Notes:

Doors to be held closed and released on fire alarm or on manual override (break glass).

Fire signage requirements to be confirmed separately further to Fire Officer/BCO advice.

Existing access control system to be extended/altered to include all new doors.

Any increased security measures with respect to access control system to be advised by client.

GENERAL NOTES

- All EWA drawings and outline specification produced to form part of Employers Requirements package of information on behalf of Merseytravel.
- Drawings to be read in conjunction with Futureserv's M&E Performance Specification and drawing information.
- Outline and performance specification information included subject to final confirmation from client.
- Contractor to produce shop drawings for Ticket Desk installations with information regarding material specification and construction subject further confirmation.
- With formal Building Control input yet to be received, information may require further review/amendment subject to detailed BCO comment.
- Shopfit works to adjacent unit (to be occupied by tenant Greggs) to be undertaken separately and do not form part of these works. Any potential overlap with mechanical/electrical installation to be advised as early as possible.
- Merseytravel to continue to operate existing Ticket Sales area whilst work is ongoing. Contractor to allow for full-height internal hoarding to works area, with hours of work, site access and power supply to be agreed.
