Section B.   Expression of Interest

Are you aware of any recent projects with similar aims? If so, please can you give details of these projects?
Were you involved in the projects stated above? If so, please could you provide contact details of someone within the contracting organisation that we could potentially contact?
Are there any elements of the suggested model that are unachievable? Why?
What improvements need to be made to the proposed model? Why

What key aspects need to be considered in any future specification. Why?
Is the suggested model the most effective way of achieving our aims? Why?
Would a solution support and develop an environment of continuous improvement within adult social care? How?
Would a solution support a culture of learning and insights in adult social care? How?
Would a solution transform and improve the way ideas are collated and processed from operational level through to being ready for implementation. How?
Could a solution be 'opened up' up to external partners (outside of the organisations) at a later date? Would there be an additional cost for this?
What reporting functionality is possible / should be considered? Could this be intuitive, or would it require manual input?
What should be factored into any decision making when considering cloud-based vs an application? Could solutions utilise both methods of delivery? Would applications work on all operating systems?
How could initial and ongoing training and support be given to end users?

For information purposes only, in order to understand the potential cost of implementing a solution, please provide an indication of the following costs in relation to your solution. Where applicable, please state the number of users able to access the software.
