the Social Value Act.

The Act asks commissioners to think about securing extra benefits for their area when they are buying works. Before they start procurement, commissioners should think about how the works they are going to buy, or the procurement process they are going to use to buy them, could secure the most valuable benefits for their area.

Instructions for Returning your Supplier Selection Questionnaire on the E-Tendering system

Bath and North East Somerset Council use Pro-Contract, an e-tendering system to issue Supplier Selection Questionnaires and Invitations to Tender to interested suppliers. We require that suppliers respond in Pro-Contract by attaching their completed documents by the deadline date and time stated at paragraph 6 of the Notes for Completion.

Important: We strongly recommend that you allow sufficient time to upload your response to Pro-Contract. Since it can take several minutes for large uploads to take effect, we recommend that you allow at least 15 minutes to ensure the upload completes by the deadline time.

Communication

Pro Contract is managed by PROACTIS and any queries relating to how to use the system, including how to upload this SUPPLIER SELECTION QUESTIONNAIRE or any other documents should be addressed to the helpdesk at ProContractsuppliers@Proactis.com explaining the nature of your query.

Tender Questions

To ask questions relating to a specific quotation or tender, you must use the message facility found on the right-hand side of the tender main screen within my opportunities.

Business Opportunity Discussion

If you need to discuss a specific business opportunity, you should contact the lead officer. Their contact details are published within the business opportunity advert. If you are unable to contact the lead officer for a particular business opportunity or tender the generic contact details are as follows:-
