

QUOTATION REQUEST FOR THE RENOVATION OF BRIDGEMARY BOWLING GREEN

Gosport Borough Council require quotes for the renovation of Bridgemary Bowling Green Cunningham Drive, Bridgemary, Gosport, PO13 0YJ.

The works are to include the removal of the existing turf surface, levelling and reseeding.

These works are being undertaken due to wide variation of turf grass species currently growing on the green as well as grass weeds and a requirement to provide a level and even playing surface.

The works are required to be completed by August 31st 2020.

1.0 GENERAL CONSIDERATIONS

The contractor must take the physical constraints of the location into account when submitting their quotation.

1.1 Site Plan

1.2 Services

The Contractor shall be responsible for checking that underground services will not be disturbed during shrub removal operations. We advise that service maps requested 05.12.2019 show no services underlie the bowling green.

1.3 Materials

All materials are to be supplied by the contractor and must conform to relevant industry standards, the contractor shall also be responsible for calculating required quantities.

The contractor will specify the materials to be used within their returned quotation.

The contractor must also provide information on products that are subject to COSHH regulations will be used and stored on site along with

1.4 Brief Method Statement

The contractor shall provide a bullet point method statement that includes how the contractor intends to meet the specification in Section 2, protect the environment during the works and a covid-19 social distancing risk assessment.

The contractor must also provide information on products that are subject to COSHH regulations will be used and stored on site as well as information on how the risk of spillage will be mitigated.

1.5 On completion of works

The contractor shall ensure that each site is left clean, tidy and safe for use by the general public on completion of the works.

2.0 SPECIFICATION

2.1 Timing of operations

Operations shall not be carried out during periods of inclement weather, i.e. rain, frost, or when ground is water-logged.

2.2. Soil test

Prior to purchasing materials we require the contractor tests nutrient levels in the soil to ensure the correct fertilisers with the correct nutrient balance are supplied.

2.3 Ground preparation and soil

Clearance of top vegetation and weeds by koro with arisings to be removed to a designated site within the borough of Gosport.

Lightly rake the surface to provide a key for imported topdressing.

Laser level to provide a level and even surface.

Supply and spread 70/30 topdressing specifically formulated for bowling greens to a depth 40mm.

Supply and apply soil microbial stimulant designed to enhance the establishment of sports-turf grasses and incorporate into topdressing.

Lightly consolidate finishing surface before working to a final level.

2.4 Seeding

Supply and apply an appropriate pre-seed fertiliser.

Supply and spread 100% ultrafine rye-grass seed designed to be hard wearing at a rate of 50 g m².

3.0 QUOTATION AND SELECTION PROCESS

Please email any enquiries through the South East Business Portal, please return quotations via the business portal.

Quotations and method statements are to be returned by 20th July 2020.

The quotes will be assessed 50% on price and 50% on the specified requirements detailed in paragraphs 1.3, 1.4, 1.5 and all of section 2. The award of the works will go to the supplier with the highest score.
