

## 1718-0173 Supported Living Services for Adults with Learning Disabilities

### Important information – please read

**\*\*\* Please note \*\*\***

This requirement is not suitable for recruitment consultants/agencies.

This is not a domiciliary care contract.

The requirement is for learning disability support providers only, not organisations that supply staff.

We are currently at the selection stage (not the invitation to tender stage). At this stage, organisations are applying to be accepted to the DPS only, they are not tendering for any contract.

### **The only document you need to complete and submit at this stage is the selection questionnaire (SQ).**

Other documents have been provided for information only at this stage.

Before completing the SQ document, please ensure that you read the documents issued for information only to assess whether or not this opportunity is suitable for your organisation.

You will only need to complete the other documents if you are admitted to the DPS and invited to tender for a specific contract under this DPS system.

In order to apply to be admitted to the DPS the only document you need to complete and submit is the document called “**002 SQ 1718-0173 AMENDED 20180126**”.

All the documents that have a prefix of “ITT” and then a number in the title (e.g. “ITT3 LD SL Service Spec”) are the documents that will be issued with an invitation to tender for a specific contract opportunity. These have been published for information only at this stage.

If you are successful at the SQ stage and accepted on the DPS, you will be notified when any suitable contract opportunities arise for your organisation. At this point, an invitation to tender (ITT) will be issued.

We hope this clarifies this stage in the process.
