Description

Super Heavy Weight Waterproof PVC Tarpaulins 560gsm

Now available in blue, our heavy duty PVC tarpaulin is the heaviest specification plastic tarpaulin we supply at 560gsm. Made from PVC coated polyester, these strong tarpaulins are flexible in sub-zero conditions, rot proof & extremely hard-wearing.

Large 20mm brass eyelets are spaced at 50cm intervals in rope reinforced hems, and chunky 3 rivet corner reinforcements are on all 4 corners. Suitable for many applications from a heavyweight groundsheet to a hay stack cover, the PVC range of tarpaulins are available in blue in 9 pre-fabricated sizes.

Waterproof

560 gsm

20mm brass eyelets at 50cm intervals

Produced to finished size – manufacturing tolerance max 5cm
