Evaluation Criteria Questions to be Scored

The following questions cover the specific services required by the Council. Answers should be concise and include examples of relevant contracts to demonstrate experience wherever possible.

Suppliers must respond fully to each question and not simply refer to another answer or annexed document unless a question states that it is permissible.

Please ensure that you provide sufficient detail when responding to each question. In particular, refer to the Quality Scoring Guide that can be found within the Supplier Information document. The Quality Scoring Guide provides detail as to how your responses to each evaluation question will be scored.

If you are an incumbent supplier to the Council or have previously completed work for the Council, please do not assume this will be taken into consideration when your responses are evaluated. You must ensure that you provide sufficient information within your response that details previous work undertaken or experience that is relevant to this requirement.

Please do not reference your submitted price(s) within any responses to the below criteria unless expressly asked to. Where a response to an evaluation criteria references the price without it being expressly asked within the question, the response may be rejected and the score for that evaluation criteria scored zero.

Page Limits Per Question

Answers should not exceed the page limits indicated for each question.

Each page limit is on the basis of an A4 page of text (font size 11). Please be aware that this limit is to text. Any drawings, diagrams or screen prints embedded into the response will not be included within the page limit.

Responses to each question should be completed on separate documents. Once the response has been completed, it should be saved in the naming format indicated below for that question. Please ensure when you upload your response to ProContract, that you attach your document for each of the questions below.

Where your company does go over the page limits indicated for each question, the Council at its sole discretion may choose to either reject or accept additional pages of responses. This is at the sole discretion of the Council and suppliers are encouraged to ensure that they remain within the page limits set for each question.

Question Weightings

The quality questions will be evaluated, scored and the weightings applied to each evaluation criteria question outlined in the Supplier Information document.
