Section VI: Complementary information

- VI.3) **Additional information:**
The Council is publishing this pin in advance of the tender notice to seek views of prospective tenderers around the content of the documentation in particular whether there is anything included that would stop tenderers bidding or that could be changed to encourage a more competitively priced bid. Prospective tenderers are invited to comment on up to 5 areas where amendments to the documentation would be beneficial to all parties. A template form for the collection of comments is available to download from the London Tenders Portal www.londontenders.org
The form allows tenderers to rank their comments in order of priority (i.e. 1 being top priority and 5 being lowest). The Council will take comments into account and where there is a trend across responses from the market may make amendments to the documentation.
Prospective tenderers are also asked to consider whether they would intend to submit a bid for each lot as currently described and/or whether lots should be combined/disaggregated in some other manner.
