

Construction Framework Delivery and Management Partner (DN510594)**November 2020**

The Council is conducting market research to inform its procurement initiative and strategy, and would like to hear from interested parties with a proven track record in delivering public sector procurement processes under public sector regulatory regimes, the marketing, structuring and management of construction frameworks, commercial models, and call-offs for end-users.

If you have 'expressed interest' via The Chest to view this document, and if you have the demonstrable track record described above, please send a message through The Chest to arrange a discussion before 30th November 2020. Please send your message through The Chest and do not contact any Council Officer directly by email.

Kind regards

Emma Tweedie
