

**PARTNERS in PROCUREMENT**

**are pleased to invite you to**

**SUPPLYING THE PUBLIC SECTOR 2022**

**Wednesday 30<sup>th</sup> November: 09.00-13.00**

**Online Event**

We are delighted to host the Supplying the Public Sector event this year.

In this year's Supplying the Public Sector event we go back to basics with Demystifying Public Sector Procurement, together with proposed changes to the Procurement Rules which will affect how we carry out our procurement exercises and the impacts it might have on you.

Apart from the rules and regulations we still have Social Value and Carbon Net Zero issues to consider within or procurement. They are not going away and are likely to have greater emphasis in our new procurement rules; this event aims to bring more clarity to these topics.

Fraud can affect any business and can have severe implications within procurement. Accordingly, we are revisiting this topic from a procurement angle, and what we and you can do to mitigate a potential fraud risk.

Whilst this event is aimed at SMEs in the West of England, we are happy for others to join in as well!

As in our previous events, there will be an opportunity to meet procurement representatives in breakout groups.

To register for this event via <https://stps22.eventbrite.co.uk>
