

**DATE** 16<sup>th</sup> MARCH 2023 ~~2022~~

(1)

**THE DISTRICT COUNCIL OF FOLKESTONE AND HYTHE**

- and -

(2)

**SWALE HEATING LIMITED**

---

**CONTRACT FOR THE PROVISION OF  
DOMESTIC GAS, SOLID FUEL & NON-GAS HEATING SERVICING, REPAIRS,  
MAINTENANCE AND INSTALLATIONS**

---

**THIS CONTRACT** is made the 16 day of MARCH 2023 ~~2022~~

**BETWEEN**

- (1) **THE DISTRICT COUNCIL OF FOLKESTONE AND HYTHE** of the Civic centre, Castle Hill Avenue, Folkestone CT20 2QY ("**the Employer**") **AND**
- (2) **SWALE HEATING LIMITED** (company registration no. 1076034) whose registered office is at Heard Way, Eurolink Industrial Estate, Sittingbourne, Kent ME10 3SA ("**the Contractor**")

(hereinafter collectively called "**the Parties**" and independently called "**the Party**")

**WHEREAS**

The Employer wishes certain works to be provided, namely the provision of domestic Gas, Solid Fuel & Non-Gas Heating Servicing, Repairs, Maintenance and Installations ("**the Works**") and has accepted a tender from the Contractor dated 22 September 2022 for the provision of the Works

**IT IS HEREBY AGREED** as follows:

1. This Contract incorporates the following Contract Documents and constitutes the entire agreement between the Parties relating to the Works:
  - This Contract including the Conditions of Contract attached hereto together with the Schedule of Amendments to the JCT Measured Term Contract 2016 Edition attached hereto ("**Schedule of Amendments**"), which Schedule of Amendments shall prevail over any of the other documents listed below in the event of conflict between those documents and the Schedule of Amendments;
  - the Recitals, Articles, Contract Particulars and the Conditions of the JCT Measured Term Contract 2016 as construed by the Conditions of Contract and amended by the Schedule of Amendments;
  - The Contract Specification contained at Schedule 1 of this Contract:

- The Framework Agreement namely the South East Consortium Heating & Compliancy Management Framework (OJEU Ref 2019S 115-282443)
- The Contractor's Tender Document and Clarifications as contained in Schedule 2 of this Contract

And the Contract Documents shall have priority in the order set out above.

2. In consideration of the payments to be made by the Employer to the Contractor in accordance with Clause 4 of this Contract, the Contractor agrees to deliver the Works in compliance in all respects with the provisions of this Contract.
3. The Employer hereby appoints the Contractor as Principal Contractor for the Works for the purposes of regulation 14 of the Construction (Design and Management) Regulations 2015 ("CDM").
4. Without prejudice to the Contract Documents, the Contractor agrees indemnify and hold harmless the Employer against any liability which the Employer may incur to any person whatsoever and against any claims, demands, costs and/or expenses sustained, incurred or payable by the Employer to the extent that the same arises by reason of any breach of this Contract or an instruction or any tortious or negligent act or omission on the Contractor's part (and/or any third party to whom the Contractor has subcontracted the performance of the Contractor's obligations or part thereof) in the performance of the Contractor's obligations under and in connection with this Contract.
5. Nothing in the Contracts (Rights of Third Parties) Act 1999 shall entitle a person who is not a party to this Contract to enforce any term of the Contract.
6. For the avoidance of doubt the provisions of this Contract shall be construed and interpreted according to the laws of England and for the purpose of any steps to be taken by the Employer to enforce the Contractor's obligations under this Contract or any of them the Contractor hereby submits to the jurisdiction of the Courts of Law of England.

**IN WITNESS** whereof the Parties have executed this Contract as a Deed the day and year above written

**THE COMMON SEAL** of  
**THE DISTRICT COUNCIL OF FOLKESTONE AND HYTHE**  
was hereunto affixed in the presence of:

**EXECUTED AS A DEED** by  
**SWALE HEATING LIMITED** acting by:

<b>Director</b>		
<b>Director/ Company Secretary</b>		

## CONDITIONS OF CONTRACT

The Form of Contract in respect of the provision of Gas, Solid Fuel & Non-Gas Heating Servicing, Repairs, Maintenance and Installations Services shall be the **JCT Standard Form of Measured Term Contract 2016 Edition** as amended by this Contract

The Employer shall be:

**THE DISTRICT COUNCIL OF FOLKESTONE AND HYPHE** of the Civic Centre, Castle Hill Avenue, Folkestone, Kent CT20 2QY

The Contractor shall be:

**SWALE HEATING LIMITED** (company registration no. 1076034 whose registered office is at

Heard Way Eurolink Industrial Estate Sittingbourne Kent ME10 3SA

The Contractor shall enter into the Contract with the Employer executed as a Deed

The Recitals, Articles and Contract Particulars of the JCT Standard form of Measured Term Contract 2016 edition shall be incorporated in to this Contract and shall be construed in accordance with the following:

1<sup>st</sup> Recital: The Employer requires maintenance, repairs, servicing, installation and the issue of Landlord's Gas Safety Certificates to domestic Gas and Renewable Technology Appliances and Heating systems to be carried out to the properties owned by the Employer as listed in the Asset List ("the Contract Area") in accordance with the details set out or referred to in the Contract Particulars

Article 2: Article 2 of the JCT Standard Form of Measured Term 2016 Edition shall be delete

Article 3: The Contract Administrator shall be [REDACTED] Compliance Specialist of Folkestone & Hythe District Council, Civic Centre, Castle Hill Avenue, Folkestone, Kent, CT20 2QY

or, if she ceases to be the Contract Administrator, such other person as the Employer nominates in accordance with clause 3.10 of the Conditions.

Article 4: The Principal Designer for the purposes of this Contract shall be the Contractor

or such other person as the Employer at any time appoints to fulfil that role either in relation to all Orders or for specific Orders

Article 5: The Principal Contractor for the purposes of the CDM Regulations shall be the Contractor

or such other contractor as the Employer at any time appoints to fulfil that role either in relation to all Orders or for specific Orders

Article 9: New Article 9 shall be added as follows:  
Modifications. The Articles of Agreement and the Conditions shall have effect as modified by the Employer's Schedule of Amendments attached hereto.

## Contract Particulars

Item	Insertion
1.1 List of Properties in the Contract Area (first Recital)	Properties owned and managed as listed in the Asset List
1.2 Description of types of work	provision of domestic Gas & Non-Gas Heating Servicing, Repairs, Maintenance and Installations

6 Minimum Value of any one Order  Maximum Value of any one Order	Minimum Value: £50 + VAT per order  No Maximum Value of any one Order
7 Approximate anticipated Value of work to be carried out under this Contract	Servicing and maintenance - £255,500.00 ( <i>two hundred and fifty five thousand, five hundred pounds</i> ) New installations - £649,330.00 ( <i>six hundred and forty nine thousand, three hundred and thirty pounds</i> ) per annum
8 Priority coding for Orders (Clause 2.6)	Priority coding as follows: A (breakdowns) Within 4 hours to undertake such work as is required for Security, Safety and Health, otherwise as detailed in Appendix 2 of Appendix A of the Contract Specification B (servicing) As programmed.

Item		Insertion
9	Construction Industry Scheme (CIS) (Clause 4.2)	The Employer at the commencement of the Contract Period is not a 'contractor' for the purposes of the CIS
10	Progress Payments (Clauses 4.3, 4.4 and 4.5) <i>Estimated value of an Order above which progress payments can be applied (If none is stated, it is £2,500)</i>	See clause 4.3 in the Schedule of Amendments – Monthly payments applicable
	Valuation Dates <i>(if no date is stated, the Valuation Date is the last day of each month)</i>	The Valuation Date in each month is the last day of the month and the Application shall be received no later than the 15th day of the following month
11	Responsibility for measurement and valuation (Clause 5.2) <i>(Unless one of the 3 options opposite is selected, the Contract Administrator shall measure and value all Orders)</i>	The Contract Administrator shall measure and value all works to be included in each monthly progress payment
12.1	Schedule of Rates (Clauses 5.3, 5.6.1 and 5.6.2)	Contractor's tendered schedule of rates contained in Schedule 2
	The Schedule of Rates is  subject to adjustments of the rates listed in that Schedule by the	
	of the Adjustment Percentage which is	not applicable
12.2	Where the Schedule of Rates is the National Schedule of Rates the version(s) identified opposite are to apply	not applicable
12.3	Rates – Fluctuations Clause 5.6.1 <i>(Unless "applies" is deleted, the clause shall be deemed to apply)</i>	

**Item**

**Insertion**

12.4 Basis and dates of revision  
(Not applicable where National Schedule of Rates applies)

Where clause 5.6.1 applies, the basis on which the Schedule of Rates is to be revised under clause 5.6.1.2

*(If no basis is identified the rates remain fixed for all Orders)*

is as follows:

the rates tendered shall be subject to fluctuation adjustments based upon the Consumer Price Index ("CPI") (see <http://www.statistics.gov.uk>) with a base date of 1 January each year and annually thereafter for the duration of the Contract Period.

Where clause 5.6.1 applies, the dates as at which the Schedule of Rates is to be revised are:

*(If no other date(s) are specified here or in the document setting out the basis for revision, the date shall be 1 August in each year)*

The first applicable adjustment for rates will be effective from 1 April 2024 with adjustments based on the average of the published CPI figures between 1 January 2023 and 31 December 2023

13.1 Daywork Valuation – percentage additions (Clauses 5.4, 5.6.3 and 5.6.4)

Where not included in or annexed to the Schedule of Hourly Charges, the percentage additions to the invoice price of non-labour items are as follows:

Overheads and profit on Materials 5.0%

Overheads and profit on Plant, Services and Consumable Stores 5.0%

5.0%

Item	Insertion
Overheads and profit on Sub-Contractors	
13.2 Revision of Schedule of Hourly Charges (Clause 5.6.3) <i>(unless "applies" is deleted, the clause shall be deemed to apply)</i>	does not apply
Where clause 5.6.3 applies, the annual revision date (if other than 1 August) is:	
Where clause 5.6.3 applies, the basis of revision of hourly charges (if not set out in the Schedule of Hourly Charges)	
14 Overtime Work (Clause 5.7) The percentage addition in respect of overheads and profit on non-productive overtime rates is <i>(Not applicable where an inclusive rate for such overtime is included in the Schedule of Hourly Charges)</i>	See clause 5.7.4
(Normal working hours are between 8am and 5.30pm Monday to Friday (excluding Public Holidays). No weekend working will be permitted without the written authorisation of the Contract Administrator. All overtime costs shall be the responsibility of the Contractor including evening and Saturday morning appointments unless specifically ordered in writing by the Contract Administrator. All work carried out under 'Emergency' priority code will be paid for using normal working hours rates regardless of when the work is undertaken).	
15 Insurance (Clauses 6.4.1, 6.7A, 6.7B, 6.8 and 6.11)	
15.1 Contractor's Public Liability insurance; injury to persons or	Public Liability: £10,000,000.00 for any one occurrence or series

Item	Insertion
property – the required level of cover is not less than	of occurrences arising out of one event
15.2 Percentage to cover professional fees	15%

*by the Contractor in accordance with  
new clause 3.3.3)*

## **Schedule of Amendments to the JCT Measured Term Contract 2016 Edition**

The Conditions of the JCT Standard form of Measured Term Contract 2016 edition shall be incorporated in to this Contract and shall be amended in accordance with the following:

### **Definitions**

Clause 1.1:

“Contract Documents” - delete the definition and replace with the following words:

“This Contract including the Conditions of Contract attached hereto together with the Schedule of Amendments to the JCT Measured Term Contract 2016 Edition attached hereto (“Schedule of Amendments”), which Schedule of Amendments shall prevail over any of the other documents listed below in the event of conflict between those documents and the Schedule of Amendments;

the Recitals, Articles, Contract Particulars and the Conditions of the JCT Measured Term Contract 2016 as construed by the Conditions of Contract and amended by the Schedule of Amendments;

The Contract Specification contained at Schedule 1 of this Contract;

The Framework Agreement namely the South East Consortium Heating & Compliancy Management Framework (OJEU Ref 2019S 115-282443);

The Contractor’s Tender Document as contained in Schedule 2 of this Contract;

And the Contract Documents shall have priority in the order set out above.”

“Employer” – at the end of the definition, insert the words “and it’s permitted assignees under this Contract”

“Order” – at the end of the definition, add the following wording “including provision of breakdown service and programmed servicing and issue of Landlord’s Gas Safety Certificates.”

Insert the following new Definitions:

“**Asset List**” means the list of assets contained in Appendix C of the Contract Specification

“**Contract Specification**” means the Employer’s contract specification contained at Schedule 1 of this Contract

**“Controller”** is as defined within the Data Protection Legislation

**“Data Protection Impact Assessment”** is as defined within the Data Protection Legislation

**“Data Protection Legislation** - means (i) the Data Protection Act 1998 (“DPA 1998”), (ii) the General Data Protection Regulation (Regulation (EU) 2016/679) (“GDPR”), Law Enforcement Directive (Directive (EU) 2016/680) (“LED”), (iii) the Data Protection Act 2018 (“DPA 2018”) to the extent that it relates to processing of personal data and privacy and (iv) all applicable Legislation about the processing of personal data and privacy;”

**“Data Subject”** is as defined within the Data Protection Legislation

**“Domestic Law”** the law of the United Kingdom or a part of the United Kingdom.

**“Environmental Laws** - any law statute, statutory instrument or legislation of the European Union having effect in the United Kingdom, or circulars, guidance notes and the like issued by the United Kingdom Government or relevant regulatory agencies relating to the protection or pollution of the environment (within the meaning of the Environmental Protection Act 1990)”

**“Force Majeure”** – means:

- a) war, civil war, conflict or terrorist attack arising within and affecting the United Kingdom; and/or
- b) nuclear, chemical or biological contamination of the Provider’s property arising from any of the events at (a) above; and/or
- c) riot, flood or earthquake; and/or
- D) disease, epidemic or pandemic, including Covid-19 (Coronavirus), and/or the taking of any measures to prevent, delay, reduce or otherwise mitigate its spread and/or its effects; and/or
- d) any circumstances beyond the reasonable control of either of the Parties.

**“Hazardous Substances** - any substances which are capable of carrying harm to man or any living organisms supported by the environment (within the meaning of the Environmental Protection Act 1990)”

**“Information Commissioner”** is as defined within the Data Protection Legislation

**“Key Performance Indicators”** or **“KPIs”** – the Key Performance Indicators contained at Appendix B of the Contract Specification

**“Personal Data”** is as defined within the Data Protection Legislation

**“Processor”** is as defined within the Data Protection Legislation

**“Proprietary Material** - all drawings, details, plans, specifications, schedules, reports, calculations and other work, whether in written or electronic form (and any designs, ideas and concepts contained in them) prepared, conceived or developed by or on behalf of the Contractor in connection with this Contract and/or any Order”

“**TUPE Directive**” means Council Directive 2001/23/EC of 12 March 2001 on the approximation of the laws of the Member States relating to the safeguarding of employees’ rights in the event of transfers of undertakings, businesses or parts of undertakings or businesses.

“**TUPE Regulations**” means Transfer of Undertakings (Protection of Employment) Regulations 2006

“**Working Day**” - any day other than Saturday, Sunday and any bank or public holiday and Working Days shall be construed accordingly

“**Data Subject**” is as defined within the Data Protection Legislation, more specifically being the Data Protection Act 2018

### **Reckoning Periods of Days**

Clause 1.4 - Delete all wording and insert as heading “**Reckoning Periods**”. Add as wording “ Where under this contract an act is required to be done within a specified period of calendar days/hours after or from a specified date/time, the period shall begin immediately after that date/time.”

### **Working Day**

Add new clause 1.8 as follows:

Where this contract refers to any period of time stated as “day” or “days”, this shall be amended to read “Working Day” or “Working Days” as appropriate.

### **Contractor’s Obligations**

Clause 2.1 shall be amended as follows - at end of clause insert "When requested to do so by the Employer, the Contractor shall provide the Employer with evidence that he has complied with and given all notices required by the Statutory Requirements."

The following new clauses shall be inserted:

“2.1A The Contractor shall fully carry out the Works using all the reasonable skill, care, expedition and efficiency to be expected of a properly qualified and competent contractor (and to the extent that the Order includes any design to be carried out by the Contractor using all the reasonable skill, care, expedition and efficiency to be expected of a properly qualified and competent architect or other appropriate designer) who is experienced in carrying out work (and preparing designs) of a similar scope, nature and complexity and size to the Order.

2.1B The Contractor shall work in a proper and workmanlike manner and fully in accordance with the Contract Administrator's instructions, any instructions of the Employer, the Contract Documents and other Statutory Requirements and shall give all notices required by the Statutory Requirements.

- 2.1C To the extent that the Order contains any design, the Contractor shall be responsible for carrying out and completing the entire design for the Order.
- 2.1D The Contractor shall take due account of the terms of any agreements between the Employer and third parties as are from time to time disclosed to him and shall perform his obligations under this Contract in such a manner as not to constitute, cause or contribute to any breach by the Employer of his obligations under such agreements and shall indemnify the Employer in respect of any loss and/or damage which he incurs as a result of any breach by the Contractor of this clause where such loss and/or damage arises under such agreements.
- 2.1E The Contractor shall not use, generate, dispose of or transport to the Site any Hazardous Substances otherwise than in accordance with Environmental Laws.”

### **Materials, Goods and Workmanship**

Clause 2.2.1 shall be deleted and replaced by the following new clause 2.2.1:

“The Contractor in carrying out each Order shall not specify or use materials which are generally known at the time of use to be deleterious to health and safety or to durability in the particular circumstances in which they are used and the Contractor shall use materials, goods and workmanship of the quality and standards specified in the Order, or if not so specified, of the quality and standard to be expected of a contractor experienced in works of a like nature to the works set out in the Order. The Contractor warrants to the Employer that he has not specified and will not specify for use nor use in carrying out each Order any substance and/or material which is not in conformity with any relevant British or European Standards or Codes of Practice or which are generally known to the UK construction industry to be deleterious to health and safety or the durability of the Works in the particular circumstances in which it is used or which is not used in accordance with the guidance contained in the BCO publication "Good Practice in the Selection of Construction Materials" current at the date of use.

Clause 2.2.2 shall be deleted and replaced by the following new clause 2.2.2:

“Where and to the extent that the approval of the quality of materials or goods or of the standards of workmanship is a matter for the opinion of the Contract Administrator, such quality and standards shall be to his reasonable satisfaction. No approval, express or implied, by the Contract Administrator shall in any way diminish the Contractor's obligations under this Contract or relieve him from compliance with any of its terms, nor shall any approval of drawings constitute an instruction for, or sanction of, any variations incorporated in it. To the extent that the quality of materials and goods or standards of workmanship are not described in the Order nor stated to be a matter for such opinion or satisfaction, they shall be of a standard appropriate to the relevant work. For the avoidance of doubt the standards of workmanship required pursuant to this clause shall be no less than those set out in British Standard 8000 or any other standard that may be applicable.”

Clause 2.2.4 shall be amended as follows: In line 1 of final paragraph delete "encourage" and insert "procure that the".

Insert new clause 2.2.7 as follows:

"Where any Order so requires, the Contractor shall carry out all and any design works necessitated by any Order. Without prejudice to any express or implied warranties or conditions in respect of such design works the Contractor shall have the like liability to the Employer as would a professionally competent and qualified designer experienced in carrying out designs of a similar nature to that specified in the Order."

### **Rights of Employer**

Clause 2.3.5 - the following words shall be deleted "and the Contractor shall be entitled to a handling charge of 5% on that value. The Adjustment Percentage shall not be applied to that charge".

Clause 2.3.6 shall be deleted and replaced with the following new clause 2.3.6:

"Any materials and/or goods supplied by the Employer for any Order shall be at the sole discretion of the Employer"

### **Value of work to be carried out under this Contract**

Clause 2.5 shall be deleted and replaced with the following new clause 2.5:

"The Employer is not obliged to provide the Contractor with any Orders nor does the Employer give any warranty or undertaking as to the actual amount of work that will be ordered and no variance in the actual value of work ordered shall give rise to a change in any rate, price or percentage adjustment. For the avoidance of doubt, the Employer shall not be liable for any loss of profits, loss of contracts or other costs, expenses or losses suffered or incurred by the Contractor as a result of the Contractor not being awarded any Orders under this Contract."

### **Programme**

Clause 2.7 shall be amended by deleting the words "Nothing in the programme or in any amendment or revision of it shall impose any obligations beyond those imposed by the Contract Documents" and replacing this with the following words:

"The Contractor Administrator shall have 7 days from receipt of the programme to approve or register its disapproval, in writing, of the programme. If the Contract Administrator fails to respond within the 7 days then it shall be deemed to have approved. Provided the Contract Administrator has approved or deemed to have approved the programme, the Contractor shall procure that all of the works carried out in accordance with or under any Order(s) is carried out strictly in accordance with the programme. If the Contract Administrator has stated to the Contractor that it does not approve of the programme then the Contractor shall resubmit a revised programme to the Contract Administrator for approval and this process shall be repeated until the Contract Administrator has given its written approval to the programme, whereupon

the Contractor shall carry out the works within the order strictly in accordance with such approved programme.”

### **Divergence from Statutory Requirements**

Clause 2.8.2 shall be deleted and replaced with the following new clause 2.8.2:

“Provided the Contractor has provided the written notice specified in clause 2.8.1 then it shall not be liable under this Contract if the work carried out under an Order, does not comply with the Statutory Requirements, but only to the extent that the non-compliance results from the divergence between the Statutory Requirements and either an Order or a Variation that the Contractor has previously advised the Employer of in accordance with clause 2.8.1.”

### **Extension of Time**

Clause 2.10.1 shall be deleted and replaced with the following new clause 2.10.1:

“If, at any time during the course of completing an Order, the Contractor shall establish that the progress of the works under the Order shall have been effected by reason of:

- (i) Force Majeure; or
- (ii) fire, lightning, explosion, storm, tempest, flood, bursting or overflowing of water tanks, apparatus or pipes, earthquake, aircraft or other aerial devices or articles dropped from them, riot or civil commotion or any other risks insured against,

the Contract Administrator shall allow such extension of time as is fair and reasonable in the circumstances upon written application by the Contractor to the Employer and Contract Administrator provided always that such application is made immediately that the Contractor is aware that such delay has or might occur (which written application shall include any documentation the Contractor may wish to provide in support of or justifying its application and the Contractor's assessment of the extension of time it seeks). To the extent that any extension of time is granted, a revised date for completion for the Order shall be fixed by the Contract Administrator and notified to the Contractor.”

Insert new clause 2.10.4 as follows:

"If the Contractor fails to complete any Order by the Order Date for Completion stated therein or within any extended time fixed under this clause 2.10 in respect of that Order or otherwise fails to complete any Order in accordance with this Contract then the Contract Administrator may issue a certificate to that effect and at any time thereafter may employ and pay other persons to execute and complete the work described in such Order. Without prejudice to any rights and remedies the Employer may have under statute, in tort, for breach of contract or otherwise, all costs incurred thereby (including but not limited to administration costs, legal costs associated with any adjudication, mediation or court award, compensation the Employer is required to pay under the Right to Repair regulations, its tenant agreements and resident

compensation policies) may be deducted by the Employer from any monies due or to become due to the Contractor under this Contract or shall be recoverable from the Contractor by the Employer as a debt."

### **Order Completion Date**

Insert new clause 2.11.3:

"If the Contract Administrator is required to attend any Property for the purposes of assessing whether or not an Order has been completed in accordance with this Contract on more than two occasions, then the cost to the Employer of any further attendance by the Contract Administrator shall be borne by the Contractor."

### **Defects**

Clause 2.12 shall be renumbered 2.12.1 and amended by deleting the words "6 months" and substituting with "12 months" and adding the words "and shall commence rectification within 5 days of notification" at the end of the Clause:

Additional Clause 2.12.2:

"In the case of default, the Employer may provide labour and/or materials or enter into a contract to make good such defects and all costs and expenses consequent thereon shall be borne by the Contractor and shall be recoverable from the Contractor by the Employer either by offsetting against monies due on any contract with the Employer or by directly invoicing the Contractor."

### **Assignment**

The clause heading shall be amended from "Assignment" to "Assignment and Novation"

Clause 3.1 shall be deleted and replaced with the following new clauses:

"3.1.1 The Employer may assign or otherwise transfer this Contract or the benefit hereof at any time without the consent of the Contractor. The Contractor hereby consents to the novation of this Contract by the Employer and agrees to enter into such documents as are required to effect such novation. The Contractor shall not assign, novate or otherwise transfer this Contract without the prior written consent of the Employer.

3.1.2 The Contractor undertakes with the Employer not to contend that any person to whom this Contract may be assigned will be precluded from recovering under this Contract any loss resulting from any breach of this Contract either by reason that the person is an assignee and not the original party to this Contract or by reason that the Employer named in this Contract or any intermediate owner of the Employer's interest in the Works shall escape loss resulting from such breach by reason of the disposal of its interest in the Works."

### **Sub-Contracting**

Delete Clause 3.2 and replace with the following clauses:

- “3.2.1 The Contractor shall not sub-contract any works under the Contract without the previous written consent of the Contract Administrator. Such consent shall not be unreasonably withheld or delayed and shall apply to all works except to the extent otherwise stated in that consent.
- 3.2.2 In the event of the Employer agreeing to any assignment under clause 3.1 or sub-contracting under clause 3.2.1, such consent shall not relieve the Contractor from any liability or obligation under this Contract and the Contractor shall be responsible for the acts, defaults and negligence of any assignee or sub-contractor, his or its agents, servants or employees.”

### **Contractor’s Representative**

Clause 3.3 shall be deleted in its entirety and replaced by the following new clause 3.3:

- “3.3.1 The Contractor shall appoint a competent Contractor’s Representative (as defined in item 18 of the Contract Particulars) for the proper administration of this Contract.
- 3.3.2 The Contractor’s Representative shall have suitable and sufficient qualifications and experience to carry out this function and shall be the representative empowered to act on behalf of the Contractor for all purposes connected with the Contract.
- 3.3.3 The Contractor’s Representative shall be the person named in the Contract Particulars or such other person nominated in writing by the Contractor from time to time to act in the name of the Contractor for the purposes of the Contract.
- 3.3.4 From time to time the Contractor may appoint one or more representatives to act for the Contractor generally or for specified purposes or periods. Immediately any such appointment is made or terminated, the Contractor shall give written notice thereof to the Employer and until such notice is received the Contractor shall be under no obligation to comply with any instruction issued by such representative.
- 3.3.5 Any Order, notice, information, instruction or other communication given to the Contractor’s Representative shall be deemed to have been given to the Contractor.

Additional Clause 3.4.4:

“The Contract Administrator or their representative shall have at all times access to the Site or other places off-site where materials or equipment are being stored or prepared for the works.”

### **Variations**

#### Additional Clause 3.5.5:

“The Contract and/or the Contract Documentation may be varied to consider changing requirements of the Client, provided that they are fair and reasonable and appropriate to the works. Such changes must be made in writing (or by email) by notice to the Contractor and will be deemed to be accepted if no response to the contrary is received within 14 days of the date of notification. If such a variation affects the rates being used at the time of the variation, then revised rates will be agreed by the parties. If such agreement cannot be reached, then the Contract Administrator will determine what an appropriate revision would be on a fair and reasonable basis.

All variations to the properties and appliances included within the service and repair element of the works will be confirmed in writing (or by email) and will be divided into two types, namely, “Property and Appliance Variations” and “Additional Works Variations”. Details of these variations are described in a) and b) as follows.

As properties for inclusion on any heating installation or replacement program are not yet defined these will be added and omitted to any confirmed program or added and omitted as “one offs” as necessary. Any variation to the standard system types will be agreed and confirmed in writing as such occurs.

##### a. Property and Appliance Variations

"Property and Appliance Variations" are where a property and or any appliance, ancillary appliance and/or associated system contained therein is added or deleted from the property and appliance schedule.

For domestic properties payment or deduction will be made at a pro rata amount of the annual rate unless service and/or safety inspection work is due or already completed in which case the full annual amount will be paid. All such variations and payment adjustments will occur from the beginning of the month in which they occur.

##### b. Additional Works Variations

"Additional Works Variations", where the Contractor is required to carry out works, which are deemed by the Contract Administrator to be within the scope of Appendix 4 and 5. Subject to completion the payments for such variations and works will be made on the next available valuation.”

### **Cancellation of an Order**

#### Additional Clause 3.6.3:

“The provisions of clauses 3.6.2.1 and 3.6.2.2 do not apply where scheduled works or an Order for works is cancelled before any physical works have commenced.”

### **Exclusion from Site**

Clause 3.7 shall be amended by inserting the following sentence at the end of the clause:

“The Contractor shall then ensure that such person is immediately excluded from the Site.”

### **Additional Employer’s Rights and Remedies**

Additional Clause 3.11:

“Where the Contractor’s performance significantly and consistently fails to meet the required targets or Key Performance Indicators (KPI’s) and the Contractor has not proposed acceptable remedial measures in respect of such failings within 28 days of being requested by the Contract Administrator in writing to do so, or the Contractor indicates that their current workload will not enable them to complete within targets, the Employer may award work to other contractors. Where works are awarded to other contractors, it will be measured and valued using fair and reasonable tendered rates. Should this incur additional costs to the Employer, the Employer reserves the right to charge the Contractor the extra-over cost plus 10% administration costs.”

### **Progress Payment**

Clause 4.3 shall be deleted and replaced with the following new clause:

#### **“Monthly Payment**

Payments shall be made on a per calendar month basis and shall include all Orders completed in the previous calendar month that have been agreed as completed by the Contract Administrator and shall form part of the Contractor’s monthly payment application in accordance with clause 4.5.1.”

### **Payment Application**

Clause 4.5.1 shall be amended by inserting the words “Subject to clause 4.3” at the beginning of the clause.

### **Payments – final date and amount**

Clause 4.6.1 to be removed entirely.

Clause 4.6.2 to be deleted and the following clause shall be inserted:

“Subject to any notice given by the Employer under clause 4.6.5., the Employer shall pay the sum stated as due in the relevant certificate following receipt of the Contractor’s VAT invoice, within 14 days of receipt of the certificate, in the sum described on the certificate.

Any such invoices submitted will be subject to approval by the Contract Administrator prior to these being passed for payment by the Employer.

The Employer shall pay any such properly due invoice within 30 days of receipt of the invoice.”

## **Damages**

Add the following as an additional Clause 4.8 Damages

“Damages will be imposed by the Employer for defaults in performance of the Contractor in accordance with the requirements and standards of the “Right to Repair Regulations”, the Employer’s compensation policy and as below.

Damages may be rendered in one of the following two methods:

- 1) When damages occur the Contract Administrator shall submit a damages account to the Contractor on a monthly basis and the Contractor Administrator will show this amount as a credit on the next available monthly valuation; or
- 2) The Contract Administrator may also instruct the Contractor to pay direct to the Tenant an amount appropriate for the breach of contract affecting the service to that tenant.

Damages will be levied according to compensation levels of the “Right to Repair Regulations”, or as follows:

1. Failure to keep an appointment with the Contract Administrator or a tenant.
2. Visit carried out by the Contract Administrator as a consequence of a substantiated tenant’s complaint.
3. For each substantiated complaint regarding standard of workmanship or conduct of the Contractor.
4. Identification of substandard work by the Contract Administrator per occurrence.
- 5a. Failure to complete any work within the prescribed time scales (cost per day) excluding void works.
- 5b. Failure to complete work within prescribed timescales: weekly rental for each full and part week.
6. Application of an administration fee by the Contract Administrator if any additional works request is found to be unsubstantiated.
7. Compensation to tenants other than that listed in 1 to 6 above will be in accordance with the employer’s Compensation Policy as prevailing at the time of the complaint.

The above amounts to be paid out will be discussed during the mobilisation meetings”

## **Valuation – day work**

Clause 5.4.2 shall be amended by inserting the words “and any other evidence required by the Employer.” at the end of the clause.

## **Derived Rates**

Clause 5.5 shall be deleted and replaced by the following new clause 5.5:

“5.5.1 Where the rates or prices in the Schedule of Rates do not apply or where there is no applicable all-in labour rate in the Schedule of Hourly Rates, as the case

may be, the value shall be decided by the Contract Administrator and shall be based upon such rates or prices as may fairly be deducted therefrom, rates and prices deducted from the Schedule of Rates being subject to adjustment by the Adjustment Percentage.

5.5.2 If it is not practicable or would not be fair and reasonable to apply the rates or prices in the Schedule of Rates or Schedule of Hourly Charges or to deduce rates or prices therefrom, the value shall be ascertained on a fair and reasonable basis by the Contract Administrator after consultation with the Contractor.”

## **Overtime**

Additional Clause 5.7.4:

“Where the Contractor wishes to work outside normal working hours, he must first obtain the permission of the Contract Administrator and the person in charge of the premises. In these circumstances no additional or enhanced payments will be made.”

## **Liability of the Contractor – personal injury or death**

Clause 6.1 shall be amended by inserting the words “or of any obligation pursuant to clause 2.12,” in the third line after the word “Order” and before the word “except”.

## **Liability of the Contractor – injury or damage to property: nuisance**

Clause 6.2 shall be amended by inserting the words “or of any obligation pursuant to clause 2.12” in the fourth line after the word “Order” and before the word “and”.

The following words shall be inserted at the end of clause 6.2:

“The Contractor shall at all times reasonably prevent any public or private nuisance (including without limitation any such nuisance caused by noxious fumes, noisy working operations or the deposit of any materials or debris on the public highway) or other interference with the rights of any adjoining or neighbouring landowner, tenant or occupier or any statutory undertaker arising out of an Order or of any obligation pursuant to clause 2.12 and shall defend or, at the Employer's option, assist the Employer in defending any action or proceedings which may arise as a result of any breach by the Contractor of its obligations under this Contract.”

## **Contractor’s Insurance and his Liability**

Additional clause: 6.4.3

“Without limiting his other obligations under the Contract or otherwise at law, the Contractor shall maintain professional indemnity insurance of not less than £2,000,000 (TWO million) in respect of each and every claim.”

## **Related Definitions**

Under clause 6.6, the definition of “Joint Names Policy” shall be amended by inserting the words “and any funder or other third party as the Employer may require” after the word “Contractor” and before the word “as”.

Additional clause 6.15

“The Contractor shall ensure so far as is reasonably practicable the health, safety and welfare at work of his employees and shall conduct his undertakings in such a way as to ensure that persons other than his employees who may be affected by his operations are not exposed to risks to their health or safety and shall in all respects perform all his duties under the Health and Safety at Work etc. Act 1974 and all Health and Safety Regulations made thereunder.”

### **Collateral Warranties and Copyright**

Insert new clause 7A as follows:

#### **“Contractor Warranties in favour of others**

7A1 If required by the Employer, the Contractor shall execute and deliver to the Employer deeds of collateral warranty in favour of any purchaser and/or any funder in a form as agreed by the Employer and in each case such deed to be procured and provided to the Employer within 14 days of the Employer's written request to do so. If the Contractor fails to deliver any deed of warranty validly requested under this clause 7A.1 within 14 days of the Employer's request, the Employer may withhold any payment or further payment (as the case may be) which would otherwise be due to the Contractor under this Contract until such deed of warranty is delivered.

#### **Sub-contractor Warranties**

7A2 If required by the Employer, the Contractor shall procure that all sub-consultants and sub-contractors appointed to carry out any work shall provide to the Employer a deed of collateral warranty in favour of the Employer and/or any purchaser and/or any funder in the form contained at Appendix I of the Contract Specification or as otherwise agreed by the Employer with such amendments as are required to account for the warrantor being either a sub-contractor or sub-consultant, and in each case such deed to be procured and provided within 14 days of the appointment of the sub-consultant or sub-contractor or of the Employer's written request as relevant together with a certified copy of the relevant completed appointment document.

#### **Copyright Licence**

7A3 The copyright in the Proprietary Material shall remain vested in the Contractor, but the Contractor grants to the Employer an irrevocable royalty-free non-exclusive licence to use and to reproduce any or all of the Proprietary Material for any purpose connected with this Contract and/or any Order, including

(without limitation) the execution, completion, maintenance, letting, occupation, management, sale, advertisement, extension, alteration, reinstatement and repair of any works carried out under this Contract and/or any Order."

### **Default by Contractor**

Additional Clause 8.4.1.3:

"fails to comply with any of his obligations including all of the Contractor's obligations contained within the Council's Tender Documents and/or the Contractor's priced Schedule of Rates in respect of this Contract."

Insert new clauses 8.4.2.1 and 8.4.2.2 as follows:

"8.4.2.1 Where the Contractor receives notice under clause 8.4.1 that it has failed to perform the works in accordance with the Contract Documents, the Employer may, without prejudice to any other remedy it may have:

- (i) request from the Contractor that, at the Contractor's own expense and as specified by the Employer, it reschedules and carries out the works in a manner satisfactory to the Employer, which may include rectifying completed works or repeating the provision of any of the works within such period as the Employer may specify by such written notice; and/or
- (ii) withhold or reduce payments to the Contractor, as the Employer shall reasonably deem appropriate in each particular case; and/or
- (iii) request that the Contractor pay or allow to the Employer liquidated damages at the rate stated in the Contract Particulars between the specified date for completion and the actual date of completion; and/or
- (iv) employ a third party to carry out and complete the works.

8.4.2.2 Any expenses incurred which are in addition to the cost of the relevant part of the works arising as consequence of suspension of the works or procuring a third party to carry out the works, shall be recovered in full from the Contractor, including any administrative costs reasonably incurred by the Employer."

Renumber existing clauses 8.4.2 and 8.4.3 as 8.4.3 and 8.4.4 respectively.

### **Actions Prior to Adjudication or Arbitration**

Add the following as an additional Clause 9.9 Actions Prior to Adjudication or Arbitration

“In the event that any dispute or difference should arise between the parties it shall; after having attempted to seek a resolution under 9.1, first be referred to the Contract Administrator for determination. The Contract Administrator shall give his decision within 7 (seven) days of the dispute or difference being referred to him.

Should either party be dissatisfied with the determination of the Contract Administrator then both parties shall refer the dispute to Director level within their own organisations to further deliberate and conclude a decision.

Should an agreement not be reached; the parties may refer the dispute to adjudication or arbitration.”

### **Prevention of Bribery and Corruption**

Insert new Section 10 to the JCT Conditions of Contract as follows:

“10.1 The Employer may terminate this contract and recover all its losses if the Contractor (or its personnel):

- (a) fails to comply with all applicable laws, statutes, regulations, and codes relating to anti-bribery and anti-corruption including but not limited to the Bribery Act 2010; and
- (b) engages in any activity, practice or conduct which would constitute an offence under, section 1, 2, and 6 of the Bribery Act 2010 if such activity, practice or conduct had been carried out in the UK; or
- (c) engages in any activity, practice or conduct which would constitute an offence under Section 117(2) of the Local Government Act 1972 and any amendment thereto or any subsequent Statutory Requirements or under Statutory Requirements creating offences in respect of fraudulent acts or at common law in respect of fraudulent acts in relation to this Contract or any other contract with the Employer; or
- (d) defraud or attempt to defraud or conspire to defraud the Employer.”

“10.2 The Contractor warrants and undertakes to the Employer that:

10.2.1 it will comply with applicable laws, regulations, codes and sanctions relating to anti-bribery and anti-corruption including but not limited to the Bribery Act 2010 and will not give any fee or reward the receipt of which is an offence under sub-section (2) of Section 117 of the Local Government Act 1972;

10.2.2 it will procure that any person who performs or has performed services for or in its behalf (“Associated Person”) in connection with this Contract complies with this clause and subject to the JCT Form of Contract to be used;

10.2.3 it will not enter into any agreement with any Associated Person in connection with this Contract, unless such agreement contains undertakings on the same terms as contained in this clause and subject to the JCT Form of Contract to be used;

10.2.4 it has and will maintain in place effective accounting procedures and internal controls necessary to record all expenditure in connection with the Contract;

10.2.5 from time to time at the reasonable request of the Employer it will confirm in writing that it has complied with its undertakings under clauses 10.2.1 to 10.2.4 and will provide any information reasonably requested by the Employer in support of such compliance;

10.2.6 it shall notify the Employer as soon as practicable of any breach of any of the undertakings contained within this clause of which it becomes aware.

## **Freedom of Information**

Insert new Section 11 to the JCT Conditions of Contract as follows:

“11.1 The Contractor acknowledges that the Employer is subject to the requirements of the Freedom of Information Act 2000 (the “**2000 Act**”) and Environmental Information Regulations and agrees to use all reasonable endeavours to assist the Employer (at the Contractor’s expense) to comply with its obligations imposed under those provisions.

11.2 The Contractor shall process Information produced in the performance of the Contract or relating to the Contract in accordance with a records management system which complies with the Lord Chancellor’s code of practice for the keeping and management of records under section 46 of the 2000 Act.

11.3 Subject to Clause 11.6, the Contractor shall and shall procure that its sub-contractors shall:

11.3.1 transfer any Request for Information (as defined in the 2000 Act) received by the Contractor or its sub-contractors to the Employer promptly and, in any event, within two Working Days of its receipt;

11.3.2 provide the Employer with a copy of all Information belonging to the Employer in its possession or power, which has been requested in the Request for Information in the form that the Employer requires within 5 Working Days of the Employer’s request for such Information (or such other period as the Employer may reasonably specify), including such information as the Employer may require in order to comply with the Employer’s Publication Scheme (<https://www.folkestone-hythe.gov.uk/your-council/council-information/publication-scheme>);

- 11.3.3 provide all necessary assistance as reasonably requested by the Employer to enable the Employer to respond to a Request for Information within the time for compliance prescribed by section 10 of the 2000 Act;
- 11.3.4 not respond directly to a Request for Information or disclose or release Information without the prior written authority of the Employer.
- 11.4 Subject to Clause 11.6, the Employer shall be responsible for determining, in its absolute discretion, whether:
  - 11.4.1 Information relating to a Request for Information is exempt from disclosure under the 2000 Act or the Environmental Information Regulations;
  - 11.4.2 any Information is to be disclosed in response to a Request for Information.
- 11.5 The Contractor acknowledges that the Employer may be obliged under the 2000 Act or the Environmental Information Regulations to disclose Information:
  - 11.5.1 without consulting the Contractor; or
  - 11.5.2 following consultation with the Contractor and having taken its views into account.
- 11.6 Where the 2000 Act applies to the Contractor (by virtue of an order made under section 5 of the 2000 Act or otherwise), the Contractor shall:
  - 11.6.1 comply with the 2000 Act and any associated Statutory Requirements and codes of practice (including (without limitation) the Secretary of State's and Lord Chancellor's codes of practice issued under sections 45 and 46 of the 2000 Act); and
  - 11.6.2 where the Contractor receives a Request for Information from a third Party under the 2000 Act which relates to the Employer and / or this Contract:
    - 11.6.2.1 inform the Employer about the Request for Information and the nature of the Information being sought as soon as reasonably possible;
    - 11.6.2.2 consider and apply all lawful exemptions provided under the 2000 Act to withhold Information sought in terms of the Request for Information;
    - 11.6.2.3 consult with the Employer prior to the disclosure of any such Information; and

11.6.2.4 keep the Employer informed about the Contractor's progress in dealing with any Request for Information and where requested by the Employer, provide the Employer with copies of any correspondence and documents relating to the Request for Information.

11.7 The Contractor shall indemnify the Employer against all claims and proceedings and all liabilities, losses, costs and expenses incurred in connection therewith by the Employer as a result of any breach of this Clause 11 by the Contractor, the Contractor's personnel, sub-contractors or agents.

11.8 The Contractor acknowledges that the definition of Confidential Information is indicative only and that the Employer may be obliged to disclose Confidential Information pursuant to the Environmental Information Regulations or the 2000 Act."

## **Data Processing**

Insert new Section 12 to the JCT Conditions of Contract as follows:

"12.1 Both Parties will comply with all applicable requirements of the Data Protection Legislation. This Clause 12 is in addition to, and does not relieve, remove or replace, a Party's obligations or rights under the Data Protection Legislation.

12.2 The Parties acknowledge that for the purposes of the Data Protection Legislation, the Employer is the Controller and the Contractor is the Processor. Appendix F of the Contract Specification sets out the scope, nature and purpose of processing by the Contractor, the duration of the processing and the types of Personal Data and categories of Data Subject.

12.3 Without prejudice to the generality of Clause 12.1, the Employer will ensure that it has all necessary appropriate consents and notices in place to enable lawful transfer of the Personal Data to the Contractor for the duration and purposes of this Contract.

12.4 Without prejudice to the generality of Clause 12.1, the Contractor shall, in relation to any Personal Data processed in connection with the performance by the Contractor of its obligations under this Contract:

- (a) process that Personal Data only on the documented written instructions of the Employer which are set out in Appendix F of the Contract Specification unless the Contractor is required by Domestic Law to otherwise process that Personal Data. Where the Contractor is relying on Domestic Law as the basis for processing Personal Data, the Contractor shall promptly notify the Employer of this before performing the processing required by Domestic Law unless the Domestic Law prohibits the Contractor from so notifying the Customer;

- (b) ensure that it has in place appropriate technical and organisational measures (as defined in the Data Protection Legislation), reviewed and approved by the Employer, to protect against unauthorised or unlawful processing of Personal Data and against accidental loss or destruction of, or damage to, Personal Data, appropriate to the harm that might result from the unauthorised or unlawful processing or accidental loss, destruction or damage and the nature of the data to be protected, having regard to the state of technological development and the cost of implementing any measures (those measures may include, where appropriate, pseudonymising and encrypting Personal Data, ensuring confidentiality, integrity, availability and resilience of its systems and services, ensuring that availability of and access to Personal Data can be restored in a timely manner after an incident, and regularly assessing and evaluating the effectiveness of the technical and organisational measures adopted by it);
- (c) not transfer any Personal Data outside of the UK unless the prior written consent of the Employer has been obtained and the following conditions are fulfilled:
  - (i) the Employer or the Contractor has provided appropriate safeguards in relation to the transfer;
  - (ii) the Data Subject has enforceable rights and effective remedies;
  - (iii) the Contractor complies with its obligations under the Data Protection Legislation by providing an adequate level of protection to any Personal Data that is transferred; and
  - (iv) the Contractor complies with the reasonable instructions notified to it in advance by the Employer with respect to the processing of the Personal Data;
- (d) notify the Employer immediately if it receives:
  - (i) a request from a Data Subject to have access to that person's Personal Data;
  - (ii) a request to rectify, block or erase any Personal Data;
  - (iii) receives any other request, complaint or communication relating to either Party's obligations under the Data Protection Legislation (including any communication from the Information Commissioner);
- (e) assist the Employer in responding to any request from a Data Subject and in ensuring compliance with the Employer's obligations under the Data Protection Legislation with respect to security, breach notifications, impact assessments and consultations with supervisory authorities or regulators;
- (f) notify the Employer without undue delay on becoming aware of a Personal Data breach including without limitation any event that results, or may result, in unauthorised access, loss, destruction, or alteration of Personal Data in breach of this Contract;

- (g) at the written direction of the Employer, delete or return Personal Data and copies thereof to the Customer on termination or expiry of the Contract unless required by Domestic Law to store the Personal Data;
  - (h) maintain complete and accurate records and information to demonstrate its compliance with this Clause 21 and allow for audits by the Employer or the Employer's designated auditor and immediately inform the Customer if, in the opinion of the Contractor, an instruction infringes the Data Protection Legislation.
- 12.5 The Contractor shall provide all reasonable assistance to the Employer in the preparation of any Data Protection Impact Assessment prior to commencing any processing. Such assistance may, at the discretion of the Employer, include:
- (a) a systematic description of the envisaged processing operations and the purpose of the processing;
  - (b) an assessment of the necessity and proportionality of the processing operations in relation to the Works;
  - (c) an assessment of the risks to the rights and freedoms of Data Subjects; and
  - (d) the measures envisaged to address the risks, including safeguards, security measures and mechanisms to ensure the protection of Personal Data.
- 12.6 The Contractor shall indemnify the Employer against any losses, damages, cost or expenses incurred by the Employer arising from, or in connection with, any breach of the Contractor's obligations under this Clause 12.
- 12.7 Where the Contractor intends to engage a Sub-Contractor and intends for that Sub-Contractor to process any Personal Data relating to this Contract, it shall:
- (a) notify the Employer in writing of the intended processing by the Sub-Contractor;
  - (b) obtain prior written consent from the Employer to the processing;
  - (c) enter into a written agreement incorporating terms which are substantially similar to those set out in this Clause 12.
- 12.8 The provisions of this clause shall apply during the continuance of the Contract and indefinitely after its expiry or termination."

### **Equal Opportunities, Unlawful Discrimination and Human Rights**

Insert new Section 13 to the JCT Conditions of Contract as follows:

- “13.1 In the performance of the Works the Contractor shall comply and shall ensure that its employees, agents and sub-contractors comply with the best professional practice in relation to equal opportunities in particular (but not limited to) all relevant Statutory Requirements including the Equality Act 2010, as well as statutory and other official guidance and codes of practice.
- 13.2 The Contractor acknowledges that the Employer has a general duty under the Equality Act 2010 (“the Act”) to have due regard to the need to eliminate unlawful discrimination and promote equality of opportunity carrying out their functions.
- 13.3 The Contractor shall be considered to have the same obligations as the Employer under the Act when providing the Works under this Contract. The Contractor shall comply with the general duty under the Act as set out in Clause 13.2 above and any Codes of Practice issued by the Equality and Human Rights Commission including (but not limited to) the Statutory Code of Practice on Racial Equality in Employment (2006). The Contractor shall be considered to be in breach of this Clause in the event of any non-compliance with the Act and any Codes of Practice.
- 13.4 The Contractor shall adopt the Employer’s own equal opportunities policies and procedures (as the same may be adopted and amended from time to time as notified to the Contractor) to comply with the statutory requirements of the Act and accordingly shall not, when employing persons for the purpose of performing the Works, discriminate on the grounds of race directly, indirectly or by victimisation.
- 13.5 The Contractor shall indemnify the Employer in respect of any costs and legal expenses incurred in defending any action brought by the Equality and Human Rights Commission and/or any third party against the Employer for non-compliance with the Act and/or any Codes of Practice as a result of the breach of this Clause by the Contractor.
- 13.6 The Contractor shall inform the Contract Administrator as soon as becoming aware of any legal proceedings (whether civil or criminal) brought against the Contractor under the Equality legislation or of any judgements, awards, convictions (not spent or exempted under the Rehabilitation of Offenders Act 1974), or settlements arising therefrom, and shall provide the Contract Administrator with such further information and documentation as may be required in relation thereto.”

### **Contractor’s Persons**

Insert new Section 14 to the JCT Conditions of Contract as follows:

- “14.1 The Contractor shall comply with all relevant legislation relating to the Contractor’s Persons however employed including (but not limited to) the compliance in law of the ability of the Contractor’s Persons to work in the United Kingdom.

14.2 The Contractor shall employ sufficient persons to ensure that the works are carried out in accordance with the Contract. The Contractor's Persons engaged in and about the provision of the works shall be properly and sufficiently qualified, competent, skilled and experienced and the Contractor shall ensure that such Persons are properly and continuously trained, sufficiently instructed and adequately supervised with regard to the provision of the works generally and in particular:

- (i) the task or tasks such Persons have to perform;
- (ii) all relevant rules, procedures and statutory requirements concerning health and safety, including the Employer's health and safety policy;
- (iii) all other statutory requirements in connection with the Contract

and the Contractor shall indemnify the Employer against all actions, claims, demands, proceedings, damages, costs, charges and expenses whatsoever in respect of any breach by the Contractor of this Clause 14.

14.3 The Employer shall be entitled to require the Contractor to remove from the performance and carrying out of the Works any of the Contractor's Persons whose behaviour is in the opinion of the Employer negligent, (should it become aware) disruptive, disturbing or likely to cause offence to the Employer or its employees and where the Employer has received a valid complaint.

14.4 The Employer shall in no circumstances be liable either to the Contractor or to any Persons (including its sub-contractors) removed pursuant to clause 14.3 in respect of any cost, expense, liability, loss or damage occasioned by such removal and the Contractor shall fully indemnify the Employer in respect of any claim or proceedings made or brought against the Employer by such Contractor's Persons.

14.5 The Contractor shall engage sufficient suitably qualified personnel to ensure that the Works are provided in all respects to the Contract Specification throughout the Contract Period, including (without limitation) during periods of absence of some members of its personnel due to sickness, maternity leave, personnel holidays, personnel training or otherwise.

14.6 The Contractor shall perform the Works in accordance with the arrangements relating to personnel stated in the Contract Specification.

14.7 The Contractor shall notify the Contract Administrator of any material amendments to the personnel arrangements during the Contract Period whether or not they fall within the provisions of Clause 14.6 above.

14.8 The Contractor shall be responsible for ensuring that personnel engage in and about the provision of the Works only persons who are honest, skilled, competent, diligent, trained and experienced in the work which they are to perform.

- 14.9 The Contractor shall, for the purposes of enabling the Employer and the Contract Administrator to satisfy themselves as to the Contractor's compliance with this Clause 14 maintain at all times accurate and up-to-date records of all personnel who are and who are likely to have any connection with the performance of the Works including attendance records and shall afford the Employer and the Contract Administrator full access to these records upon reasonable notice in writing by the Contract Administrator.
- 14.10 The Contract Administrator shall, on giving notice together with reasons to the Contract Manager or the relevant assistant Contract Manager, have the power to require the Contractor, (but not unreasonably or vexatiously), to remove from the provision of the Works any individual member of the Contractor's personnel or of its sub-contractors including the Contract Manager or an assistant Contract Manager.
- 14.11 The Employer shall under no circumstances be liable either to the Contractor or to its personnel for any cost, expense, liability, loss or damage occasioned by removal under Clause 14 and subject as aforesaid the Contractor shall fully indemnify the Employer in respect of any claim made by the personnel.
- 14.12 For the avoidance of doubt, the Contractor shall at all times be fully and solely responsible under this Contract for the payment of all income or other taxes, national insurance contributions and levies of every kind, relating to or arising out of its employment of any individual after the commencement of the Contract Period and fully indemnifies the Employer against any liability arising as a consequence thereof.
- 14.13 The Contractor will provide details of employee disciplinary and grievance procedures and other policies, which the Employer may request from time to time.
- 14.14 With regard to the Contractor's personnel, including but not limited to full time, part time, temporary, permanent and voluntary personnel and sub-contractors and agents the Contractor undertakes as follows:
- 14.14.1 to ensure that all of the Contractor's personnel are Police checked in accordance with Statutory Requirements (including but not limited to the Care Standards Act 2000) by ensuring all personnel have current Disclosure and Barring Service ("**DBS**") checks in accordance with the Safeguarding Vulnerable Groups Act 2006, Part 5 of the Protection of Freedom Act 2012 and/or Protection of Vulnerable Adults Scheme and that checks are carried out in accordance with Statutory Requirements and the Secretary of State Code of Practice under section 122 of the Police Act 1997 and any amendment thereof;
- 14.14.2 to ensure all personnel (as required) have a current enhanced DBS Certificate of Disclosure including a check against the children's barred list, as appropriate if the Service falls within one of the prescribed purposes under Section 5A of the Police

Act 1997 (Criminal Records) Regulations 2002 and the Rehabilitation of Offenders Act Exceptions Order 1975;

- 14.14.3 DBS checks carried out for the Contractor will be accompanied by written confirmation from the DBS that the Contractor is registered for the purposes of initiating DBS checks or has used an umbrella body which is registered to undertake DBS checks;
  - 14.14.4 to comply with all the requirements operated by the DBS and ensure that all of the Contractor's personnel with unsupervised access to children and/or vulnerable adults are registered and checked as required;
  - 14.14.5 to ensure that all of the Contractor's personnel who have lived or worked abroad for more than three (3) months in the last five (5) years obtain a Certificate of Good Conduct acceptable to the Employer, or similar appropriate document, showing that the individual has not been convicted of any act which would render them inappropriate to work with children and/or vulnerable adults;
  - 14.14.6 to undertake that the Contractor complies with the Employer's Recruitment and Selection and Safer Recruitment policies which are available on the Employer's website as updated from time to time; and
  - 14.14.7 to undertake that the Contractor keeps clear records of every member of the Contractor's personnel, including their employment histories, medical clearances, proof of enhanced DBS checks disclosures, notes of face to face meetings, records of checked references and identity in accordance with the Employer's Recruitment and Section and Safer Recruitment policies.
- 14.15 In relation to previous and spent convictions if the Contractor's personnel are exempt from the application of Section 4 (2) of the Rehabilitation of Offenders Act 1974 by virtue of the exemptions in Section 3 and Schedule 1 and 2 of the Rehabilitation of Offenders Act 1974 Exception (Amendment) Order 1975 or the Offender Rehabilitation Act 2014, the Contractor undertakes it will ensure that all the Contractor's personnel shall provide information in accordance with the said Acts and Order in relation to convictions which would otherwise be spent under the provisions of the said Acts.
- 14.16 The Contractor warrants that at all times for the purpose of this Contract it has no reason to believe that any person who is or will be employed or engaged by the Contractor in the provision of Works is barred from the activity in accordance with the provisions of the Safeguarding Vulnerable Groups Act 2006 and any regulations made thereafter, as amended from time to time

- 14.17 The Contractor shall immediately notify the Contract Manager of any information that is reasonably requests to enable it to be satisfied that the obligations of Clause 14 have been met.
- 14.18 The Contractor shall not employ anyone who is barred from, or previous conduct or records indicate that he/she would not be suitable to carry out a Regulated Activity or may otherwise pose a risk to Users.
- 14.19 The Employer (at its own discretion) may refer any information about any individual to the DBS if the conditions of section 77 of the Safeguarding Vulnerable Groups Act 2006 are met.
- 14.20 The Contractor acknowledges that the Employer is under a duty to assist and provide such information it holds to the DBS where the DBS considers the Employer holds relevant information.
- 14.21 The Contractor shall indemnify the Employer against all claims, proceedings, liabilities, losses, costs, damages and expenses howsoever incurred by the Employer as a result of any breach of this Clause 14 by the Contractor and the Contractor's personnel.
- 14.22 Throughout the Contract Period the Contractor undertakes it will:
- 14.22.1 comply with relevant Safeguarding Adults Board (SAB) and Safeguarding Children's Board (SCB) and Safeguarding Children's Board Multi Agency Procedures or equivalent from time to time in place;
  - 14.22.2 have in place its own safeguarding procedures acceptable to the Employer which will be made available to the Employer and Service Users on demand;
  - 14.22.3 ensure the Contractor's personnel are trained and work in accordance with the Contractor's safeguarding procedures at all times including, where required, attendance at SAB and SCB training sessions; and
  - 14.22.4 ensure that all the Contractor's staff that will be responsible for children on a one to one basis are trained in a method of restraint approved by the Employer and receive up-to-date training every three years.
  - 14.22.5 The Contractor shall adhere to and comply with any guidelines and/or codes of practice issued by the Employer (including but not limited to the Employer's Recruitment and Selection and Safer Recruitment policies) when selecting and/or recruiting employees and volunteers who may have substantial and unsupervised access to children and adults at risk.

- 14.23 The Contractor shall take all reasonable steps to ensure that all persons involved in providing the Service on behalf of the Contractor understand and follow relevant Safeguarding Children Board's guidance and protocols for safeguarding children and young people.
- 14.24 All persons involved in providing the Service on behalf of the Contractor shall co-operate fully with any investigation by the Employer or with any person authorised by the Employer to conduct an investigation into any allegations of abuse against the Contractor's staff.
- 14.25 All allegations, suspicions and incidents of abuse by the Contractor's staff must be followed up promptly. In the event that immediate danger is reasonably likely, urgent action must be taken and emergency services contacted. Details of concerns and actions taken must be recorded and reported to the Employer, and if appropriate, the Police and any regulatory body.
- 14.26 The Contractor shall ensure that there are robust procedures for responding to and reporting such concerns and that all staff receive appropriate awareness training regarding Safeguarding Children which comply the Employer's Safeguarding Children and Child Protection Policy. The Contractor shall also ensure that they follow the Employer's Whistle Blowing Policy to protect staffs who wish to raise such concerns.
- 14.27 The Employer reserves the right to require the Contractor at no cost to the Employer to remove from performing the Works any Contractor personnel allocated to the performance of the Works by the Contractor who in the reasonable opinion of the Employer is detrimental to the provision of the Works."

## **Indemnity**

Insert new Section 15 to the JCT Conditions of Contract as follows:

- "15.1 The Contractor irrevocably undertakes to indemnify the Employer against any costs, expenses, damages, liabilities, losses, claims and/or proceedings which the Employer may incur in respect of death or personal injury to any person whomsoever and damage to property arising as a consequence of the performance of the Works. The Parties agree that the contraction of any industrial disease as a result of exposure to dangerous materials during the course of the work within this Contract will be deemed to be covered by this condition."

## **Additional Employer's Requirements**

Insert new Section 16 to the JCT Conditions of Contract as follows:

- "16.1 Not used
- 16.2 The Contractor shall ensure that it has policies or codes of conduct in relation to:

- equality and diversity policies
- sustainability
- information security rules
- whistleblowing and/or confidential reporting policies.

16.3 The Contractor shall keep and maintain until 12 years after the Contract has been completed, or as long a period as may be agreed between the Parties, full and accurate records of the agreement including:

- (a) the works provided under it;
- (b) all expenditure reimbursed by the Employer;
- (c) all payments made by the Employer.

The Contractor shall on request afford the Employer or the Employer's representatives with such access to those records as may be required in connection with this Contract.

16.4 The Contractor shall co-operate fully with any enquiry or investigation made by the Employer's internal or external auditors, or any other quality or performance inspectors, that in any way concerns this Contract or any sums claimed or charged in relation to this Contract. The Employer may use information given by the Contractor in connection with this Contract to prevent and detect fraud and money-laundering; it may also share this information, for the same purpose, with other organizations that handle public funds. The Contractor shall take all necessary action to prevent money laundering. Where the Employer deems that the Contractor has been involved in money laundering it will take whatever measures appropriate to prevent this and report such action to the relevant authorities. The discovery of fraud and/or money laundering shall be grounds for termination of the Contractor's employment.

16.5 The Contractor shall comply with any Employer policies affecting the Contract and shall if requested provide the Employer with any relevant information required in connection with any legal inquiry, arbitration or court proceedings in which the Employer may become involved or any relevant disciplinary hearing internal to the Employer and shall give evidence in such inquiries or proceedings or hearings arising out of the Contract. The Contractor shall co-operate fully with the Commissioner for Local Administration in England (the Local Government Ombudsman) in any investigation by him of any complaint relating to the Contract and in enquiries by any of the Employer's Committees. From time to time, the Employer may require the Contractor to provide reports to, or be involved in discussions with, elected members. The Contractor shall comply with the Employer's reasonable requirements and shall not be entitled to any additional payment in respect thereof save to the extent such costs are incurred as a result of a default on the part of the Employer.

16.6 The Contractor shall, upon becoming aware of anything in connection with the Contract that is likely to give rise to legal inquiry or litigation, forthwith notify the Contract Administrator, giving such details as are available.

- 16.7 The Contractor shall deal with any complaints about its performance of the Contract, received from whatever source, in a prompt, courteous and efficient manner. The Contractor shall set up an internal process for dealing with complaints and shall keep a written record of all complaints received and of the action taken in relation to such complaints. The Contractor shall inform the Contract Administrator in writing of all complaints received and of all steps taken, and shall permit its record of complaints to be inspected by the Contract Administrator (or any other person nominated by him) at all reasonable times on reasonable notice.
- 16.8 The Contractor shall not speak to the press or broadcasting media about any matters connected with the Contract without the prior written consent of the Contract Administrator. If the Contractor intends to advertise its provision of the works to the Employer, it shall obtain approval of the Employer before doing so as to the content of such advertisement.
- 16.9 The Contractor should note that it is of the utmost importance that their employees and sub contract employees carry with them at all times their company's identification card to produce when challenged by the Employer's staff or council residents.
- 16.10 Where under the Contract any sum of money shall be recoverable from or payable by the Contractor, the same may be deducted from any sum item due or which at any time thereafter may become due to the Contractor under the Contract or under any other similar construction contract with the Employer.
- 16.11 The Contractor shall be deemed to have obtained information on all matters affecting the execution of the works. No claim arising from errors or omissions will be considered.
- 16.12 The Contractor shall comply with all Standing Orders of the Employer in so far as they are applicable to the execution of the Works. It is the responsibility of the Contractor to determine the nature and extent of such Standing Orders for lack of knowledge will not constitute grounds for non-compliance. A copy will be available for inspection on request.
- 16.13 The Contractor shall comply with all statutory requirements to be observed and performed in connection with the Contract and shall indemnify the Employer against all actions, claims, demands, proceedings, damages, costs, charges and expenses whatsoever in respect of any breach by the Contractor of this clause."

## **Bonds and Guarantees**

Insert new Section 17 to the JCT Conditions of Contract as follows:

- "17.1 At the exclusive discretion of the Employer, when the Contractor is a subsidiary of another company it shall procure that its ultimate holding company (or, at the Employer's complete discretion, such other company within the Contractor's group as the Employer shall require) shall provide a parent company guarantee

in favour of the Employer in respect of the Contractor's obligations under the Contract executed as a deed in the form set out in Appendix G of the Contract Specification. The guarantee must be in place before the Contract commences.

- 17.2 At the exclusive discretion of the Employer, where the Contractor does not have a parent company or where the parent company is not approved by the Employer, the Contractor shall enter into a contract guarantee bond, in the form set out in Appendix H of the Contract Specification or such other form as may be approved and agreed by the Employer at the Employer's discretion, by which they shall be jointly and severally bound to the Employer in a sum equivalent to 10% of the annual price conditioned for the due fulfilment of the terms and conditions of the Contract. The surety shall be either an insurance company or bank whose registered office is situated in England. The bondsman is to be approved by the Employer. The bond must be in place before the Contract commences."

## **TUPE**

Insert new Section 18 to the JCT Conditions of Contract as follows:

"18.1 The Contractor accepts and undertakes that when it tendered for (and entered into) this Contract it has taken into consideration the provisions of the TUPE Directive and the TUPE Regulations and has considered the application or otherwise of those provisions to this Contract and has taken the appropriate action required under the TUPE Directive and/or the TUPE Regulations.

18.2 The Employer and the Contractor agree that the transfer of the Works (where applicable) to be effected by this Contract is governed by the TUPE Regulations and accordingly:

18.2.1 the Employer shall use reasonable endeavours to request that the existing contractor of works similar to the Works transfers, on the Transfer Date, (as defined in the TUPE Regulations) the contract of employment for each of the Transferring Employees (as defined in the TUPE Regulations) to the Contractor (save insofar as such contracts relate to any occupational pension schemes);

18.2.2 on termination of the Contract for whatever reason or expiry of the Contract Period, the Contractor shall discharge all wages salaries and honoraria excluding accrued holiday remuneration (if any) of the Transferring Employees and all other costs and expenses relating to the Transferring Employees for the period from and including the Transfer Date) and will pay over all deductions properly made therefrom to the relevant authority (including but not limited to taxation and national insurance); and

18.2.3 subject to the Data Protection Legislation, the Employer shall provide to the Contractor such information as may be reasonably required to comply with the TUPE Regulations, including without limitation:

- (a) the number of personnel, including supervisory and administrative personnel employed by the Employer in the provision of the Works;
- (b) the terms and conditions of employment of those personnel; and
- (c) any other information in relation to those personnel as may properly be required by the Contractor under this Clause.

18.3 The Contractor shall at its own cost undertake all liability for and shall fully indemnify the Employer against:

18.3.1 all losses, claims, damages and costs which may be brought against the Employer as a consequence of the Contractor's failure to consider fully the application of the TUPE Directive and TUPE Regulations to this Contract and/or have taken the appropriate action required under the TUPE Directive and TUPE Regulations and arising from the letting of this Contract; and

18.3.2 all reasonable costs, expenses, damages, compensation, fines and other liabilities in connection with any claim arising from a cause of action occurring on or subsequent to the Transfer Date by all or any of the Transferring Employees as a result of their employment with the Contractor.

18.4 On the termination of the Contract for whatever reason or on the expiry of the Contract Period, the Contractor shall supply within seven (7) days of demand by the Employer all such information as the Employer shall consider to be required as a result of the TUPE Directive and the TUPE Regulations, including without limitation:

18.4.1 the number of personnel, including supervisory and administrative personnel, employed by the Contractor and any sub-contractor employed in the provision of the Works;

18.4.2 the terms and conditions of employment of those personnel; and

18.4.3 any other information in relation to those personnel as may properly be required by the Employer under this Clause.

The Contractor shall indemnify the Employer against any liability in law which the Employer may incur by reason of a failure to supply such information within a reasonable time, or by reason of any inaccuracies in such information.

18.5 Prior to the termination of this Contract (or any part of this Contract) for whatever reason, the Contractor shall comply with any applicable provisions of the TUPE Regulations and the TUPE Directive including (but not limited to) the requirements with regard to consultation of affected employees pursuant to

TUPE Directive Article 6 and TUPE Regulation 10 of the TUPE Regulations in respect of any transfer of an undertaking (which maybe so held by any Court or Tribunal) arising at the end of the Contract Period or on any earlier termination of the Contract (or any part of the Contract) for whatever reason. The Contractor shall indemnify and hold harmless the Employer against all claims whatsoever and howsoever arising which may at any time arise out of the failure on the part of the Contractor to comply with the requirements of this Clause.

- 18.6 If at the termination of the Contract for whatever reason (apart from cause for termination being a result of a material breach of the Contract by the Contractor) the Works cease to be provided by the Contractor and are neither taken back in-house nor transferred to a third-party Contractor, then the Contractor shall use its best endeavours to re-deploy employees previously engaged in the performance of the Contract. If having taken all such steps the Contractor dismisses exclusively on the grounds of redundancy any of the employees previously employed by the Employer in the provision of the Works, the Employer shall (subject to the Contractor consulting and obtaining the written consent of the Employer before making such employees redundant, such consent not to be unreasonably withheld) reimburse the Contractor that amount of an employee's redundancy payments which have been properly incurred and are exclusively attributable to that employee's period of employment with the Employer.
- 18.7 In addition to the provisions contained in Clause 18.5 above, the Parties agree that if during the Contract Period staffing levels are reduced exclusively as a consequence of redundancy of employees, the Employer shall (subject to the Contractor consulting and obtaining the written consent of the Employer before making such employees redundant, such consent not to be unreasonably withheld) reimburse the Contractor such amount of an employee's redundancy payments which have been properly incurred and are exclusively attributable to that employee's period of employment by the Employer. The Contractor accepts liability for all redundancy payments pertaining to the length of service of the relevant employee with the Contractor.
- 18.8 The Contractor shall undertake to include in any sub-contract specific provisions which provide equivalent obligations upon each sub-contractor to those accepted by the Contractor under this Contract and which provide for enforcement by:
- (a) Transferring Employees; and/or
  - (b) the Employer

directly against the sub-contractor and preserving their rights under the Contracts (Rights of Third Parties) Act 1999. Copies of all sub-contracts (un-priced) shall be provided to the Employer upon sub-contract award. The Contractor shall indemnify and hold harmless the Employer against all claims, whatsoever and howsoever arising, which may at any time arise out of the failure on the part of the Contractor to comply with the requirements of this Clause.

18.9 The Contractor shall not during the final twelve (12) months of the Contract Period or during the final twelve months of any extension to this Contract:

- (a) Undertake a re-organisation of staff employed in the performance of this contract or working methods other than in accordance with a scheme that has been submitted to and approved in writing by the Employer.
- (b) Award any pay rise which exceeds the annual rate of inflation without first having obtained the written consent of the Employer.
- (c) Agree or implement any alteration to the terms and conditions on which staff are employed on the Contract without first having obtained the written consent of the Employer.”

### **Compliance with Anti-Slavery and Human Trafficking Laws**

Insert new Section 19 to the JCT Conditions of Contract as follows:

“19.1 In performing its obligations under this Contract, the Contractor shall:

- (a) comply with all applicable anti-slavery and human trafficking laws, statutes, regulations and codes from time to time in force including but not limited to the Modern Slavery Act 2015; and
- (b) not engage in any activity, practice or conduct that would constitute an offence under sections 1, 2 or 4, of the Modern Slavery Act 2015 if such activity, practice or conduct were carried out in the UK; and
- (c) include in its contracts with its subcontractors and suppliers anti-slavery and human trafficking provisions that are at least as onerous as those set out in this Clause 19.

19.2 The Contractor represents and warrants that:

- (a) neither the Contractor nor any of its officers, employees or other persons associated with it:
  - (i) has been convicted of any offence involving slavery and human trafficking; and
  - (ii) to the best of its knowledge, has been or is the subject of any investigation, inquiry or enforcement proceedings by any governmental, administrative or regulatory body regarding any offence or alleged offence of or in connection with slavery and human trafficking.

19.3 The Contractor shall implement due diligence procedures for its subcontractors, and suppliers and other participants in its supply chains, to ensure that there is no slavery or human trafficking in its supply chains.

- 19.4 The Contractor undertakes not to purchase any resource, raw materials or livestock products that have been sourced from producers, farmers or manufacturers using forced labour or child labour in its operations or practices.
- 19.5 The Contractor shall notify the Employer as soon as it becomes aware of any actual or suspected slavery or human trafficking in a supply chain which has a connection with this Contract.
- 19.6 The Contractor shall as part of its annual performance review with the Employer prepare and deliver to the Employer an annual slavery and human trafficking report setting out the steps it has taken to ensure that slavery and human trafficking is not taking place in any of its supply chains or in any part of its business.
- 19.7 The Contractor shall:
- (a) maintain a complete set of records to trace the supply chain of all goods and services provided to the Employer in connection with this Contract; and
  - (b) permit the Employer and its third-party representatives, on reasonable notice during normal business hours to have access to and take copies of the Contractor's records and any other information and to meet with the Employer's personnel to audit the Employer's compliance with its obligations this clause; and
  - (c) implement annual audits of its compliance, either directly or through a third-party auditor. The first set of audits shall be completed by not later than the anniversary of the commencement date of this Contract.
- 19.8 The Contractor shall implement a system of training for its employees to ensure compliance with anti-slavery and human trafficking laws, statutes, regulations and codes.
- 19.9 The Contractor shall keep records of all training offered and completed by its employees to ensure compliance with anti-slavery and human trafficking laws, statutes, regulations and codes and shall make a copy of the record available to the Employer on request.
- 19.10 The Contractor shall indemnify the Employer against any losses, liabilities, damages, costs (including but not limited to legal fees) and expenses incurred by or awarded against the Employer as a result of its failure to comply with anti-slavery and human trafficking laws, statutes, regulations and codes.
- 19.11 The Contractor represents, warrants and undertakes that it conducts its business in a manner that is consistent with anti-slavery and human trafficking laws, statutes, regulations and codes.

19.12 The Employer may terminate the Contract with immediate effect by giving written notice to the Contractor if the Contractor fails to comply with anti-slavery and human trafficking laws, statutes, regulations and codes.”

Insert new Section 20 to the JCT Conditions of Contract as follows:

### **“Greenhouse Gases and Carbon Emissions**

20.1 The following definitions apply in this clause and in Schedule 3:

“GHG Emissions” means the emissions of GHGs from all sources related to this Agreement, categorised as “Scope 1” and “Scope 2” emissions by The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard, Revised Edition 2015 as updated from time to time;

“Greenhouse Gases (GHGs)” means the natural and anthropogenic gases which trap thermal radiation in the earth’s atmosphere and are specified in Annex A to the Kyoto Protocol to the United Nations Framework Convention on Climate Change (UNFCCC), as may be amended from time to time, which include carbon dioxide (CO<sub>2</sub>), methane (CH<sub>4</sub>), nitrous oxide (N<sub>2</sub>O), hydrofluorocarbons (HFCs), perfluorocarbons (PFCs), sulphur hexafluoride (SF<sub>6</sub>), and nitrogen trifluoride (NF<sub>3</sub>), each expressed as a total in units of Carbon Dioxide Equivalent (CO<sub>2</sub>e).

“Overall Sustainability Impact” means the Contractor’s assessment and performance of the relevant social, environmental and economic policies related to this Agreement in accordance with the Small business user guide: Guidance on how to measure and report your greenhouse gas emissions published by the Department for Environment, Food & Rural Affairs Published on February 2012 <https://www.gov.uk/government/publications/small-business-user-guide-guidance-on-how-to-measure-and-report-your-greenhouse-gas-emissions>.

“Sustainability Report” has the meaning given to it in clause 20.3.

20.2 In performing its obligations under this Contract, the Contractor shall, where applicable to this Contractor, to the reasonable satisfaction of the Employer:

20.2.1 in its operations, comply with all applicable environmental law, including in relation to waste disposal, GHG emissions and the handling of hazardous and toxic materials and the provision of certificates if requested and as appropriate;

- 20.2.2 demonstrate low carbon resource efficiency, including minimising the use of resources and responding promptly to the Employer's reasonable questions;
  - 20.2.3 minimise the release of GHG emissions, air pollutants and other substances damaging to health and the environment in providing the Services taking into account factors including the locations from which materials are sourced, transport of materials, work-related travel by relevant staff, emissions from Contractor offices and equipment.
- 20.3 On each anniversary of the Works commencement date as specified in the Contract Particulars, the Contractor shall complete and submit to the Employer a sustainability report in relation to the Works, which shall be in the form specified in Schedule 3 (the "Sustainability Report"), and include the assumptions used in the reporting and contain information on:
  - 20.3.1 the Contractor's GHG emissions associated with the delivery of this Contract in accordance with established best practice and internationally accepted standards
  - 20.3.2 the Contractor's water use (in metres cubed);
  - 20.3.3 the Contractor's energy consumption for all fossil fuels (in kilowatt-hours (kWh)) relating to assets used at Employer premises or other locations;
  - 20.3.4 transport use (and resulting GHG emissions from transport fuel) for goods delivered to, or Contractor staff travel to, Employer premises or other Employer locations or the location where the contract is delivered;
  - 20.3.5 volume of waste (in kilograms/tonne) produced at Employer premises or other locations that relate to the provision of the Works, including how the Contractor intends to process and dispose of waste; and
  - 20.3.6 the Overall Sustainability Impact of the Works, including improvements identified by the Contractor, new policies or targets adopted to reduce the environmental impact of the Contractor's operations and contributions towards any Employer environmental policies or targets.

## **SCHEDULE 1 – GENERAL CONDITIONS**

### **1.1 ABOUT THIS CONTRACT**

Folkestone and Hythe District Council (“the Employer”) is seeking to employ a Contractor to provide cyclical gas/heating service, maintenance and installation services across the totality of their housing stock.

This document outlines the service delivery standards, the General Conditions and Operation of the Contract.

### **1.2 SCOPE OF WORKS GENERAL**

It will be the appointed Contractor’s specific remit to ensure that to the best of their ability any liability of the Employer under the gas safety and other relevant legislation pertaining to this work is discharged and to provide a high-quality service and end user experience for all residents.

The Contractor will be pro-active in this respect and work collaboratively with all parties to meet this requirement.

Throughout the term of the contract the appointed Contractor will work with the Employer on an on- going and proactive basis to agree key improvement areas and to increase the standards of service delivered in those areas. The Contractor will also be proactive in determining what is perceived to be industry best practice and to consider how that might impact on and be incorporated within the service being delivered.

Some of the properties included within the contract may be classed as “Supported” and require special attention, such as joint visits with Employer’s Staff to effect repairs and servicing, and safety checks which may need to be carried out outside of the defined normal working hours.

### **1.3 SCOPE OF WORKS SERVICE AND REPAIR**

The Contractor will deliver services in accord with the requirements described within the scope of the service and repair specification within document Appendix 2.

The services will cover but not be limited to all aspects of servicing, repair and gas safety inspections to domestic gas appliances and systems, LPG, electric, solid fuel, oil fired appliances and systems, smoke alarms, CO detectors, thermostatic mixing valves and various forms of renewable technologies all as detailed within document Appendix 2 and the additional works described within document Appendix 3.

An awareness of the requirements in respect of Water System Cleansing and ACOP L8 risk assessments and management is required but no work of this nature will be completed under this contract.

There will be an expectation that The Contractor will also provide similar services to any other related or similar appliance, system, or ancillary control not specifically detailed within this specification as are currently available and that may become available throughout the life of this contract. Where necessary revised rates may be agreed as and when such occurs, and The Contractor will identify training and other needs as required to facilitate this requirement.

The service and repair works will be at a fully inclusive rate with no additional reduction being applied for any in warranty appliances and/or systems. This inclusive service will include giving residents energy efficiency and system operation advice as required. The extent of the cover of the inclusive service for the appliances and systems is defined as follows. For domestic properties this will be a per property rate with a differential for fuel type and this will cover all works pertaining to Employer owned or managed appliances and systems found within any property.

The service is to be provided 24 hours each day and to be year-round (including all bank holidays).

The Contractor will also work with the current and any future preferred appliance manufacturers to become authorised to carry out warranty repairs such that there will ordinarily not be a need to involve a third party in effecting any repair.

It is possible that there will be a small number of cooking appliances owned by the Employer, these must be serviced to manufacturer's instruction and a safety check carried out. All resident owned gas fires are to be included within the service requirement but there is no expectation or requirement to carry out any repair work or provide any parts to any resident owned appliance other than to make a situation safe.

#### **1.4 SERVICE FOR LEASEHOLDERS AND PSL**

The Employer may have a future responsibility to other customers such as Leaseholders and Public Sector Leasing landlords. The Contractor has an opportunity to provide a market competitive fully inclusive maintenance plan including providing a Landlord Gas Safety Record to those Leaseholders who wish to participate in the scheme.

The management of receipt of payments will be the responsibility of the Contractor directly with the Leaseholder.

## **1.5 SCOPE OF WORKS HEATING INSTALLATION**

The Contractor will work within the scope of the Appendix 4 to cover all aspects of the installation of new and replacement of domestic gas appliances and systems.

Where it is reasonable there will be an expectation that the Contractor will also provide similar installation services to any other related or similar appliance, system, or ancillary control not specifically detailed within this specification.

There may also be a need for the Contractor to be able to carry out installation and replacement works for renewable technology appliances and systems, domestic oil and solid fuel and for commercial systems. These will all be dealt with on an ad-hoc basis with bespoke pricing of which detail will be supplied as requested by the Employer.

It should be noted that even though there is no guaranteed volume of any replacement or installation work, the numbers given, are not necessarily indicative of the volume of work that might be required. The Employer reserves the right to have this work carried out by an alternative supplier.

The Contractor's tendered rates are based upon the fitting of replacement boilers and/or of an entire standard heating system as detailed to meet banded heat input requirements irrespective of the nature of the property.

These rates are cover the entirety of the works required to achieve a completed and commissioned installation or appliance replacement as required within Appendix 4.

There is a separate set of rates to allow for a reduction to be made to these standard system and replacement boiler rates where an item is not required. These will be together with a few other standalone rates that are not included within any standard system or appliance replacement rates which may be added as required.

## **1.6 SCOPE OF INCLUSIVE COVER**

The Contractor's tender - except for where stated - is deemed to be fully inclusive of all costs required to undertake the contract and should allow for all associated works which may be inferred from the Specification and or Schedule of Rates, according to its true intent and meaning, to complete the Works.

For the avoidance of doubt unless stated otherwise the inclusive cover includes replacement and fixing of all appliance component parts, and to include but not be limited to

- a) the replacement of radiators, valves and indirect hot water storage cylinders including all component parts,

- b) system tanks,
- c) expansion tanks and expansion vessels,
- d) immersion heaters (where in situ),
- e) clocks and programmers,
- f) cylinder thermostats,
- g) circulating pumps,
- h) diverter valves,
- i) overflows,
- j) discharge pipes,
- k) all system pipework,
- l) condense pipes (together with condense pump, soakaways or condensafe type appliances),
- m) smoke alarms and carbon monoxide (CO) detectors,
- n) fuses,
- o) batteries,
- p) where identified and required, the provision of a full system power flush using a proprietary and approved cleansing agent and upon completion dosing of the system with a proprietary and approved inhibitor / protection agent,
- q) provision of alternative forms of temporary heating and hot water (where an immersion element is not in situ),
- r) temporary cooking as appropriate where Employer owned cookers are in situ

and anything else that is necessary to repair and maintain an appliance and/or system as may be covered within the scope of this contract either now or in the future in good working order.

Furthermore, the cover includes:

- The entire gas supply from the meter outlet to each outlet or connection to an appliance.
- All wiring associated with any appliance and or system covered by this contract from the point of electrical isolation
- The appliance flue from the point of connection with the appliance to the point of termination and any flue guard or terminal.

- All pipework within any airing cupboard except for cold water mains passing through.
- The first 1m of hot water draw off pipework connected to any combination boiler or other water heating appliance.

### **1.7 GAS SAFE REGISTER MEMBERSHIP**

The Contractor shall be a member of the Gas Safe Register or any other such similar body that may take its place during the term of contract. The Contractor will maintain membership throughout the life of this Contract.

De-registration and/or loss of membership will be treated as a fundamental breach of contract and notice given in accordance with the Contract.

### **1.8 N.I.C.E.I.C., MCS, HETAS, AND OFTEC ACCREDITATION OR MEMBERSHIP**

The Contractor shall be a member of or accredited to the National Inspection Council for Electrical Installation Contracting (N.I.C.E.I.C.), MCS, HETAS and Oftec or other approved bodies that may take their place during the term of contract. This accreditation and membership shall be maintained throughout the life of the Contract as appropriate and required by the maintenance and installation works required to be undertaken.

De-registration and/or loss of such accreditation and/or membership may be treated as a fundamental breach of contract where such would stop the Contractor from being able to complete any maintenance and installation works that are required to be undertaken and notice may be given in accordance with the Contract.

### **1.9 APPLICABLE REGULATIONS AND STANDARDS**

The Contractor shall comply with all current statutory legislation and requirements contained within but not limited to the following:

- a) Gas Safety (Installation and Use) Regulations 1998 as amended 2018
- b) Gas Safe Register Essential Gas Safety and Gas Installer Manuals
- c) Management of Health and Safety at Work Regulations 1992
- d) Electricity at Work Regulations 1989
- e) IEE Regulations (latest Edition and amendments)
- f) Health and Safety (Safety Signs and Signals) Regulations 1996
- g) Health and Safety (Young Persons) Regulations 1997
- h) Personal Protective Equipment at Work Regulations 1992
- i) Provision and Use of Works Equipment Regulations 1998

- j) Manual Handling Operations Regulations 1992
- k) Workplace (Health, Safety and Welfare) Regulations 1992
- l) Display Screen Equipment Regulations 1992
- m) Construction Act 1996.
- n) Construction (Design and Management) Regulations 2007
- o) Construction (Health, Safety and Welfare) Regulations 1996
- p) Construction (Head Protection) Regulations 1989
- q) Controlled Waste (Registration of Carriers and Seizure of Vehicles) Regulations 1990
- r) Control of Substances Hazardous to Health Regulations 1994 (COSHH)
- s) Control of Pollution (Amendment) Act 1989
- t) Asbestos Regulations 2006
- u) IEE Regulations BS7671-2008 17th Edition
- v) General Data Protection Regulations (GDPR) 2018
- w) Freedom of Information Act 2000
- x) Equality Act 2010
- y) Electrical Installations British Standard BS 7671
- z) Ventilation for buildings. Air handling units. Mechanical Performance BS EN 1886
- aa) Water Treatment Management BS 7593
- bb) All relevant current British Standards

The above list is not exhaustive. Any Legislation, Regulation, Approved Code of Practice(s) or Statutory responsibility including any subsequent amendments that is or could be construed as relevant to the scope of this contract is deemed to be a required standard and therefore the Contractor is expected to make sufficient provision for any such requirement.

All products, equipment, materials must comply with and installed/maintained in accordance with the current relevant British Standard or Code of Practice. Products, equipment, materials may be substituted at the Employers discretion by a product complying with a grade or category within a European Community Standard or other international standard recognised in the UK specifying equivalent requirements and assurances in respect of material, safety, reliability, fitness for purpose and, where relevant, appearance.

## **1.10 ANNUAL REVIEWS**

The annual review process will commence one month prior to the conclusion of each 12-month period. The scope for the areas of improvements in the following year will be determined as a part of the review process.

This will be attended by all key persons working on the contract up to and including one director. The performance review is intended to be a fair and balanced assessment of the contractor's performance. The objective of the annual review is to provide all contracted staff an opportunity to:

- Discuss contractual performance
- Review KPI's and set goals for improvement as necessary
- Establish objectives for contributing to Employer's goals
- Review processes and gather any points of learning that may improve contractual efficiencies

### **1.11 COLLABORATIVE WORKING**

The Employer believes that improved systems of work and improved efficiencies are achieved by collaborative working between Employer, Contractor and Contract Administrator.

The four requirements for successful collaborative working are:

1. Shared and collaborative vision
2. Mutual and achievable goals
3. Minimal cause for dispute
4. Allowance for continuous measured improvement

Each party will keep its independence but look at working jointly on some activities such as:

- Carry out charitable activities e.g. service delivery, Gas Safety campaigning, policy work
- Share premises or support functions e.g. payroll, purchasing, fundraising
- Improve strategic efficiency.
- A need for more efficient use of resources.

Collaborative working can last for a fixed length of time or can form a permanent arrangement. Collaborative working can be used to:

- identify Employer and customer needs
- evaluate benefits
- assess risks and issues
- set common objectives
- develop problem resolution process
- identify Key Performance Indicators that are not working

## **1.12 COLLABORATIVE WORKING AIMS**

The aims and objectives of the Employer are:

- a) To deliver a gas maintenance and installation service in terms of value for money, quality and time to both the Employer and its residents
- b) Identify, understand and support each other's objectives and work together to translate their individual
- c) objectives into common objectives and strive to achieve the same goals
- d) Continuous year on year improvement on the service provided involves a team approach to determine whether work processes are meeting the needs of customers, and where necessary, to improve them.  
Performance indicators are established and regularly monitored and combined with resident satisfaction feedback; provide valuable data for continuous improvement
- e) Collaborative approach of all parties to achieve maximum benefit to both the Employer and its residents.

## **1.13 CO-OPERATING WITH OTHER PARTNERS AND CONTRACTORS**

The Contractor appointed is expected to co-operate fully with any other partners and or contractors appointed by the Employer. When necessary, the Contractor should liaise with other parties and co-ordinate works to ensure limited disturbance and disruption for the residents. No additional charge will be accepted for this provision.

## **1.14 SUBCONTRACTING**

The Contractor shall not subcontract any of the works without the written consent of the Employer. This consent shall not unreasonably be withheld or delayed however the Contractor will be expected to demonstrate how any Sub-Contractors will be managed and quality and standards maintained prior to any such permission being granted.

Any such subcontract labour must be qualified appropriately for the works to be carried out and this detail must be provided upon request.

The bulk of the work such as the servicing and breakdown must be carried out by labour directly employed by the Contractor and any 'gas work' must not be subcontracted without the express permission of the Employer.

If the gas contractor is unable to provide adequate direct labour resourcing levels to meet its contractual obligations, the Employer must be consulted and will lead on the direction of the use of any pre-approved Sub-Contractor. It is the Employer's intention to show preference to local businesses where possible.

## 1.15 SOCIAL VALUE

During the term of the contract, the Contractor will assist the Employer to in meeting the objectives of the Employer's Corporate Plan ([folkestone-hythe.gov.uk/creatingtomorrowtogether](http://folkestone-hythe.gov.uk/creatingtomorrowtogether)).

The Contractor will be encouraged to participate alongside the Employer in various resident engagements, including but not limited to Gas Safety Week or any other gas safety initiative. It is hoped that through these resident engagements it will continue to raise the issue of carbon monoxide and help keep our residents safe.

The Contractor will have and maintain a Corporate Social Responsibility Policy and report annual on its Corporate Social Responsibility Policy and the delivery of the Social Value and carbon reduction commitments laid out in the Contractor's tender.

## 1.16 RISK MANAGEMENT

Whilst the Employer considers entering into a long-term arrangement with a contractor to be positive, the Employer is conscious of the potential risks to the provision of the service and impact on residents or the public if the service or relationship should falter or fail.

These risks can be grouped under the following key headings:

- Service Delivery
- Reputation
- Financial
- Health and Safety
- Staffing and Resources
- Regulatory or Statutory Issues

Therefore, the Contractor will develop a Risk Register prior to commencement of the contract to show how it is intended to mitigate against the risks listed above and maintain this in collaboration with the Employer.

The Contractor will also work with the current and any future preferred appliance manufacturers to be authorized or accredited to carry out warranty repairs such that there will not ordinarily be a need to involve a third party in effecting any repair.

It is possible that there will be a small number of cooking appliances owned by the Employer, these will be shown within the asset register. These must be serviced to manufacturer's instruction and a safety check carried out. All resident owned gas fires are to be included within the service requirement but there is no expectation or requirement to carry out any repair work or provide any parts to any resident owned appliance other than to make a situation safe.

## **SCHEDULE 2 – GENERAL STANDARDS**

### **2.1 RECORDS**

The Contractor shall keep proper wages books and time sheets, showing the wages paid to and the time worked by the work people in his employ in and about the execution of the Contract, and such wages books and time sheets shall be produced whenever required for the inspection of any officer authorised by the Employer.

### **2.2 TYPES OF WORKS REQUIRED**

The Contractor will deal with all types of works as specified and complete such works including all building works associated with the fully comprehensive aspect of the contract to the satisfaction of the Employer's Representative in accordance with the conditions of the Contract.

The Contractor must ensure continuity between trades if required.

The Employer reserves the right to place orders with other contractors if the Contractor fails to meet the terms and conditions laid down within this specification.

The Contractor shall allow for any additional costs he may consider necessary for the following:

- Working in all types of "void" dwellings managed by the Employer.
- Working in all types of occupied and Supported Housing dwellings owned and managed by the Employer.
- Difficulty of access and of working.
- The availability of labour and materials required for the execution of the works.
- Temporary works and/or plant.

The rates tendered will not be adjusted in respect of any cost the Contractor may incur due to compliance with Working Rules and Trade Agreements in connection with guaranteed time, travelling time, overtime, operative fares and transport, subsistence allowances, holidays, incentive schemes or other provisions thereof and allowance must be made for any cost so incurred.

The Contractor should equally be aware that the employer may adopt a policy to remove gas fires from all properties so far as is possible. The circumstances in which these fires are to be removed is to be agreed and will be advised.

## 2.3 DETAILS OF THE WORKS

Appendices 1, 2, 3 and 4 contain specific details in respect of the exact requirements and procedures required for all elements of the works. The appropriate criteria, procedures and standards detailed in these schedules must be complied with in full for each element of the works when called upon or required to provide such a service.

## 2.4 EXCLUSIONS

The following items are excluded from the Contract. If the Contractor is requested by the Employer's representative to carry out anything included in items a) to k), the Employer will be liable for an additional charge.

- a) Any works caused by willful damage by others.
- b) Making good any damage resulting from fire, flood, lightning, explosion, storm, tempest, frost, other natural hazards, war and civil disorder other than that caused by the negligence of the Contractor or its employees.
- c) Any work as a result of failure of the public electricity, gas or water supply to the system.
- d) Any loss, damage or liability not caused by the negligence of the Contractor.
- e) Any work to the building, fixtures and decorations, furniture and fittings of the building in which the appliances and systems are situated arising out of any cause whatsoever other than the negligent or wrongful act of the Contractor, their employees or agents.
- f) The replacement of decorative non-functional parts, trims and cases except where such replacements are required as a result of the negligence of the Contractor.
- g) Any work as a result of design faults or arising from latent defects to existing systems identified in first year of being included on the maintenance contract unless such arises from works carried out by the Contractor.
- h) Any appliance demonstrated as being obsolete by the Contractor.
- i) Correction of any installation which is not in accordance with the current Gas Safety (Installation and Use) Regulations as amended 2018 or Statutory Obligations which may give rise to dangerous conditions unless as a direct result of any works carried out by the Contractor.

- j) Alterations of existing systems to accommodate other trades or at the behest of the Employer.

## **2.5 RIGHT TO REPAIR**

The provision of the Right to Repair Legislation will always apply.

The Contractor must also be familiar with the “Right to Repair Regulations” and ensure that the contracted service provided by the Contractor to the Employer’s tenants fulfil this requirement.

## **2.6 GOOD PRACTICE**

Where and to the extent materials, products and workmanship are not fully detailed or specified they are to be:

- Of a standard appropriate to the Works and suitable for the functions stated in or reasonably to be inferred from the project documents, and
- In accordance with relevant good building practice.

## **2.7 EMPLOYEES AND POST TERMINATION OBLIGATIONS**

The Contractor has sole responsibility to redeploy or dismiss any of their employees or Sub-Contractors who may be engaged by them at the termination of this contract. The Contractor will indemnify and hold harmless the Employer and any other contractor(s) who may succeed to all or any part of the work tendered for under the terms of this contract against any costs, claims or actions brought by any employee or Sub-Contractor of the Contractor arising out of or connected with the termination of this contract. The Contractor hereby undertakes to provide the Employer with all relevant details requested by the Employer of all employees, or Sub-Contractors who were engaged by the Contractor at, or within the preceding 3-month period, of the date of termination. These provisions will survive the termination of this Contract howsoever caused.

## **2.8 DIVERSITY**

The Contractor shall comply with their statutory obligations under the Equality Act 2010, make it their practice not to treat one group of people less favourably than others because of the colour, race, nationality or ethnic origin in relation to decisions to recruit, train or promote employee.

The Contractor shall also observe the Commission for Racial Equality's Code of Practice for employment, as approved by Parliament in 1983, which gives practical guidance to employers and others in the elimination of racial discrimination and the promotion of equality of opportunity in employment including the steps that can be taken to encourage members of the ethnic minorities to apply for jobs or take up training opportunities. The Contractor shall also comply with the requirements of the Equality Act 2010 and any other anti-discrimination legislation.

The Contractor is expected to work in a collaborative manner with the Employers designated Equality and Diversity Officer.

The Employer may request that tenant facing documentation be issued by the Contractor in a range of languages which reflect the profile of the Employer's tenant cohort, at no additional cost to the Employer.

## **2.9 DISCLOSURE AND BARRING SERVICE CHECKS**

All direct employees, temporary staff and approved Sub-Contractors shall have had DBS checks. Any relevant information shall be supplied to the Employer.

## **2.10 OCCUPIED HOMES**

You will be working in homes which are occupied whilst the works are carried out. The Contractor must, through suitable instruction and training, always ensure that the workforce engaged in this contract (including Sub-Contractors) adopt a high standard of resident care.

Any additional staff brought in after the start of the contract must be instructed as above.

- The use of radios for site entertainment is not permitted.
- European and UK smoking legislation to be adhered to.
- The consumption of alcohol on the resident's premises is strictly forbidden.
- All residents must be treated with proper respect and the requirements of the elderly and those with special needs, including religious needs, must be sensibly and sensitively dealt with.

The Contractor must treat the property of the resident with respect. Specifically, it shall be brought to the Contractor's notice that they shall be working around the resident's own white goods in confined areas and must make all attempts to minimise disruption and damage. The Contractor shall be liable for any damage they cause to the resident's own property.

The Contractor, any workers, or Sub-Contractors must not make any comment or pass opinions relating to housing maintenance decision or policy. Any queries about such a decision should be referred to the Employer's Representative.

## **2.11 IDENTIFICATION**

The Contractor shall ensure all of his direct employees, temporary staff and approved Sub-Contractors shall carry identification, in a form acceptable to the Employer, detailing the name of the Contractor, bearing a photograph of the tradesman and indicating they are bona fide contractors engaged on maintenance works for the Employer.

Such card will ordinarily contain the following detail and be dual branded with the Employer's logo:

- Photograph of operative
- Operative's name
- Contractor's name, address and telephone number
- Expiry date of card
- Unique reference / employee number

The identity card shall be produced every time access is sought.

## **2.12 OVERALLS, BADGES AND SIGNS**

All operatives shall always wear either overalls or jackets with badges clipped or sewn on which bear the name of the Contractor and the employee's name.

All vans and vehicles used in carrying out the works shall also bear the sign and name of the Contractor.

In addition, the employer may request for their own branding to be added to the vehicles in which reasonable and associated costs may be discussed.

### **2.13 NO SMOKING**

The Contractor shall not permit smoking by their operatives or Sub-Contractors in tenants' homes or any other buildings or public areas. This provision extends to the prohibited use of electronic e-cigarettes and vaping devices.

### **2.14 SITE CLEANLINESS**

The Contractor shall remove all rubbish materials, plant and waste as work proceeds daily and immediately on completion all rubbish shall be cleared away and the site left in a clean and tidy condition. Works will not be considered as complete unless rubbish has been cleared and the site has been left tidy. Where a site is not in a tidy condition at the onset of the work, the Contractor shall inform the Employer's Representative and if required produce photographic evidence.

### **2.15 COSHH REGULATIONS**

The Employer endorses the concern over the damage that is caused to the environment through pollution and requires the Contractor to take all reasonable measures to control the damage to the environment resulting through works delivered under this contract, from C.F.C.'s, disposal of waste and other such issues and should comply in all respects to the current regulations regarding the Control of Substances that are Hazardous to Health (C.O.S.H.H.).

The disposal of such items is deemed to be included within the Contractor's tender.

### **2.16 EXISTING SERVICES TO BE MAINTAINED**

The Contractor shall be responsible for locating and protecting all services (drainage, gas, water, electricity, telephone, TV aerials, satellite dishes etc.,) above and below ground, or within the structure of the property during the works being undertaken.

Any existing drainage system, gas, telephone, TV aerial, satellite dishes, electric and water services to the premises and any adjoining premises shall be fully maintained during the progress of the task and the Contractor shall take all necessary steps to prevent any interruption.

No diversion of any of the existing services other than as indicated on any instruction, shall be carried out without the written agreement of the Employer's Representative. Any temporary disconnection of the services which may be necessary in connection with the task shall be done at such times as may be directed by the Employer's Representative. The Contractor shall be responsible for maintaining close liaison with the Employer and the public utility authorities to avoid any disruption of existing services. Any costs which may arise due to damage/disruption of public utility services and/or equipment are to be at the Contractor's expense.

## **2.17 CREDIT FOR MATERIALS**

All old lead, copper or other secondhand materials or other articles or materials remaining after the execution of the tasks, which are not required, are ordinarily to become the property of the Contractor with the exception of copper hot water storage cylinders, these will revert to the ownership of the Employer. However, the Contractor will purchase them from the Employer for a nominal sum of **£25.00** per occasion. This will be shown as a credit on invoices.

## **2.18 STORE FOR RE-USE**

Where old materials are described as 'store for re-use' (i.e. existing decorative light fittings etc), the Contractor shall take all risks of damage in removal and shall replace any damaged or defective work, materials or missing parts at his own expense. The Contractor shall make allowance for this within the rates for the works for all that is necessary for the completion of the works to the satisfaction of the Employer's Representative.

No claims will be considered for such items that could not have been reasonably foreseen.

## **2.19 MAKING GOOD**

Any damage caused by the Contractor's negligence must be made good to the satisfaction of the Employer's Representative, at no cost to the Employer. The rates given for all items included in this contract shall be deemed to include all making good required irrespective of whether it is or is not prescribed in the descriptions of the items.

## **2.20 PLUMBING DEFECTS**

Any plumbing defect that is outside the scope of the contract should be made safe and reported to the Employer's Representative without charge.

## 2.21 GENERAL ITEMS

All works and necessary temporary works to be programmed so each resident always has the following facilities:

- WC and washing facilities including hot and cold water at the end of the working day.
- Loss of electricity not exceeding two hours.
- Cooking facilities to be provided at the end of the working day.
- Heating facilities must be maintained.

The Contractor's prices for any installation include the work involved in all trades to the extent that can reasonably be foreseen and expected including disposal of all debris, rubbish, etc., arising from the works unless otherwise stated. All timber must be removed from site, no burning of surplus materials will be permitted at any time.

The prices of all items included in this specification shall be deemed to include for storage of materials as required. It is the Contractor's responsibility to ensure that any storage facilities are secure and allow for appropriate access for loading and unloading.

Any terms such as "pull down", "supply", "provide", "fix", "install", "build", "construct", "remove", etc., shall all be construed as including all necessary labour, consumables, plants, tools, equipment, scaffolding and disposal/tipping charges etc.

Any Contract Drawings (where provided) and the Specification are each to be considered explanatory of the other. Should any item appear in one that is not described in the other, no advantage shall be taken, and the Contractor will be deemed to have taken account of such in formulating his rates.

Aside from where the Contractor drew the attention of the Employers Representative to any alleged shortfall or ambiguity in either Contract Drawings or the Specification before submission of his tender, no subsequent extra will be allowed to the Contractor by virtue of such item; it being assumed that in pricing the item the Contractor was fully aware of the particular requirement.

## **2.22 CHECKING COMPLIANCE OF PRODUCTS**

Check all delivery tickets, labels, identification marks and, where appropriate, the products themselves to ensure all products comply with the specification. Where different types of any product are specified, check to ensure the correct type is being used in each location. Check that:

- The sources, types, qualities, finishes and colours are correct, and match any approved samples.
- All accessories and fixings which should be supplied with the goods have been supplied.
- Sizes and dimensions are correct.
- The delivered quantities are correct, to ensure shortages do not cause delays in the work.
- The products are clean, undamaged and otherwise in good condition.
- Products which have a limited shelf life are not out of date.

## **2.23 CHAS AND SSIP ACCREDITATION**

The Contractor will have Contractors Health and Safety Assessment Scheme (CHAS) accreditation and either hold or be working towards Safety Schemes in Procurement (SSIP) accreditation and maintain the same throughout the life of the contract.

## **2.24 GENERAL QUALITY OF WORKMANSHIP & MATERIALS**

All workmanship and materials to be used in the Contract are to be the best of their respective kinds and in accordance with current British Standard or Code of Practice as applicable, whether specifically noted or not, this shall be taken to denote the minimum acceptable standard of material or workmanship.

It is a requirement that all work shall be carried out in accordance with the best possible building and installation practice and methods.

Manufactured items shall unless specified to the contrary mean manufacturer's standard products and installed/maintained in accordance with the manufacturer's instructions.

Operatives must be appropriately skilled and experienced for the type and quality of work being undertaken as specified elsewhere however in general terms operatives shall:

- a) Take all necessary precautions to prevent damage to the work from frost, rain and other hazards.

- b) Inspect components and products carefully before fixing or using and reject any which are defective.
- c) Fix or lay securely, accurately and in alignment.
- d) Where not specified otherwise, select fixing and jointing methods and types, sizes and spacing of fastenings in compliance with relevant British Standards. Fastenings to comply with relevant British Standards.
- e) Provide suitable, tight packings at screwed and bolted fixing points to take up tolerances and prevent distortion. Do not over-tighten fixings.
- f) Adjust location and fixing of components and products so that joints which are to be finished with mortar or sealant or otherwise left open to view are even and regular.
- g) Ensure all moving parts operate properly and freely.
- h) Not cut, grind or plane pre-finished components and products to remedy binding or poor fit without approval. CHAS and SSIP Accreditation

## **2.25 ASBESTOS**

The Contractor shall demonstrate all operatives have received asbestos awareness training. If any perceived asbestos issue is identified, the operative(s) should cease work and immediately notify the Contract Supervisor who will seek the advice the Employer's Representative.

Any asbestos removal or related work is to be undertaken by another contractor.

## **2.26 DEFECTS**

The Contractor shall provide a twelve-month guarantee period on all work carried out and/or parts supplied; this is with the exception of boilers which shall as a minimum have a five-year manufacturer's warranty. Any defects that occur shall be made good by the Contractor at his own expense.

The Contractor's operatives shall:

- a) Treat residents and their homes with respect.
- b) Be polite and courteous to residents always.
- c) The Contractor shall not permit smoking by his operatives or Sub-Contractors in residents' homes.

- d) Refrain from playing radios etc.
- e) Show or wear an approved form of I.D. that contains a photo that is a true likeness of the operative.
- f) Operatives shall wear either overalls or jackets with badges clipped or sewn on, or which bear the name of the Contractor and the employee's name.
- g) Have the Company name painted on the side of their vehicles.
- h) Remove rubbish to a licensed tip, clear away all unused materials and plant from the site at completion of the works.
- i) Ensure that property owned by the resident or managed by the Employer is properly protected from damage that may arise from the works.
- j) Refrain from using the residents' electricity, gas, telephone or water unless they have been given permission.
- k) Provide a temporary supply of heating and/or hot water when a permanent supply cannot be restored before the end of the working day.
- l) Refrain from commenting upon the condition of the appliance and system to the occupant.
- m) Use clean dust sheets on all occasions, thoroughly clean away all detritus upon completion of any works and provide vacuum cleaners for this purpose.
- n) Supply resident satisfaction cards or similar to meet Employer's requirements
- o) Supply information pack as required to be delivered by the Employer on each annual visit.

## **SCHEDULE 3 – OPERATION OF CONTRACT**

### **3.1 PRE-START AND PROGRESS MEETINGS**

There will be a minimum of two pre-start meetings in the period leading up to the start of the contract. One will be hosted by the Employer and the other will be hosted by the Contractor. The primary purpose of such meeting will be for the Employer to be appraised of progress and to identify and deal with issues in respect of mobilisation and for key persons roles and responsibilities to be confirmed. The efficacy of the mobilisation plan will be jointly assessed by the Employer and the Contractor during a minimum of 3 assessment meetings carried out within the first 90 days of the contract period

Progress meetings will until or unless agreed otherwise be hosted by and take place at the offices of the Employer every two weeks or monthly. Such meetings will be recorded, and minutes distributed by the host. A standard agenda will be agreed, and meetings will be arranged 3 months in advance.

The Contractor will provide a mobilisation plan detailing their process through the three main stages prior to contract start.

- Planning
- Understanding the contract requirement
- Having the capabilities to deliver the required service
- Estimating
- Projecting the resource levels required
- Resourcing
- Employing the desired skill levels where there may be gaps
- Assigning resources to cover the contract

### **3.2 SERVICING, GAS SAFETY INSPECTION AND INSTALLATION PROGRAMME**

All types of servicing and gas safety inspections are to be programmed for an initial visit and completion 2 months; or at other such period as may be prescribed by the Employer's Representative, prior to expiry of the previous year's landlords gas safety certificate.

The programme of works for each year is to be agreed in good time to allow for proper planning by the Contractor and the Employer's Representative. There may be a need to review the service requirements such that there is an even spread of work throughout the year and as such the Contractor and the Employer's Representative are to determine any variations to the programme to achieve this. This may require the Contractor to bring some properties forward within the programme as currently exists.

If the Contractor is required to carry out a programme of works for installation and replacement, the programme of works is to be agreed in good time to allow for proper planning by the Contractor and the Employer's Representative.

The Employer recognises there is the ability to 'Tag' landlord's assets such as gas boilers. At present the Employer does not feel there is a business need to explore this option but will carry out periodic reviews of such products in the market and if necessary, will see if there is any benefit for its gas operation.

### **3.3 SALE OF PROPERTIES AND ADDITIONAL NEW PROPERTIES**

Whenever a property is sold the Employer's Representative will inform the Contractor to remove the address from the servicing list.

The Contractor will be informed of any new properties as soon as possible for them to be planned into the programme when they are due for servicing.

All new build properties upon occupation, are to receive a turn on and test. GS-B-003.

### **3.4 OPERATIONAL MANAGEMENT OF THE WORKS**

The Contractor will as minimum provide a management team that includes the following or their equivalent:

- Contract Manager
- Contract Supervisor
- Resident Liaison Officer

Such persons do not have to be dedicated exclusively to this work however they will be fully available to deal with any issue or matter associated with the service at any time during normal hours of work.

The Contractor's Supervisor and Manager shall be competent and will be approved by the Employer (whose approval may be withdrawn at any time). Such authorised qualified Supervisor or Contract Manager must be able to receive and act upon (on behalf of the Contractor) all instructions, directions or orders issued by the Employer or his representatives.

The Employer will provide a representative and other nominated person who will oversee and manage all aspects of the works.

Exact roles, responsibilities and other duties together with all contact details will be determined and provided prior to the start of the contract.

The management provision will include but is not limited to attendance at meetings and workshops, potentially with other contractors, for the purposes of:

- Contractor liaison,
- value engineering,

- process mapping,
- performance review,
- progress review,
- planning and resident communication.

### 3.5 DETAILS OF OPERATIVE QUALIFICATION AND ASSESSMENT

The Contractor will supply at least one month prior to the start of the contract the details of the Operatives and their qualifications who will or could potentially be working on the contract together with the types of work they will be undertaking. This is to be updated every month and upon any changes of operative.

- a) For gas works, documentary evidence is to be supplied in the form of copies of certificates from the assessment centre or accreditation body indicating that the appropriate ACS and other relevant elements have been completed and are in date for each operative together with exact details of the types of work to be undertaken by that operative. The Employer's representative will confirm that such ACS elements are appropriate for the works to be undertaken.

The current Gas Safe ID and registration card alone will not be accepted as proof that the assessments have been taken and passed.

Current Microgeneration Certification Scheme (MCS) accreditation is required in respect of each type of renewable technology appliances.

Current Heating Equipment Testing and Approval Assessment Scheme (HETAS) and Oil Firing Technical Association (Oftec) accreditations are required for Solid Fuel and Oil respectively.

Current National Inspection Council for Electrical Installation Contracting (NICEIC) registration is required for all operatives working on electrical appliances or systems and where needed to comply with Part P of the building regulations.

For unvented hot water systems and thermostatic mixing valves operatives must comply with Part G of the building regulations that requires an approved course to have been taken and passed.

For operatives to be able to give energy efficiency advice in accord with Part I of the building regulations, they must have completed and passed a City and Guild course in energy efficiency or completed and passed an approved equivalent.

Although no Legionella and L8 works is required under this contract it is preferable that operative working on commercial systems should have attended an appropriate training course in Legionella prevention.

As with the gas National Accredited Certification Scheme for Individual Gas Fitting Operatives (ACS) accreditation, documentary evidence will be provided to support the previous accreditation and registration requirements.

- b) The Contractor will also demonstrate the operatives have experience of working with or have received training in respect of the type of appliances likely to be encountered whilst working on this contract. If such evidence is not readily available, then the Contractor will demonstrate that operatives are to receive appropriate training.
- c) Whenever an operative leaves or a new operative starts the Contractor must inform the Employer's representative immediately. New operatives must satisfy the criteria as stated in (a) and (b) previous before commencing work on site. Under no circumstances must any operative be allowed onto site without first having satisfied these requirements.
- d) The contractor will train their operatives throughout the term of the contract on the latest technologies and thinking such that their operatives are able to achieve and maintain accreditations to allow them to undertake works on all appliances and systems as currently exist on the works and any future technologies that may arise during the term.

### **3.6 OPERATIVE SKILLS MATRIX**

The Contractor will maintain and present to the Employer and or their representative at regular intervals a detailed skills matrix. The matrix must include all relevant accreditations, specific license numbers, awareness and relevant job specific training pertaining to the operatives operating on the contract.

The Contractor will provide a copy of this schedule monthly or at intervals requested by the Employer. In addition, the Contractor must also provide an update skills matrix as and when new operatives join to leave their organisation.

### **3.7 SERVICE MANAGEMENT SYSTEM**

The Contractor will provide at the onset of the contract and maintain on an ongoing basis thereafter a fully computerised system for recording all current and previous gas servicing and repair information, access and appointment information, repair history and installation information necessary to enable the Employer to fulfil their role as a Landlord under the Gas Safety (Installation and Use) Regulations 1998 as amended 2018 or as promulgated and all other information relating to the contract.

Furthermore, all such information may need to be recorded by the Contractor on the Employers choice of software. To facilitate this there may need to be a direct two-way communication link between Employer and Contractor's systems or other means of data exchange.

This data exchange, transfer or recording will include the following key files, information and data (but not limited to):

- Property reference number pertaining to data being supplied
- Copy of LGSR
- LGSR file name
- LGSR number
- Engineer
- Date of completion of LGSR
- Asset data including condition and likely replacement timescale.
- Details of any remedial works and suggested actions.
- No access dates
- Appointment dates
- Appointment failure reasons
- Potential asbestos and/or other hazardous material identified in a property
- All other data collected during the service visit.

Although there is currently no timescale or method determined for this the Contractor will work with the Employer's IT department to facilitate such data recording, exchange or transfer at no lesser frequency than every 24 hours.

The computerised system must also have the ability to record and incorporate all information collected at the time of the annual service and on new installations undertaken by either the Contractor or any other contractors. Such information will be made available for data exchange in a similar fashion to that described previously.

On a monthly basis (or any other agreed time scale) the Contractor will provide to the Employer in a computerised format a copy of all data held on the Contractor's database, which is also to be compatible with the Employer's asset management system.

If the Information Technology system used on the Contract fails, the Contractor will use a manual system to maintain the service provision during the interim repair period.

The Contractor will also provide the Employer (in a format to be agreed) via a web-based portal or other means, electronic access to live and current information relating to the service and breakdown information including all current Landlord Gas Safety Certificates.

### **3.8 DAY TO DAY INFORMATION REPORTING**

Until such a time as there is full integration of data and data exchange between the Employer's and Contractor's respective IT systems then the Contractor will provide information to the Employer as is requested. Such information will include but not be confined to things such as the status within the access process of a particular property or the repair status of a property.

Such information may be requested in the form of a spreadsheet used to track status and the Service Provide will update information as things change. Where possible spreadsheets will be managed from a single source to reduce any duplication of tasks or reporting and both parties will duly consider the best and most effective way for such to be requested and supplied.

For all other reporting of day-to-day issues, such as reporting a failure to be able to complete a repair on time, both parties will agree and confirm how and when such information will be presented.

### **3.9 ACCESS TO RECORDS**

The Contractor shall allow the Employer's Representative full access to all records stored either electronically, in paper format or in any other format that pertains to any element of the contract or works associated with the contract. Such access must be given provided reasonable (normally 5 working days) notice is given by the Employer's Representative of his intention to require access to records. This access is required purely for the purposes of auditing and verification of costs of works.

The Contractor shall also permit any auditor employed by the Contract such access as described in the previous paragraph.

All records pertaining to the works must be kept for a period of two years after completion of the contract and such audit or inspection may occur at any time during that two-year period.

The Contractor must always ensure compliance and be registered in accord with the Data Protection Act.

### **3.10 ELECTRONIC LANDLORD'S GAS SAFETY RECORDS (LGSR) AND CERTIFICATES**

The Contractor will supply all LGSRs and any other certificates electrically as a pdf file. Other file formats may be considered and approved if there is no conflict with any existing process and any other file format can be used in the same fashion as a pdf.

To facilitate this, the Contractor will need to have in place a programmed system in the form of Personal Digital Assistants (PDA's) or similar that can produce LGSR in an electronic format which will be used on this Contract. Other similar systems will be acceptable provided the output data and data recorded meets the Employer's requirements.

How such data is to be transferred is still to be determined however they are to be sent on daily basis to a nominated email address or addresses.

Each batch of LGSR is to be as follows:

- Single pdf file for each record
- File name convention to include property reference number, date and part of address.
- Batch Summary file in the form of a CSV or spreadsheet file to accompany each batch containing details of documents in batch to include:
  - Document name ending with '.pdf'
  - Employers Property Reference Number (UPRN)
  - Certificate Date
  - Certificate Number
  - Operative Name

**NOTE:** The above is not exhaustive, the Employer reserves the right to request additional data as stored within the Contractor's system to be included within each batch summary file.

### 3.11 COMMUNICATION WITH TENANTS

Most of the works will be in tenanted properties and the co-operation and goodwill of tenants is essential to the success of the Contract. Any promises or commitments of attendance made by the Contractor, his operatives or Sub-Contractors must be delivered.

The Contractor will, if invited, attend and become involved with resident panels and forums.

The Contractor will write relevant and engaging articles on subjects such as energy efficiency, gas awareness, etc at no additional cost for publication in resident focused publications every 3 or 6 months.

The Contractor's pricing allows for regular, polite and multilingual communication with all tenants and for notifying the tenants in writing of their intention to carry out the works.

The Contractor shall comply with the following requirements:

- a) In Hours – The Contractor shall provide a freephone and "Low Call" telephone number to the Employer for the specific use of reporting of faults and making general enquiries and appointments. This number may be used by the Employer, the Employers Representative and residents. This number must be answered promptly and the person answering must identify himself or herself and deal efficiently and courteously with the call.

- b) Out of Hours – The same freephone and “Low Call” telephone number and conditions as in the previous shall apply and be used.
- c) As there is a requirement to take and act upon calls direct from residents, all persons who are receiving such calls shall have had some form of customer service training.
- d) The requirement for direct telephone access does not allow the use of answer phones or answering services. If the Out of Hours Service is managed from a location other than the Contractor’s normal office, or by an alternative contractor, then the telephone number will be diverted to that location and must be fully declared to the Employer. It will be allowed for any call divert to be made to a mobile phone however should there be an issue with the mobile service then arrangement must be in place for a back-up divert to a landline telephone. Such number which is only to be used as a fall back shall be supplied at the onset.
- e) The Contractor will utilise social media and to receive and act upon all relevant enquiries or requests sent via email or through any current or future social media such as “Facebook” or “Twitter”. In addition, the Contractor will put some form of communication or enquiry facility on their web site and either have or be working towards having a facility on their website to arrange or reschedule any type of appointment. A specific and dedicated email address will be supplied that will be publicised to all parties including residents.
- f) The resident’s telephone number and all other contact details are to be regarded as confidential and must only be used for arranging access or imparting relevant information in respect of an ongoing repair.
- g) Where the Contractor has carried out external repairs in the absence of the resident, a card is to be left advising the resident that the works have been carried out.
- h) upon receipt of an Order, the Contractor will immediately confirm access arrangements with tenants, or inform the Contract Administrator of any problem, which may lead to a delay or failure to complete the Work within the specified timescale.
- i) The Contractor will communicate with tenants and the Employer as required by the access procedures (3.24 and 3.25 below) and by any other section of this schedule 3.

### **3.12 COMMUNICATION WITH THE EMPLOYER**

The Contractor shall comply with the following requirements:

- a) In Hours – The Contractor shall provide a freephone and “Low Call” telephone number to the Employer for the specific use of reporting of faults and making general enquiries and appointments.

This number may be used by the Employer, the Employers Representative and residents. This number must be answered promptly and the person answering must identify himself or herself and deal efficiently and courteously with the call.

- b) Out of Hours – The same freephone and “Low Call” telephone number and conditions as in the previous shall apply and be used.
- c) The Contractor shall provide the nominated Contract Supervisor and Contract Manager with a mobile telephone that can receive and send emails. The numbers of which shall be available for the use of the Employer and the Employer’s Representative which must be answered promptly.
- d) The Contractor shall maintain such regular liaison with the Employer’s Representative to ensure a high standard of service is supplied to residents. Every attempt must be made to maintain this contact.
- e) Further communication will be established by the Contractor to allow both the Employer and Employer’s Representative direct access to live data, copies of completed LGSR and all other relevant data such as performance against KPI’s, appointment details and repairs and servicing history on a read only basis. The Contractor will make proposals as to how this will be achieved. The Contractor will provide at no cost any training that is needed to relevant persons to enable them to utilise this facility.
- f) upon receipt of an Order, the Contractor will immediately confirm access arrangements with tenants, or inform the Contract Administrator of any problem, which may lead to a delay or failure to complete the Work within the specified timescale.
- g) Anything found on site, or in discussion with the tenant, which conflicts with the work must be reported immediately to the Employer’s Representative.

### **3.13 UNOFFICIAL INSTRUCTION**

Should the Contractor be requested by a resident or other unofficial individual, to change, alter or modify in any way the Employer’s instructions, the Contractor shall refer to the Employer Representative and obtain further instructions before proceeding. No payment shall be made for work carried out other than ordered by the Employer.

### **3.14 WORKING HOURS**

The Contractor may generally carry out all tasks between the hours of 8.00am and 6.00pm Monday to Friday this will be classed as “In Hours”. In addition, the Contractor will offer and make appointments for annual inspections between the hours of 6.00pm and 8.00pm on weekday evenings and on Saturday mornings between 8.00am to 1.00pm excluding any public holiday.

Whenever possible, activity should be restricted to normal working hours or, when necessary, due notice must be given to tenants and neighbours of work necessary during unsociable times.

Otherwise outside of these hours, and weekends and public or bank holidays will be classed as “Out of Hours” and ordinarily only emergency repair works shall be carried out. These hours may be varied upon agreement of all parties.

Subject to the agreement of any affected resident servicing and repair works may also be undertaken “Out of Hours”.

Installation work must ordinarily be carried out “In Hours” unless the prior approval of the Employer’s Representative and resident in respect of occupied properties has been sought and agreed.

### **3.15 CONTROL POINT**

The Contractor must maintain throughout the Contract period resources within the contract area to be able to respond to emergency calls within the prescribed response times both in and out of working hours.

### **3.16 PARKING ARRANGEMENTS**

The Contractor must make their own arrangements for the purchasing and display of parking permits to enable delivery of the services to properties. No claim will be considered for any costs arising from this or for any failure to display a parking permit.

### **3.17 APPOINTMENTS**

The Contractor shall arrange times with residents for the carrying out of any aspect of the services by offering time banded appointments “In Hours”. Proposals will be accepted in this respect, otherwise these may ordinarily fall into one of the following:

- a) 8.00am to 10.00am
- b) 10.00am to 12.00pm
- c) 12.00pm to 1.30pm
- d) 1.30pm to 3.30pm
- e) 3.30pm to 6.00pm
- f) 6.00pm to 8.00pm
- g) 8.00am to 1.00pm (Saturdays only)

Appointments for servicing and other routine works will in the first instance usually be made by letter but may also, where agreed by the Employer, be made by other written means such as email, all of which must give the appropriate notice.

Appointments for all other works may be made by telephone.

If on any occasion the Contractor is unable to keep an appointment or is going to be late, then the resident must be notified accordingly with as much notice as possible being given and an expectation of when the appointment will be met.

The appointment should be confirmed by speaking to the resident at some point during the preceding working day prior to the appointment date. This will ordinarily be by telephone, text message or email or other such means as may be agreed with the resident or Employer's Representative.

The Contractor will offer appointments for servicing and inspection outside of any times within items a) to g) before those properties where access is proving difficult. An additional payment may be made to the Contractor for each such service and inspection at the rate that must be arranged outside of these appointments slots to be given.

### **3.18 MISSED APPOINTMENTS**

The Contractor will keep a record of all appointments made together with details of all missed appointments. Such information will be supplied to the Employer's Representative as requested and for each instance where an appointment has been missed the Contractor will demonstrate:

- Whose responsibility the missed appointment was (i.e. the resident or the Contractor)
- the actions taken to minimise any further such instance
- the actions taken to resolve the specific issue
- that the work required to be completed at the missed appointment has been completed.
- details and amount of any compensation paid to the resident

If the Contractor cannot demonstrate without doubt that the resident was responsible for a missed appointment, the Contractor will be held responsible.

No payment will be made for abortive or no access calls.

### **3.19 NON-ACCESS CARDS**

If a resident is not in or a minor only is present when a Contractor calls in response to a repair or a service or for any other reason, he will leave a "Non-Access Card". This card will contain the reason for the call, the time of the call, the date of the call, and the Contractor's name, operative's identification and the telephone number appropriate to the Contract. The card will be in 2 parts, one of which is a card duplicate of the top part. The duplicate or card copy will be left. The Employer may require cards to include further details such as the Employer's logo and contain specific wording to be advised by the Employer's Representative.

### **3.20 RESIDENT ABUSE OR DAMAGE TO PROPERTY**

All cases of suspected resident abuse or damage to property or appliances and systems covered within this contract must be reported immediately to the Employer's Representative. The Contractor will need to provide such detail in writing or other format yet to be agreed and if required produce photographic evidence.

### **3.21 RESIDENT'S SIGNATURE**

A request must be made to residents to sign all documentation in the appropriate place. Should a resident find it difficult to provide a signature on an electronic document, then if requested a hard copy must be provided. Provision of a signature will not indicate that work has been satisfactorily completed.

### **3.22 CUSTOMER SATISFACTION CARD**

The Contractor may be required to collect customer service data on behalf of the Employer. This may include 5 questions and be by the following means:

- A means of collecting satisfaction data to be built into the data collection device used to record LGSR data or similar. This will be confidential such that the engineer is not aware of the answers given and responses are to be supplied weekly.

In any event the Employer will be making their own arrangements to collect satisfaction data and the Contractor will co-operate in this respect by providing such information as is required to enable data to be collected by text message or other such means. Furthermore, the Employer will require the Contractor to collect their and collate their own satisfaction data and supply details of their findings as requested.

### **3.23 SERVICE INTERVAL PROGRAMMERS**

The Employer wishes for all programmers installed as a result of any installation, repair or upgrade to be of the service interval type but left inactive. The Employer's Representative will instruct the Contractor further in respect of activation in any particular property.

The Contractor will keep a record of all such programmers installed and any that are activated.

### **3.24 SERVICING AND GAS SAFETY INSPECTION ACCESS PROCESS**

The access procedure for servicing and Landlords Gas Safety Certification may vary throughout the term of the contract and as improvements are identified and needs change. In general terms through the process will be similar to that described however it should be noted that delivery of the process is to be included for within the tendered rates and that no payment will be made for any abortive or non-access calls.

- a) Select property for servicing and safety check in line with service programme requirements.
- b) Send letter or other agreed written means to the resident of the affected property giving 10 working days' notice of the impending appointment, copy and file this notification of appointment. Such appointment must be for 2 months prior to expiry of the LGSR.
- c) Advise the Employer's Representative of the appointment date. This will usually be done on a batch type basis by spreadsheet or agreed method and the minimum information required will be the property reference number, address and relevant appointment date.
- d) Contact resident one working day prior to appointment to confirm visit. This may be by text message, telephone or other such means as may be agreed or determined for time to time. Even if no contact is made at this point the appointment is still to go ahead.
- e) If no access leave "non access card". Such card is to give notice and detail of a further appointment 7 days thereafter. Attach notice to doorway, take time and date stamped photograph of doorway.

**Note:** The notice referred to will be A5 size and contain wording yet to be agreed. The method of fixing such notice to doorway is also to be determined. The cost of provision of such notices is to be included for within the tendered rates.

- f) Contact resident one working day prior to second appointment to confirm visit in accord with d) previous.
- g) If no access again, take time and date stamped photograph of doorway, a 3-part letter the format of which is to be defined will be left, one copy to be left on site, another to be retained by the Contractor and the third copy to be provided to the Employers Representative. The Contractor will provide such letters. If it is not possible to leave the letter, a "non-access card" must be left and the letter posted during the next available working day.
- h) A further 5 days will be allowed for response to this letter.
- i) All the previous will be recorded as each step occurs, this record which is to be updated daily is to be forwarded to the Employer's Representative on a daily basis or at other such frequency as required. This detail is to be supplied in the form of a spreadsheet detailing the property reference number, address, appointment status and any relevant information.
- j) Copies of all notification letters, photographic records, copies of out cards and no access letters for all properties where access has not been gained are to be supplied as requested. These are to be kept for a period of two years in order that repeat offenders may be identified and evidenced.

- k) Further access arrangements will be placed in the hands of the Employer or Employer's Representative, however if a resident makes an appointment as a result of any of these actions, then these must also be recorded on the list. The Contractor's part of the process must be completed such that referral is made to the Employer's Representative 1 month prior to expiry of the last certificate.
- l) The record detailed in i) above will be maintained throughout the life of the contract and no property will be removed from it until servicing has been completed.
- m) If at any stage an appointment is offered by the resident for any address that appears on the list, then this shall also be recorded and included with the information provided.
- n) If this appointment is made as the result of the letter left or sent in stage g) and it is again no access, then a further copy of this letter will be left and the date recorded.
- o) Throughout the process, where access is proving problematic the Contractor will make repeated attempts at contacting the resident and to offer evening or Saturday morning appointments to suit residents. Where access is offered by the resident outside of the usual hours for carrying out such works the Contractor will comply with all such reasonable requests. All is to be recorded on the details given in i) above.
- p) The Contractor will also make appointments, as required by the Employer, to attend properties where locks are being changed to allow access, and complete any gas safety, service or other works as required at no additional cost.

The Contractor will consider and offer good practice from other similar providers and advise how such methods of attempting to gain access to properties may impact on and be incorporated within this process.

### **3.25 REPAIR & MAINTENANCE ACCESS**

Access arrangements must be discussed and agreed with the Employer, the Contractor shall be responsible for making arrangements directly with the resident or relevant Employer representative to gain access.

If access is not gained on the first appointment, the Contractor is expected to make a second appointment/attempt as a minimum before referring to the Employer.

Contact details for responsible officers will be provided by the Employer as and when necessary and will include the name, address and telephone number.

Where access is required to several rooms/flats concurrently, the Contractor should liaise with the Employer or Employer representative so that each Service User can be written to/contacted.

### **3.26 SYSTEM FAILURE**

The Contractor shall ensure that system failures and faults are risk assessed and responded to in order of priority (Service Users rated as high risk should be treated as priority over all other callouts). Any failure of equipment which affects the safety, security or wellbeing of a resident(s) shall be rectified on the first visit if possible, and in all cases the Contractor operative shall not depart until the safety and security of the property is restored.

### **3.27 NOTIFICATION OF SYSTEM STATUS**

The Contractor shall inform the Employer or Employers Representative at the time repair works are completed.

Where the Contractor's operative is aware that he/she will be unable to return a system to service and before leaving the property, he/she shall inform the Employer or Employer Representative.

Where the Contractor becomes aware of the need for further work outside the scope of the fault, he shall advise the Employer and Employer Representative within 24 hours. In the case of a Health and Safety issue presenting an immediate or significant risk, he shall advise the Employer and Employer Representative immediately by phone and provide further details in writing by email.

### **3.28 MAINTAINING COMPLIANCY**

The Contractor will maintain a minimum level of compliancy of gas safety inspections at 100.00%.

Compliancy will be calculated as follows:

$$\frac{((\text{No of properties requiring an inspection}) - (\text{No of properties with expired LGSR}) \times 100)}{(\text{No of properties requiring a gas safety inspection})}$$

### **3.29 MANAGING REJECTED RECORDS, DEFECTIVE WORK AND REMEDIAL WORK**

The Contractor will provide a process to address any issues in respect of rejected LGSR, unsatisfactory work, and remedial work. Such process will identify how such matters are recorded, the actions taken to address the issue and the actions taken to close the issue or complete remedial work.

### **3.30 NON-COMPLIANCE WITH EMPLOYER'S REPRESENTATIVE'S INSTRUCTIONS AND UNSATISFACTORY WORK**

The Contractor will comply with all reasonable requests of the Employer's Representative that either pertain to the work or that are in respect of rectifying a defect.

Should the Contractor; after a notice period of five working days has lapsed, fail to comply with said instruction or remove or make good any defective or unsatisfactory work when ordered to do so by the Employer's Representative, the Employer shall have the power to take the work out of the Contractor's hands and cause the work to be completed and/or make good the unsatisfactory work by others and may offset, from any money due to the Contractor, the full amount of any costs incurred in so doing including the Employer's administration costs. No payment will be made for such unsatisfactory work.

The Contractor shall ensure all defects/faulty workmanship of whatever nature is corrected at the Contractor's sole expense to the entire satisfaction of the Employer's Representative.

### **3.31 QUALITY CONTROL**

The Contractor will implement a robust and well-defined Quality Management System for all elements of works and or services. These systems will require the implementation of standard forms and procedures that the Contractor shall allow audit and inspection by the Employer Representative with the aim of ensuring their use throughout the term of the contract.

In addition to complying with the above, the Contractor will also provide a consistently high quality of service using high quality standards for its management processes including accreditation to recognised Quality Management Systems and Investors in People, etc.

The Contractor will implement a regime of quality control across all aspects of the completed works.

As a minimum the volumes required in each given month will be:

- 10% intrusive quality control audits on completed servicing and safety checks
- 10% on repairs
- 10% on works falling outside the scope of the contract and paid for as an additional amount
- 100% on new heating installation and boiler replacements

For the servicing and safety check audits the Contractor will provide a means of:

- selection of properties for audit
- ensuring that a representative sample of engineers are regularly audited.

Result of this quality regime will be presented at each progress meeting together with actions taken to resolve any issues identified.

## Repeat Failures

The Contractor will proactively manage the quality of all staff and the resulting quality of works undertaken. A continuous trend analysis will be carried out and reviewed with a process in place that will be followed to assist in quality improvement or in certain circumstances removal of the individual from the contract.

The Employer will have independent quality audits carried out by a third-party QA company. The Contractor will co-operate fully in that respect by providing access to all records and details of the Contractor's audit regime. The Contractor will remedy any failures including returning to site within an agreed timescale at their own cost. Evidence will be provided to include re-certification and photographic evidence.

### 3.32 KEY PERFORMANCE INDICATORS AND MILESTONE REVIEWS

Key Performance Indicators (KPIs) will be monitored, and the Contractor will supply information to enable their preparation as is required.

KPIs are however subject to review by the Employer's Representative throughout the contract and changes will be discussed and agreed.

To demonstrate improvement throughout the contract term, where possible the target is to be increased incrementally throughout the contract term.

All KPI's will be presented prior to each progress meeting.

Compliance by the Contractor with KPIs shall be the subject of Annual Reviews undertaken on the following basis:

- Performance Review meetings will be organised by the Employer's Representative with representatives of the Contractor, the Employer and Employer's Representative to evaluate progress and enable corporate learning.
- Annual Reviews will be undertaken by the Employer's Representative with participation from representatives of the

Employer and Contractor.

- Where problems are identified in achievement of KPIs at any time the party identifying such problem shall immediately notify such problems to the other parties in writing with constructive proposals for their resolution and the parties shall consider such proposals through regular review meetings.
- Where problems cannot be resolved through the Review procedure described and particularly where there is a persistent failure to achieve any one or more of the agreed KPIs, then the parties shall meet to review their position and establish such alternative arrangements as may be necessary to meet their reasonable joint and individual requirements.

### **3.33 WORKS CONSIDERED TO BE OUTSIDE THE SCOPE OF THE CONTRACT**

Where the Contractor believes works are outside the scope of the inclusive element of the contract or where they believe they should receive payment to complete works then the Contractor will evidence such contention. This may include:

- Providing written confirmation from a parts supplier or manufacturer that a component or part is obsolete.
- Providing written confirmation from a parts supplier or manufacturer that a component or part is not immediately available, together with timescale for availability.
- Details as to why such a request is not believed to be covered within the scope of the contract
- Details of any clauses that would specifically exclude the matter from the contract cover.
- Proposal options to resolve the matter together with costing and cost make up.

Subject to the previous being duly provided the Employer's Representative will then use the details supplied to decide whether payment is due or not.

### **3.34 APPROVED AND/OR PREFERRED PRODUCTS**

Wherever a product, material or part is either specified or noted as being preferred, in all cases it should be noted that approval will not be unreasonably withheld to use anything of similar quality provided there are benefits in so doing. The Contractor will however fully demonstrate any such benefits at the point of seeking approval prior to any approval being granted.

### **3.35 COMPLAINTS FROM TENANTS**

In the case of a complaint against the Contractor, the Employer's Representative will write to the Contractor requesting full details of the complaint. The Contractor must reply to the Employer's Representative within 5 calendar days providing full details including documentary evidence of when the tenant(s) was visited, work history, job vouchers, detail of any unavoidable delay in attending or completing repair work etc. In the case of an argument or dispute with a tenant(s) the Contractor may have to show what disciplinary action has been taken against the operative.

On receipt of the necessary information the Employer's Representative will review all the evidence and make known their findings to the Contractor.

The contractor will report to the Employer upon complaint statistics on a minimum frequency of a monthly basis, including total numbers of upheld complaints.

### 3.36 COMPENSATION TO TENANTS

The Contractor will provide adequate compensation for residents for any damage to property/possessions or property as a result of carrying out works. All costs incurred by the Contractor and compensation payments are deemed to be included in the tender sum.

If a complaint is upheld by the Employer Representative following investigation, the Employer will issue appropriate compensation in accord with their Policy to the resident(s) and recharge the Contractor.

The Contractor shall pay direct to the resident an amount for failure to deliver the service as follows:

- a) Failure to keep an appointment with the Resident = £30.00
- b) Failure to complete any work within the prescribed time scales (cost per day) = £10.00 to include the cost of usage of temporary heating. This may be subject to review at a time during the term of the contract. Any such review will be based upon the quarterly energy prices data provided by HM Govt Dept for Business Energy and Industrial Strategy.

## **SCHEDULE 4 – CODE OF CONDUCT**

### **4.1 GENERAL REQUIREMENTS**

The Code of Conduct applies equally to all Contractor employees and its Sub-Contractors.

The Contractor should always remember, although a property is owned by the Employer, it is someone's home, and must be treated as such.

The Contractor on receiving an Order, should immediately confirm access arrangements with Service Users or site staff, or inform the Employer of any problem which may lead to a delay or failure to complete the work within the required timescale.

When arrangements for access cannot be made by telephone, the Contractor must either email, write to or visit the tenant or site staff to make access arrangements, to confirm a convenient time to carry out the work. If necessary, a card should be left with a request to contact either the Employer or the Contractor directly.

It is the responsibility of the Contractor to ensure that plant, materials and labour will be available to undertake the work at the arranged time, or immediately to seek approval of Service Users and the Employer to amend the arrangement where a delay is inevitable. It is imperative that explanations for delays are communicated to Service Users and the Employer as soon as possible whenever they arise.

The Contractor will notify the Contract Administrator of any problem regarding their capacity to undertake work for the Employer, whether by reason of a temporary heavy workload, or a change in circumstances (e.g. staff changes), which may affect capacity and Repair Response Period. It is particularly important that the Employer is given due notice of any situation in which may delay the completion of any work.

### **4.2 ARRANGEMENTS**

It is the responsibility of the Contractor to ensure that plant, materials and labour will be available to undertake the Work at the arranged time, or immediately to seek approval of tenants and the Contract Administrator to amend the arrangement where a delay is inevitable. It is imperative that explanations for delays are communicated to Tenants and Contract Administrators as soon as possible whenever they arise.

### **4.3 NOTICE**

Due notice must be given whenever it is necessary to disconnect services or interrupt the use of access or amenities, and such interruption should be kept to a minimum.

The Contractor is responsible for ensuring, where appropriate, any statutory consents (i.e. scaffolding on a pavement) are obtained before work commences, and that any statutory notices (i.e. building regulation notices) have been applied for as appropriate.

#### **4.4 KEY HOLDING**

Whenever possible, work should be carried out or access obtained to premises when the tenant or representative is present.

Any other arrangement for key holding or unaccompanied access is discouraged. The holding of keys to a tenanted property will be arranged at the risk of the Contractor and must never occur without the specific agreement of the tenant.

#### **4.5 CONFIDENTIALITY**

Note should be taken to instruct operatives not to involve themselves in discussion with tenants, or others, of matters that may contravene reasonable requirements of confidentiality concerning the Employer's business or concerning other tenants, other properties or other contractors.

Equally operatives must not discuss or pass comment on appliances or systems that may lead to difficulties in the future.

Any enquiry from tenants or others concerning the Employer's business should be diplomatically redirected to the appropriate staff.

#### **4.6 ACCESS**

When arrangements for access cannot be made by telephone the Contractor must call on the tenant to confirm a convenient time to carry out the work. If necessary, a card should be left with a request to contact either the Employer's Contract Administrator or the Contractor directly. In the event of tenants breaking arrangements, or refusing access, the Contract Administrator must be informed as soon as possible. Employer's staff will accompany operatives if requested in advance.

#### **4.7 STANDARDS**

Over and above the general requirements of standards of performance and conduct required, due note should be taken no deviation from these norms will be acceptable. Disciplinary action would be taken if there were any attempt by an operative to take advantage of the special circumstances of a tenant.

In respect of operatives' conduct to residents the following is to be observed:

- a) All dealings with residents are to be undertaken in a polite manner with strict observance of the requirements of The Employer's Equal Opportunity Policy.
- b) The Contractor's operatives are always to carry identification and make such identification clearly and readily available for inspection by residents and the Employer's staff.
- c) The Contractor shall not permit smoking or use of radios etc. by his operatives or subcontractors in resident's homes.

- d) The Contractor shall not permit the use of electronic e-cigarettes and vaping devices by his operatives in resident's homes.
- e) The Contractor shall not allow their operatives to bring their pets to work or in resident's homes.
- f) Operatives must not use any facilities without first asking permission from the resident or residential staff.
- g) Operatives must not use power tools without first asking permission to use the available power supply. In certain circumstances it may be necessary to make use of a portable generator. In this instance all safety checks and certification must be in place prior to the equipment being brought to site.
- h) Noise and nuisance created by generators should be considered and it is preferable to make use of a quiet running generator.
- i) If at any time work activities are the cause of a potential conflict with the resident or others around the Contractor must cease work, inform the Employer and seek guidance from the Contract Administrator.

Unless there are unavoidable or extenuating circumstances the Contractor must not break pre-arranged appointments with residents. If circumstances do arise that make it impossible to keep an appointment or for another operative to be sent, the Contract Administrator or the nominated person must be immediately informed.

#### **4.8 GOOD PRACTICE REQUIREMENTS**

The Contractor's operatives are required to follow certain practices, which the Employer considers fundamental to a quality service. These practices include, but are not limited to:

- a) operatives shall decline to work in any premise where children under the age of 18 (eighteen) are present without any supervising adult in attendance.
- b) Being prompt when an agreed time has been organised to have works undertaken.
- c) Being clean, properly dressed, provided with shoe/boot protection/covers before entering the resident's home
- d) Observing any reasonable cultural or religious requirements the resident may have.
- e) Discussing the work with the resident on arrival and agreeing on how it is to proceed, keeping the resident regularly updated on the progress of the job, particularly when the work will require more than one visit to complete.
- f) Not playing radios or headsets in residents' homes.
- g) Always using clean dust sheets where mess is likely to result from the works.
- h) Always leaving a calling card if the resident is not in when access required.
- i) Always showing identification cards before seeking entry for the first time.

- j) Being courteous to residents.
- k) Never using bad language or speaking in a way which may cause offence to any member of the community.
- l) Always clearing up promptly any mess left as a result of the works carried out.
- m) Not using any of the resident's facilities without their prior permission.
- n) Not getting involved in conversation with residents regarding operational matters.
- o) Taking all reasonable steps to ensure the security of the resident's property and possessions.

#### **4.9 DAMAGE**

- a) If, during work, the Contractor damages something belonging to a resident, let them know immediately and apologise.
- b) The Contractor must make good the damage caused within 10 days. If necessary, the Contractor shall replace or pay compensation for such items, subject to the agreement of the resident.
- c) The Contractor shall inform the Employer of all such incidents and keep a written record.

#### **4.10 CLEARING UP**

- a) Leave work areas in a clean and tidy condition.
- b) Remove dust sheets and vacuum clean the affected rooms.
- c) Relocate any furniture, fixtures and fittings moved to their original location.

#### **4.11 RESIDENT(S)/SITE STAFF INFORMED AND SATISFIED**

- a) Check all the services are in a safe and working condition.
- b) Before leaving ensure the resident(s) or site staff are aware of the work that has been done and whether follow-on works are required.
- c) Ask if they have questions and are satisfied with the work, and attend to any minor issues identified before leaving.

#### **4.12 SAFEGUARDING**

The service supplier is to work collaboratively with the Employer in a joint effort to implement the Employer's safeguarding policy.

#### **4.13 SECURITY AND PROTECTION**

- a) Care must be taken to ensure the comfort, safety and security of residents and adjoining householders during works. All necessary reasonable action to ensure the wellbeing of both the property concerned, and those adjoining, is required. Operatives will use dust sheets and protective coverings whenever dust, dirt, paint, mortar or similar nuisance is liable to foul surrounding property, fauna or flora.

- b) Care must be exercised when work is carried out in the vicinity of small children. Sharp tools, power tools, toxic substances etc. must be kept well out of reach. Areas where floorboards have been lifted, loft access exposed fire openings etc. must NEVER be left unattended.
- c) Care and consideration will be given when working in the home of older, disabled or vulnerable residents, particularly regarding the restricting or hindering their movement around the house, tools and materials lying on floors are a trip hazard and should be avoided. In these situations, it is desirable to maintain an acceptable level of warmth and comfort.
- d) Any complaint arising from a dispute in any form, between a resident and an operative must be referred IMMEDIATELY to the Contract Administrator.
- e) If for any reason an operative feels unable to undertake specified work on a property, the Contract Administrator must be informed immediately.
- f) In the interests of all concerned, whenever operatives encounter a difficult or potentially violent situation, they must leave the site immediately and contact the Employer's staff as soon as possible.

#### 4.14 INDUCEMENT

Any offer or suggestion of inducement to influence ordering of work or payment of costs will be interpreted as bribery / corruption and dealt with as outlined under the Conditions of Contract.

#### 4.15 GIFTS

Any offer of gift or gratuity (e.g. seasonal 'perks') will not be accepted if directed towards specific personnel. Where a gift is deemed acceptable, it will be marked for the attention of the company secretary and acknowledged on the clearly expressed understanding that it benefits equally all staff of the Employer.

#### 4.16 PRIVATE WORK FOR EMPLOYER'S STAFF

No work is to be undertaken privately for a member of the Employers Staff, or their close relatives.

**Note:** A relative is defined as a person's spouse, parent, grandparent, child, grandchild (including illegitimate children and grandchildren) brother and sister. Technically the term relative does not include any relationship that is not by blood, marriage, civil partnership or co-habitation, however, if considered close the same criteria should apply.

#### **4.17 PRIVATE WORK FOR RESIDENTS**

Notes should be taken if any private work undertaken for residents must be on a separate basis with no Employer involvement, or responsibility for payment. Whilst it is the responsibility of the resident to obtain permission from the Employer to carry out work of a structural nature to the property, the Contractor should ensure the Contract Administrator is aware of the intention to carry out such work.

#### **4.18 CESSATION**

In the event of ceasing work for the Employer, the Contractor will hand back any keys, plans, specifications, other documents or equipment issued by the Employer.

#### **4.19 LABOUR**

Under no circumstances must any member of the Contractor's staff be:

- a) a member of the Employer's Board or Regional Committees, or
- b) related to or have a close personal relationship with any member of the Employer's Maintenance Staff or member of the Employer's Board or Regional Committees.

If the Contractor employs a person who falls into one of the above categories or is linked in any way with other members of staff within the Employer, the Contractor must inform the Contract Administrator in writing. The Employer will discuss the matter and make a decision regarding issuing further work to the Contractor.

## **SECTION 1 – DOMESTIC GAS SERVICING AND SAFETY INSPECTION SPECIFICATION**

### **1.1 GENERAL NEEDS**

- 1.1.1 This specification, practices and procedures outlined are to encompass all domestic properties with gas heating/hot water appliances, any associated systems, smoke/heat or carbon monoxide (CO) detectors and any un-vented hot water storage vessels contained therein and will detail where appropriate if a requirement applies purely to a type of appliance and/or system.
- 1.1.2 The described works will generally comprise of an annual or more frequent as required comprehensive service of every Employer owned appliance and system that is found in an individual property to the appliance manufacturer's specification and the further requirements of this specification at all the properties scheduled which may vary from time to time. Where there is a gas safety inspection liability, the works will culminate in the completion and issue of a Landlord Gas Safety Record (LGSR).
- 1.1.3 There will be a gas safety inspection liability for every property that has a gas supply entering it irrespective of whether the supply is connected to an internal supply and/or appliance and irrespective of whether it is used or not. Where there is only a gas supply within a property or where there is only a supply entering a property; works as described to complete a gas safety inspection will be undertaken as detailed herein together with any other such works required to complete testing and visual inspection of residents own appliances. The schedule of rates for completion of works under this section are intended to cover all aspects of the servicing and safety inspection work for all current and future properties covered by this contract.
- 1.1.4 The actual works completed should be such that they will include for all maintenance necessary for the safe and efficient operation of the Employer owned appliances, associated systems and all the component parts thereof installed in each property. Resident owned gas fires and other resident owned gas fired appliances are also to be fully checked (visual check on resident's owned gas cookers only) for safety but have no remedial or further works carried out to them without the authorisation of the Employer Representative.
- 1.1.5 The schedule of rates includes for the provision and replacement of all sundries, parts, materials, appliances, controls, replacing incorrectly rated fuses and labour necessary to maintain an appliance or system in good working order until the next visit unless specifically excluded from the works.

As such, the only items of work that will be paid for outside the comprehensive element of the contract are defined within “Additional Works” as further appended. A schedule of examples of acceptable products that can be utilised is contained within **Clause 1.9** as follows. Any other part, component part or other products are to be changed on a like for like basis.

- 1.1.6 All sundry items and their replacement together with lubricants, sealants, seals, batteries, O-rings, washers, belts, water conditioning fluid and inhibitors etc are included within the cost of this work.
- 1.1.7 All records proposed to be used for recording service and gas safety inspection details will be subject to the approval of the Employer Representative. All records will be provided in electronic format only. Handwritten records will only be accepted if the electronic system fails for any reason and even in such circumstance the Contractor will scan any such records so that they are delivered in a similar format. Residents are to be supplied with copies of records within 14 working days of completion.
- 1.1.8 Every service record and LGSR is to be checked for correct completion and validated by the Contractor prior to transmission to the Employer Representative. Such validation shall include checks to ensure the following are correctly completed:
  - a) The date on which the appliance and/or flue was checked.
  - b) The address of the premises at which the appliance and/or flue is installed.
  - c) The name and address of the Landlord of the premises where the appliance/flue is installed.
  - d) The description of each gas appliance and or flue checked together with a record of where sited.
  - e) Any defects identified.
  - f) Any remedial action taken.
  - g) That the inspection carried out has been completed in accord with the requirement of the Gas Safety Regulations.
  - h) The name and signature of the individual who completed the LGSR.
  - i) The Gas Safe registration number of the contractor who completed the LGSR
  - j) A Gas Tightness Test

Where remedial works are identified on the LGSR the Contractor will, on a separate report, advise what action the Contractor has taken to complete the remedial actions recommended, or who should undertake such actions.

- 1.1.9 Any such record received by the Employer's Representative may be rejected if either incomplete or incorrect and if there are any anomalies, such as appliance detail discrepancies. All such records will be returned to the Contractor for correction and/or clarification. Copies of revised LGSR must be provided to the Employer's Representative and the respective resident within 5 calendar days of rejection.

If any records are to be reissued as a result of a revisit to a property this will be at the sole cost of the Contractor. The Contractor will make arrangements to revisit properties at the convenience of the resident.

Should there be any failure to supply corrected or replacement records for any rejected record within the 5-day time scale then reasons must be supplied by the Contractor together with the timescale for rectification. Any further failure may result in alternative provider being requested to complete the work and any associated costs will be charged to the original Contractor.

- 1.1.10 All electronic records are to be supplied as per **Appendix 1**
- 1.1.11 The Contractor will notify the Employer's Representative of warning notices immediately and, wherever possible, prior to leaving site. The Contractor will also provide supporting quotations, where required, for rectification works.
- 1.1.12 There may be a need to record additional information, such as depth of loft insulation depth for each property visited, and the Contractor will cooperate in this respect.

## **1.2 PRELIMINARY WORKS**

- 1.2.1 When arriving at the property the engineer must identify him/herself to the resident and explain the purpose of the visit. Such identification should include offering both company identification and Gas Safe registration card.
- 1.2.2 The engineer must enquire of the resident whether the appliance(s) and/or system(s) to be serviced and checked for safety, are owned by the Landlord or the Resident and have operated effectively since the previous visit.
- 1.2.3 The engineer shall confirm there is sufficient access to the gas meter. If sited remotely from the property, the engineer shall confirm there is adequate labelling of the meter to confirm the property to which it pertains, and there is an adequate means of isolation of the gas supply within the property.

1.2.4 The engineer shall establish whether prepayment gas and/or electric meters are installed and if so whether there is enough credit on both to complete the service and safety inspection. If insufficient credit is available, the engineer shall ask the resident to obtain further credit to allow the test and service to proceed in full.

If that is not possible the engineer shall; subject to the permission of the resident, purchase minimum amounts of further credit (£10.00). The costs of any such purchase on provision of receipt shall be repaid to the Contractor within the next monthly valuation and recharged to the resident by the Employer.

1.2.5 Where the Engineer has established there is insufficient gas and/or electric available on the prepayment meter and has been unable to obtain additional credit, as much of the testing shall be completed and recorded as possible. However, where it is not possible to entirely complete the gas safety inspection the engineer shall:

- a) Classify the installation as AT RISK.
- b) Isolate the gas supply at the meter with the resident's permission.
- c) Issue a warning notice to the resident advising that the installation needs to be checked for safety prior to recommissioning once gas and/or electric is available.

Where the resident will not grant permission for the supply to be disconnected then the warning notice shall still be issued, and the Employer shall be notified immediately.

The Engineer must clear a workspace around the appliance(s) and lay down adequate floor covering protection.

1.2.6 Prior to commencement of any works, the Engineer shall carry out a tightness test of the gas outlet supply. If this test proves a failure then any gas escape must be rectified before continuing, if unable to do so, further advice must be sought from the Employer Representative.

1.2.7 It is considered that all asbestos containing appliances will have been replaced or addressed, however, the Engineer must inspect the appliance(s) to be serviced to ascertain if there is a possibility that there could be asbestos present. If there is any doubt seek further advice from the appliance manufacturers and the Employer Representative. In any event carry out no work to the appliance until it has been confirmed there is no issue and it is safe to do so.

- 1.2.8 The Engineer must check any ventilation requirement against the actual ventilation supply to all relevant appliances within the property to ensure conformity with all relevant regulations, manufacturer's instructions and requirements, and the requirements of the Gas Safety Regulations.
- 1.2.9 If the ventilation supply is incorrect seek further advice from the Employer Representative unless it can be easily rectified, and the resident agrees for this work to be carried out. Where necessary the Gas Industry Unsafe Situation Procedure IGEM/G/11 shall be applied.
- 1.2.10 The Engineer must check to ensure the appliance is of sound construction and that it is installed correctly, rigidly, soundly and in accordance with manufacturer's instructions. Preliminary checks must also be made of the flue, flue joints, pipework and electrical connections.
- 1.2.11 The Engineer must carry out an operational check of the appliance and associated system, checking the flame picture of the burner where visible and the operation of all safety devices

### **1.3 SPECIFIC SERVICE PROCEDURE**

All appliances are to be serviced in strict accordance with the Manufactures Instructions.

### **1.4 SYSTEM CHECK**

The operations as shown below shall be carried out as necessary dependent upon the appliance and system type. No work should be carried out which does not adhere to the manufacturer's recommendations or specification. All works will include but not be confined to the cleaning, lubrication and adjustment of the items specified. The renewal, replacement, or carrying out of any remedial work or action to any part or controls is to be carried out in accord with to the requirements of the contract.

- 1.4.1 Check all types of manual and automatic appliance controls and valves including but not limited too programmable thermostats, thermostats, time switches, clocks programmers, gas valves, safety devices, zone valves, flow share valves, energy management controls and pumps.
- 1.4.2 Check all visible electrical wiring within the system, from the point of connection to the ring main circuit and replace any burnt or heat affected wiring anywhere within system.
- 1.4.3 Check all radiators, radiator valves and all visible pipework for signs of leakage damage or wear. Clean out any dust and debris from any low surface temperature or other radiator/s with a cover.

- 1.4.4 Check any expansion tank, including water level, ball valve, warning pipes, feed and expansion pipework, and topping up of system. For unvented systems, check pressure (topping up if necessary), termination of discharge pipe, expansion vessel, and filling point. All filling loops must be disconnected, and the inlet and outlet pipes must be capped. See **Section 2** for further details in respect of unvented hot water systems.
- 1.4.5 Check any cold-water storage tank, including lid condition and type, ball valve, warning pipes, feed and expansion pipework and ensure the structure upon which it is installed is sound and correct. Refit and reposition lid as necessary. Record and advise the Employer Representative if incorrect.
- 1.4.6 Check to ensure no cold-water storage tank is in use and that it has been removed or disconnected and emptied where a combination boiler is fitted. If one is still required for WC, basin, bath or another outlet check that it is correctly sized. Report any issues to the Employers Representative.
- 1.4.7 Check all calorifiers externally for signs of leakage or deterioration and adjust thermostat to 55°C. Advise resident accordingly and record if the resident is unhappy with this.
- 1.4.8 Check operation of any immersion heater fitted (must have over-heat stat), check immersion over-heat thermostat and adjust if necessary. Record and advise the Employer Representative if immersion thermostat is not installed.
- 1.4.9 Check any scale reducer fitted and top up if required.
- 1.4.10 Check and carry out service operations in line with manufacturer's instructions on any "Magnaclean" or similar type equipment fitted to the installation. Total systems to be descaled and de-sludge as necessary.

The Contractor shall carry out descaling and desludging processes in accordance with the latest BS7593 Code of Treatment of Water in Domestic Hot Water Heating Systems. This includes any scale in all types of hot water storage tanks and cylinders. Renew appliance scale reducer cartridges or contents if loose fill at each service or other times as necessary.

Allowance shall be made for the use of proprietary solutions for flushing and cleaning and the installation of an inhibitor. Inhibitor levels in all types of system must be maintained and must be topped up as necessary.

This check should also include an assessment of water cleanliness and servicing of the in-line filter.

- 1.4.11 Check all warm air heating grilles, registers, return air vents and ducting.
- 1.4.12 The Contractor shall at each annual visit record the condition of the boiler and installation and make an assessment of and record its remaining useful life together with an indication of when replacement should ideally be undertaken. It is accepted that this can cause conflict with end users over planned new installations etc- this can be avoided by adopting a simple coding of 1 to 10 for estimating future working life
- 1.4.13 The Contractor shall record on the service record if any Smoke or CO Detectors are installed. In addition, it shall be recorded whether such are battery or mains operated and if known when replacement is due and carry out such tests as necessary to determine that the detector is functioning correctly. See **Section 2** for further details.
- 1.4.14 The Contractor shall make and record an assessment of any risk associated with any appliance associated system or ancillary control or component and whether adequate CO detectors are installed. The definition of adequate CO detectors is to be confirmed. However unless advised otherwise this will be adjacent to any gas appliance or other fossil fuel burning appliance and within each room through which any extended flue passes. Where it is deemed there is a risk then CO detectors shall be installed to negate the risk in line with the requirement of **Section 2 Clause 2.4**.

## 1.5 COMMISSIONING

Following completion of the servicing works the appliance and or system is to be commissioned in accordance with the following requirements:

- a) Restore gas supply and test the internal gas outlet supply for tightness. Check all disturbed joints with an appropriate and approved form of leak detection fluid and rectify any gas escapes. Confirm gas pressure is correct: if it is not, Contractor is to report this to the gas supplier and ensure that this is corrected prior to continuing work, and a reference number is to be obtained and recorded.
- b) Restore water supply, checking all disturbed joints for signs of water leakage. Sealed systems to be filled to correct pressure.
- c) Purge air from system and radiators if necessary
- d) Restore mains electrical supplies and ensure earth connections are correct, and the fuse is of the correct rating, replace if necessary.

- e) Reset all controls as required
- f) Relight all appliances
- g) Check and reset ignition devices, location of thermocouples, pilot jets and electrodes
- h) Check, adjust where necessary all pilots and burners for correct gas rate, aeration and flame picture
- i) Carry out a thorough test of all flues, including both smoke and spillage tests and ensure that the flue is operating correctly and efficiently.
- j) Carry out a flue gas analysis (where possible) and record the results on the service record.
- k) Reset all manual and automatic controls to the resident's requirements and satisfaction. Care should be taken to set domestic hot water temperatures in accordance with any necessary pre-documented or dynamic legionella risk assessment.
- l) Check operation of all pumps and ancillary controls
- m) Ensure the appliances are stable and level
- n) Clean the appliances and remove all previous labels
- o) Attach a new label to the appliance, and/or flue and closure plate as specified.
- p) Reset any boiler cut off device fitted or activated service interval programmer.
- q) Complete the gas safety inspection as per **Clause 1.5** below.
- r) Clear site and leave clean.
- s) Complete all specified paperwork and leave resident satisfaction card or collect satisfaction data as is required.
- t) Explain to the resident the extent of the works completed, any remedial works necessary, and how this is to be managed.

## **1.5 GAS SAFETY INSPECTIONS**

Carry out a full Gas Safety Inspection to comply with Regulations 35 and 36 of the Gas Safety (Installation and Use) Regulations 1998 and any amendments as promulgated and issue a legally compliant certificate upon completion.

All landlord fitted appliances (excluding those that are known to be residents owned will be visually inspected), will be inspected and must be recorded to include details and results such as the Make, Model, Location, Flue Type, Ventilation, Landlord's Appliance, Operating Pressure, Correctness of Safety Device, Flue flow test, Spillage test and indicate safe to use or N/A.

Where there is found to be a gas supply entering a property with no gas meter or gas outlet supply installed, then this fact shall be recorded on the LGSR. The incoming gas inlet supply shall be capped if not already done so, and where possible an air test made of any internal gas outlet supplies (in situ). Any open ends found must be capped.

Inspection and testing is to be carried out to:

- Internal gas outlet supplies
- The gas meter, checking and recording items such as the gas pressure, bonding arrangements, labelling and the operation of the emergency control
- All fitted gas appliances including residents own
- All fitted gas appliance flues and terminals including any flue and or terminal utilised by a resident's own gas appliance
- Ventilation arrangements for all appliances including residents own.

Upon satisfactory completion of the appropriate checks and tests a Landlords Gas Safety Certificate shall be completed. All must be entirely completed and where items of remedial work are identified with an appliance, this must be shown for the correct appliance number. The certificate must be signed, and any warning notices issued with copies provided to the Employer Representative.

## **1.6 SMOKE/HEAT DETECTORS**

The presence of smoke/heat detectors in all properties visited and their location is to be recorded. In addition, it shall be recorded whether such are battery or mains operated and if known when replacement is due.

If detectors are found to be present, then the Contractor shall:

- a) Test operation of all smoke/heat detectors. If found to be faulty replace and report to Employer. Testing must never be carried out with a live flame and must be carried out with a proprietary type of synthetic smoke designed for this purpose.
- b) Clean and service in accord with the manufacturer's instructions, isolate mains detectors from power supply and check battery operation.
- c) Replace all batteries irrespective of whether they require replacement.
- d) Carry out final operational test checking to ensure that any interlinking is fully functional.
- e) Record installation date if known and when sensor is out of date

## 1.7 CARBON MONOXIDE DETECTORS

Test checking to ensure that any interlinking is fully functional. The presence of carbon monoxide detectors in all properties visited and their location is to be recorded. In addition, it shall be recorded whether such are battery or mains operated and if known when replacement is due.

If a detector is found to be present, then the Contractor shall:

- a) Test operation of all CO detectors. If found to be faulty replace and report to Employer.
- b) Clean and service in accord with the manufacturer's instructions, isolate mains detectors from power supply and check any battery operation.
- c) Replace all batteries irrespective of whether they require replacement.
- d) Record installation date if known and when sensor is out of date.
- e) Carry out final operational

## 1.8 SERVICE LABELS

On completion of each service and inspection the Contractor must place an adhesive label as specified below on the appliance, flue and any closure plate stating the following:

- The company name and telephone number.
- Date of Service
- Name of person who carried out service
- Signature and initials

The label is to be suitable for attaching to an appliance and should be fixed in a position inside the casing or bottom tray as applicable. It should be prominent enough for an authorised person to find it but not such as to create an eyesore for the resident. Any difficulties should be resolved with the Employer Representative.

Flue systems in the roof space or ducting must have an adhesive label attached stating that the flue including all joints and termination has been inspected. Any water storage tanks shall equally have a label attached confirming that they have been inspected. In the case of a gas fire the service label must be attached to the inside of the closure plate at least 150mm from the flue spigot and air relief hole.

## 1.9 APPROVED PRODUCTS

All schedule of schedule of rates are to reflect the usage of the products specified. Alternatives will be considered provided such requests for approval are placed in writing to the Employer Representative together with supporting reasoning. Requests will be granted based on any benefits attained.

Boilers	WORCESTER or similar/APPROVED
Pumps	Grundfos or similar/APPROVED
Radiators	Stelrad or similar/APPROVED
Thermostatic & Radiator valves	Danfoss or similar/APPROVED
Cylinders	IMI or Albion
Inhibitor	Adey
Controls	Danfoss, Honeywell, Ideal or similar/APPROVED
Motorised valves	Honeywell, Danfoss or similar/APPROVED
Filtration	Adey Magnaclean Professional or similar/APPROVED

## SECTION 2 – SERVICING OF NON-GAS FIRED, RENEWABLE AND ANCILLARY APPLIANCE

### 2.1 GENERAL

- 2.1.1 This section of the specification is to be read in conjunction with the requirements and processes contained within **Section 1**. The detail contained therein that is not specifically related to works to a gas supply or gas appliance which shall equally apply where relevant and necessary to complete works required under this Section. This shall include all servicing and testing of smoke or CO detectors to the standard defined within this Section.
- 2.1.2 The processes, practices and procedures outlined are to encompass works required to service and check all domestic non-gas fired appliances, all renewable technology appliances, systems any associated systems, ancillary appliances and any un-vented hot water storage vessels contained therein; together with any connection and interaction with other appliances and systems covered under this contract and will detail where appropriate if a requirement applies purely to a particular type of appliance and/or system.
- 2.1.3 The general described works will comprise an annual comprehensive service of every appliance, system or ancillary appliance that is found in an individual property to the respective manufacturer's specification and the further requirements of this specification at all the properties scheduled which may vary from time to time. The schedule of rates for completion of works under this section are intended to cover all aspects of the servicing work for all current and future properties covered by this contract.
- 2.1.4 The actual works completed should be such that they will include for all maintenance necessary for the efficient operation of Employers owned appliances, associated systems and all the component parts thereof installed in each property.

Where there is a gas safety inspection liability in a property the works are intended to culminate in the issue of a Landlord's Gas Safety Certificate (LGSR) and where service work is completed a "Service Report" for each appliance. Where there is no gas safety inspection liability an approved method of recording this will be agreed but as a minimum this will be recorded on any service record.

- 2.1.5 The schedule of rates includes for the provision and replacement of all sundries, fluids, parts, materials, appliances, controls, replacing incorrectly rated fuses and labour necessary to maintain an appliance or system in good working order until the next visit unless specifically excluded from the works.

As such the only items of work that will be paid for outside the comprehensive element of the contract are defined within "Additional Works" as further appended. All parts, component parts or other products are to be changed on a like for like basis.

- 2.1.6 All sundry items and their replacement together with lubricants; sealants, seals, batteries, O-rings, washers, belts, water conditioning fluid and inhibitors etc are to be included within the cost of this work.

## **2.2 PRELIMINARY WORKS**

Refer to and allow for the requirements of **Appendix 1**.

## **2.3 SMOKE/HEAT DETECTORS**

The presence of smoke/heat detectors in all properties visited and their location is to be recorded. In addition, it shall be recorded whether such are battery or mains operated and if known when replacement is due.

If detectors are found to be present, then the Contractor shall:

- a) Test operation of all smoke/heat detectors. If found to be faulty, replace and report to Employer. Testing must never be carried out with a live flame and must be carried out with a proprietary type of synthetic smoke designed for this purpose.
- b) Clean and service in accord with the manufacturer's instructions, isolate mains detectors from power supply and check battery operation.
- c) Replace all batteries irrespective of whether they require replacement.
- d) Carry out final operational test checking to ensure that any interlinking is fully functional.

## **2.4 CARBON MONOXIDE DETECTORS**

The presence of carbon monoxide detectors in all properties visited and their location is to be recorded. In addition, it shall be recorded whether such are battery or mains operated and if known when replacement is due.

If a detector is found to be present, then the Contractor shall:

- a) Test operation of all CO detectors. If found to be faulty replace and report to Employer.
- b) Clean and service in accord with the manufacturer's instructions, isolate mains detectors from power supply and check any battery operation.
- c) Replace all batteries irrespective of whether they require replacement.
- d) Record installation date if known and when sensor is out of date.
- e) Carry out final operational test checking to ensure that any interlinking is fully functional.

## 2.5 UNVENTED HOT WATER CYLINDERS

Where an unvented hot water storage vessel is installed in addition to any specific requirements of the manufacturer it is to have the following works completed.

- a) A check of the operation of all safety devices and rectification of any faults.
- b) An inspection of the sacrificial anode and any replacement of same.
- c) Any works specified by the manufacturer as being required on an annual basis.
- d) Check termination and route of discharge pipe.
- e) A check to ensure the system is installed in accord with the current relevant regulations.

**Note:** Such works can only be carried out by persons who have the appropriate qualifications to work on unvented hot water vessels.

## 2.6 SOLAR THERMAL

Where solar panels are installed and in addition to any specific requirements of the manufacturer, they are to have the following works completed:

- a) Check the frost protection of the solar fluid using a proprietary solar fluid tester. Rectify any issues.
- b) Check the pH value of the solar fluid is  $>7.5$ . Rectify any issues.
- c) Check the system and expansion vessel pressures and recharge as necessary.

- d) Check the solar pump function, return flow preventer, circulating volume, volume of blow-off liquid and hot water mixer thermostat. Rectify any issues.
- e) Refill with solar fluid if necessary and bleed system.
- f) Visually inspect collector, collector fastenings, collector fixings, brackets and pipe insulation to ensure all are clean, sound and stable.
- g) Check heating deactivation temperature, pressure relief valves, temperature relief valves and connections. Rectify any leaks or issues.
- h) Refit any removed component parts.
- i) Check system operation.
- j) Check to ensure the system is installed in accord with regulations and manufacturer's instructions.

## **2.7 GROUND SOURCE HEAT PUMPS**

Where a ground source heat pump is installed all maintenance shall be carried out in accord with the respective manufacturer's instructions. There is little actual maintenance required, however for any appliance containing more than 6kg of fluorinated greenhouse gas the system must be leak-tested by competent persons on each annual visit. In addition, the following shall also be undertaken:

- a) Manually check the operation of all safety groups and circuits and rectify any faults.
- b) Clean and check dirt filters in any brine circuits, pressurise brine and heating circuits as necessary.
- c) Clean and check dirt filters in any water circuits, pressurise water and heating circuits as necessary.
- d) Refit any removed component parts.
- e) Check system operation.
- f) Check to ensure the system is installed in accord with regulations and manufacturer's instructions.

## **2.8 AIR SOURCE HEAT PUMPS**

Where an air source heat pump is installed all maintenance shall be carried out in accord with the respective manufacturer's instructions.

There is little actual maintenance specified however the following shall be undertaken by a competent person:

- a) Manually check the operation of all safety controls and rectify any faults.
- b) Clean and check air filters remove debris as necessary.
- c) Clear obstructions and debris away from compressor units.
- d) Check any condense water pipe.
- e) Refit any removed component parts.
- f) Check system operation.
- g) Check to ensure the system is installed in accord with regulations and manufacturer's instructions.

## **2.9 NIBE TYPE EXHAUST AIR HEAT PUMPS AND ELECTRIC BOILER**

Where a NIBE type exhaust air heat pump and electric boiler is installed all maintenance shall be carried out in accord with the respective manufacturer's instructions.

There is little actual maintenance specified however the following shall be undertaken by a competent person:

- a) Manually check the operation of all safety controls and rectify any faults.
- b) Clean and check air filters remove debris as necessary, this needs to be undertaken 4 or 5 times per annum and the user is to be instructed on this process. Reinstall in reverse order.
- c) Replace air filters if necessary.
- d) Clean all building's ventilation devices. These must be done separately, and a note must be made of the settings and they should be reinstated as to the original setting.
- e) Check all safety valves separately, refill system as necessary to correct pressure.
- f) Check extract air temperature rectify in accordance with manufacturer's advice.
- g) Check fan, clean as necessary.
- h) Refit any removed component parts.
- i) Check system operation.
- j) Check to ensure the system is installed in accord with regulations and manufacturer's instructions.

## 2.10 MECHANICAL VENTILATION WITH HEAT RECOVERY (MVHR)

Where an MVHR type product is installed all maintenance shall be carried out in accord with the respective manufacturer's instructions by a competent person.

- a) Manually check the operation of all safety controls and rectify any faults.
- b) Clean and check air filters remove debris as necessary. Reinstall in reverse order.
- c) Replace air filters if necessary
- d) Check and clean all fans, motors and impellers.
- e) Clean and check heat exchanger and heat exchanger core
- f) Check and clean any condense water pipe and condense tray.
- g) Refit any removed component parts.
- h) Check system operation.
- i) Check to ensure the system is installed in accord with regulations and manufacturer's instructions.

## 2.11 BIO-MASS BOILERS

In addition to the appliance and system servicing described within **Appendix 2** the following also applies to any bio-mass appliances and system that utilises carbon neutral fuels such as wood, wood pellets or logs: to be carried out by a competent person.

- a) Carry out a thorough clean and checking of the chimney and flue system
- b) Check appliance ventilation requirements and correct as necessary.
- c) Clean and clear fuel and feed hopper.
- d) Check and clean fuel release mechanism and activation.
- e) Check and clean any modulation fan for combustion air delivery.
- f) Refit any removed component parts
- g) Check system operation
- h) Check to ensure the system is installed in accord with the relevant regulations and manufacturer's instructions.

## 2.12 LPG APPLIANCES AND SYSTEMS

In addition to the appliance and system servicing described within **Appendix 2** the following also applies to LPG appliances and systems: to be carried out by a person with the relevant qualification.

- a) If cylinders are used as the fuel store then check hose condition and age, if the 5-year life cycle has expired or will expire in the coming 12 months then replace hoses.
- b) If cylinders are used as the fuel store, check condition of changeover valve and replace as necessary.
- c) If cylinders are used as the fuel store, check distance from property and drains is greater than 4m.
- d) If a bulk tank is used for the fuel store, check second stage regulator condition and replace as necessary.
- e) Carry out tightness test from second stage regulator onwards or to whole supply as appropriate.
- f) The cylinder or storage vessel location shall have an 'Emergency action notice for users of LPG' located close by to the installation in a prominent position. If this is not present or of weather protective material, then such shall be supplied and fitted.
- g) Tightness testing to the complete system shall be carried out to include the high-pressure stage, low pressure stage and any intermediate pressure stage using the methods given in BS 5482-1 Code of Practice for Domestic Butane and Propane Gas burning installations.

### **2.13 OIL FIRED APPLIANCE AND SYSTEM ADDITIONAL REQUIREMENTS**

In addition to the appliance and system servicing described within **Appendix 2** the following also applies to oil fired appliances and systems, to be carried out by a person with the relevant qualification:

- a) Drain sludge from oil tank and clean supply line filters to ensure supply is clear.
- b) Check oil tank and supply for signs of leakage and complete and issue an OFTEC T1/133D oil storage tank spillage and fire risk assessment form.
- c) Repair leaks on oil supply lines, seek advice from the Employer Representative in respect of leaks to oil storage tank.
- d) Check the tank, the tank base for correct installation and that it is outside the minimum allowable distance from boundaries and buildings
- e) Check appliance ventilation requirements and correct as necessary.
- f) Replace burner nozzles on each service visit.
- g) Complete an OFTEC CD/11 report, one copy to be left at or sent to the property and another to be forwarded to the Employer Representative.

## 2.14 SOLID FUEL APPLIANCE AND SYSTEM ADDITIONAL REQUIREMENTS

In addition to the appliance and system servicing which is nominally described within **Appendix 2** the following also applies to solid fuel appliances and systems: to be carried out by a person with the relevant qualifications.

- a) Carry out a thorough sweep of the chimney and complete a Certificate of Chimney Sweeping and return to the Employer Representative. This part of the service is to be completed twice yearly and the Contractor shall allow for same within the annual rate.
- b) Check appliance ventilation requirements and correct as necessary.
- c) Clean and clear appliance flue outlet and boiler flue way etc. Advise user how to do this and that it should be done monthly.
- d) Examine any fire bricks and replace any which are broken. Ensure new fire bricks are well wetted and sealed in generously with fire cement.
- e) Examine firebars and replace any which have failed or are badly distorted. Ensure the correct firebars are in the correct position.
- f) Clean and scrape the bedding edges of fire doors and inner front casting and ensure a correct fit. Adjust the door hinge and latch assembly to correct the fit and correct any distortion by draw filing the fire door bedding edges.
- g) Replace any broken glass in the fire door, removing all old sealing material.
- h) Clean the ash pit and cover and adjust the fit of the cover to ensure a correct fit.
- i) Ensure that the thermostat is correctly set and operating, and that the boiler damper is closing.
- j) Check the fire box body joints for air tightness and seal with fire cement if required.

## SECTION 3 – DOMESTIC BREAKDOWN AND REPAIR SPECIFICATION

### 3.1 GENERAL

The Contractor shall provide a 24-hour a day, all year-round (to include all Bank Holidays), breakdown service for the period of the Contract to allow for repairing any breakdown or malfunction of any appliance, component part, system or system part on any appliance or system included in the property and asset register supplied or as may be added to the property and asset register or as directed by the Employers Representative.

The breakdown service shall be on a fully inclusive basis to include the provision of all parts, materials, appliances, controls, and labour necessary to maintain an appliance and/or system in good working order unless specifically excluded from the works. It shall also include any processes or procedures detailed elsewhere within **Appendix 2 - Sections 1 and 2** that are pertinent to the repair or rectification of any appliance or system as required by this contract. Only products specified within **Appendix 2 - Section 1 Clause 1.9** shall be utilised unless there is no preferred product specified in which case replacements will be made on a like for like basis.

The schedule of rates for completion of works under this section are intended to cover all repair work for each Employer owned appliance and/or system found within individual properties.

### 3.2 DETAIL

On receipt of a telephone call, email, or similar to rectify a problem the Contractor shall:

3.2.1 At any time of the day or night, respond to all calls within the time scales stated in the following:

**Emergency/Vital** - responded within 4 hours, complete within 24 hours

**Urgent** - complete within 7 calendar days

**Routine** - completed within 14 calendar days

**Emergency:** Any repair required to fix any defect that puts the health, safety or security of a Resident or third party at immediate risk or that affects the structure of the building. For example - uncontrollable water leak, report of fumes, leaking oil tank or pipework, repair request from a sheltered scheme or communal heating site, repair request from a vulnerable tenant. Complete within 4 hours of initial request.

**Vital:** Repairs to remedy a defect that does not cause immediate risk to the health, safety or security of a Resident or third party and although, therefore not an emergency, still needs to be carried out quickly to ensure that the risk does not increase. For example - leaking from water or heating pipe, tank or cistern, total or partial loss of gas supply, blocked flue to open fire or boiler, total or partial loss of space or water heating between 31st October and 1st May. Complete within 1 day of initial request.

**Urgent:** Repairs carried out to remedy a defect that can be deferred without causing, inconvenience or nuisance to the Resident, a third party or the long-term deterioration of the building. For example: Total or partial loss of space or water heating between 30th April and 1st November. Complete within 3 days of initial request.

**Routine:** All follow-on work, identified from any repairs call. For example - adjust timeclocks or programmers, balance systems. Complete within 7 days of initial request.

The decision as to the classification of call and response necessary may be made by the Contractor's personnel who receive the notification unless a specific request is made by either the Employer or the Employer Representative to respond within the specified time scale.

- 3.2.2 Every engineer shall be equipped with a stock of spare parts to deal with most eventualities on the first visit such that 100% of the reported repairs are diagnosed and fixed right first time. This requirement is irrespective of whether parts or other items are required to complete a repair. The stock of parts to be carried will ultimately depend upon the appliances and systems found in the Employers properties and the Contractor will make proposals as to what should be carried to meet this requirement. To facilitate this, asset information will be supplied however this cannot be warranted in respect of its accuracy and it is supplied to be indicative of the appliances and systems that are likely to be encountered.

**Note:** For the avoidance of any doubt the definition of "right first time" is that a repair is completed on the first visit or same day, without having to recall to fit any further part or parts and there is no recall to the same problem within 30 days of the original repair.

- 3.2.3 The Contractor will demonstrate they have a robust parts procurement and operate via a means of "impress spares stock" process such that down time is minimised if it is not possible to meet the 100% fixed right first time requirement.

The Contractor must make provision to ensure where parts are not carried by the engineer any parts needed on site are available to be fitted at the earliest opportunity. In any event this will ordinarily be within 48 hours of the initial response

- 3.2.4 The Contractor shall ensure if it is not possible to rectify a problem on the first visit the resident must be advised by the engineer when it is likely the repair will be completed.
- 3.2.5 The Contractor must also advise the Employer Representative on each and every occasion when a repair is not possible first time, where a resident or occupier is to be without heating and/or hot water for any period in excess of 24 hours and when the work should be completed. The method and means of such notification is to be determined however, it is likely this may be on an 'as and when on the same day' basis or at the end of each normal working day.
- 3.2.6 Whenever a heating failure occurs, and a repair is not possible as detailed in e) above, temporary heating will be supplied. There are no seasonal parameters for this as there may be circumstances that require such provision at times outside of the normal heating season. This will take the form of the provision of a minimum of two 1.5kW] electric -fan or convector heaters to each property, including the delivery, collection and full instruction to the resident. The maximum of heaters supplied will be the amount of heaters equivalent to meet the design heat requirements as previously set out in this document, base upon minus 3 dg outside air temperature. All temporary heating appliances shall be new and supplied at no cost to the Employer. In addition, they shall each be supplied with some form of earth protection device. Where temporary heating is offered and declined this shall be recorded.
- 3.2.7 The Contractor shall not remove any temporary heating from site until the fault has been rectified or it is with the to the Employer Representative's express permission.
- 3.2.8 Where it is not possible to rectify a fault to a hot water system or water heating appliance supplying a hot water storage vessel, the Contractor must allow for the provision and installation of a correctly sized immersion within 24 hours if not already fitted. This shall include wiring to a suitable adjacent electrical point but will not include new wiring from the consumer unit.
- 3.2.9 In the event of rectification of a fault not being considered possible, the Contractor shall immediately notify the Employer Representative giving the reasons for this and their proposals as to what will be necessary to complete the work.

- 3.2.10 Where there are technical issues preventing the completion of a repair there shall be a visible escalation process put in place such that the problem will be escalated from engineer to technician, to manufacturer. This process will be proposed by the Contractor and in any event all visits involving the Contractor's own staff will be completed within 24 hours of the repair having been reported.
- 3.2.11 The Contractor shall also become registered or approved manufacturers service agents and ensure all recorded training is contained with the operative skills matrix.
- 3.2.12 Where there is cost associated with a boiler replacement proposal this must be indicated upon notification. If the Contractor deems that an exchange of the boiler or other major appliance is necessary, this shall not in the first instance be communicated to the resident until authority to proceed has been granted and such authority will be granted in line with **Clause 3.3** as follows.
- 3.2.13 The resident is to be kept informed of the situation as changes occur, advising of any delays in supply or provision of parts or any other issue affecting the satisfactory completion of a repair.
- 3.2.14 Upon completion of a repair, a satisfaction card may need to be left with each resident, any repair work document is to be duly completed and a copy of such is to be sent to the Employer Representative if required. This may all be recorded on a PDA type device.
- 3.2.15 In addition to the requirements detailed previously the Contractor shall incorporate the following within the repair service:
- Advice to residents in respect of the efficient and correct use of appliance and systems.
  - Refixing of radiators, including those where insufficient fixings exist and repair, plastering walls ready for decorative finish.
  - Advice in respect of water leaks where the Contractor has been called erroneously to investigate a water leak on pipework not covered within this specification.
  - Instruction to new and existing residents on operation of appliances and systems.
  - Resetting of programmers, thermostats and other controls
  - Re-lighting pilot lights for any reason.
  - Restoring gas and electric supplies if turned off for any reason except for non-payment for supply by the resident or where to restore supply would be dangerous.

- All calls where a resident maintains an appliance or system is faulty, even if no such fault is found to exist or where the fault reported is due to controls being incorrectly set.
- Managing any gas pressure issues with the incoming supply and liaising with the gas supplier obtaining a reference number which will be recorded on the relevant documents.
- Making safe any danger or risk associated with water leakage or other potential issues.

### **3.3 DOMESTIC BOILER AND SYSTEM REPLACEMENTS**

If the Contractor considers that parts required to repair a boiler or system are no longer available, the Employer's Representative shall be informed immediately. The Contractor will need to demonstrate this to the Employer Representative and shall do so by supplying the Employer Representative with confirmation by the respective manufacturers or parts supplier that the part or parts in question are indeed obsolete.

If, however, the Contractor recommends that an appliance be replaced because it is beyond economic repair (cost to be agreed with the Employer or Employers Representative) or needs to be replaced for some other reason the Employer or Employers Representative must be made aware of the reasons for such a recommendation. The Employer or Employers Representative will decide whether this is the appropriate action or whether the repair should be completed. The Contractor will abide by any decision and any repairs must be completed within the specified timescales.

All replacements will be carried out in line with the requirements of **Appendix 3**.

### **3.4 GAS FIRE, WALL HEATER AND MULTIPOINT WATER HEATER REPLACEMENTS.**

If the Contractor considers that parts required to repair a gas fire, wall heater or multipoint water heater are no longer available the Employer representative shall be informed immediately. The Contractor will need to demonstrate this to the Employer representative and shall do so by supplying the Employer representative with confirmation by the respective manufacturers or parts supplier that the part or parts in question are indeed obsolete.

If, however, the Contractor recommends that an appliance be replaced because it is beyond economic repair (cost to be agreed with the Employer or Employers Representative) or needs to be replaced for some other reason the Employer Representative must be made aware of the reasons for such a recommendation. The Employer Representative will decide whether this is the appropriate action or whether the repair should be completed. The Contractor will abide by any decision and any repairs must be completed within the specified timescales.

All replacements will be carried out in line with the requirements of **Appendix 2**.

### **3.5 CONTROL REPLACEMENTS**

Should a system control be shown to be obsolete and it is possible to replace this item with an equivalent available control, then this equivalent shall be installed. Furthermore, should this replacement control necessitate the exchange of other controls, which are not obsolete then equally the costs of so doing are to be allowed for within the repair and service schedule of rates.

Any replacement control works are to include adaptations to pipework, ducting and electrical wiring in order that the new control/s comply with regulations, manufacturer's instructions.

### **3.6 PIPEWORK WITHIN THE BUILDING FABRIC, FLOORS OR DUCTS**

Any repairs or replacements to pipework contained in the building fabric, duct or floors or similar areas are covered within the scope of the contract works. As such any reinstatement to original condition upon completion of an investigation to determine the cause of a problem or rectification of a problem is also covered within this contract. Equally, where any pipework requiring repair or replacement is installed or to be installed through kitchen units, bath panels or similar then due allowance must be made for removal and reinstatement to original condition. Where regulations do not permit, or the Contractor offers an alternative solution to a problem, this must be authorised by the Employer representative.

## SECTION 1 – ADDITIONAL WORKS SPECIFICATION

### 1.1 SPECIFICATION

When authorised by the Employer's Representative the Contractor will be required to undertake additional works as detailed in this Schedule or carry out other similar works.

The items in this section are to be priced individually in the relevant part of the Contractor's Schedule of Rates and utilise approved products as detailed within this document.

The Contractor may also be requested to submit a quotation for work not covered by this schedule as requested by the Employer or Employer's Representative. In such instances, the Employer may seek further competitive quotations from other contractors and may if advantageous have the work completed by the alternative Contractor. Furthermore, the Employer may challenge any such costs and with the Contractor will be expected to provide details including (but not limited too), material, labour, overheads, relevant invoices and any other associated costs.

The Contractor must make labour available for this work as necessary and requests to carry out work in this section will not jeopardise the servicing programme or breakdown provision.

### 1.2 GENERAL CONDITIONS

- 1.2.3 Where types of appliances and components have been specified and these are superseded or where at the request of the Employer's Representative these appliances and components are changed, new schedule of rate costs will be submitted for agreement which, upon approval, will then apply for the remainder of that the contract term, or until any schedule of rate increase, or decrease, is applied.
- 1.2.4 Where the Employer's Representative requests a quotation for any works, the Contractor is to submit this by email within 2 working days, in an agreed format and content.
- 1.2.5 Upon verbal acceptance of a quotation, or where instruction is given to carry out work already priced in this section, the contractor is to complete the works within the timescale/priority assigned, refer to **Appendix 2**.
- 1.2.6 However, if the works are to be undertaken in a void property, the works are to be completed within 3 working days of notification.

- 1.2.7 Appliance or component replacement may be carried out by alternative Contractors where other arrangements exist for this work, or if the Employer wishes the works to be completed by others.
- 1.2.8 Work that will require building regulations approval is to culminate in the provision and issue of the ensuing certificate to the Employer at no further cost to the Employer

### **1.3 BOILER REPLACEMENT (BREAKDOWNS)**

When instructed by the Employer or Employer Representative to replace a domestic boiler due to a breakdown, it shall be in accordance with the specification contained within **Appendix 4** and priced using the relevant codes.

### **1.4 GAS SAFETY INSPECTION TO VOID PROPERTIES & MUTUAL EXCHANGES AND COMMISSIONING**

The Contractor is to visit and complete gas safety inspections to void (empty) and mutual exchange properties within 24 hours of being notified and inspect and carry out a Gas Safety Inspection as detailed in **Appendix 2**, together with a full central heating system inspection to ensure there are no defects and that any gas appliances or central heating systems are fully operational prior to the new tenancy starting.

- a) **If** any potential or apparent defects are found, then the Employer's Representative must be advised, and work put in hand for their rectification providing authorisation is granted.
- b) **If** the gas and electric supplies are not available to carry out the entire check, then a visual inspection must be made of any appliance and central heating system and with an air test carried out to the gas outlet supply.

Untested gas appliances must be recorded as such on the landlord's gas safety certificate and they must be labelled and disabled to stop any use. A note must be made on the landlord's gas safety certificate and on the label that the appliance or system needs to be tested. Revisit to carry out this further check is included within the Contractor's rate. The new resident is responsible for having gas and electric supplies restored.

Upon completion of the inspection the gas supply must be disconnected at the gas meter, a sealing disc on the ECV is acceptable.

The resident's copy of the landlord's gas safety certificate is to be posted to the resident and the landlord's copy of the certificate is to be provided to the relevant Employer's Representative after having passed through the approval and verification process detailed within **Appendix 2 Section 1**.

If there is to be any delay in completion of these works, the appropriate Employer's Representative must be notified immediately

The keys to void properties are to be collected and returned to the relevant Employer's office immediately on completion of the inspection.

## **1.5 COMMISSIONING VISITS**

On occasions, it may be necessary to carry out commissioning only when the property is re-let and the original void safety inspection may have been carried out by others. In such instances, the incoming resident will be advised to contact the Contractor to arrange to have the gas supply reconnected and the installation and gas appliances commissioned. All such requests will be responded to within 24 hours; however, the Contractor will already have been notified to expect such a request.

The works on the commissioning visit will include (but not limited to)

- a) Reconnection of the gas supply.
- b) Testing and commissioning of all installed gas appliances.
- c) Instruction to the residents on the operation of all installed gas appliances.
- d) The issue of a new Landlords Gas Safety certificate in accordance with **Appendix 2**

**GS-B-006** Carry out a reconnection and commissioning visit

## **1.6 REPLACEMENT AND UPDATING OF SYSTEM CONTROLS AND COMPONENTS**

The following are to be priced as requested and are also to include for adaptations as necessary to pipework, wiring, and flues, and to comply with all relevant regulations, codes of practice, manufacturer's instructions, and all making good to plaster finish internally and to match existing externally included.

**AW-001** Replace gas fire with radiator

**AW-002** Increase size of radiator in room where gas fire removed to meet heat loss requirement

**AW-003** Install new Range Supercal or Albion Supercyl adequately sized indirect/coil type HW Cylinder

**AW-004** Install new Range Tribune or Albion Ultrasteel adequately sized un-vented indirect/coil type double feed HW cylinder

**AW-005** Run up to 3 metres of correctly installed 15mm copper tubing either underfloor or surface mounted, to contain gas or water.

- AW-006** Run up to 3 metres of correctly installed 22mm copper tubing either underfloor or surface mounted, to contain gas or water.
- AW-007** Run up to 3 metres of correctly installed 28mm copper tubing either underfloor or surface mounted, to contain gas or water.
- AW-008** Run up to 10 meters of correctly installed 15mm Hep<sup>2</sup>O plastic tubing under floor and connect to copper tubing.
- AW-009** Run up to 10 meters of correctly installed 22mm Hep<sup>2</sup>O plastic tubing under floor and connect to copper tubing.
- AW-010** Trace and repair gas escape, where not covered by specification
- AW-011** Supply and fit immersion heater complete with overheat thermostat to existing hot water cylinder/tank and leave in good working order
- AW-012** Supply and fix correctly sized cable from electric consumer unit to immersion heater point
- AW-013** Supply and install high and low-level compartment ventilation suitable for the gas rating of the gas appliance
- AW-014** Disconnect gas appliance and cap point.
- AW-015** Install gas cooker and bayonet using a new 1 metre Butyl rubber tube with plug in adapter.
- AW-016** Install emergency control valve.
- AW-017** Replace or install both TRV and lockshield valve
- AW-018** Replace or install TRV
- AW-019** Replace or install lockshield valve
- AW-020** Carry out domestic central heating system power flush and install inhibitor to correct level and provide water test certificate from inhibitor manufacturer
- AW-021** Install lagging per meter
- AW-022** Install external condense pump
- AW-023** Supply Scaffold priced on a per lift basis, up to 3m wide

## **1.7 OUT OF NORMAL HOURS SERVICE AND INSPECTION VISITS**

- AW-024** The Contractor will be expected to visit properties for completion of the annual service and Landlords Gas Safety check out of the normal appointment hours as detailed in **Appendix 1**.

## 1.8 SERVICE INTERVAL PROGRAMMERS

**AW-025** Where access for the annual inspection and service has been referred to the Employer, the Contractor may be instructed by the Employer's Representative to install a service interval programmer. The rate to be submitted is to reflect the installation of this device together with the provision to all engineers employed on the contract of a resetting tool.

## 1.9 SMOKE/HEAT AND CO DETECTORS

The Contractor is to price for the installation or replacement of the following detectors, in accordance with current British Standards. The make and model to be agreed with the Employer

**AW-026** Install mains powered CO Detector

**AW-027** Install mains powered Smoke Detector

**AW-028** Install battery powered CO Detector

**AW-029** Install battery powered Smoke Detector

**AW-030** Replace mains powered CO Detector

**AW-031** Replace mains powered Smoke Detector

**AW-032** Replace battery powered CO Detector

**AW-033** Replace battery powered Smoke Detector

## 1.10 FLUES IN VOIDS

Carry out inspection to concealed flue throughout its length and remove inspection covers and inspect flue. Record any issues with either the flue or access to the flue. Ensure also that any such flue is installed with the appropriate gradient and adequate support. This item is only for buy-back or purchased properties not already on contract.

**AW-034** Carry our out concealed flue inspection

**AW-035** Supply and fit inspection cover to concealed flue

## 1.11 ADDITIONAL INFORMATION COLLECTION

In addition to the information required to be collected and recorded as a part of the annual servicing and safety inspection process, the Contractor may be required to collect further information at that time and record and supply to the Employer in a manner which will facilitate upload into Employer IT systems. This will ordinarily be in a spreadsheet, text or CSV file with the property reference number and information with that number.

It is not yet clear what information may be required to be collected, however

where not already collected this may include items such as loft insulation depth, any other property insulation, number and position of smoke detectors/alarms, number and position of co detectors/alarms number of radiators, location of any TMV, Risk Assessment of domestic CWS tank, details of immersion heater. The cost submitted for this work is to reflect the previous requirement and if ultimately any additional work survey requirement varies greatly then alternative rates may be agreed although the Contractor will ordinarily be expected to work within the rate quoted.

Are there any particular items of information that the Employer is aware of for recording in the near future

**AW-036** Record additional information.

### **1.12 LOFT INSULATION/TANK LAGGING/PIPE-WORK INSULATION**

Loft insulation should be 270mm in thickness. This is to be inspected during each annual service or safety inspection. The following are to enable this insulation to be upgraded where necessary. These prices are to include any additional ventilation for the loft area where required.

**AW-037** Increase insulation by 50mm

**AW-038** Increase insulation by 100mm

**AW-039** Increase insulation by 150mm

**AW-040** Increase insulation by 200mm

**AW-041** S/fit lid and jacket to cold water tank

**AW-042** S/fit lid and jacket to feed and expansion tank

**AW-043** Insulate pipework in loft per meter

## **SECTION 1 – DOMESTIC HEATING INSTALLATION SPECIFICATION**

### **1.1 GENERAL CONDITIONS**

This section shall apply to all subsequent sections herein and to all the Schedule of Rates as set out in the 'System A and B' specification and schedules.

This section of the specification is to cover the installation of a full new heating system or replacement boiler with possible system upgrade within the properties included in any installation programme or a deemed necessary on a reactive basis. The standard system rates are based upon inclusion of the items specified and the processes contained herein. These standard systems are to be installed in varying types and nature of properties as may currently exist in or be added to the Client's housing stock.

All domestic gas replacement/new appliance to have a benefit of the minimum 5-year manufacturer's warranty period. All manufacturer's warranties must be held and manufacturer's requirement for the warranties must be met.

For replacement boilers and any upgrade work a survey of the property and any existing system must be made to ascertain that any existing system meets the design criteria laid down in this section. Any part or whole of the system which is found to be falling short in this respect that will not be brought up to the standards required herein by the works to be carried out, must be referred to the Client's Representative for further guidance.

Every heating installation is to comply with the latest Domestic Heating Specification and Design Guide, all current relevant British Standards and Codes of Practice. All Domestic Hot Water supplies and general plumbing work connected with the installation will comply with the Local Water Authority By-laws. In addition, all appliances, systems and controls must be in accord with Building Regulations Part L.

Where a property has a floor area of more than 150m<sup>2</sup> this is to include for zoning and separate control of each heating zone although it should be noted that the floor area of the largest property likely to be included within this work is unlikely to exceed 150m<sup>2</sup>.

The Building Regulations approval certificate is to be provided and issued to the Client.

Where existing back boilers are to be removed, the Contractor is to ensure that the lounge radiator is of the correct size to meet the design criteria for that space. The fireplace opening created by the removal of the fire and back boiler is to be bricked, vented and room ventilation removed and made good as required.

When a combination boiler is to be fitted in lieu of an existing open vented system allowance must be made for removal and making good of any cylinder, CWS and feed and expansion tanks and all associated pipework and overflows.

## **1.2 DIMENSIONS**

The Contractor shall take their own working dimensions on the site as necessary and shall be responsible for the accuracy thereof. The Contractor should ensure that where resident's fittings and fixtures are to be temporarily removed, they can be re-fixed or alternative fixings provided.

## **1.3 SCHEDULE OF RATES**

Each Heating Type A and, B

item in the Schedule of Rates is intended to represent the entire work content of the particular work element in respect of the subject of the Schedule of Rates item and the Contractor is deemed to have included in his Tender for all ancillary items not specifically referred to in the Schedule of Rates item/Specifications (heating type) but are necessary to achieve the particular fitting of or repair or work element of the Schedule of Rates subject and installation of Heating System type.

## **1.4 SCHEDULE OF RATES – GENERAL**

The rates in the Schedule of Rates (SoR) include for:

### **1.4.1 General**

- a) complying with all conditions of contract
- b) work being of a repairing and replacement nature
- c) internal and/or external work
- d) miscellaneous consumable items not specifically mentioned in the item's descriptions
- e) all necessary plugging & screwing to structure and making good all finishings ready for decoration
- f) the appropriate fixing and jointing of all materials
- g) all types of cutting and waste
- h) labour on materials
- i) provision of and working from ladders, trestles and the like up to 5m above ground externally and up to 3m above floor level internally
- j) setting out and marking positions as necessary prior to carrying out work

## Appendix 4 – New Works

- k) making good finishes where disturbed ready for decoration
- l) allow making good.
- m) where replacements and making good is required they are to match the original quality and style
- n) cleaning, and tidying up, providing protection and removing protection
- o) payment of monies in connection with notices, fees and any other charges required by local or statutory authorities
- p) appropriate preparation work
- q) all necessary builder's work and making good
- r) removing and the re-fixing of resident's fittings
- s) testing after the works has been completed
- t) inspecting and reporting using agreed proformas
- u) the Contractor is to allow for all cutting away, lifting floor coverings and boards, forming holes and chases and all necessary making good, including any remedial work necessitated by those actions. Blanking plates will not be permitted

### **1.4.2 Electrical**

- a) switching off current or isolating that section of the system and afterwards reinstating and leaving in working order
- b) contacting the Local Electricity Board if required checking operation of the system, replacement

### **1.4.3 parts etc Plumbing**

- a) flushing out, venting and testing work on completion, rectifying all faults
- b) turning on and off cold, hot water supplies and venting inside houses
- c) turning off, draining down, turning on, filling and venting hot water systems

## **1.5 EXISTING EQUIPMENT GENERAL**

Carefully drain down, disconnect and remove from site all redundant existing heating hot water equipment, in accordance with the HSE and Environment Agency requirements, except any item that is the residents' own property, without allowance or charge necessary for the proposed installation.

## **1.6 EXISTING EQUIPMENT DETAIL**

The items detailed herein apply in general terms and are intended to be indicative of works that may be required dependent upon the extent of the new installation or any boiler replacement and associated system upgrade.

Remove and make good: -

- a) All types of solid fuel appliances.
- b) All types of electric heating and hot water appliances.
- c) All types of old gas heating & hot water appliances including warm air units and associated ducting, grilles, registers and vents.
- d) All types of fireplace surround however where possible hearths should be left in situ.
- e) Leave flue liner in place, brick up openings and fit louvre air brick to any now redundant chimney.
- f) Carefully remove any residents own gas appliances including fires, wall heaters, circulators and multipoint water heaters and return them to the resident.
- g) Any redundant pipework, flues, fitments, ducting, and controls etc.
- h) Any redundant wiring and fittings to be removed and isolated.
- i) Any redundant gas and/or water supplies to removed and isolated.

## **1.7 EXISTING CHIMNEYS**

The Contractor is to be responsible for arranging and including in the tender price for the thorough sweeping of any existing chimneys if they are to be reused and to provide a NACS certificate to that effect.

## **1.8 ASBESTOS REGULATIONS**

Contractors are to satisfy themselves that any existing asbestos-based insulation or equipment complies with the current requirements as detailed in the Asbestos Regulations. Any asbestos must be removed and disposed of by a licensed carrier to a licensed disposal site. Contractors will be provided with an asbestos register by the Client, but they will equally be expected have had some form of asbestos awareness training.

## **1.9 DESIGN REQUIREMENTS**

All system design will be based upon the requirements detailed in the current Domestic Heating Specification and Design Guide and all relevant current British Standards and Codes of Practice including CheSS specification.

### 1.10 SITE VISIT

The Contractor is to visit each property and carry out a detailed survey to establish the nature of the installation to be undertaken. Any potential issues are to be identified during this visit and brought to the attention of the Client's Representative.

In addition, when undertaking the survey, the resident is to be made fully aware of and agree to where items such as the boiler, radiators and controls are to be sited and the extent of the works to be undertaken. All this information is to be recorded and details provided to the resident either at the point of the survey in which case their approval signature should be sought, or the record be sent within 48 hours of the visit. In any event there should be a "cooling off" period allowed, and a process described for a resident to change their mind. Should such occur, or agreement not be obtained then guidance should be sought from the Client's Representative.

For reactive boiler replacements, all surveys must be carried out same day as notification or the following morning.

### 1.11 DESIGN CONDITIONS

All systems are to be designed capable of providing the mean internal air temperature in the spaces described when the outside temperature is  $-3^{\circ}\text{C}$ . The design must allow for the specified air change rate in each space with continuous heating, the boiler flow temperature being set at  $82^{\circ}\text{C}$  and the circulating pump running.

Space	Air Change Rate	Temperature Requirements, all Dwellings
Living Room	1.5	21
Kitchen	2	21
Dining Room	1.5	21
Hallway	2	21
Landing	2	21
WC	3	21
Bathroom	3	22
Bedrooms	1	21

### 1.12 CONDITIONS OF TEMPERATURE GUARANTEE

The temperature in any room or space will ordinarily be ascertained by a mercury glass thermometer suspended at a point 1.5m from the floor in the centre of the room or other area.

## Appendix 4 – New Works

When the outside temperature is not less than  $-3^{\circ}\text{C}$  the system is to be guaranteed to achieve the heating standards described in 1.11 previous, provided the following conditions are satisfied: -

- a) The internal volume of any space or other area served by one radiator must not exceed 42 cubic metres. In a space which exceeds 42 cubic metres in volume, more than one radiator will be required in order to obtain the heating standards referred to.
- b) The system must have been operated continuously for not less than 24 hours and must continue to operate fully with clock controller overridden and air temperature and hot water thermostatic controls correctly set, and the boiler flow temperatures at manufacturers factory setting.
- c) There must not be more than the specified air change per hour in any room or other area.

### **1.13 CONTINUITY OF SERVICES**

The Contractor will leave the properties with all gas, electric, water and services in proper working order at the end of each working day. Under no circumstances shall residents be without the use of these services and facilities overnight.

Ensure that an alternative form of heating and hot water is supplied in line with the requirement of **Appendix 2** available for the occupier during the period of works.

### **1.14 ELDERLY, DISABLED AND VULNERABLE PERSONS UNITS**

Special care and consideration must be given to all the above. Such will require on site consultation and agreement in both the way the work will proceed and the extent of the work that meets the specific needs of the occupier.

### **1.15 GAS, WATER AND ELECTRICAL SUPPLIES**

Under no circumstances must work be started in any dwelling that is not fitted with all services and meters. Arranging for any gas, water and electrical meters to be fitted is the resident's responsibility and they should be notified of this before their dwellings are programmed. It is the responsibility of the Contractor to determine if there is a gas supply to the property. If there is not then reference must be made to the Client's Representative, this should be done at the time of the survey.

However, the Contractor after seeking the Client's Representative's approval will make his own arrangements to have the supply of gas put on to a property.

## Appendix 4 – New Works

This will be paid for as an extra to the contract on an individual basis providing supporting documentation is submitted with invoice.

It is also the Contractor's responsibility to ensure that the gas, water and electric supplies are adequate to meet the requirements of the new installation. If there are any issues such as poor incoming gas or water pressure they are to liaise with the respective supplier for rectification and appraise the Client's Representative of same.

### **1.16 ELECTRICAL WORK**

All electrical work must be carried out by a competent NICEIC registered electrician, who must issue current approved NICEIC test and completion certificates for each individual installation.

No installation will be accepted for payment unless such certificate is provided. Equally a note must be made on the certificate that all bonding has been completed in accordance with the current edition of the IEE Regulations and any promulgation thereof.

### **1.17 BREAKDOWN**

The repair standards and requirements detailed within **Appendix 2** are to apply.

### **1.18 CONTRACTORS INFORMATION CARD**

A card giving the name, address and telephone number of the Contractor to be placed in a plastic envelope and handed to the occupier. A separate self-adhesive label will be fixed to the appliance giving the above details and the location of the instructions and other documentation detailed in 1.19 as follows.

### **1.19 OPERATING AND USER INSTRUCTIONS**

The Contractor will be responsible for ensuring that each resident fully understands the operating principles of the whole central heating system. Such instruction is to include advice in respect of the most energy efficient means of operating and controlling the system

Sufficient copies of the working instructions and manufacturer's leaflets of installed appliances and controls and a completed Benchmark Booklet are left in a sealed plastic envelope tied to the gas meter where this is installed internally, or other such location as may be specified. If no location is specified or the documents are not left at the meter they are to be handed to the resident for safe keeping.

## **1.20 LANDLORDS GAS SAFETY INSPECTION**

On the day of completion of each installation the Contractor is to carry out a Landlord's Gas Safety Inspection. The certificate (CP12) must be provided with all other paperwork upon invoicing.

## **1.21 FLUSHING AND CLEANING OF NEW AND EXISTING SYSTEMS**

All systems shall be thoroughly cleaned and flushed prior to commissioning. This shall as a minimum be carried out in accord with the requirements of BS7593 – “Code of Treatment of water in domestic hot water heating systems”. Further guidance in this respect may be sought from manufacturers such as Adey. If required flushing, cleaning, descaling and desludging is to be completed using a power flushing system. Upon completion, an approved system inhibitor shall be added, and a water test certificate provided by the inhibitor manufacturer.

## **1.22 COMPLETION CERTIFICATE AND COMMISSIONING**

A person authorised by the Contractor shall visit each dwelling on the day of completion and issue a Completion Certificate confirming that the system has been fully installed, tested, commissioned and is working as specified and all parts of the specification have been complied with. On completion of new central heating or replacement boiler installations, the Contractor is to provide a new EPC to the employer. Supporting data must also be provided in Excel (or other as agreed) format in order to be uploaded into the Employers stock condition database. Issue of data must be monthly or as otherwise agreed .

## **1.23 INSTALLATION INSPECTION**

Installations may be inspected by the Client's Representative after completion and any apparent defects or items of remedial works reported back to the Contractor. These are to be addressed and rectified within 10 days of notification.

## **1.24 CONTINUITY OF INSTALLATION WORKS**

The entirety of the works required to complete a new system installation or replacement boiler installation shall be completed in one continuous operation. The various trades, operatives and material delivery will need to be co-ordinated to achieve this and the Contractor will be required to provide details in this respect. In any event, this includes but is not confined to the following elements:

- a) Removal of existing equipment
- b) Installation of new or replacement equipment

- c) Electrical work
- d) Builders work
- e) Removal of rubbish
- f) Making good and any redecoration works
- g) Commissioning and quality control

### **1.25 REACTIVE BOILER REPLACEMENT TIMESCALE**

The required timescales for completion of replacement boilers ordered on a reactive basis from the point of instruction to completion are:

- 2 days for boiler change being sited within 3m of the existing position and any system upgrade
- 3 days for boiler change being sited further than 3m from the existing position and any system upgrade
- 5 days for a full replacement central heating installation
- 3 days for any boiler replacement in a void property

### **1.26 EXCLUSIONS**

The following work is excluded: -

- a) The provision of gas, water and electricity for testing of each system as required.
- b) Any responsibility for the performance or functioning of any of the existing secondary hot water pipework or equipment or existing equipment.
- c) Arranging for gas or electrical meters to be fitted (the resident should be notified to contact the respective supplier for this and be given sufficient notice to enable a meter to be fitted).

### **1.27 GENERAL BUILDERS WORK REQUIREMENTS**

All builders work such as cutting away, forming holes, making good, built-in brackets or any other function associated with the fabric of the building and its alteration as necessary to suit the heating system, is within the scope of this specification and must be included within the price for each work element specified.

## 1.28 DETAILED REQUIREMENTS

- a) Make good to all ceilings and walls to plaster finish and to match existing decorations as closely as possible.
- b) Remove all redundant tank supports from cupboards and make good.
- c) Remove any coal bunkers made redundant by the heating installation, bag any coal up and return to the resident.
- d) Any disturbed areas around chases cut for ducts across solid floors for pipework are to be tiled together with the duct covers to match existing floor tiles as near as practical.
- e) Any areas, where boilers, tiled hearths and warm air units and circulators have been removed, will be made good to the following standard: -
  - i) Straighten and level floor and provide and install floor tiling to match existing everywhere the floor finish has been disturbed.
  - ii) Make good all holes and cracks and openings left in walls and ceilings and around fireplaces to plaster finish and to match existing decorations as closely as possible including any painting.
  - iii) Should a warm air unit be removed from a compartment and the compartment is such that the door does not go to floor level, then a false floor consisting of Batten and 22mm plywood will be built in that compartment at the lower level of the door.
- f) Any chimneys and flues made redundant as a result of removing appliances are to:
  - i) Have the flue liner and terminal left in position and have the liner secured within the builders opening and fitted with a terminal cap.
  - ii) The opening is to be bricked up and plastered and be permanently sealed except for a suitable air vent which is to be fitted above the base to ensure the chimney is always vented.
  - iii) Where there is an incomplete run of skirting board across an opening where a back boiler has been removed, a section of new skirting board to match the existing shall be installed and decorated across the whole of the chimney breast.
- g) Wherever floorboards are lifted, they are to be replaced if damaged and all boards are to be screwed and countersunk into position.

Should a laminate or other similar floor construction be encountered then the occupant must be advised they should make their own arrangements to have such floor lifted prior to the works commencing. This must be recorded on the survey details provided to the resident.

## Appendix 4 – New Works

Alternatively, the Contractor may lift the flooring upon the occupant signing a disclaimer to the effect neither the Client or the Contractor is responsible for any damage which may arise or for the floor's reinstatement.

- h) Any plaster damaged or holes left in ceilings because of removing any cylinders or associated pipework are to be made good to plaster finish.
- i) All ducting, grilles, register, and vents that can be removed practically whenever a warm air unit is replaced shall be removed and made good to the required standards.
- j) Whenever hot works are in use the Contractor must ensure adequate protection of decorative and soft furnishings is maintained always. Any making good, associated scorch or burn marks then any related costs will be recoverable from the Contractor.
- k) Alterations to compartments that are to be utilised for boilers are to be allowed for, this is also to include removal of any shelves or shelving of any construction.

## **SECTION 2 - DOMESTIC HEATING GENERAL CLAUSES**

### **2.1 GENERAL**

This section shall apply to all subsequent sections herein and to all the Schedule of Rates as set out in the 'System A and B' specification and schedules.

The standard replacement installations are to be completed in accord with the requirement of this specification and are to include for relocation of the appliance within 3m of the original boilers position.

The rates are to include the installation of all pipework necessary to connect to the existing system.

Unless there are exceptional reasons, and these must be agreed with the Client's Representative all boilers must be fitted on the ground floor to preclude the use of scaffolding both within the installation process and during any future maintenance work.

No pipework shall be run externally nor shall any flue be installed in a void unless there is no practical alternative and then only with the permission of the Client's Representative.

All appliances, controls and component parts must be fitted entirely in accord with the manufacturer's instructions. In addition, a battery type CO detector must be fitted if one is not already fitted in the same room as the appliance being installed.

Before any work commences on site the Contractor's operative is to have a copy of the survey details supplied to the resident and confirm its content. Any issues arising for this should in the first instance be referred to the operative's supervisor who will then determine how this shall be resolved.

### **2.2 HEATING BOILERS**

Where it is not possible to utilise the specified appliance, guidance must be sought from the Client or Client's Representative who may authorise the fitting of a non-system type boiler selected from the ranges of the manufacturers included below. Rates will be agreed for these to include any ancillary equipment and specific controls on over and above cost to the standard rates on an as and when they occur basis.

### **2.3 COMPARTMENTS FOR BOILERS**

Provide and fit adequate boiler compartment ventilation where boilers are fitted in compartments or cupboards as required.

## 2.4 FLUES

All flue systems will be installed in accordance with manufacturer's instructions, the following requirements must be applied for any flue type specified.

### 2.4.1 Standard Fan Flue

Provide and fit fan assisted balance flue system through the property and through outside wall, weather as required. The system shall be accessible for future maintenance and allow for the provision of access panels at joints where the flue is concealed for any reason. Please note this is the standard option and any variance to this must be confirmed with the Client's Representative.

### 2.4.2 Vertical Flue

Provide and fit fan assisted flue unit through roof and weatherproof accordingly. The system shall be accessible for future maintenance and allow for the provision of access panels at joints where the flue is concealed for any reason.

**Note: this is not the preferred option and it shall only be used upon agreement of the Clients Representative.**

### 2.4.3 Plumage Diverter Kit

Where there is a need supply and install plumage diverter kit to flue

## 2.5 GAS SUPPLY

The gas supply to all appliances will conform strictly to BS 6891

In all systems Item a) will apply and be allowed for within the pricing of each system type an over and above rate for the additional cost of completing item b) will be supplied.

- a) Provide and fit a correctly sized gas pipe in copper or steel tube, installed from the meter to serve the boiler and cooker.
- b) Provide and fit a correctly sized gas pipe in copper or steel tube, installed from the meter to serve all existing appliances and reconnect existing appliances to new supply.

## 2.6 RADIATORS

All radiators to be selected from the current data leaflet for the approved products detailed within **Appendix 2** to give the required heat output to the areas as detailed within this **Appendix 4**. Allowance made must be made for heat emitted by any pipework in these spaces and the emission corrected by the necessary factor. Where an individual space is greater than 42 cubic metres there is a requirement to install 2 radiators in that area.

## Appendix 4 – New Works

All radiators to be securely fitted to walls with brackets provided or with purpose made brackets where required should the wall be unstable. Where existing radiators are being replaced these shall where possible be sized to match existing and fitted in the same place.

Radiators must be sited under windows as far as possible and sized to match the window width. The position of kitchen radiators may be varied to suit layout; however, common sense must prevail over the installation of a radiator in a kitchen. The size and space available must be considered.

Radiators may be sited in positions other than under windows only if this position does not suit existing furniture layouts or there is inadequate height under the windowsill. This alternative position will normally be on an outside wall and must be agreed with the Client's Representative and the resident who should sign and agree the new location.

Two no. air vent keys are to be left with each installation except for sealed system installations where no keys are to be left.

A price is to be submitted for installing an additional radiator when a system upgrade or boiler change is being undertaken.

### **2.7 SYSTEM PIPEWORK**

The system pipework will be installed to connect the new boiler with all controls and component parts in accord with their respective installation instructions.

All exposed pipework shall in the first instance be in copper tubing.

The heating circuits will be two pipe, pump assisted, in small bore (not less than 15mm). The primary circuits to any hot water storage cylinders will also be pumped and all pipework will be concealed where possible. Where there are separate heating zones and hot water circuits the primary flow and return will run from the boiler to a suitable point, usually in an airing cupboard where the circuits will be split by a motorised valve as detailed within the controls section.

Any pipework, which is to be installed in a solid floor is to be ducted using Pendock Profiles floor ducting or equal and approved. It is also to be installed in accordance with the relevant current Codes of Practice and any specific requirements of the Local Water undertaking. All pipework in the floors will be of the "Kuterlex Plus" or equal and approved type.

This is to be connected to copper tubing prior to becoming exposed in drops to radiators, airing cupboard or at the boiler.

Adequate drain-off facilities are to be provided and fitted to all boilers and in accessible positions on all low points of drops to radiators.

## Appendix 4 – New Works

The system pipework will incorporate a 22mm Honeywell Automatic Bypass Valve DU145 (if required) and will include an approved and agreed system filter. The valve will be installed in the position recommended and in accordance with the manufacturer's instructions.

### 2.8 CONDENSE PIPE

The condense pipe from the new appliance will ordinarily be connected to an adjacent or suitable waste pipe within the property if this is not possible the pipe shall be run from where it passes through the wall in pipe of a diameter of no less than 32mm all of which shall be insulated with class O insulation, such insulation shall be extended through the wall to inside the property.

The length of outside condense pipe shall not exceed 3m. External termination will either be into a drain or soakaway.

- A. Should it be necessary to terminate into a cast iron supply then a "Condensafe" shall be fitted at additional cost.
- B. Where there is no natural fall to the condense pipe a condense pump shall be fitted at additional cost.

### 2.9 SYSTEM INHIBITOR

The system once all commissioning has been completed shall be dosed with a water treatment recommended by the boiler manufacturers for the system that has been approved and agreed by the Client Representative. A label shall be attached to the sealed system kit stating a system inhibitor dosage has been applied to the system and full history given of the dosage applied.

### 2.10 COLD WATER SUPPLY

- 2.10.1 Connect boiler to cold main supply via a Salamander or equal and approved combined filling/double check valve kit where there is not one built into the appliance. Ensure the flexible link is not left in position and both inlet and outlet supply are capped.
- 2.10.2 Supply and install a water conditioner in cold main feed supply to unit as manufactured by The Rodin Group or equal and approved, where the mains water supply total hardness exceeds 200ppm.
- 2.10.3 When installing a combination boiler all cold-water supplies within the property are to be converted to being mains fed and any ball valve restrictors are to be replaced.

## 2.11 DOMESTIC HOT WATER SYSTEM

New domestic hot water systems will comply with the water by-laws. The units will be fitted on new stillage and will be reconnected to existing or new supplies.

The incoming water supply to any CWS or inbuilt water storage shall have a Scalebuster as manufactured by The Rodin Group or equal and approved water conditioner fitted where the mains water supply total hardness exceeds 200ppm. All cylinders are to be fitted with a Backersafe Titanium Sheath immersion heater or equal and approved and wired to an adjacent point.

## 2.12 CIRCULATING PUMPS

Where no pump is included with the boiler provide and fit a new Grundfos or equal and approved circulating pump with means of isolation and capable of providing each systems requirement. Each pump shall be installed with 2 anti-vibration brackets.

## 2.13 INSULATION

- 2.13.1 Provide and fit to all pipework that is not serving a useful heating source insulation and where necessary, frost protection. Additionally, all pipework shall be insulated on the flow and return from the boiler to any hot water storage cylinder together with all pipework installed in the airing cupboard.
- 2.13.2 Insulate roof space with thick rock fibre mineral wool wherever insulation is less than 270mm. Making a total covering of not less than 270mm thickness. The insulation must be cross lapped.
- 2.13.3 Pipework to be insulated with Armaflex Class 0 with a minimum wall thickness of 13mm or equal and approved installed to manufacturer's instructions.

## 2.14 SYSTEM CONTROL

### 2.4.4 Radiators

All radiator valves to be 15mm Danfoss RAS-C<sup>2</sup> Thermostatic radiator valves or similar approved or instructed by the client, and these are ideally to be installed on the flow pipe with Peglers Terrier lockshield valves with drain off approved (or of a manufacturer subsequently instructed by the client) Other valves will be considered if equal and approved.

No TRV to be installed to the radiator where the room thermostat is fitted.

### **2.4.5 System Boilers**

Automatic control of each system will comprise of a digital Danfoss, Honeywell or ACL (or of a manufacturer subsequently instructed by the client) 7-day programmer with service interval function (this is not to be activated unless instructed by the Client's Representative) and with at least two on/off settings per twenty-four-hour cycle Monday to Friday and the ability to have different settings at weekends and incorporating switches to provide selection of hot water and/or hot water and central heating service. The programmer is to be sited in the Kitchen. In any property over 150m<sup>2</sup> there will be a need to zone the heating areas. This will involve additional control, and this will be by a programmable room thermostat controlling a motorised valve providing heating supply to that zone.

Domestic hot water control is to be by a Danfoss, Honeywell or ACL (or of a manufacturer subsequently instructed by the client) and clamp-on cylinder thermostat sited on the new hot water storage cylinder one third of the height up from the base.

Overall space heating control is to be by the heating function of the programmer and a Danfoss, Honeywell or ACL, (or of a manufacturer subsequently instructed by the client) approved wireless room thermostat. The room thermostat is to be sited in the space with the uncontrolled radiator which must not be affected by any other heat source and will ideally be in a hallway.

One electrically operated Danfoss, Honeywell or ACL approved (or of a manufacturer subsequently instructed by the client) equivalent mid position three port motorised diverter valve of the flow share type wired to control the operation of the pump and boiler, shall be installed in each cylinder cupboard.

The controls and valves on the system shall be wired in such a fashion when all thermostats are satisfied the boiler and pump are shut off (unless any pump overrun thermostat is in operation).

All controls, valves and thermostats shall be connected to a proprietary wiring centre that is compatible with the controls selected and be installed in accord with their respective installation instructions.

### **2.4.6 Combination Boiler**

Automatic control of each system will comprise of a digital Danfoss, Honeywell or ACL (or of a manufacturer subsequently instructed by the client) 7-day programmer with service interval function (this is not to be activated unless instructed by the Client or Client's Representative) and with at least two on/off settings per twenty-four-hour cycle Monday to Friday and the ability to have different settings at weekends.

## Appendix 4 – New Works

The programmer is to be sited in the Kitchen. In any property over 150m<sup>2</sup> there will be a need to zone the heating areas. This will involve additional control, and this will be by a programmable room thermostat controlling a motorised valve providing heating supply to that zone.

Domestic hot water control will be built into the boiler.

Overall space heating control is to be by the heating function of a Load Compensation Thermostat, in accordance with Boiler Plus. The Load Compensation thermostat is to be sited in the space with the uncontrolled radiator which must not be affected by any other heat source and will ideally be in a hallway.

The controls and valves on the system shall be wired in such a fashion when all thermostats are satisfied the boiler and pump are shut off (unless any pump overrun thermostat is in operation).

All controls, valves and thermostats shall be connected to a proprietary wiring centre that is compatible with the controls selected and be installed in accord with their respective installation instructions.

### **2.15 FROST PROTECTION**

When required, provide and fit a Danfoss Randall RET 230F (or of a manufacturer subsequently instructed by the client) Frost stat or equal and approved in unheated space and wire into system as required to provide frost protection to the whole system.

This is a non-standard item and will be priced as a separate rate.

### **2.16 ELECTRICAL SUPPLY AND BONDING**

The final connection to each system will be within 1.8 metres and adjacent to each boiler. All electrical wiring necessary for the satisfactory operation of the system to be provided, installed and connected by the Contractor to conform with the installation instructions including, if necessary, a new main supply. This will include any necessary extension or adaption to existing wiring to facilitate the installation of any type of replacement boiler. All work shall conform to the current IEE regulations. All exposed wiring to be installed in mini trunking.

All work to be carried out by a competent NICIEC registered electrician who will issue test and completion certificates.

Provide and fit all bonding or cross bonding to gas supply, water supply and heating system to conform to current IEE regulations, regardless as to whether the electrical tests have shown it to be required or not.

## **2.17 AIRING CUPBOARDS**

The rates to be given for this work are to be additional to the standard systems and will be priced separately. Agreement will only be given by the Client or Clients Representative for the construction or adaption of an airing cupboard where is no suitable no cost option.

2.17.1 Construct a new cylinder cupboard on site agreed by Client or Client's Representative, this is to include 3 no airing cupboard shelves.

2.17.2 Supply and fit 3 no airing shelves in each airing cupboard.

2.17.3 Adapt airing cupboard to accommodate new cylinder, this is to include removal of front and door, enlargement of the cupboard and refixing of the front and the door and any repainting as necessary.

2.17.4 Install boiler guard and adapt airing cupboard shelves

**SECTION 3 - TYPE A (COMBI BOILER – WORCESTER BOILERS)****3.1 General**

The entire system is to be installed in accordance with the rules and regulations of the Building Regulations, Gas Safety (Installation & use) Regulations as amended 2018, Water Authority Regulations, Gas Safe Register and IEE Regulations

Materials and workmanship shall be of the highest quality and carried out in accordance with the following specification, relevant British Standards and Codes of Practice to the satisfaction of the Client Representative.

The whole of the materials and goods used in carrying out the contract work must be used, fixed and/or applied in strict accordance with the printed instructions and/or recommendation of the manufacturer.

**CB-001 Combination Boiler – Worcester 30kw combi**

Provide and fit a Worcester 30kw combi fan assisted room sealed and wall mounted boiler unit with standard flue, including all necessary new and adapted pipe work within 3 linear metres of the existing boiler position. (Where new boiler is relocated more than 3m from existing position, refer to CB-026, CB-027 and CB-028 as required).

Supply and install an inline Scale Reducer in accordance with manufacturer's instructions.

**CB-002 Combination Boiler – Worcester 36KW combi**

Provide and fit a Worcester 36kw combi fan assisted room sealed and wall mounted boiler unit with standard flue, including all necessary new and adapted pipe work within 3 linear metres of the existing boiler position. (Where new boiler is relocated more than 3m from existing position, refer to CB-026, CB-027 and CB-028 as required).

Supply and install an inline Scale Reducer in accordance with manufacturer's instructions.

**CB-003 Gas Supply – Meter to Boiler**

Provide and fit a suitably sized gas pipe in copper tube with solder joints, installed from the meter to serve the boiler.

**CB-004 Gas Supply – Cooker**

Provide and fit a suitably sized gas pipe in copper tube with solder joints to proposed cooker position including end connections.

**CB-005 Gas Supply – Flex Connector**

Connect cooker to new gas supply with approved flexible connector and cooker chain.

**CB-006 Gas Supply – Gas Fire**

Provide and fit a suitably sized pipe in copper tube with solder joints to gas fire position as specified including end connections.

**CB-007 Gas Supply – From adjacent point**

Install new correctly sized supply to boiler position from adjacent point.

**CB-008 Radiators**

Supply and install 7 No. radiators to give the required heat output to the areas as listed with allowance made for heat emitted by any pipe work in these spaces and the emission corrected by the necessary factor.

All radiators to be securely fitted to walls with brackets provided or with purpose made brackets where required.

Radiators must be sited under the windows as far as possible and sized to match the window width. The position of kitchen radiators may be varied to suit layout.

Supply and install Danfoss Randall RA-FS radiator valve with RAS – C2 on heating flow and Danfoss Randall RLV - D Lockshield Valves on heating return.

For the radiator installed in the same room as the room thermostat supply and install Danfoss Randall RLV D Lockshield valves on both heating flow and return.

**CB-009 Radiator +/-**

Allow for additional cost to supply and install one number additional/less radiator as per AC-V09a

**CB-010 Pipework**

The heating circuits will be two pipe smallbore

Provide and install heating circuit to all radiators and the primary circuit to hot water taps from boiler. All pipework shall be copper with solder joints.

Include for insulation to pipework as described within specification

**CB-011 Electrical Supply**

The final connection to each system will be from fused spur outlet socket within 1 metre (3 ft) and adjacent to each boiler. All electrical wiring etc. necessary for the satisfactory operation of the system to be provided, installed and connected by the Contractor via wiring centre, including if necessary, a new main supply.

All work shall conform to the current IEE Regulations. All exposed wiring to be installed in mini trunking. All work to be carried out by a NICIEC registered electrician who will issue test and completion certificates.

**CB-012 Cross Bonding**

Provide and fit bonding or cross bonding to new gas supply and new heating system as required (Including radiators) to conform to current IEE Regulations. The Contractor is to supply a certificate of electrical worthiness on completion.

**CB-013 Loft Hatch**

Form suitably sized hatch, woodwork to be primed, undercoated and glossed white on completion.

**CB-014 Washing Machine Connection**

Allow for hot and cold-water supply pipe work to washing machine. Include for hot and cold washing machine valves and connectors. Valves to be sited so that they may be operated without removing washing machine from designated space. Allow 1 meter hot & cold-water pipe work for pricing. Any additional length of pipework shall be as per AC-V10 above

**CB-015 Solid Floor Duct**

Any pipe work, which is to be installed in a solid floor, is to be ducted, using Pendock Profiles floor ducting. It is also to be installed in accordance with the relevant current Codes of Practice and any specific requirements of the Local Water undertaking, using Pendock Profiles floor ducting.

**CB-016 Ducting**

Allow for boxing in all new and existing horizontal and vertical pipe work adjacent new boiler and within kitchen using 6 mm birch plywood fixed to 25 x 50 mm softwood battens (allow for access panels) or other suitable and approved ducting. Allow for decorative finish.

**CB-017 Insulation – 100mm**

Provide and lay 100 mm rolled glass mineral wool, CFC and HCFC free insulation to loft space as top up.

**CB-018 Insulation – 200mm**

Provide and lay 200 mm rolled glass mineral wool, CFC and HCFC free insulation to loft.

**CB-019 CO Detector**

Supply and install mains powered CO detector. The detector shall also be provided with battery backup. The cost shall include for all associated wiring from the nearest suitable power point available. Wiring shall include an un-switched fuse spur next to CO detector.

**CB-020 Cold Water Supply**

From mains stop-valve run suitably sized copper pipe with solder joints complete with services valves to all cold-water outlets (taps) and tanks.

**CB-021 Controls**

Supply and install single channel 7-day programmer to control heating boiler. The programmer shall have integral boiler service interval control function. The programmer shall be manufactured by Danfoss or Honeywell (or of a manufacturer subsequently instructed by the client) .

**CB-022 Room thermostat**

Supply and install room thermostat suitable for above programmer as per Boiler Plus.

**CB-023 TRV's**

Install or replace TRV to existing radiator

**CB-024 Lockshield Valve**

Install or replace Lockshield valve to existing radiator

**CB-025 Pipe Lagging**

Install pipe lagging to existing pipe work (any size)

**Pipe work**

**CB-026** Install 15mm copper tubing either under floor or surface mounted

**CB-027** Install 22mm copper tubing either under floor or surface mounted

**CB-028** Install 28mm copper tubing either under floor or surface mounted

(Extra over pipework code used only when AC-10 is not used, or only where new boiler is installed more than 3m from existing position)

**CB-029 Labour only**

Rates for works within normal hours that fall outside the scope of all installation codes.

**CB-030 Scaffolding**

The contractor is expected to use appropriate equipment for high level works such as ladders, trestle or towers, where these are not suitable and subject to Client Representative approval, supply scaffold priced on a per lift basis up to 3m wide.

**Flues and Accessories**

**CB-031** Standard telescopic flue kit (350-570mm)

**CB-032** Long telescopic flue kit (570-790mm)

**CB-033** Extension flue kit (960mm) 100mm diameter - Horizontal RS Flue

**CB-034** 2m flue extension 100mm diameter - Horizontal RS Flue

**CB-035** Short flue extension (220mm) 100mm diameter - Horizontal RS Flue

## Appendix 4 – New Works

<b>CB-036</b>	90-degree bend	100mm diameter - Horizontal RS Flue
<b>CB-037</b>	45-degree bend	100mm diameter - Horizontal RS Flue
<b>CB-038</b>	High level horizontal flue adaptor	100mm diameter - Horizontal RS Flue
<b>CB-039</b>	Support bracket kit	100mm diameter - Horizontal RS Flue
<b>CB-040</b>	Support bracket kit (6 pack)	100mm diameter - Horizontal RS Flue
<b>CB-041</b>	Support bracket kit	100mm diameter - Horizontal RS Flue
<b>CB-042</b>	Support bracket kit (6 pack)	100mm diameter - Horizontal RS Flue
<b>CB-043</b>	Standard telescopic flue kit	100mm diameter - Horizontal RS Flue
<b>CB-044</b>	Extension flue kit (960mm)	100mm diameter - Horizontal RS Flue
<b>CB-045</b>	90-degree bend	125mm diameter - Horizontal RS Flue
<b>CB-046</b>	45-degree bend	125mm diameter - Horizontal RS Flue
<b>CB-047</b>	High level horizontal flue adaptor	125mm diameter - Horizontal RS Flue
<b>CB-048</b>	Support bracket kit	125mm diameter - Horizontal RS Flue
<b>CB-049</b>	Support bracket kit (CDi Compact)	125mm diameter - Horizontal RS Flue
<b>CB-050</b>	Vertical 1,090mm balanced flue kit (inc adaptor)	125mm diameter - Horizontal RS Flue
<b>CB-051</b>	Extension flue kit (960mm)	125mm diameter - Horizontal RS Flue
<b>CB-052</b>	2m flue extension	100mm diameter - Vertical RSF Flue
<b>CB-053</b>	Short flue extension	100mm diameter - Vertical RSF Flue
<b>CB-054</b>	90-degree bend	100mm diameter - Vertical RSF Flue
<b>CB-055</b>	45-degree bend	100mm diameter - Vertical RSF Flue
<b>CB-056</b>	Flashing - flat roof	100mm diameter - Vertical RSF Flue
<b>CB-057</b>	Flashing - pitched roof	100mm diameter - Vertical RSF Flue
<b>CB-058</b>	Vertical 1,365mm balanced flue kit (inc. adaptor)	100mm diameter - Vertical RSF Flue
<b>CB-059</b>	Extension flue kit (960mm)	100mm diameter - Vertical RSF Flue

<b>CB-061</b>	45-degree bend	125mm diameter - Vertical RSF Flue
<b>CB-062</b>	Flashing - flat roof	125mm diameter - Vertical RSF Flue
<b>CB-063</b>	Flashing -pitched roof	125mm diameter - Vertical RSF Flue

## Appendix 4 – New Works

<b>CB-064</b>	Plume management kit	125mm diameter - Vertical RSF Flue
<b>CB-065</b>	Extension (1,000mm)	125mm diameter - Vertical RSF Flue
<b>CB-066</b>	90-degree bend	Plume management system
<b>CB-067</b>	45-degree bend (pair)	Plume management system
<b>CB-068</b>	Terminal guard round	Plume management system

**SECTION 4 - TYPE B (SEALED SYSTEM BOILER –WORCESTER BOILERS)****4.1 General**

The entire system is to be installed in accordance with the rules and regulations of the Building Regulations, Gas Safety (Installation & use) Regulations as amended 2018, Water Authority Regulations, Gas Safe Register and IEE Regulations

Materials and workmanship shall be of the highest quality and carried out in accordance with the following specification, relevant British Standards and Codes of Practice to the satisfaction of the Client Representative.

The whole of the materials and goods used in carrying out the contract work must be used, fixed and/or applied in strict accordance with the printed instructions and/or recommendation of the manufacturer.

All boilers shall be supplied and installed with suitably sized external circulation pump.

**SB-001 Sealed System Boiler – Worcester 15kw System Boiler**

Provide and fit an Ideal Logic 15 System fan assisted room sealed and wall mounted boiler unit with standard flue, including all necessary new and adapted pipe work within 3 linear metres of the existing boiler position. (Where new boiler is relocated more than 3m from existing position, refer to SB-31, SB-32 and SB-33 as required).

**SB-003 Sealed System Boiler –Worcester 24kw System Boiler**

Provide and fit a Worcester 24 kw System fan assisted room sealed and wall mounted boiler unit with standard flue, including all necessary new and adapted pipe work within 3 linear metres of the existing boiler position. (Where new boiler is relocated more than 3m from existing position, refer to SB-31, SB-32and SB-33 as required).

**SB-004 Gas Supply – Meter to Boiler**

Provide and fit a suitably sized gas pipe in copper tube with solder joints, installed from the meter to serve the boiler.

**SB-005 Gas Supply – Cooker**

Provide and fit a suitably sized gas pipe in copper tube with solder joints to proposed cooker position including end connections.

**SB-006 Gas Supply – Flex Connector**

Connect cooker to new gas supply with approved flexible connector and cooker chain.

**SB-007 Gas Supply – Gas Fire**

Provide and fit a suitably sized pipe in copper tube with solder joints to gas fire position as specified including end connections.

**SB-008 Gas Supply – From adjacent point**

Install new correctly sized supply to boiler position from adjacent point.

**SB-009 Radiators**

Supply and install 7 No. radiators to give the required heat output to the areas as listed with allowance made for heat emitted by any pipe work in these spaces and the emission corrected by the necessary factor.

All radiators to be securely fitted to walls with brackets provided or with purpose made brackets where required.

Radiators must be sited under the windows as far as possible and sized to match the window width. The position of kitchen radiators may be varied to suit layout.

Supply and install Danfoss Randall RA-FS radiator valve with RAS – C2 on heating flow and Danfoss Randall RLV - D Lockshield Valves on heating return.

For the radiator installed in the same room as the room thermostat supply and install Danfoss Randall RLV-D Lockshield valves on both heating flow and return.

**SB-010 Radiator +/-**

Allow for additional cost to supply and install one number additional/less radiator as per SB-09

**SB-011 Pipework**

The heating circuits will be two pipe pump assisted in smallbore pipework. New pump to be from the Grundfos range fitted with isolation valves each side, capable of providing system requirements.

The primary circuits to the hot water storage cylinders will also be pumped and all pipework will be concealed where possible.

Provide and install heating circuit to all radiators, all pipework shall be copper with solder joints.

Include for insulation to pipework as described within specification

**SB-012 Electrical Supply**

Supply and install power supply with appropriate isolation for boiler, immersion heater and heating controller / programmer. The final connection to each system will be from fused spur outlet socket within 1 metre (3 ft) and adjacent to each boiler.

## Appendix 4 – New Works

All electrical wiring etc. necessary for the satisfactory operation of the system to be provided, installed and connected by the Contractor via wiring centre, including if necessary, a new main supply.

All work shall conform to the current IEE Regulations. All exposed wiring to be installed in mini trunking.

All work to be carried out by a competent NICIEC registered electrician who will issue test and completion certificates.

**SB-013 Cross Bonding**

Provide and fit bonding or cross bonding to new gas supply and new heating system as required (Including radiators) to conform to current IEE Regulations. The Contractor is to supply a certificate of electrical worthiness on completion.

**SB-014 Loft Hatch**

Form suitably sized hatch, woodwork to be primed, undercoated and glossed white on completion.

**SB-015 Washing Machine Connection**

Allow for hot and cold-water supply pipe work to washing machine. Include for hot and cold washing machine valves and connectors. Valves to be sited so that they may be operated without removing washing machine from designated space. Allow 1 meter hot & cold-water pipe work for pricing. Any additional length of pipework shall be as per BS-V11 above.

**SB-016 Solid Floor Ducts**

Any pipe work, which is to be installed in a solid floor, is to be ducted, using Pendock Profiles floor ducting. It is also to be installed in accordance with the relevant current Codes of Practice and any specific requirements of the Local Water undertaking, using Pendock Profiles floor ducting.

**SB-017 Ducting**

Allow for boxing in all new and existing horizontal and vertical pipe work adjacent new boiler and within kitchen using 6 mm birch plywood fixed to 25 x 50 mm softwood battens (allow for access panels) or other suitable and approved ducting. Allow for decorative finish

**SB-018 Insulation – 100mm (Top up)**

Provide and lay 100 mm rolled glass mineral wool, CFC and HCFC free insulation to loft space as top up.

**SB-019 Insulation – 200mm**

Provide and lay 200 mm rolled glass mineral wool, CFC and HCFC free insulation to loft.

**SB-020 CO Detector**

Supply and install mains powered CO detector. The detector shall also be provided with battery backup. The cost shall include for all associated wiring from the nearest suitable power point available. Wiring shall include an un-switched fuse spur next to CO detector.

**SB-021 Cold Water Supply**

From mains stop-valve run suitably sized copper pipe with solder joints complete with services valves to all cold-water outlets (taps) and tanks/cylinder.

**SB-022 Controls**

Supply and install two channel 7-day programmer to control heating & hot water. The control system shall include 2 no. two port valve & actuators, hot water temperature sensor, room thermostat and wiring centre. The programmer shall have integral boiler service interval control function. The programmer shall be manufactured by Danfoss or Honeywell approved (or of a manufacturer subsequently instructed by the client)

**SB-023 Room thermostat**

Supply and install room thermostat suitable for above programmer.

**SB-024 Hot Water Cylinder**

Supply and install indirect hot water cylinder within airing cupboard. The cylinder shall be provided with 3kW immersion heater with safety cut off device. The price shall include for heating flow & return pipework connections, cold water connection, hot water outlet connection and all associated wiring. 120 litre range Hercul hot water cylinder

**SB-025**

Supply and install indirect hot water cylinder within airing cupboard. The cylinder shall be provided with 3kW immersion heater with safety cut off device. The price shall include for heating flow & return pipework connections, cold water connection, hot water outlet connection and all associated wiring 150 litre range Hercul hot water cylinder

**SB-026 Cold Water Storage**

Supply and locate in roof space 1 No. polypropylene 227-litre cold-water storage cistern with lid, including 14mm HP ball valve and 100mm float with 22mm PVC overflow. Make all connections including mains cold water supply via suitable stop-valve, sited in a readily accessible position. All of the above is to conform with By-law 30 (Cisterns storing water for domestic purposes).

Supply and fix insulation jacket, the Contractor shall lag all new water pipes within roof space using Armaflex or similar and approved.

**SB-027 Storage Platform**

Allow for constructing timber platform using 75 x 50mm softwood framing and 19mm ply base to provide adequate support for expansion and storage cisterns. Platform to be positioned to distribute loading from cisterns over load-bearing walls.

**SB-028 TRV's**

Install or replace TRV to existing radiator

**SB-029 Lockshield Valve**

Install or replace Lockshield valve to existing radiator

**SB-030 Pipe Lagging**

Install pipe lagging to existing pipe work (any size)

**Pipe work**

**SB-031** Install 15mm copper tubing either under floor or surface mounted

**SB-032** Install 22mm copper tubing either under floor or surface mounted

**SB-033** Install 28mm copper tubing either under floor or surface mounted

(Extra over pipework code used only when AC-10 is not used, or only where new boiler is installed more than 3m from existing position)

**SB-034 Labour only**

Rates for works within normal hours that fall outside the scope of all installation codes.

**SB-035 Scaffolding**

The contractor is expected to use appropriate equipment for high level works such as ladders, trestle or towers, where these are not suitable and subject to Client Representative approval, supply scaffold priced on a per lift basis up to 3m wide.

**Flues and Accessories**

**SB-036** Standard telescopic flue kit 100mm diameter - Horizontal RS Flue (350-570mm)

**SB-037** Long telescopic flue kit 100mm diameter - Horizontal RS Flue (570-790mm)

**SB-038** Extension flue kit (960mm) 100mm diameter - Horizontal RS Flue

**SB-039** 2m flue extension 100mm diameter - Horizontal RS Flue

**SB-040** Short flue extension (220mm) 100mm diameter - Horizontal RS Flue

**SB-041** 90-degree bend 100mm diameter - Horizontal RS Flue

## Appendix 4 – New Works

<b>SB-042</b>	45-degree bend	100mm diameter - Horizontal RS Flue
<b>SB-043</b>	High level horizontal flue adaptor	100mm diameter - Horizontal RS Flue
<b>SB-044</b>	Support bracket kit	100mm diameter - Horizontal RS Flue
<b>SB-045</b>	Support bracket kit (6 pack)	100mm diameter - Horizontal RS Flue
<b>SB-046</b>	Standard telescopic flue kit	125mm diameter - Horizontal RS Flue
<b>SB-047</b>	Extension flue kit (960mm)	125mm diameter - Horizontal RS Flue
<b>SB-048</b>	90-degree bend	125mm diameter - Horizontal RS Flue
<b>SB-049</b>	45-degree bend	125mm diameter - Horizontal RS Flue
<b>SB-050</b>	High level horizontal flue adaptor	125mm diameter - Horizontal RS Flue
<b>SB-051</b>	Support bracket kit	125mm diameter - Horizontal RS Flue
<b>SB-052</b>	Vertical balanced flue kit (inc. adaptor)	100mm diameter - Vertical RSF Flue
<b>SB-053</b>	Extension flue kit (960mm)	100mm diameter - Vertical RSF Flue
<b>SB-054</b>	Short flue extension (220mm)	100mm diameter - Vertical RSF Flue
<b>SB-055</b>	90-degree bend	100mm diameter - Vertical RSF Flue
<b>SB-056</b>	45-degree bend	100mm diameter - Vertical RSF Flue
<b>SB-057</b>	Flashing - flat roof	100mm diameter - Vertical RSF Flue
<b>SB-058</b>	Flashing -pitched roof	100mm diameter - Vertical RSF Flue
<b>SB-059</b>	Vertical balanced flue kit (inc adaptor)	125mm diameter - Vertical RSF Flue
<b>SB-060</b>	Extension flue kit (960mm)	125mm diameter - Vertical RSF Flue
<b>SB-061</b>	90-degree bend	125mm diameter - Vertical RSF Flue
<b>SB-062</b>	45-degree bend	125mm diameter - Vertical RSF Flue
<b>SB-063</b>	Flashing - flat roof	125mm diameter - Vertical RSF Flue
<b>SB-064</b>	Flashing -pitched roof	125mm diameter - Vertical RSF Flue
<b>SB-065</b>	Plume management kit	Plume management system
<b>SB-066</b>	Extension (1,000mm)	Plume management system
<b>SB-067</b>	90-degree bend	Plume management system
<b>SB-068</b>	45-degree bend (pair)	Plume management system
<b>SB-069</b>	Plume management terminal guard round	Plume management system

**HO-004 Gas Supply – Meter to Boiler**

Provide and fit a suitably sized gas pipe in copper tube with solder joints, install from the meter to serve the boiler including end connections.

**HO-005 Gas Supply – Cooker**

Provide and fit a suitably sized gas pipe in copper tube with solder joints to proposed cooker position including end connections.

**HO-006 Gas Supply – Flex Connector**

Connect cooker to new gas supply with approved flexible connector.

**HO-007 Gas Supply – Gas Fire**

Provide and fit a suitably sized pipe in copper tube with solder joints to gas fire position as specified including end connections.

**HO-008 Gas Supply – From adjacent point**

Install new correctly sized supply to boiler position from adjacent point.

**HO-009 Radiators**

Supply and install 7 No. radiators to give the required heat output to the areas as listed with allowance made for heat emitted by any pipe work in these spaces and the emission corrected by the necessary factor.

All radiators to be securely fitted to walls with brackets provided or with purpose made brackets where required.

Radiators must be sited under the windows as far as possible and sized to match the window width. The position of kitchen radiators may be varied to suit layout.

Supply and install Danfoss Randall RA-FS radiator valve with RAS – C2 on heating flow and Danfoss Randall RLV - D Lockshield Valves on heating return.

For the radiator installed in the same room as the room thermostat supply and install Danfoss Randall RLV-D Lockshield valves on both heating flow and return.

**HO-010 Radiator +/-**

Allow for additional cost to supply and install one number additional/less radiator as per AC-V09a

**HO-011 Pipework**

The heating circuits will be two pipe pump assisted in smallbore pipework. New pump to be from the Grundfos range fitted with isolation valves each side, capable of providing system requirements.

## Appendix 4 – New Works

The primary circuits to the hot water storage cylinders will also be pumped and all pipework will be concealed where possible.

Provide and install heating circuit to all radiators and the primary circuit to hot water taps from boiler. All pipework shall be copper with solder joints.

Include for insulation to pipework as described within specification

### **HO-012 Electrical Supply**

Supply and install power supply with appropriate isolation for boiler, immersion heater and heating controller / programmer. The final connection to each system will be from fused spur outlet socket within 1 metre (3 ft) and adjacent to each boiler. All electrical wiring etc. necessary for the satisfactory operation of the system to be provided, installed and connected by the Contractor via wiring centre, including if necessary, a new main supply.

All work shall conform to the current IEE Regulations. All exposed wiring to be installed in mini trunking.

All work to be carried out by a NICIEC registered electrician who will issue test and completion certificates.

### **HO-013 Cross Bonding**

Provide and fit bonding or cross bonding to new gas supply and new heating system as required (Including radiators) to conform to current IEE Regulations. The Contractor is to supply a certificate of electrical worthiness on completion.

### **HO-014 Loft Hatch**

Form suitably sized hatch, woodwork to be primed, undercoated and glossed white on completion.

### **HO-015 Washing Machine Connection**

Allow for hot and cold-water supply pipe work to washing machine. Include for hot and cold washing machine valves and connectors. Valves to be sited so that they may be operated without removing washing machine from designated space. Allow 1 meter hot & cold-water pipe work for pricing. Any additional length of pipework shall be as per BS-V11 above.

### **HO-016 Solid Floor Ducts**

Any pipe work, which is to be installed in a solid floor, is to be ducted, using Pendock Profiles floor ducting. It is also to be installed in accordance with the relevant current Codes of Practice and any specific requirements of the Local Water undertaking, using Pendock Profiles floor ducting.

**HO-017 Ducting**

Allow for boxing in all new and existing horizontal and vertical pipe work adjacent new boiler and within kitchen using 6 mm birch plywood fixed to 25 x 50 mm softwood battens (allow for access panels) or other suitable and approved ducting. Allow for decorative finish

**HO-018 Insulation – 100mm (Top up)**

Provide and lay 100 mm rolled glass mineral wool, CFC and HCFC free insulation to loft space as top up.

**HO-019 Insulation – 200mm**

Provide and lay 200 mm rolled glass mineral wool, CFC and HCFC free insulation to loft.

**HO-020 CO Detector**

Supply and install mains powered CO detector. The detector shall also be provided with battery backup. The cost shall include for all associated wiring from the nearest suitable power point available. Wiring shall include an un-switched fuse spur next to CO detector.

**HO-021 Cold Water Supply**

From mains stop-valve run suitably sized copper pipe with solder joints complete with services valves to all cold-water outlets (taps) and tanks/cylinder.

**HO-022 Controls**

Supply and install two channel 7-day programmer to control heating & hot water. The control system shall include 2 no. two port valve & actuators, hot water temperature sensor, room thermostat and wiring centre. The programmer shall have integral boiler service interval control function. The programmer shall be manufactured by Danfoss or Honeywell.

**HO-023 Room thermostat**

Supply and install room thermostat suitable for above programmer.

**HO-024 Hot Water Cylinder - 120 litre range Hercul hot water cylinder**

Supply and install indirect hot water cylinder within airing cupboard. The cylinder shall be provided with 3kW immersion heater with safety cut off device. The price shall include for heating flow & return pipework connections, cold water connection, hot water outlet connection and all associated wiring.

**HO-025 Hot Water Cylinder - 150 litre range Hercal hot water cylinder**

Supply and install indirect hot water cylinder within airing cupboard. The cylinder shall be provided with 3kW immersion heater with safety cut off device. The price shall include for heating flow & return pipework connections, cold water connection, hot water outlet connection and all associated wiring.

**HO-026 Feed & Expansion Tank – Hot Water**

Supply and fix 1 No. polypropylene 64 litre expansion cistern, including HP ball valve and float with 22mm PVC overflow. Make all connections including mains cold water supply via suitable stop-valve, sited in a readily accessible position.

All of the above is to conform with By-law 30 (Cisterns storing water for domestic purposes).

Supply and fix insulation jacket, the Contractor shall lag all new water pipes within roof space using Armaflex or similar and approved.

**HO-027 Cold Water Storage**

Supply and locate in roof space 1 No. polypropylene 227-litre cold-water storage cistern with lid, including 14mm HP ball valve and 100mm float with 22mm PVC overflow. Make all connections including mains cold water supply via suitable stop-valve, sited in a readily accessible position.

All of the above is to conform with By-law 30 (Cisterns storing water for domestic purposes).

Supply and fix insulation jacket, the Contractor shall lag all new water pipes within roof space using Armaflex or similar and approved.

**HO-028 Storage Platform**

Allow for constructing timber platform using 75 x 50mm softwood framing and 19mm ply base to provide adequate support for expansion and storage cisterns. Platform to be positioned to distribute loading from cisterns over load-bearing walls.

**HO-029 TRV's**

Install or replace TRV to existing radiator

**HO-030 Lockshield Valve**

Install or replace Lockshield valve to existing radiator

**HO-031 Pipe Lagging**

Install pipe lagging to existing pipe work (any size)

**Pipe work**

**HO-032** Install 15mm copper tubing either under floor or surface mounted

**HO-033** Install 22mm copper tubing either under floor or surface mounted

**HO-034** Install 28mm copper tubing either under floor or surface mounted

(Extra over pipework code used only when AC-10 is not used, and only where new boiler is installed more than 3m from existing position)

**HO-035 Labour only**

Rates for works within normal hours that fall outside the scope of all installation codes.

**HO-036 Scaffolding**

The contractor is expected to use appropriate equipment for high level works such as ladders, trestle or towers, where these are not suitable and subject to Client Representative approval, supply scaffold priced on a per lift basis up to 3m wide.

**Flues and Accessories**

<b>HO-037</b>	Standard telescopic flue kit (350-570mm)	100mm diameter - Horizontal RS Flue
<b>HO-038</b>	Long telescopic flue kit (570-790mm)	100mm diameter - Horizontal RS Flue

**CONTRACTORS COMPLETION CERTIFICATE (EXAMPLE)**

Address:			
Operative		Date installed	
Boiler type:		Location:	
Programmer		No of Rads:	
Scale reducer:		Loft insulation:	Installed YES / NO

I confirm that I have inspected the installation in the above address and certify that: -

	Tick	
1		The above information is correct.
2		All making good and builders works has been completed.
3		Ducting has been installed.
4		The system has been thoroughly flushed/cleansed through and inhibitor added.
5		Test has been completed to certify item 4 above, certificate attached.
6		The system has been balanced correctly.
7		The gas appliance has been correctly gas rated.
8		The gas installation is sound. LGSR attached
9		The electrical installation conforms to the IEE regulations, certificate attached
10		The Flue has been checked is sound, secure and conforms to all regulations
11		The chimney has been swept and the certificate is attached.
12		The system is watertight and conforms to all by-law requirements.
13		The system has been thoroughly heat tested.
14		CO detector is present and working correctly
15		Appropriate Building Regulation Certificate applied for.
16		The resident has been provided the emergency telephone number, Contractor's information card, and has been instructed on how the system operates and how to use it economically and provided with operating instructions and radiator keys (where applicable).
17		Scaffold Certificate attached if applicable
18		Benchmark Book completed correctly
19		Building Regulation Compliance Certificate applied for.

Appendix 4 – New Works

I confirm that the installation is in good working order as specified and that all the contract requirements and specification have been complied with and the installation is now ready for handover and inspection.

**COMMENTS:**

**Contract Supervisors Signature:** .....

**Name:** .....

I the Resident certify the heating system has been installed, I have been instructed on its use, provided with a user guide, I am happy with the works completed and that the system is functioning as I would expect.

Resident's Name .....

Signature ..... Date .....

## **Processing Personal Data**

## Schedule of Processing, Personal Data and Data Subjects

### Schedule: Processing, Personal Data and Data Subjects

This Schedule shall be completed by the Controller, who may take account of the view of the Processors,<sup>1</sup> however the final decision as to the content of this Schedule shall be with the Controller at its absolute discretion.

The contact details of the Controllers' Data Protection Officers are:

Amandeep Khroud  
 The District Council of Folkestone and Hythe, Civic Centre, Castle Hill Avenue,  
 Folkestone, Kent CT20 2QY  
[data.protection@folkestone-hythe.gov.uk](mailto:data.protection@folkestone-hythe.gov.uk)  
 or such other person as may be appointed

The contact details of the Processor's Data Protection Officer are:

██████████ or such other person as may be appointed

1. The Processor shall comply with any further written instructions with respect to processing by the Controller.
2. Any such further instructions shall be incorporated into this Schedule.

Description	Details
Identity of the Controller and Processor	The Parties acknowledge that for the purposes of the Data Protection Legislation, The District Council of Folkestone and Hythe is the Controller and the Contractor is the Processor in accordance with Clause 1.1.
Subject matter of the processing	This processing is needed in order to ensure that the Controllers can effectively manage housing to tenants and/or leaseholders of properties owned by The District Council of Folkestone and Hythe  This Contract concerns the repair, servicing and replacement of domestic gas heating, electrical heating, and alternative energy heating systems and in addition any associated works.
Duration of the processing	From the date of execution of this Contract for the duration of the Contract Period

<sup>1</sup> For the terms of this agreement, the Contractor is acknowledged to be the data Processor

Nature and purposes of the processing	The nature of the processing is the Contractor making contact with residents of the properties owned by The District Council of Folkestone and Hythe to enable access for the works.
Type of Personal Data being Processed	<p>Data to be processed includes:</p> <p>Names, address, telephone number.</p> <p>Potentially, the Processor may be provided with information indicating that the data subject may be potentially violent (PVP marker) and/or details of any disability. Where there is a disability or other special need, details of next of kin and/or helper may be passed to the Processor.</p>
Categories of Data Subject	Tenants of properties owned by The District Council of Folkestone and Hythe.
<p>Plan for return and destruction of the data once the processing is complete</p> <p>UNLESS requirement under union or member state law to preserve that type of data</p>	<p>Data passed to the Processor will be retained for the duration of the contract.</p> <p>The Processor shall, within four weeks of the end of the contract, securely dispose of all data shared during the course of this contract.</p> <p>The Processor will issue a certificate of deletion to the Controller.</p>

## **Parent Company Guarantee**

## FORM OF PARENT COMPANY GUARANTEE

**THIS DEED** is made the                      day of                      2022

**BY**

- (1) **SWALE HEATING HOLDINGS LTD** (Company Registration No. 13086502) whose registered office is at C/O Swale Heating Limited, Heard Way, Eurolink Industrial Estate, Sittingbourne, Kent, United Kingdom, ME10 3SA ("the Guarantor")

**IN FAVOUR OF**

- (2) **THE DISTRICT COUNCIL OF FOLKESTONE AND HYTHE** of the Civic Centre, Castle Hill Avenue, Folkestone, Kent CT20 2QY ("the Employer")

**WHEREAS**

- A. This Deed is supplemental to a contract ("the Contract") made between the Employer of the one part and **SWALE HEATING LIMITED** (company registration no. 1076034) whose registered office is at Heard Way, Eurolink Industrial Estate, Sittingbourne, Kent ME10 3SA ("the Contractor") of the other part whereby the Contractor has agreed to provide domestic Gas, Solid Fuel & Non-Gas Heating Servicing, Repairs, Maintenance and Installations ("the Works") upon the terms and conditions more particularly described in the Contract.
- B. The Guarantor has control over the Contractor, within the meaning of section 1124 of the Corporation Tax Act 2010.
- C. The Guarantor has agreed to guarantee the due performance of the Contract.

**NOW THE GUARANTOR HEREBY COVENANTS** with the Employer as follows:

1. The Guarantor unconditionally and irrevocably guarantees to the Employer that if any sums are due and owing to the Employer by the Contractor pursuant to the terms of the Contract and there is any default in any payment of such sums the Guarantor shall forthwith on first demand by the Employer unconditionally pay such sums to the Employer in full together with all costs and expenses which the Employer may incur in enforcing this Guarantee.
2. The Guarantor unconditionally and irrevocably undertakes fully and promptly to indemnify the Employer against all damages, costs, claims, losses, demands, liabilities and expenses that may be suffered or incurred by the Employer by reason of any default on the part of the Contractor in performing and observing the terms and conditions of the Contract and in particular such

costs and expenses as may be incurred as a result of a third party providing all or any part of the Works (as defined in the Contract) by reason of a failure by the Contractor to provide the Works in accordance with the terms of the Contract.

3. Upon being required to do so by the Employer by notice in writing, the Guarantor shall at its own expense perform or take whatever steps may be necessary to procure the performance of the Contractor's obligations under the Contract and shall from the date of such notice assume jointly and severally with the Contractor all the rights and obligations of the Contract in every way as if the Guarantor were a party thereto, and the performance of the Contract shall continue as if the Guarantor and the Employer had been the original parties to the Contract;
4. The Guarantor shall not be discharged or released from this Guarantee nor shall its liability under this Guarantee be affected or impaired:
  - (i) by any agreement, conduct or forbearance between or afforded to the Contractor by the Employer;
  - (ii) by reason of any alteration in the obligations undertaken by the Contractor;
  - (iii) by any forbearance whether as to payment, time, performance or otherwise; or
  - (iv) as a result of any change in the constitution of the Guarantor, the Contractor or the Employer.
5. The Employer shall not be obliged to require payment from the Contractor before enforcing the terms of this Guarantee and the Guarantor shall be treated in all respects as being jointly and severally liable with the Contractor for all liabilities obligations and undertakings of the Contractor as provided in the Contract.
6. This Guarantee shall remain in full force and effect until the expiry of the Contract and until all the obligations of the Contractor under the Contract have been satisfied in full and this Guarantee is in addition to and not in substitution for any other guarantee, undertaking, indemnity, security or other obligation given or owing to the Employer in respect of sums due or liabilities arising pursuant to the terms of the Contract.
7. If any monies shall become payable under or in respect of this Guarantee then, so long as any monies due and owing by the Contractor to the Employer under the terms of the Contract remain unpaid, Guarantor shall not:
  - (i) in respect of the amounts paid by the Guarantor under this Guarantee seek to enforce repayment by subrogation or otherwise;
  - (ii) in the event of the insolvency, winding up, liquidation or dissolution of the Contractor prove in competition with the Employer in respect of any monies owing to the Guarantor by the Contractor on any account

whatsoever but will give to the Employer the benefit of any such proof and all monies to be so received in respect thereof.

8. All demands made by the Employer under this Guarantee shall be made in writing and sent to the Guarantor at the address set out above or such other address as may be notified in writing by the Guarantor to the Employer. Such demands shall be deemed to have been received by the Guarantor on the next working day after the date of transmission, whether by post or facsimile transmission.
9. No failure to exercise or delay in exercising any right, power or privilege hereunder on the part of the Employer shall operate as a waiver thereof, nor shall any single or partial exercise of any right, power or privilege preclude any other or further exercise thereof, or exercise of any other right, power or privilege. The rights and remedies provided herein are cumulative and exclusive of any rights or remedies provided by the law.
10. The Guarantor hereby warrants and represents to the Employer that it has full power and authority to enter into and perform its obligations under this Guarantee.
11. The Guarantor shall procure that, during the term of this guarantee, there shall be no change of control of the Contractor. "Control" shall bear the meaning given in section 1124 of the Corporation Tax Act 2010.
12. This Guarantee shall be governed by and construed in accordance with English Law and the parties hereby submit to the exclusive jurisdiction of the English Courts.

**IN WITNESS** whereof the Guarantor has executed this Guarantee as a deed the day and year first before-written

# **Appendix H**

## **Performance Bond**

## PERFORMANCE BOND

**THIS PERFORMANCE BOND** is made as a Deed on the \_\_\_\_\_ day  
of \_\_\_\_\_ 2022

### BETWEEN

(1) **SWALE HEATING LIMITED** (company registration no. 1076034)  
whose registered office is at Heard Way, Eurolink Industrial Estate,  
Sittingbourne, Kent ME10 3SA (“the Contractor”)

and

(2) **[SURETY]** whose registered office is situated at [ *-address of Surety-* ]  
 (“the Surety”)

### IN FAVOUR OF

**FOLKESTONE & HYTHE DISTRICT COUNCIL** of the Civic Centre, Castle  
Hill Avenue, Folkestone CT20 2QY (hereinafter called “the Employer”)

### WHEREAS

By a contract dated the ..... day of ..... 20.. made between  
the Employer and the Contractor (hereinafter called “the Contract”) the  
Contractor has contracted with the Employer to provide domestic Gas, Solid  
Fuel & Non-Gas Heating Servicing, Repairs, Maintenance and Installations  
works (described herein as “the Works”) in accordance with the terms of the  
said Contract.

The Surety has agreed with the Contractor to guarantee in favour of the  
Employer performance of the obligations of the Contractor under the Contract  
upon the terms and conditions of this Contract Guarantee Bond subject to the  
limitation set out in Clause 5 below.

### NOW IT IS HEREBY AGREED BETWEEN THE PARTIES as follows:

1. The Surety irrevocably guarantees to the Employer that in the event of  
any breach of the Contract by the Contractor or on the termination of  
the Contract or the Contractor’s employment thereunder by reason of  
any act, omission, breach or default of the Contractor, the insolvency of  
the Contractor or any fraud or corruption by the Contractor (each of  
which hereinafter called an “Event of Default”) the Surety shall, subject  
to the provisions of this Contract Guarantee Bond, satisfy and  
discharge all damages, claims, costs, losses, expenses, liabilities,  
losses of profit and losses of use (including consequential losses) (“the

Damages”) sustained by the Employer as established and ascertained in accordance with Clause 5 below.

2. The maximum aggregate liability of the Surety and the Contractor under this Contract Guarantee Bond shall be ten per cent (10%) of the total contract price of [ ] and the parties hereto agree the liability of the Surety and the Contractor hereunder shall be joint and several and the liability of the Surety shall be co-extensive with the liability of the Contractor under the Contract.
3. The Contractor and the Surety shall not be released and/or discharged from the obligations contained in this Contract Guarantee Bond in the event of either or any of the following:
  - (a) any change in the nature or extent of the Works being or being due to be performed under the Contract;
  - (b) any alteration to the terms, conditions and/or other provisions of the Contract;
  - (c) any allowance of time, forbearance, indulgence, relaxation or other concession granted by the Employer to the Contractor under the Contract in respect of its obligations thereunder;
  - (d) any compromise or settlement of any dispute between the Employer and the Contractor (but so that the Employer shall not pursue against the Surety a remedy contrary to the terms of any such compromise or settlement in so far as the Contractor shall have complied with such terms);
  - (e) any act or default of the Employer or its officers or by any breach or alleged breach of the Contract by the Employer; and/or
  - (f) any determination, termination or other cessation of the Contract for any reason whatsoever.
4. The Surety’s obligations and liabilities under this Contract Guarantee Bond shall continue notwithstanding any disclaimer of the Contract by a liquidator, receiver or administrator appointed to the Contractor and the Contract shall for the purposes of this Contract Guarantee Bond be deemed to continue notwithstanding any such disclaimer.
5. The Damages sustained by the Employer by reason of an Event of Default (which shall where applicable include the fees of the expert appointed in accordance with Clause 5(c) below) shall be ascertained and established (at the discretion of the Employer) by either:
  - (a) written confirmation signed on behalf of the Employer and countersigned by the Contractor as to the amount of the

Damages payable to the Employer by reason of an Event of Default; or

- (b) a copy of a judgement of a court having jurisdiction or a copy of any award issued in arbitration or like proceedings carried out in conformity with the terms of the Contract; or
  - (c) the written determination of a professional expert qualified and experienced in the relevant area who shall be agreed between the Employer and the Surety or in default of agreement shall be appointed by the President for the time being of the Law Society and who shall act as expert and not as arbitrator.
6. If an Event of Default shall occur, notwithstanding that the Damages sustained by the Employer shall not have been ascertained and established in accordance with the provisions of Clause 5 above, the Employer may and shall at any time before the Expiry Date (as defined in Clause 7) give notice in writing to the Contractor and the Surety specifying the nature of the Event of Default and making a claim under the terms of this Contract Guarantee Bond.
7. This Contract Guarantee Bond shall remain in full force and effect until not less than twenty four (24) months after the expiry of the Supply Contract Period or, in the event that the Contract is extended pursuant to the Conditions thereof, twenty four months (24) after the expiry of such extension period ("the Expiry Date") on which date the obligations of the Surety under this Contract Guarantee Bond shall be released and discharged absolutely save in respect of any Event of Default which has occurred and in respect of which a claim in writing containing particulars of such Event of Default has been made upon the Surety before such date.
8. The Contract Guarantee Bond shall be governed by and construed in accordance with English Law and the English Courts shall have jurisdiction over any dispute or difference which may arise between the parties hereto out of or in connection with this Contract Guarantee Bond.
9. The parties hereto intend this Contract Guarantee to take effect as a Deed.

**THIS AGREEMENT** is dated [DATE]

**PARTIES**

- (1) [FULL COMPANY NAME] incorporated and registered in England and Wales with company number [NUMBER] whose registered office is at [REGISTERED OFFICE ADDRESS] (**Sub-Contractor**).
- (2) [FULL COMPANY NAME] incorporated and registered in England and Wales with company number [NUMBER] whose registered office is at [REGISTERED OFFICE ADDRESS] (**Beneficiary**).
- (3) SWALE HEATING LIMITED (company registration no. 1076034[ ]) whose registered office is at Heard Way, Eurolink Industrial Estate, Sittingbourne, Kent ME10 3SA (**Contractor**).

**BACKGROUND**

- (A) The Beneficiary has engaged the Contractor to carry out domestic Gas, Solid Fuel & Non-Gas Heating Servicing, Repairs, Maintenance and Installations.
- (B) The Contractor has engaged the Sub-Contractor to carry out part of those works.
- (C) The Beneficiary and the Contractor require the Sub-Contractor to enter into a collateral warranty in favour of the Beneficiary.
- (D) The Sub-Contractor has agreed to enter into this agreement with the Contractor and the Beneficiary for the benefit of the Beneficiary.
- (E) The Beneficiary has paid £1 to the Sub-Contractor and the Contractor as consideration under this agreement.

**AGREED TERMS**

**1. INTERPRETATION**

The following definitions and rules of interpretation apply in this agreement.

1.1 Definitions:

**Building Contract:** an agreement in writing dated [DATE] between the Beneficiary and the Contractor.

**Business Day:** a day other than a Saturday, Sunday or public holiday in England when banks in London are open for business.

**Construction Products Regulations:** the Construction Products Regulations 2013 (SI 2013/1387), the Construction Products Regulation (305/2011/EU), the

Construction Products Regulations 1991 (SI 1991/1620) and the Construction Products Directive (89/109/EC).

**Deleterious:** materials, equipment, products or kits that are generally accepted, or generally suspected, in the construction industry at the relevant time as:

- (a) posing a threat to the health and safety of any person; or
- (b) posing a threat to the structural stability, performance or physical integrity of the Works or any part or component of the Works; or
- (c) reducing, or possibly reducing, the normal life expectancy of the Works or any part or component of the Works; or
- (d) not being in accordance with any relevant British Standard, relevant code of practice, good building practice or any applicable agrément certificate issued by the British Board of Agrément; or
- (e) having been supplied or placed on the market in breach of the Construction Products Regulations.

**Funder:** a person that has provided, or is to provide, finance in connection with:

- (a) the whole or any part of the Works or the completed Works; or
- (b) the site of the Works,

whether that person acts on its own account, as agent for a syndicate of other parties or otherwise.

**Material:** all designs, drawings, models, plans, specifications, design details, photographs, brochures, reports, notes of meetings, CAD materials, calculations, data, databases, schedules, programmes, bills of quantities, budgets and any other materials provided in connection with the Sub-Contract Works and all updates, amendments, additions and revisions to them and any works, designs, or inventions incorporated or referred to in them for any purpose relating to the Sub-Contract Works.

**Permitted Uses:** the design, construction, completion, reconstruction, modification, refurbishment, development, maintenance, facilities management, funding, disposal, letting, fitting-out, advertisement, decommissioning, demolition, reinstatement, extension, building information modelling and repair of the Property and the Works.

**Property:** various properties as described in the Building Contract.

**Sub-Contract:** an agreement in writing dated [DATE] between the Contractor and the Sub-Contractor.

**Sub-Contract Works:** the completion of the building works referred to in the Sub-Contract, carried out by the Sub-Contractor under the Sub-Contract.

**Works:** the completion of the building works referred to in the Building Contract, carried out by or on behalf of the Contractor under the Building Contract.

1.2 Clause headings shall not affect the interpretation of this agreement.

- 1.3 A **person** includes a natural person, corporate or unincorporated body (whether or not having separate legal personality).
- 1.4 A reference to a **company** shall include any company, corporation or other body corporate, wherever and however incorporated or established.
- 1.5 Unless the context otherwise requires, words in the singular shall include the plural and in the plural include the singular.
- 1.6 Unless the context otherwise requires, a reference to one gender shall include a reference to the other genders.
- 1.7 This agreement shall be binding on, and enure to the benefit of, the parties to this agreement and their respective personal representatives, successors and permitted assigns, and references to any party shall include that party's personal representatives, successors and permitted assigns.
- 1.8 A reference to a statute or statutory provision is a reference to it as amended, extended or re-enacted from time to time.
- 1.9 A reference to a statute or statutory provision shall include all subordinate legislation made from time to time under that statute or statutory provision.
- 1.10 Any obligation on a party not to do something includes an obligation not to allow that thing to be done.
- 1.11 A reference to **writing** or **written** includes fax and email.
- 1.12 A reference to a document is a reference to that document as varied or novated (in each case, other than in breach of this agreement) at any time.
- 1.13 Any reference to an English legal term for any action, remedy, method of judicial proceeding, legal document, legal status, court, official or any legal concept or thing shall, in respect of any jurisdiction other than England, be deemed to include a reference to that which most nearly approximates to the English legal term in that jurisdiction.
- 1.14 References to clauses are to the clauses of this agreement.
- 1.15 Unless otherwise expressly provided, the obligations and liabilities of **PARTIES** under this agreement are joint and several.

- 1.16 Any words following the terms **including, include, in particular, for example** or any similar expression shall be construed as illustrative and shall not limit the sense of the words, description, definition, phrase or term preceding those terms.

## **2. COMPLY WITH SUB-CONTRACT**

2.1 The Sub-Contractor warrants to the Beneficiary that:

- (a) it has complied, and shall continue to comply, with its obligations under the Sub-Contract, including its obligations to:
  - (i) carry out and complete the Sub-Contract Works properly; and
  - (ii) use workmanship and materials of the quality and standard specified in the Sub-Contract;
- (b) without affecting clause 2.1(a), and to the extent that it takes responsibility for the same under the Sub-Contract, it:
  - (i) has designed, or will design, the Sub-Contract Works; and
  - (ii) has selected, or will select, goods, materials, plant and equipment for incorporation in the Sub-Contract Works,  
  
with all the reasonable skill, care and diligence to be expected of a qualified and experienced architect (or other appropriate professional designer) undertaking the design of works similar in scope and character to the Sub-Contract Works; and
- (c) it has not and will not specify or use anything in the Sub-Contract Works, which, at the time of specification or use, is Deleterious.

2.2 In proceedings for breach of this clause 2, the Sub-Contractor may:

- (a) rely on any limit of liability or other term of the Sub-Contract; and
- (b) raise equivalent rights of defence as it would have had, if the Beneficiary had been named as a joint employer, with the Contractor, under the Sub-Contract (for this purpose not taking into account any set-off or counterclaim against the actual contractor under the Sub-Contract).

2.3 The Sub-Contractor's duties or liabilities under this agreement shall not be negated or diminished by:

- (a) any approval or inspection of:
  - (i) the Property; or
  - (ii) the Works; or
  - (iii) the Sub-Contract Works; or
  - (iv) any designs or specifications for the Property or the Works; or

- (b) any testing of any work, goods, materials, plant or equipment; or
- (c) any omission to approve, inspect or test,

by or on behalf of the Beneficiary or the Contractor.

2.4 This agreement shall not negate or diminish any duty or liability otherwise owed to the Beneficiary by the Sub-Contractor.

**3. [STEP-IN RIGHTS: SUB-CONTRACTOR MAY NOT TERMINATE OR DISCONTINUE**

3.1 The Sub-Contractor shall not exercise, or seek to exercise, any right to:

- (a) terminate its employment under the Sub-Contract; or
- (b) discontinue the performance of the Sub-Contract Works,

for any reason (including any breach on the part of the Contractor) without giving the Beneficiary at least 20 Business Days' written notice of its intention to do so. Any notice from the Sub-Contractor shall specify the grounds for the Sub-Contractor's proposed termination or discontinuance.

3.2 If the Sub-Contract allows the Sub-Contractor a shorter notice period for the exercise of a right referred to in clause 3.1, the notice period in the Sub-Contract shall be extended to take account of the notice period required under clause 3.1.

3.3 The Sub-Contractor's right to terminate its employment under the Sub-Contract, or to discontinue the performance of the Sub-Contract Works, shall cease if, within the period referred to in clause 3.1, the Beneficiary gives notice to the Sub-Contractor, copied to the Contractor:

- (a) requiring the Sub-Contractor not to terminate its employment or not to discontinue the performance of the Sub-Contract Works under the Sub-Contract;
- (b) acknowledging that the Beneficiary (or its nominee) will assume all the Contractor's obligations under the Sub-Contract; and
- (c) undertaking that the Beneficiary or its nominee will pay to the Sub-Contractor:
  - (i) any sums due and payable to the Sub-Contractor under the Sub-Contract in future; and
  - (ii) any sums then due and payable to the Sub-Contractor under the Sub-Contract that are unpaid.

3.4 If the Beneficiary or its nominee serves notice on the Sub-Contractor under clause 3.3, then, from the date of service of the notice, the Sub-Contract shall continue in

full force and effect, as if it had been entered into between the Sub-Contractor and the Beneficiary (to the exclusion of the Contractor).

- 3.5 In complying with this clause 3, the Sub-Contractor:
- (a) does not waive any breach of the Sub-Contract or default under the Sub-Contract by the Contractor; and
  - (b) may exercise its right to terminate its employment under the Sub-Contract or discontinue the performance of the Sub-Contract Works after the expiry of the notice period referred to in clause 3.1, unless the Sub-Contractor's right to terminate or discontinue has ceased under clause 3.3.]<sup>1</sup>

**4. [STEP-IN RIGHTS: BENEFICIARY MAY STEP-IN**

- 4.1 Without affecting clause 3.1, if the Beneficiary serves a notice on the Sub-Contractor, copied to the Contractor, that:
- (a) confirms that the Beneficiary wishes to step-in to the Sub-Contract; and
  - (b) complies with the requirements for a Beneficiary's notice under clause 3.3,

then, from the date of service of the notice, the Sub-Contract shall continue in full force and effect, as if it had been entered into between the Sub-Contractor and the Beneficiary (to the exclusion of the Contractor).

- 4.2 The Sub-Contractor shall assume that, between the Contractor and the Beneficiary, the Beneficiary may give a notice under clause 4.1. The Sub-Contractor shall not enquire whether the Beneficiary may give that notice.
- 4.3 In complying with this clause 4, the Sub-Contractor does not waive any breach of the Sub-Contract or default under the Sub-Contract by the Contractor.]<sup>2</sup>

**5. [STEP-IN RIGHTS: SUB-CONTRACTOR'S POSITION AND CONTRACTOR'S CONSENT**

- 5.1 The Sub-Contractor shall not incur any liability to the Contractor by acting in accordance with clause 3 or clause 4.
- 5.2 The Contractor has executed this agreement to confirm its consent to the agreement.]<sup>3</sup>

---

<sup>1</sup> Insert if beneficiary is to receive step in rights

<sup>2</sup> Insert if beneficiary is to receive step in rights

<sup>3</sup> Insert if beneficiary is to receive step in rights

**6. [STEP-IN RIGHTS: BENEFICIARY'S GUARANTEE**

If a Beneficiary's notice under clause 3 or clause 4 refers to the Beneficiary's nominee, the Beneficiary shall be liable to the Sub-Contractor, as guarantor, for the payment of any sums due and payable from time to time to the Sub-Contractor from the Beneficiary's nominee.]<sup>4</sup>

**7. NO INSTRUCTIONS TO SUB-CONTRACTOR BY BENEFICIARY**

[Unless the Beneficiary has stepped-in under clause 3 or clause 4,]<sup>5</sup> the Beneficiary may not give instructions to the Sub-Contractor under this agreement.

**8. COPYRIGHT**

8.1 The Sub-Contractor grants to the Beneficiary, with immediate effect, an irrevocable, non-exclusive, non-terminable, royalty-free licence to copy and make full use of any Material prepared by, or on behalf of, the Sub-Contractor for any purpose relating to the Works and the Property, including any of the Permitted Uses.

8.2 This licence allows the Beneficiary to use the Material in connection with any extension of the Project, but not to reproduce the designs contained in the Material in any such extension.

8.3 This licence carries the right to grant sub-licences and is transferable to third parties without the consent of the Sub-Contractor.

8.4 The Sub-Contractor shall not be liable for use of the Material for any purpose other than that for which it was prepared and/or provided.

8.5 The Beneficiary may request a copy or copies of (some or all of) the Material from the Sub-Contractor. On the Beneficiary's payment of the Sub-Contractor's reasonable charges for providing the copy (or copies), the Sub-Contractor shall provide the copy (or copies) to the Beneficiary.

**9. PROFESSIONAL INDEMNITY INSURANCE**

9.1 The Sub-Contractor shall maintain professional indemnity insurance for an amount of at least £[SUM] [for any one occurrence or series of occurrences arising out of any one event **OR** in the annual aggregate] for a period beginning on the date of this agreement and ending [six **OR** 12] years after the date of practical completion of the

---

<sup>4</sup> Insert if beneficiary is to receive step in rights

<sup>5</sup> Insert if beneficiary is to receive step in rights

Works, provided that such insurance is available at commercially reasonable rates. The Sub-Contractor shall maintain that professional indemnity insurance:

- (a) with reputable insurers lawfully carrying on insurance business in the UK;
- (b) on customary and usual terms and conditions prevailing for the time being in the insurance market; and
- (c) on terms that:
  - (i) do not require the Sub-Contractor to discharge any liability before being entitled to recover from the insurers; and
  - (ii) would not adversely affect the rights of any person to recover from the insurers under the Third Parties (Rights Against Insurers) Act 1930.

9.2 Any increased or additional premium required by insurers because of the Sub-Contractor's claims record or other acts, omissions, matters or things particular to the Sub-Contractor shall be deemed to be within commercially reasonable rates.

9.3 The Sub-Contractor shall not, without the Beneficiary's written consent:

- (a) settle or compromise any claim with the insurers that relates to a claim by the Beneficiary against the Sub-Contractor; or
- (b) by any act or omission lose or affect the Sub-Contractor's right to make, or proceed with, that claim against the insurers.

9.4 The Sub-Contractor shall immediately inform the Beneficiary if the Sub-Contractor's required professional indemnity insurance ceases to be available at commercially reasonable rates [and terms], so that the Sub-Contractor and the Beneficiary can discuss how best to protect the respective positions of the Beneficiary and the Sub-Contractor regarding the Works and the Property, without that insurance.

9.5 Whenever the Beneficiary reasonably requests, the Sub-Contractor shall send the Beneficiary evidence that the Sub-Contractor's professional indemnity insurance is in force, including, if required by the Beneficiary, an original letter from the Sub-Contractor's insurers or brokers confirming:

- (a) the Sub-Contractor's then current professional indemnity insurance; and
- (b) that the premiums for that insurance have been paid in full at the date of that letter.

## **10. LIABILITY PERIOD**

The Beneficiary may not commence any legal action against the Sub-Contractor under this agreement after 12 years from the date of practical completion of all of the Works.

**11. ASSIGNMENT**

11.1 The Beneficiary may assign the benefit of this agreement:

- (a) on two occasions to any person; and
- (b) without counting as an assignment under clause 11.1(a):
  - (i) by way of security to a Funder (including any reassignment on redemption of security); or
  - (ii) to and from subsidiary or other associated companies within the same group of companies as the Beneficiary.

11.2 The Beneficiary shall notify the Sub-Contractor of any assignment. If the Beneficiary fails to do this, the assignment shall still be valid.

11.3 The Sub-Contractor shall not contend that any person to whom the benefit of this agreement is assigned under clause 11.1 may not recover any sum under this agreement because that person is an assignee and not a named party to this agreement.

**12. NOTICES**

12.1 A notice given to a party under or in connection with this agreement:

- (a) shall be in writing and in English;
- (b) shall be signed by or on behalf of the party giving it;
- (c) shall be sent to the party for the attention of the contact and at the address listed in clause 12.2;
- (d) shall be sent by a method listed in clause 12.4; and
- (e) unless proved otherwise is deemed received as set out in clause 12.4 if prepared and sent in accordance with this clause.

12.2 The parties' addresses and contacts are as set out in this table:

<b>Party</b>	<b>Contact</b>	<b>Address</b>	<b>Fax number</b>	<b>DX number</b>
Sub-Contractor	[POSITION OF CONTACT]	[ADDRESS]	[FAX NUMBER]	[DX NUMBER]
Beneficiary	[POSITION OF CONTACT]	[ADDRESS]	[FAX NUMBER]	[DX NUMBER]
[Contractor]	[POSITION OF CONTACT]	[ADDRESS]	[FAX NUMBER]	[DX NUMBER]

12.3 A party may change its details given in the table in clause 12.2 by giving notice, the change taking effect for the party notified of the change at 9.00 am on the later of:

- (a) the date, if any, specified in the notice as the effective date for the change; or
- (b) the date five Business Days after deemed receipt of the notice.

12.4 This table sets out:

- (a) delivery methods for sending a notice to a party under this agreement; and
- (b) for each delivery method, the corresponding delivery date and time when delivery of the notice is deemed to have taken place provided that all other requirements in this clause have been satisfied and subject to the provisions in clause 12.5:

<b>Delivery method</b>	<b>Delivery date and time</b>
Delivery by hand.	On signature of a delivery receipt.
Pre-paid first class post or other next working day delivery service.	9.00 am] on the second Business Day after posting.
Fax.	At the time of transmission.
Document exchange (DX).	9.00 am on the second Business Day after being put into the DX.

12.5 For the purpose of clause 12.4 and calculating deemed receipt:

- (a) all references to time are to local time in the place of deemed receipt; and
- (b) if deemed receipt would occur in the place of deemed receipt on a Saturday or Sunday or a public holiday when banks are not open for business, deemed receipt is deemed to take place at 9.00 am on the day when business next starts in the place of receipt.

12.6 This clause does not apply to the service of any proceedings or other documents in any legal action or, where applicable, any arbitration or other method of dispute resolution.

12.7 A notice given under [or in connection with this agreement is not valid if sent by email.

### **13. THIRD PARTY RIGHTS**

A person who is not a party to this agreement shall not have any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this agreement.

**14. GOVERNING LAW**

This agreement and any dispute or claim arising out of or in connection with it or its subject matter or formation (including non-contractual disputes or claims) shall be governed by and construed in accordance with the law of England and Wales.

**15. JURISDICTION**

Each party irrevocably agrees that the courts of England and Wales shall have non-exclusive jurisdiction to settle any dispute or claim arising out of or in connection with this agreement or its subject matter or formation (including non-contractual disputes or claims).

<b>Phone:</b>	██████████
<b>Mobile:</b>	██████████
<b>Email:</b>	████████████████████

## *Further Competition (OJEU 2019S 115-282443) - Supplier Response Document*

### **Sole bidding organisation**

You are a 'sole bidding organisation' if this quotation is submitted for your company only. If you intend to use sub-contractors, consultants or other partner organisations to deliver the contract, you do not need to identify them in your response\*. Your company will be entirely liable to Folkestone & Hythe District Council (F&HDC) for the delivery of the requirements of the contract.

\*Exception: where sub-contractors will play a significant role in the delivery of the services (e.g. more than 50%) please refer to Section 1.1

### **Consortia, partnerships and joint ventures**

If you are quoting for this contract on behalf of a group of companies (a consortium, partnership or joint venture) the following information must be provided:

- Full details of the consortium, partnership or joint venture and
- Information sought in this questionnaire in respect of each of the consortia, partnership or joint venture constituent members as part of a single response.

If you propose to create a separate corporate entity for this contract, you must provide details of the actual or proposed percentage shareholding of the constituent members within the consortium in a separate schedule (how much of the new organisation each member will own).

F&HDC reserves the right to require a successful consortium to form a single legal entity in accordance with Regulation 19(6) of the Public Contracts Regulations 2015.

If there is a change in the consortium, partnership or joint venture you must inform F&HDC immediately.

### **Special Purpose Vehicles (SPV)**

You are a 'Special Purpose Vehicle' (SPV) if you have formed (or will form) a new legal entity for the purpose of bidding for this contract, with the intention that this organisation will be awarded the contract.

In addition the member organisation of the special purpose vehicle will be required to be jointly and severally liable to the Council for the delivery of the requirements of the contract, regardless of

- (a) the value of their contributions in respect of the contract sum, time, volume, quality or any other considerations, or
- (b) the future organisational or legal standing of the special purpose vehicle.

You must inform F&HDC of any withdrawal of members of the SPV during or subsequent to the ITT so that the implications of such a withdrawal may be assessed.

*Further Competition (OJEU 2019S 115-282443) - Supplier Response Document*

<b>Consortia and sub-contracting</b> (please tick)	
a) Your organisation is bidding to deliver the contract itself	✓
b) Your organisation is bidding in the role of prime contractor and intends to use third parties to deliver some of the contract  If more than 50% of the work will be completed by sub-contractors, please complete the sub-contractor information template provided.	
c) Bidding organisation is a consortium, joint venture or partnership	
d) Bidding organisation is a special purpose vehicle	
<p><b>If your answer is (c) or (d)</b> please provide a separate document explaining which member of the group will be responsible for providing each part of the contract.</p>	

**1.2 ECONOMIC & FINANCIAL STANDING**

This Section is risk based **PASS/FAIL**.

You are not required to submit any financial documents at this time, but F&HDC reserves the right to request further information and or request a credit agency report.

If you are bidding as a consortium, partnership, joint venture or special purpose vehicle:  
we will obtain this information for each member of the group. The threshold for turnover can be met entirely by one member or by a combination of members; it is not necessary for each member to individually meet the threshold.

Is your annual turnover (at the date of the last audited accounts) or your projected annual turnover greater than £1,800,000 (£1.8m) GBP?	Yes
---	-----

**1.3 INSURANCE**

This Section is **PASS/FAIL**. A bidding organisation will fail if it does not hold or is unwilling to obtain the minimum levels of insurance required.

You are not required to submit any evidence at this time. If you are successful, you will be asked to provide evidence in the form of copies of policies, letters of confirmation from insurers (or Brokers).

If you are bidding as a consortium, partnership, joint venture or special purpose vehicle:  
you must be adequately covered as a whole but may do so through any combination of policies of member organisations.

*Further Competition (OJEU 2019S 115-282443) - Supplier Response Document*

1.2.1 Is your Public Liability indemnity cover greater than £5 million GBP per incident?	Yes
1.2.2 Is your Employers Liability cover greater than £5 million GBP per incident (or the amount required by law)?	Yes
1.2.3 Is your Professional Indemnity cover greater than £ 2 million GBP per incident?	Yes

**SECTION 2 –TECHNICAL AND QUALITY QUESTIONS****2.1 GENERAL DATA PROTECTION**

For the purposes of the Data Protection Legislation, F&HDC is the Data Controller and the contractor will be the Data Processor.

Refer to **Appendix F – Processing Personal Data Schedule**.

2.2.1 Do you have the resources, systems and procedures in place to ensure your organisation will comply with the General Data Protection Regulations and F&HDC's information management policies while performing the contracted services?

If **yes**, please provide details of the measures in place.

If **no**, please detail what measures will be in place before the contract starts.

Yes

We have a GDPR Policy and are registered with the ICO (reg no Z9098772). All staff undergo GDPR training as part of their induction. Annual refresher training is also provided by our Training Manager. Any alleged breaches are investigated with the relevant parties being advised accordingly.

**2.2 HEADLINE QUESTIONS**

Please note that these questions are pass/fail (a YES will be a pass, a NO will be a fail)

2.2.1 Section 54 of the Modern Slavery Act 2015 requires organisations with a turnover of £36 million or more to develop a slavery and human trafficking statement each year.  Does this requirement apply to your organisation?	Yes
--	-----

## Further Competition (OJEU 2019S 115-282443) - Supplier Response Document

Guidance about the Modern Slavery Act 2015 can be found online ( <a href="#">go to gov.uk webpage</a> )	
<p>2.2.2 If you have answered 'yes' to 1.8.1 are you compliant with the annual reporting requirements contained within Section 54 of the Act 2015?</p> <p>If yes, provide the web address where your report can be found</p> <p><a href="https://www.swaleheating.com/manuals/Modern_Slavery_Statement-2021.pdf">https://www.swaleheating.com/manuals/Modern_Slavery_Statement-2021.pdf</a></p>	Yes

## 2.3 INFORMATION QUESTIONS

These questions are for **information only**. Your tender will not be rejected if the answer is 'no'.

<p>2.3.1 If you have answered 'no' to 1.8.1, do you have a modern slavery policy or measures in place to mitigate the risk of modern slavery in your organisation and in your supply chain?</p> <p>This would include checks made on your staff and people who work for your organisation through subcontractors and agencies.</p> <p>If yes, please provide details of the measures currently in place.</p>	
N/A	
<p>2.3.2 Are all of your employees paid at the National Living Wage (NLW) or higher?</p> <p>The current rate of NLW can be found online (<a href="#">go to gov.uk webpage</a>)</p>	<p>Yes, we pay National Living Wage as a minimum to all our employees, including employees under 25 years of age.</p>

<p>2.3.3 Do you currently have a carbon reduction plan or other measures in place to avoid or minimise the carbon emissions produced by your organisation and in your supply chain?</p>	Yes
<p>2.3.4 Provide an estimated figure for your scope 1 (direct emissions), scope 2 (energy indirect) emissions for your organisation's previous financial year.</p>	

*Further Competition (OJEU 2019S 115-282443) - Supplier Response Document*

Guidance on how to calculate this figure can be found online (go to "Small Business User Guide" on gov.uk website)
Scope 1 - 993,111 kgCO <sub>2</sub> e Scope 2 – 18,400 kgCO <sub>2</sub> e
<p>2.3.5 The estimated annual value of this contract is £900,000 (£0.9m).</p> <p>Calculate the estimated annual contract value as a % of your turnover for the last financial year or your estimated turnover for the current financial year (e.g. £900,000 is 5% of £18,000,000).</p> <p>Apply this percentage to your estimated annual emissions to provide an estimate of the CO<sub>2</sub> that will be emitted in the delivery of this contract.</p> <p>(e.g. if the contract value is estimated at 5% of your turnover, what is 5% of your organisation's scope 1 and scope 2 carbon emissions)</p>
24,945 kgCO <sub>2</sub> e

**2.4 WEIGHTED QUESTIONS****Q1. Performance Management (12%)**

Explain how you will proactively manage the service to maintain a planned programme and achieve the repairs and servicing levels required.

Your answer should include:

- How you will ensure you have sufficient resource and capacity from the commencement date;
- How you will resource for gas servicing and repair, electric heating and hot water breakdowns, and alternative energy heating systems and hot water breakdowns;
- How you will monitor performance standards and what preventative and corrective actions you will take to achieve the service levels; and
- How you will provide performance information to F&HDC.

**Q6. Carbon Reduction (5%)**

F&HDC has made a climate pledge and aims to become carbon neutral by 2030. Details on the action the Customer is taking can be found at [folkestone-hythe.gov.uk/climatechange](http://folkestone-hythe.gov.uk/climatechange).

Explain how you will mitigate or eliminate the carbon impact of activities carried out under this contract.

This can include action your organisation is already taking or plans to implement during the initial period of the contract.

Your answer should include how you will monitor these commitments in a measurable way.

If your organisation is appointed, you will be required to report on the delivery of these commitments and they will be included in performance reviews.

*Max. 750 words*

[Redacted]

*Further Competition (OJEU 2019S 115-282443) - Supplier Response Document*

**Q7. Social Value (5%)**

F&HDC's Corporate Plan "Creating Tomorrow Together" sets out the council's guiding principles and service ambitions. The Corporate Plan can be viewed at [folkestone-hythe.gov.uk/creatingtomorrowtogether](http://folkestone-hythe.gov.uk/creatingtomorrowtogether).

Explain how you will support and further the Customer's ambitions through the delivery of the contract.

This can include action your organisation is already taking or plans to implement during the initial period of the contract.

For example, your offer might include:

- A resource commitment (supply of staff resources annually to support an event(s));
- An equipment commitment (provision of equipment annually to support an event(s));
- A financial commitment (% of the contract sum as an annual contribution to support FHDC's Corporate Plan); and/or
- An offer of Training and Apprenticeship Opportunities

Your answer should include how you will monitor these commitments in a measurable way.

If your organisation is appointed, you will be required to report on the delivery of these commitments and they will be included in performance reviews.

*Further Competition (OJEU 2019S 115-282443) - Supplier Response Document*

**SECTION 3 – PRICING SCHEDULE**

3.1.1 Please complete **Appendix D – Price Schedule**.

Detailed instructions on how to complete the schedule are included in that document.

3.1.2 Prices/rates are to be in £ Sterling (GBP), net only, and inclusive of all costs associated with the provision of the services (or works or goods).

*Further Competition (OJEU 2019S 115-282443) - Supplier Response Document*

- 3.1.3 Price(s) submitted must be **exclusive** of Value Added Tax (VAT). The percentage and amount of VAT will be shown on invoices at the current rate at the time of invoicing, if VAT applies.
- 3.1.4 Any estimated requirements (e.g. volumes) we give are intended for guidance only and are not guaranteed. Please submit your best commercial offer based on the information provided.
- 3.1.5 From year 2 onwards, the appointed service provider may make an annual recommendation to vary the contracted rates based on the average of CPI for the previous calendar year (Jan-Dec) for the SEC member (F&HDC) to consider.
- 3.1.6 If we find any arithmetical or mathematical errors in your quotation, we correct it and inform you of any corrections we make. However, we are not responsible for finding errors. It is your responsibility to make sure your quotation is complete, comprehensive and correct.

**SECTION 4 – TERMS & CONDITIONS OF CONTRACT**

This Section is **PASS/FAIL**. If you answer 'no' F&HDC is entitled to reject your tender but can choose to allow you to proceed further, after considering your circumstances.

If you answer 'no', please set out the full details in an additional appendix. F&HDC will consider your response before making a decision about whether or not to include your tender in its evaluations or to reject it.

<p>Please ensure you have read Appendix E and Section 7 of the Instructions document.</p> <p>Do you accept F&amp;HDC's terms (or the terms as amended by F&amp;HDC in any pre-tender clarifications)?</p>	<p>Yes</p>
---	------------

**SECTION 5 – DECLARATIONS**

TO: The District Council of Folkestone and Hythe (F&HDC)

PROVISION OF: Domestic Heating Servicing, Maintenance and Installations

REFERENCE: 01764

On behalf of Swale Heating Ltd I offer to provide the supplies, services and/or works to F&HDC as specified in the quotation documents, commencing and continuing for the period specified in those documents (including any option to extend).

The quotation documents consist of:

- Request for Quotation Instructions
- Specification (Appendix A)
- Key Performance Indicators (Appendix B)
- Domestic Asset List (Appendix C)

*Further Competition (OJEU 2019S 115-282443) - Supplier Response Document*

- TUPE information schedule (Appendix J)
- draft JCT MTC 2016 with Employer's Amendments (Appendix E)
- draft Processing Personal Data Schedule (Appendix F)
- draft Parent Company Guarantee (Appendix G)
- draft Performance Bond (Appendix H)
- draft Collateral Warranty (Appendix I)
- the organisation's completed Price Schedule (Appendix D)
- this response document
- and any documents I have submitted with this response document (listed on the first page)

If this offer is accepted, we will execute such documents as maybe appropriate in order to create a binding contract between F&HDC and ourselves.

I agree with the Council in legally binding terms to comply with the provisions of confidentiality set out in the **Request for Quotation Instructions**.

I understand F&HDC is not obliged to accept the quotation with the lowest cost or any quotation.

I accept that any costs incurred in preparing this quotation are at the organisation's own cost and F&HDC will not provide any reimbursement of these costs for unsuccessful or successful quotations.

I declare that to the best of my knowledge the answers submitted and information contained in this document are correct and accurate.

I declare that, upon request and without delay I will provide the certificates or documentary evidence referred to in this document.

I understand that the authority may reject this submission in its entirety if there is a failure to answer all the relevant questions fully, or if false/misleading information or content is provided in any section.

I am aware of the consequences of serious misrepresentation.

I declare our quotation has not been calculated by agreement or arrangement with any person other than F&HDC and that the pricing information for our quotation has not been shared with any person before the Quotation Return Date and not without the written consent of F&HDC.

I declare no person at the organisation has canvassed or solicited any member, officer, employee or agent of F&HDC in connection with the award of the Contract and that no person will do so before F&HDC completes the evaluation process.

I warrant that I have all requisite authority to sign this quotation and confirm that I have complied with all the requirements of the tender process described in the **Request for Quotation Instructions** and this **Request for Quotation supplier response document**.

## **Clarifications Log**

**Project** Domestic Heating  
Installations and  
Responsive Repairs

**Ref No.** 1764

Clarification number	Question Received (DD/MM/YYYY)	Question	Response	Response Uploaded (DD/MM/YYYY)	Status Open / Closed
1	23/08/2022	Could you please respond to the following clarification questions:  Pricing schedule. Annex F & G do we need to include for a central heating filter in the pricing for codes CB-001, CB-002, SB-01, SB-02 & SB-03 Pricing schedule.	Yes, we would require a filter to be part of a new install.  Please note: a new item AW-044 has been added to Annex H for fitting a filter to a boiler if we had an issue with a boiler without a filter and fitting a filter would resolve the issue.	01/09/2022	Closed
2	23/08/2022	Annex A, B, & C many items have pre-populated rates, is this an error? Can we alter these rates to our own figure?	Yes, the rates columns can be overwritten with your own figures. Do not amend any figures in any "multiplication factor" columns.	01/09/2022	Closed
3	23/08/2022	We note in the specification that there may be employer owned cooking appliances that will need to be serviced. Could bidders please have a list of these appliances. We have been supplied with a domestic asset list; however, this only provides details of which properties contain gas, electric, or other domestic heating. Could bidders be supplied with a list that provides details of the appliances installed in each property.	The employer has no cooking appliances currently. Any appliances within properties are owned by the resident will require a visual only inspection.	01/09/2022	Closed
4	24/08/2022	Good morning Could you please provide a response to the following clarification: Pricing Schedule Annex F & G Could you please advise whether codes CB-010 and SB-11 are to be priced per metre or are to be sufficient pipework to supply the 7 radiators quoted in CB-08 & SB-09? Regards Bid Team	CB-010 and SB-011 should read "per meter", not "item"	05/09/2022	Closed
5	08/09/2022	We note that `Worcester or similar/approved' is specified. In view of the continued supply issues with Worcester boilers would the client accept Vaillant or Ideal boilers as similar/approved alternatives?	Our specification preference is for `Worcester or similar/approved'. If there are supply issues moving forward further negotiations on alternatives would be undertaken with the successful contractor.		

## **Schedule of Rates**

**Folkestone and Hythe District Council**

**SCHEDULE OF RATES DOMESTIC GAS**

The following schedule of prices is for use within the Contract as directed by the Contract Administrator.

The schedules will be evaluated by having a multiplication factor against each schedule. The multiplication factor when applied is not an indication of quantities and should not be seen as a guide to values of work.

The multiplication factor is a mechanisms for evaluation of the tender submissions only

"Supply and Fix" or "renew" or "fit" means, unless otherwise stated that the rate includes for taking out the existing where necessary and supplying and fixing the new items or material descibed to a similar or improved specification including all necessary new works, alteration, adaptions,isolation, testing, commissioning and providing certification

SOR codes for FIX ONLY shall include for all associated works with new or replacement, including all necessary alteration, adaptions,isolation, testing, commissioning and providing certification

The Contractor shall be reimbursed the actual cost of the material/part, together with a 10% addition for overhead & profit and all trade discounts, rebates, cash discounts etc; will accrue to the client

All cost amounts to exclude VAT.

<b>SCHEDULE OF RATES GUIDE</b>	
<b>INDEX</b>	<b>DESCRIPTION</b>

AW-044	Replace or install filter to Combi or System Boiler	Item	10		

## **SCHEDULE 3**

### **Greenhouse Gas Reporting**

1. This Schedule shall be completed on each anniversary of the Works commencement date as specified in the Contract Particulars of this Contract by the Contractor and the completed schedule shall be referred to as the “Sustainability Report”. The CO2 equivalent emissions associated with fossil fuels will be calculated, and the water usage, recycling rates and waste produced will be reported.
2. The Sustainability Report will demonstrate, measure and report on the carbon emissions (CO2 equivalent) associated with the delivery of the Works under this Contract.
3. The Sustainability Report will set out the Overall Sustainability Impact of the Works, including improvements identified by the Contractor, new policies or targets adopted to reduce the environmental impact of the Contractor’s operations and contributions towards any Employer environmental policies or targets.
4. The calculation methodology for the Sustainability Report will follow the latest guidance from DEFRA<sup>1</sup> and include:

#### **Step 1.**

Measure the greenhouse gas emissions for the Contractor’s business,

-taking into account the parts of the Contractor’s business which the Contractor either owns or has control over. This means that the Contractor is only measuring emissions which relate to the Contractor’s business operations. To do this, the Contractor needs to set a boundary which will ring fence the Contractor’s business operations and will help identify which greenhouse gases the Contractor needs to measure; and

-apportion the emissions relating to this Contract, noting the assumptions that the Contractor has made.

#### **Step 2.**

Identify the main activities relating to this Contract, that release greenhouse gases in the Tables 1 (Fossil Fuel Use) and Table 2 Water & Waste) below.

#### **Step 3.**

---

<sup>1</sup> Latest guidance follows the DEFRA approach and can be found at: [https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/69494/pb13310-ghg-small-business-guide.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/69494/pb13310-ghg-small-business-guide.pdf)

The assumptions made in the calculation of the emissions associated with this Contract are to be expressly stated in Tables 1 (Fossil Fuel Use) and Table 2 Water & Waste) below.

**Step 4.**

Provide information on the Overall Sustainability Impact of the Works and return the completed Sustainability Report and Tables 1 (Fossil Fuel Use) and Table 2 Water & Waste) to the Employer.

## Folkstone & Hythe District Council Sustainability Report: greenhouse gas emissions<sup>2</sup>

Name of Contract: *[insert name of contract and contract reference number]*

Date of Report: *[insert date of report]*

Contractor/Supplier/Consultant Name: *[insert name, address and company number (if applicable)]*
