

## **Appendix 1.1 - Specification - Lot 1 (Bournemouth Residual Waste)**

- 1.1. This contract is for the treatment / disposal of the following residual waste streams collected from Bournemouth
  - 1.1.1. Domestic kerbside refuse
  - 1.1.2. Litterbins
  - 1.1.3. Commercial waste collections
- 1.2. Bidders note that residual waste collected in Christchurch forms a separate lot for this contract. However, bidders may choose to bid for both lots.
- 1.3. Bidders note that residual waste collected in Poole is contracted separately and is therefore out of scope for the duration of this contract.
- 1.4. Residual waste collected by the Council from households, litterbins and the commercial waste rounds will normally be tipped at the Contractor's site in 26 tonne refuse collection vehicles or similar.
- 1.5. The waste is classified as 20 03 01 as per the European Waste Catalogue code.
- 1.6. Estimate of tonnages collected for each stream during 2019/20. This is for indicative purposes only. It is expected that tonnages will continue to be of similar levels during this contract as no major alterations to operations are currently envisaged. However, if any major changes would be required then both parties shall agree and complete a variation to the contract.

<b>Residual Waste Stream</b>	<b>Annual Tonnage Estimate</b>
Domestic Kerbside	34,875
Litterbins	1,272
Commercial Waste Collection Rounds	4,228
